### **Asset Quality**

#### Robust asset quality maintained

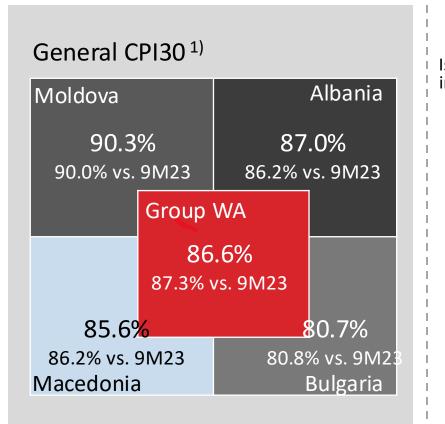

Iute Group's gross and net NPL ratios were stable between 2016 and 2020 but were negatively impacted by COVID in Q2 and Q3 2020.

As of 30 Sep. 2024, lute Group's Gross NPL stood at 8.9%, Net NPL at 5.0%.

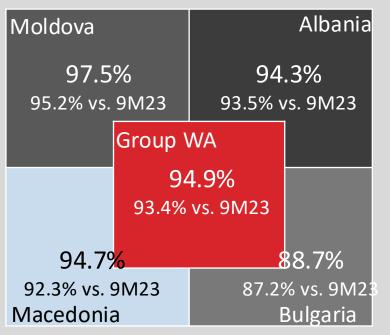

lute Group fully writes off financial assets after 365 days past due (DPD).

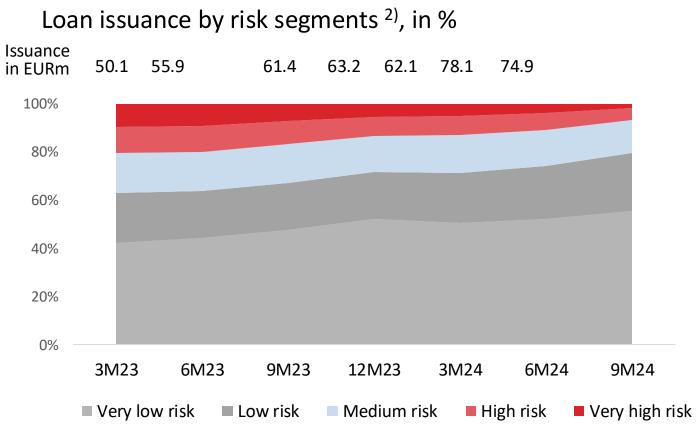

## **Credit Risk Development (non-bank)**

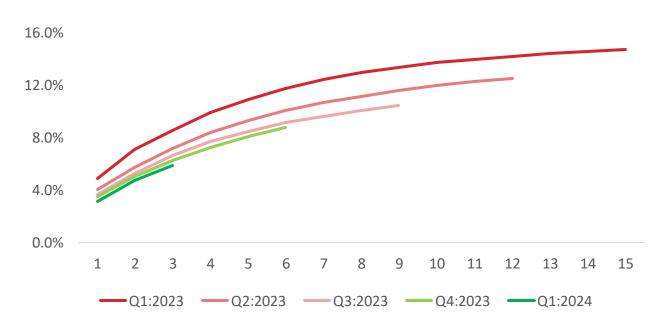

#### **Recent Payout CPI 30**

#### Default Rate by installments, in %

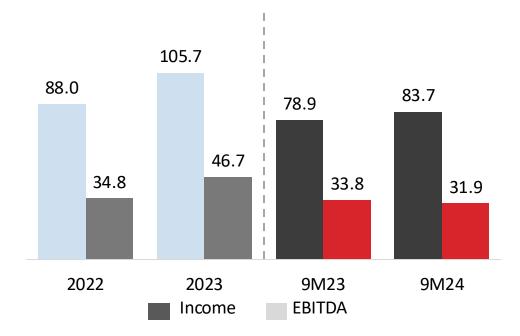

The General CPI for the Group decreased by 0.7 p.p. to 86.6%, while the Recent Payout CPI30 increased by 1.5 p.p. to 94.9%, reflecting the continued growth in the proportion of lower risk customers in the portfolio.

lute issued EUR 74.9m to 67,825 customers in Q3 2024, 80% of which were very low & low risk, resulting in lower default rates, reflecting a continuously improving loan book quality, and a lower cost of risk.

