1. GENERAL DESCRIPTION

○ What is Mintos?

Mintos is Europe's leading investment platform for earning regular passive income, with over €600 million in assets under administration for more than 500 thousand registered users (as of 1 January, 2025). Authorized under MiFID (*Markets in Financial Instruments Directive*), Mintos enables users to build diversified portfolios of income-generating assets through both automated and manual investments. Mintos has earned multiple industry awards since its founding in 2014.

For more information, see section '6. MINTOS' of this Base Prospectus.

○ What are Notes?

Notes are financial instruments issued by the Issuer via Mintos to Investors, which allows Investors to invest in Loans issued by the SPV to the Rental Company, which such Loans are linked to Rental Agreements concluded by the Rental Company with the Renters.

The Issuer is a special purpose legal entity established for the purpose of:

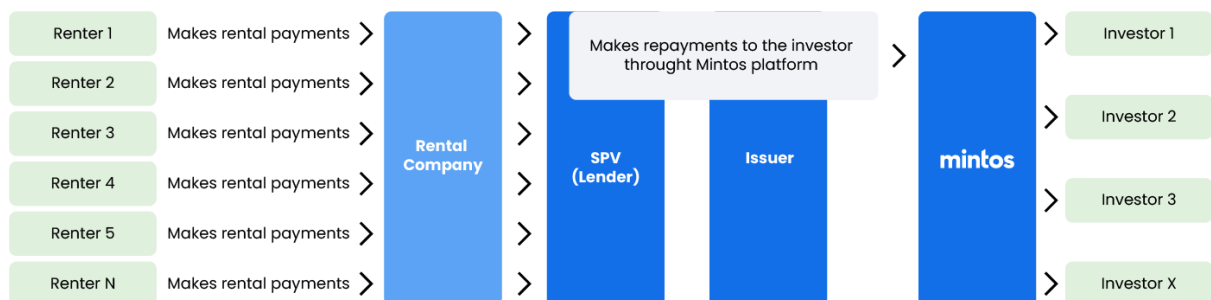

- purchasing Loan Receivables from the SPV;
- pooling those Loan Receivables for a particular Series of Notes; and
- issuing those Notes to Investors via Mintos.

The Issuer may issue financial instruments (notes) in cooperation with lending and rental companies which are affiliates of the Rental Company.

See the sections entitled '5. THE ISSUER', '8. THE RENTAL COMPANY' and '11. THE GUARANTOR' of this Base Prospectus for more information.

○ *The flow of funds for rental payments and flow of repayments for Loan Receivables*

The Rental Company makes repayments to the SPV and, upon receipt of repayments from the Rental Company, the SPV transfers the funds to the Issuer, which in turn makes repayments under the relevant Series of Notes to the relevant Investor via Mintos. The repayments are received into the relevant Investment Account.

When the Renter makes the rental payments to the Rental Company, the Rental Company will use those funds to make payments to the SPV. However, if the Renter makes the payments to the Rental Company later than scheduled, makes them in lesser amounts than it has to or does not make them at all, the Rental Company anyhow has to make payments that are due to the SPV (Lender) as scheduled.

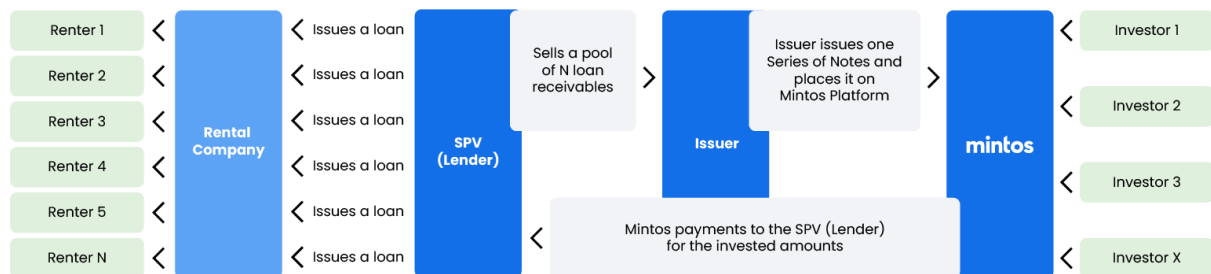

Because the Loan is a loan that is issued to the Rental Company and not to the Renter, the Rental Company is obliged to repay the Loan and pay interest and other ancillary payments with respect to it by the maturity date set forth in the Final Terms for the respective Loan or as extended according to this Base Prospectus and Final Terms, if extended, irrespective of the Renter having or not having made payment under the Rental Agreement.