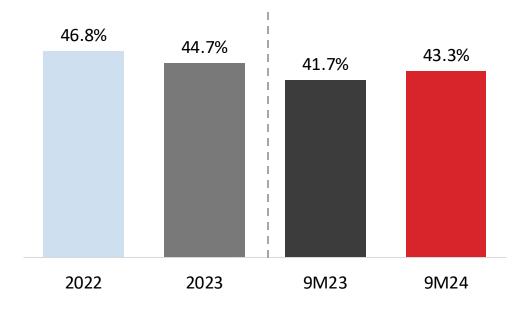

- 1) Customer Performance Index, CPI, measures customers' actual repayments against the scheduled monthly expectations, within a tolerance period for repayment delay
- 2) Customers are grouped into credit risk segments, based on probability of default model calculations, which enables more precisely targeted credit risk approach towards customers on different risk levels.

### **Total Revenue development**

Non-bank Bank

#### Total revenue breakdown, in %

lute Group's revenue streams have been diversified since 2021 due to increasing wallet income and insurance share, and are expected to grow further in the future.

The majority of the revenue comes from loans, which accounted for 89.4% of total revenue as of H1 2024.

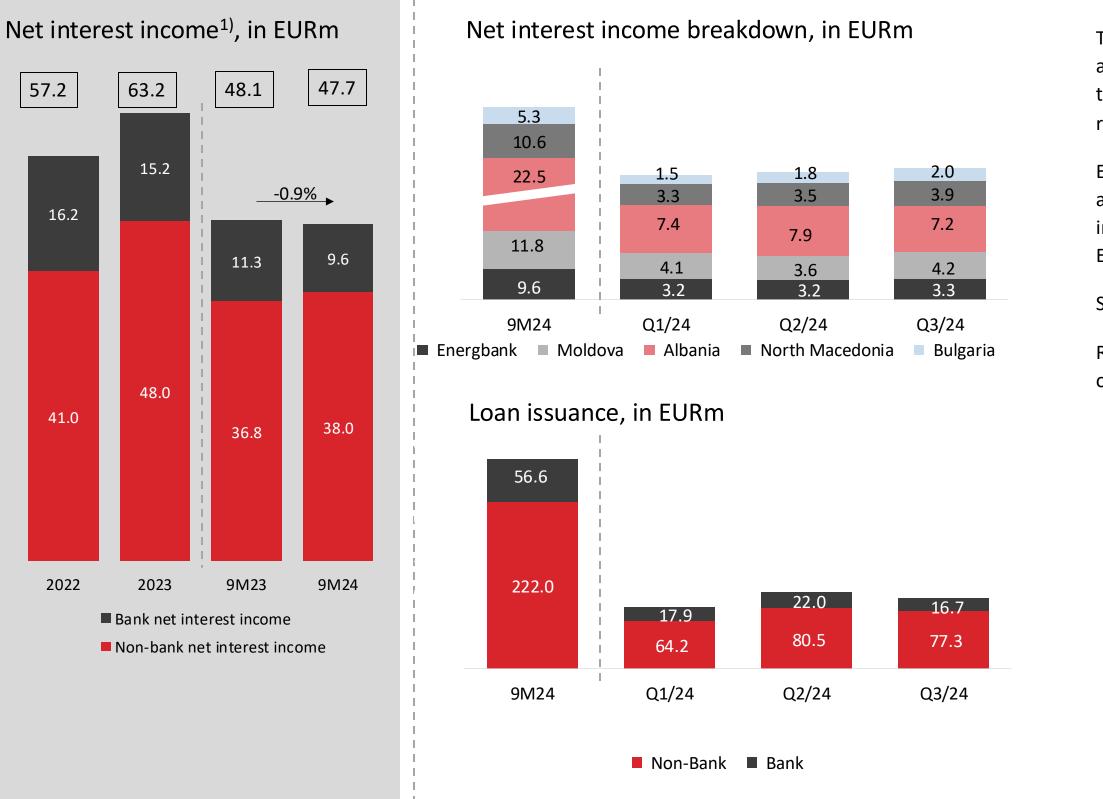

Total revenue growth of 6.1% driven by record loan issuance at bank and non-bank with a growing loan portfolio of 31.6% and 14.2% respectively.