The Rental Company provides a Buyback Obligation for Loan Receivables, which means that if any payment by the Renter is delayed by more than 60 days, the Rental Company is obliged to repurchase the Loan Receivables together with any interest from the Issuer or to repay the Loan together with any interest to the SPV in full and then the SPV would transfer the received payments to the Issuer.

The Investor is exposed to the credit risk of the Rental Company. See section entitled ‘2. RISK FACTORS – RISKS SPECIFIC TO LOAN SERVICING – Insolvency of the Rental Company’.

- *The flow of funds for investment*

The Rental Company concludes Rental Agreements with the Renters. The renters are using the vehicle that is bought and owned by the Rental Company. After concluding these agreements, the Rental Company requests disbursement of a loan from the SPV in an amount that is no more than 95% of the value of the vehicle determined by the Rental Company and set in the Rental Agreement. Once the SPV Loan Agreement with the Rental Company is concluded, the SPV sells the relevant Loan Receivables to the Issuer. The Issuer issues a Series of Notes corresponding to these Loan Receivables to Investors via Mintos. When an Investor purchases any Note of the Series, the Investment Accounts are credited with the Note and debited with the purchase price of the Note. The purchase price is transferred to the SPV. After receipt of the purchase price the SPV makes the disbursement of the Loan to the Rental Company.

2. RISK FACTORS

The Issuer believes that the factors listed in this section of the Base Prospectus may affect its ability to fulfil its obligations under the Notes. All of these risk factors and events are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. In addition, factors which are material for the purpose of assessing the market risks associated with the Notes are also described below.

Although the most material risk factors have been presented first within each category, the order in which the remaining risks are presented is not necessarily an indication of the likelihood of the risks actually materialising, the potential significance of the risks or the scope of any potential negative impact to the Issuer's, the SPV's, the Rental Company's business, financial condition, results of operations and prospects. The Issuer, SPV and the Rental Company may face a number of these risks described below simultaneously. While the risk factors below have been divided into categories, some risk factors could belong to more than one category and prospective investors should carefully consider all of the risk factors set out in this section.

The Issuer believes that the factors described below represent the material risks inherent to investing in the Notes, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes or the inability of the SPV to pay any amounts to the Issuer and/or the inability of the Rental Company to pay any amounts to the SPV may occur for other reasons and the statements below regarding the risks of investing in any Notes are not exhaustive. Other risks, events, facts or circumstances not included in this Base Prospectus, not presently known to the Issuer, or that the Issuer at the date of this Base Prospectus deems to be immaterial could, individually or cumulatively, prove to be important and may have a significant negative impact on the Issuer's, SPV's or the Rental Company's business, financial condition, results of operations and prospects. Prospective investors should carefully review the entire Base Prospectus and should form their own views before making an investment decision with respect to the Notes.

Before making an investment decision with respect to any Notes, prospective investors should consult their own lawyer, accountant or other financial, legal and tax advisers and carefully review the risks entailed by an investment in the Notes and consider such an investment decision in the light of the prospective investor's personal circumstances.

RISKS SPECIFIC TO THE VEHICLES, UNDERLYING LOANS AND RENTAL AGREEMENTS

1. The vehicle might not generate enough cash flows for the Rental Company to repay the SPV Loan and the vehicle's sale proceeds might not be enough to cover all payments under the SPV Loan

In case of the Notes under this Prospectus, the underlying assets of the Notes are the Loan Receivables against the Rental Company which are linked to vehicles and their Rental Agreements. The amount of the Loan when advanced to the Rental Company is determined based on the evaluation price of the vehicle. The Rental company has an internal department that is responsible for the evaluation of vehicles.

The vehicle with respect to which the SPV Loan is advanced might not generate enough revenues for the Rental Company to repay the SPV Loan due to the Renter failing to pay all expected rental payments for the entire duration of the assumed rental period.

Also, there is a risk that the value of the vehicle drops or for other reasons the proceeds from the disposal of the vehicle might not be enough to pay off the SPV Loan that was advanced with respect to it.

2. The Renters may not make payments according to the agreed schedule or may default on their obligations altogether

Since the Notes are linked to the pool of underlying Loan Receivables, and the Loan Receivables are each linked to one Rental Agreement there might be a case when the Renters of the linked Rental Agreements do not make a payment on time. However, if the Renter makes the payments to the Rental Company later than scheduled or does not make them at all, the Rental Company anyhow has to make payments that are due to the SPV (Lender) as scheduled.

The failure of the Renter to pay may trigger the Buyback Obligation of the Loan Receivables to which the Renter's payments are linked because the Loan Receivables come with the feature of Buyback Obligation. The Buyback Obligation means that the Rental Company is obligated to repurchase the Loan Receivables if the Renter has failed to pay more than 60 days after the scheduled payment date.

While the probability of any Renter missing payments or defaulting depends on many factors, such as payment amount, the income of the Renter, and repayment term, it is important to point out that these probabilities are never zero.

Overall, a Renter not making payments in full, or defaulting could be caused by a variety of factors, including, but not limited to:

- **The Renter overestimates its ability to pay** - each Renter should evaluate its current and future financial position itself and assess its ability to pay. For various reasons, the Renter could overestimate its future cash flows and undertake to make rental payments more than it will be able to pay.
- **Limitations of initial risk scoring** - the Rental Company has developed its own method for scoring customer credit risk that relies on various information, which can be collected also from other parties than the Rental Company (e.g., credit rating agencies). There is a risk that the information could be wrong or outdated, or that the scoring method is not sufficient.
- **Unexpected events** - reasons why the Renter could miss a payment, include loss of employment, a delay in receiving expected income, unexpected costs, or even disability or death.
- **Macroeconomic factors** - the credit risk scoring of the Rental Company makes assumptions about the client's ability to repay during normal economic conditions. A sudden change in macroeconomic factors could significantly impact the Renter's ability to make payments.
- **Other liabilities** - the underlying Rental Agreements that are linked to the Note usually do not restrict the Renter from incurring unsecured or secured debt or undertaking other liabilities. Additional debt or other liabilities may adversely affect the Renter's creditworthiness and could result in financial distress, insolvency or bankruptcy of the Renter.
- **Rent payable in a different currency than the Renter's income** - in some cases, the rent payable by the Renter is in a different currency than the currency in which the Renter earns income. Significant changes in the exchange rates or a local currency devaluation could impact the Renter's ability to make repayments.

3. The Rental Company for reasons other than Renter's failure to pay does not make payments as they become due or may default on its obligations altogether

The Loan Receivables come with the feature of a Buyback Obligation which means that the Rental Company is obligated to repurchase the Loan Receivables if the Renter has failed to pay more than 60 days after the scheduled repayment date. While this feature could reduce the potential loss for the Noteholder due to the Renter failing to make payments, the Buyback Obligation is only as strong as the companies providing this obligation. If the Rental Company fails to honour its obligation, the Noteholder is still exposed to the risk of the underlying Renter not making payments.

Also, the Rental Company has to meet the Repurchase obligation as may be required by the Transactional Documents and in such event the Rental Company is obliged to (i) repurchase the Loan Receivable from the Issuer or (ii) to repay to the SPV the respective Loan in full together with any Interest and Late Payment Interest accrued thereon.

While the probability of the Rental Company missing repayments or defaulting depends on many factors, such as payment amount, the revenues of the Rental Company, and the repayment term, it is important to point out that these probabilities are never zero. Due to this, the Notes are only suitable investments for Investors who have the appropriate knowledge and experience and are in a financial situation that allows them to lose part or even all of the money invested in Notes.