While still a small percentage of bank revenues, insurance revenues are growing significantly and will continue to grow as more customers are brought into the ecosystem and the bank underwrites more loans.

### Net interest income development

1) Mismatch between net interest income and net interest income breadown graph due to consolidation effect as well as net interest income / loss for non-opertional group company luteCredit Finance as well as lute Group AS

Robust interest income growth across both bank and non-bank driven by strong growth in loan portfolio

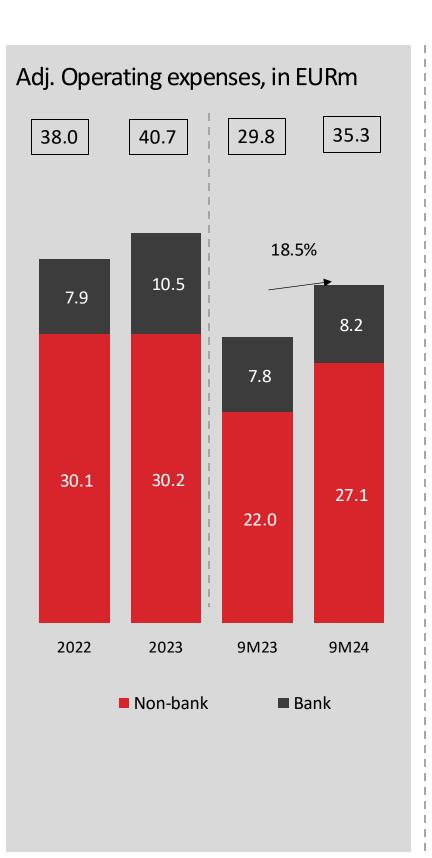

The 3.4% increase in interest income from non-banks is attributable to strong lending in the loan portfolio, although the strategic shift to underwriting longer-term loans led to a reduction in APRs in line with the regulatory caps on APRs.

Energbank's interest income fell to 9.6 million EUR, which is attributable to the decline in interest income from investments in government bonds (9M24: 1.6 million EUR, 9M23: 3.9 million EUR).

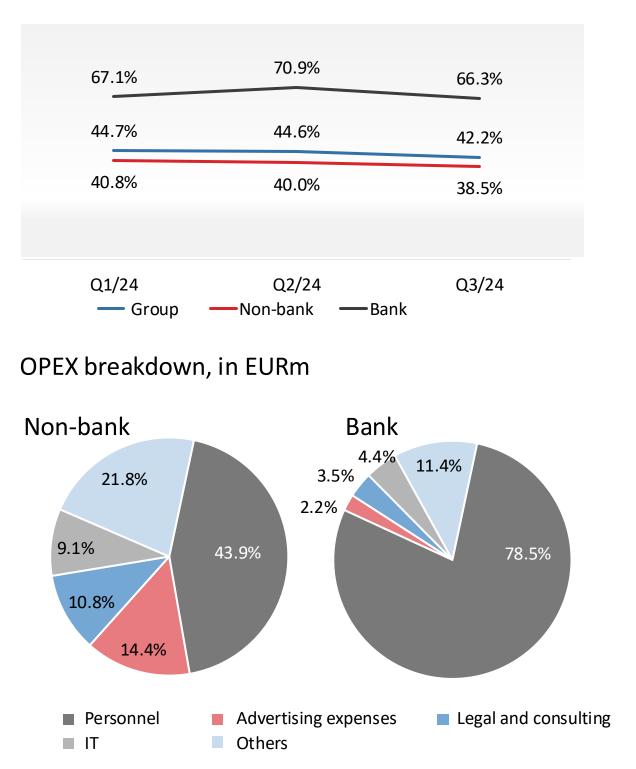

Stable net interest income during the last 3 quarters.

Reduction from record high loan issuance in Q2 2024 as a result of stricter approvals to maintain high loan book quality.

#### OPEX to Revenue ratio, in %

### Adj. Operating expenses

Improving cost efficiency due to healthy business model

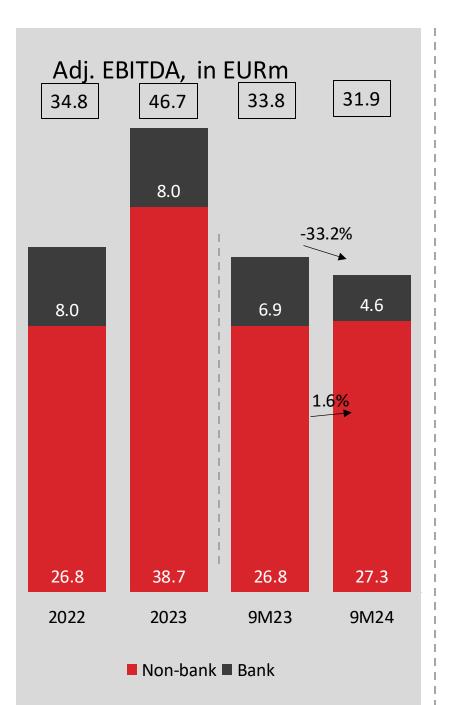

Iute Group's OPEX-to-revenue ratio improved continuously in the recent quarters.

Cost efficiency is developing and will become even more pronounced at the beginning of next year.

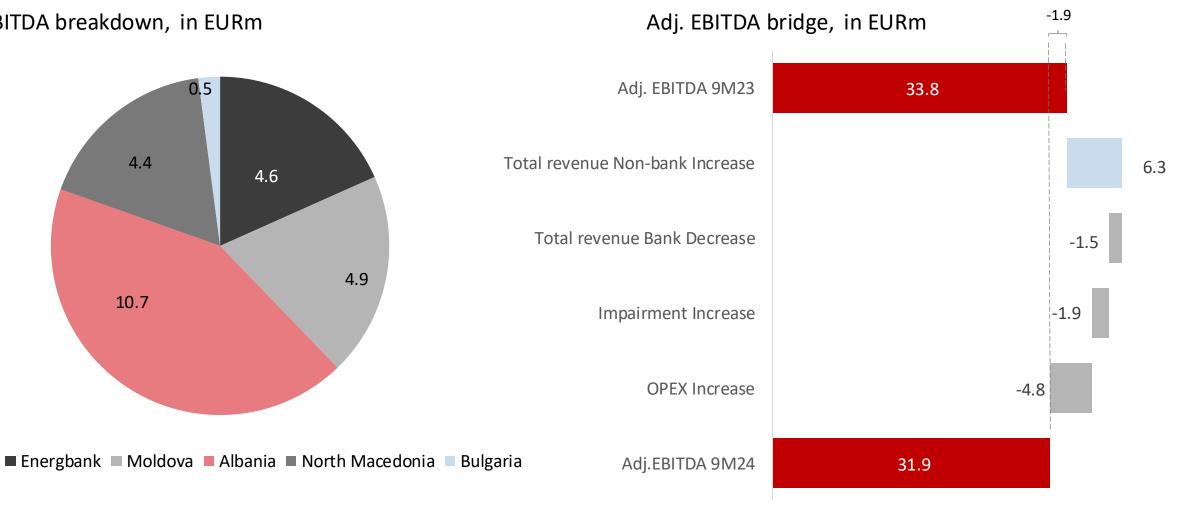

Well-diversified OPEX breakdown for lute non-bank where 9% is invested in IT.

For Energbank OPEX mainly results from personnel expenses.