Overall, a Rental Company not making repayments in full, or defaulting could be caused by a variety of factors, including, but not limited to:

- **Loss-making operations** - The Rental Company may experience losses due to various business events and factors, such as intense competition, higher than expected cost of client acquisition, high recovery costs and high costs of reclaiming possession over vehicles, rental periods shortening or drop in rental income for other reasons, drop in value of the vehicles, due to damage or other reasons, and/or their disposal proceeds not being sufficient to pay off all creditors, unexpected costs, reduction in the portfolio sizes, changes in local regulation with regards to new Rental Agreements and management errors.
- **Macro-environmental factors** - Various macro-environmental factors, such as recession, military conflict, natural disasters or pandemic, could significantly increase the non-performing Rental Agreements' ratio.
- **Freezing, seizing or closing of the Rental Company's operational bank account** - The account that the Rental Company uses for operations might be seized, blocked, or closed for a number of reasons, including anti-money laundering and know your client breaches, sanctions violations, state authorities' arbitrary actions, or insolvency of a bank or payments services provider. Inability to use the bank account could restrict the Rental Company's ability to collect Renters' payments and transfer funds to Mintos, the SPV and/or the Issuer for an indefinite time, or even lead to insolvency or bankruptcy of the Rental Company.
- **Other or sole funding sources** - Besides Mintos, the Rental Company may use other sources of funding, such as a bank credit line, corporate bonds issues, private equity or public shares offerings. In some situations, such as an economic downturn, it could be difficult for the Rental Company to attract funding from other sources to refinance the existing liabilities, thus leading to a liquidity crisis that could lead to the Rental Company having difficulties continuing operations. Furthermore, if the Rental

Company uses the Platform as a major funding source and a significant number of investors decide to suddenly avoid investing in Notes issued under this Prospectus, the consequences can be the same.

4. The Rental Company may not be able to receive all rental payments from the Renter that are due

Even though the recovery amounts from the Renter, in case of it not making payments, would only be expected with respect to rent for several few months at most of the rent period, there is still a risk that the Renter does not make those rent payments that are due.

While any recoveries from a Renter are limited to the value of Renter's assets (if any), some jurisdictions may, set a lower limit that creditors may claim from the Renter or define a list of the estate which is not allowed to be alienated for recovery purposes, thus reducing the maximum amount that could be recovered from the Renter.

The underlying Rental Agreements that are linked to the Note do not restrict the Renters from incurring additional unsecured or secured debt and other liabilities. This means that if the Rental Agreement is not secured by an asset and any funds from the Renter are available for recovery, these funds could be allocated to various creditors, i.e., not only the Rental Company, but also other persons that the Renter owes money to, such as local tax agency, state authorities, lending companies and utility companies.

There could also be the case, especially where the amount of the rent is low, that the expected collection and recovery costs might be higher than the debt itself, which means the collection and recovery are not economically reasonable, thus it would not be pursued.

In addition, the Rental Agreement may, for a variety of reasons, be challenged and thus the ability of the Rental Company to exercise its rights under the Rental Agreement may be delayed or otherwise hindered for an undefined term. The reasons for challenging the Rental Agreement could include errors in agreements, electronic form of agreement (while the legal form requirement might be met in principle by such electronic signature, its value as evidence in court proceedings in some jurisdictions could be less compared to an actual signature made by hand on a physical document), compliance with regulations, such as consumer protection laws, as well as renter identify fraud cases.

Due to the reasons described above the Noteholder may experience delayed repayments or partial or full loss of the amount invested in Notes.

5. The Renter may terminate the Rental Agreement early

A Renter may terminate the Rental Agreement and buy out the vehicle or terminate the agreement early. The Rental Agreement might be also terminated or cancelled in advance by the Rental Company due to the reasons mentioned in General Terms and Conditions of the Rental Agreement and according to which vehicle shall be repossessed, triggering the early payment of the amounts due by the Renter and penalties that are applied according to the penalty schedule in the special terms of the Rental Agreement. While the Noteholder may invest the repaid money elsewhere, the return on the investments could be lower than the initially planned return.

6. Exercising ownership or control over vehicle might be difficult or impossible

The cars are with the Renters during the period of the rent under the Rental Agreement. When the Rental Agreement expires, the vehicle must be returned to the Rental Company,

unless the Renter uses the car purchase option and wishes to retain the vehicle by paying a pre-agreed purchase price to the Rental Company. If the vehicle is not returned by the Renter willingly and the Rental Company has to exercise control and ownership without cooperation of the Renter, there is a risk that there are legal difficulties to exercise ownership or control over the vehicles and/or there are operational difficulties to locate the vehicle and reclaim it. That may lead to the Rental Company incurring high costs to reclaim the vehicles, and/or not being able to generate any proceeds from the disposal of the vehicle.

7. Insolvency of the Rental Company

Insolvency, bankruptcy or other similar adverse events may significantly influence or even dismiss the ability of the Rental Company to repay the Loans, to meet its obligations under Transaction Documents, and among other things to execute the undertaken Buyback Obligation and Repurchase obligations. This means that if the Rental Company experiences significant problems, the Rental Company may not be able to make payments which would result in the Issuer would not being able to make payments to the Noteholders.

In case of insolvency, an administrator is usually bound to consider which past transactions of the insolvent company have to be contested and which sold assets or transferred funds have to be clawed back. There is a risk that the administrator of the Rental Company takes action to claw back to the Rental Company estate amounts paid to the Issuer, Mintos or the SPV. The Issuer, the SPV and/or Mintos would then have to take legal actions to protect their interests in the payments received that are clawed back and argue against the position of the administrator in judicial proceedings, which could be long and costly, and no assurance could be made of its successful outcome.

Eventually, the Noteholder may experience delayed repayments or partial or full loss of invested amount under Notes.

RISKS SPECIFIC TO SERVICING OF THE RENTAL AGREEMENTS

1. The Rental Company is not able to continue servicing of the Rental Agreements

Various factors can negatively impact the Rental Company's ability to provide servicing of the Rental Agreement, which in turn could lead to delayed repayments to the Noteholder or even partial or full loss of the invested amount. Some of the factors are:

- **Loss-making operations** - The Rental Company may experience losses due to various business events and factors, such as intense competition, higher than expected cost of client acquisition, high recovery costs, unexpected costs, reduction in the portfolio sizes, changes in local regulation with regards to new Rental Agreements and management errors.
- **Macro-environmental factors** - Various macro-environmental factors, such as recession, military conflict, natural disasters or pandemic, could significantly increase the non-payment risk.
- **Freezing, seizing or closing of the Rental Company's operational bank account** - The account that the Rental Company uses for operations might be seized, blocked, or closed for a number of reasons, including anti-money laundering and know your client breaches, sanctions violations, state authorities' arbitrary actions, or insolvency of a bank or payments services provider. Inability to use the bank account could restrict the Rental Company's ability to collect Renter's payments and transfer funds under the SPV Loan Agreements for an indefinite time,

or even lead to insolvency or bankruptcy of the Rental Company.

- **Other or sole funding sources** - Besides Mintos, the Rental Company may use other sources of funding, such as a bank credit line, corporate bonds issues, private equity or public shares offerings. In some situations, such as an economic downturn, it could be difficult for the Rental Company to attract funding from other sources to refinance the existing liabilities, thus leading to a liquidity crisis that could lead to the Rental Company having difficulties continuing operations. Furthermore, if the Rental Company uses the Platform as a major funding source and a significant number of investors decide to suddenly avoid investing in Notes that are backed Loans linked to the Rental Agreements, the consequences can be the same.

2. No Backup Servicer may be available for servicing the Rental Agreements if the Rental Company is not able to continue servicing

One of the key roles of the Rental Company with respect to the Notes is to provide servicing of the Rental Agreements according to standards agreed with Mintos, the SPV and the Issuer. There might be no backup servicer that could be appointed to take over the servicing from the Rental Company if needed. If there is an event of default or other circumstance that disrupts the due servicing of the Rental Agreements and administration of the Renters' debts by the Rental Company and if at the time no backup solution for Rental Agreements' servicing exists, the timeline and volumes of repayments could be significantly impacted, leading to a partial or full loss of amounts invested in Notes.