EBITDA breakdown, in EURm

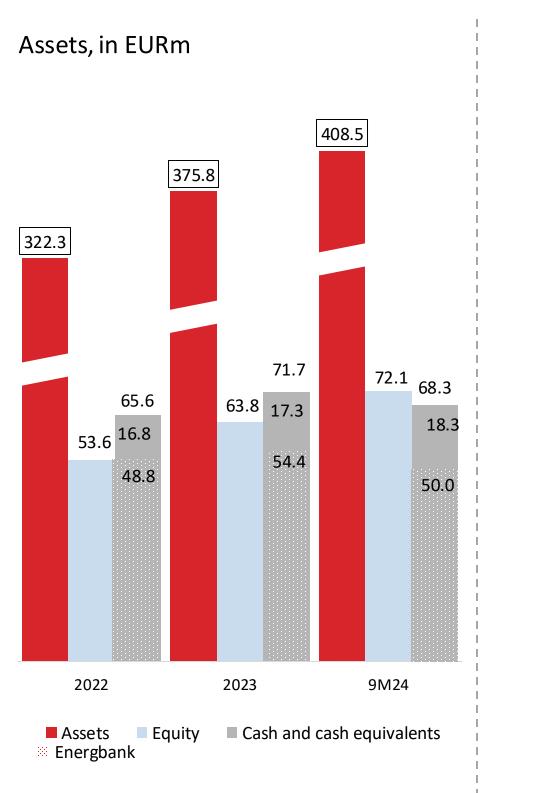

Cost efficiencies kicking in will support positive EBITDA development once the high level of loans originated and the growing portfolio, mainly in Q2/24, generate more interest income (lagged P/L impact).

The cumulative impact of these efficiencies is yet to be reflected in margins as the loans originated contribute more to interest income.

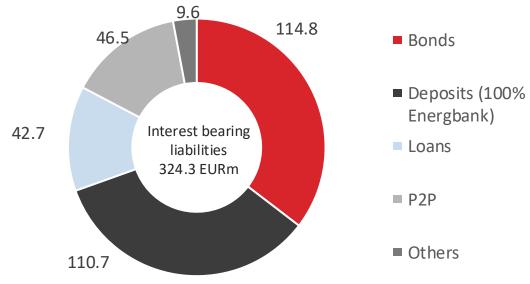

## Adj. EBITDA development

Adjusted EBITDA decrease by 5.6% as a result of lower net interest margin was partially offset by increased customer lifetime value given higher WA maturities.

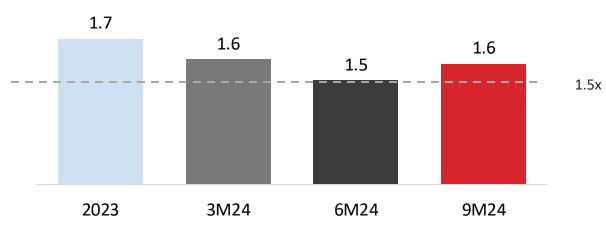

Liability, in EURm

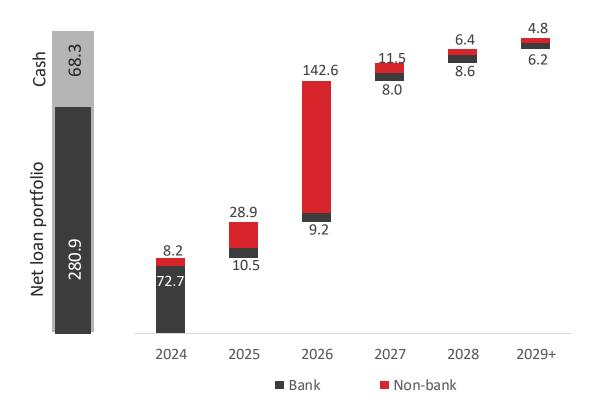

Interest coverage ratio

### **Assets & liabilities**

#### Liability maturities, in EURm

Total liabilities at 336.4 EURm as of 30 Sep. 2024 (YE23: 312.0 EURm).

Loans and borrowings at 314.3 EURm (YE23: 293.0 EURm), accounting for 96.4% of all liabilities (YE23: 96.1%.).

Loans and deposits account for 47% of borrowings, followed by bonds with 35%, and P2P with 14%.