3. The Rental Company may intentionally or unintentionally breach its contractual obligations

There is a risk that the Rental Company performs actions that are in violation of the Transaction Documents, including the risk of fraud against the SPV, Issuer and Mintos, resulting in the partial or full loss of amounts invested in Notes. Contractual breaches that may happen include, but are not limited to:

- **False or incomplete information about the Rental Company** - All information in this Base Prospectus about and/or related to the Rental Company has been provided and certified by the Rental Company as actual, true, and complete. Material errors or omissions of such information could initially affect the decision of the Noteholder to invest in a particular Note and eventually result in a negative outcome of the investment.
- **False Renter data** - The Rental Company provides Mintos with information about the Rental Agreement status, the Renters, repayment schedules, repayments, extensions of the underlying Rental Agreements or changes to the Rental Agreements. While Mintos regularly asks the Rental Company to provide scanned copies of the documents as evidence for randomly selected Rental Agreements, Mintos does not check or verify all Rental Agreements linked to the Loans backing the Notes. There is a risk that the Rental Company intentionally or unintentionally has provided wrong information to Mintos or fails to provide information to Mintos at all, and as a result, the payments under the Notes could be impacted.
- **The Rental Company stops cooperation with Mintos** - The Rental Company could for some reason suddenly stop cooperating with Mintos. This could mean not honouring its obligations under the existing agreements, including the Transaction Documents and breach of their provisions. The Rental Company could stop making payments to the Issuer, which means the Issuer would not be able to make payments to the Noteholder. The Rental Company might also stop providing Mintos

with the necessary information or provide the information with significant delays.

4. The Rental Company's IT systems may fail or may be breached

IT systems are a crucial part of all financial services companies and if they are impacted, that could affect the Rental Company's ability to provide financial services to its customers and exchange information with Mintos. This could also result in the loss or distortion of significant information and databases that are crucial for sound cooperation between the Rental Company, the SPV, the Issuer and Mintos, including for Notes issue servicing and administration.

Since IT systems play such a crucial role in the Rental Company's operation, the Rental Company typically devotes a substantial amount of resources to ensure the stable and uninterrupted performance of the IT systems. Neither the Issuer, nor the SPV or Mintos audits the Rental Company's IT systems thus cannot ensure their soundness.

RISKS SPECIFIC TO THE SECURITY

1. The pledged assets might lose value, or their disposal proceeds might be less than the secured obligations

Also, there is a risk that the pledged assets which were granted previously by the Rental Company and held as a security by the SPV might lose their value and could be sold for an amount that is less than the amount due under the Cooperation Agreement on Issuance of Loans or the asset could be stolen, hidden, alienated, missing or damaged. There is a risk, as with any pledge/security, that it is or becomes unenforceable or invalid (see subsection 'The security may become invalid or unenforceable' below).

2. The SPV may face obstacles with enforcement of the security or the SPV's designated security might be mixed up with that of other creditors or there is a dispute on which is SPV's designated security

There is a risk that the SPV may not be able to take the secured movable property, e.g. vehicles, into its possession and thus fastly recover the debt due under the Cooperation Agreement on Issuance of Loans and guaranteed by the Rental Company under the Pledge Agreement.

There is designated security for each creditor, and in the case of the SPV the designated security ought to be all the vehicles with respect to which the funding from the SPV is obtained. There could be a dispute with other creditors on whether the designated security is that of the SPV or that of another creditor. There is also a risk that for other reasons it is not possible to take enforcement action with respect to the vehicle which SPV believes to be its designated security or there is a mix-up of the vehicles that are provided as designated security to the creditors and the wrong creditor receives proceeds from the disposal of the vehicle. If the proceeds of disposal of the assets that have been designated as a security in favour of the SPV are transferred to another creditor for whatever reason and the Rental Company or that other creditor does not willingly admit the wrongful transfer and does not compensate SPV respective amount, there might be high costs and it might take lengthy legal proceedings to enforce SPV's rights to claim compensation of the incurred loss.

3. The Rental Company as the provider of the security over vehicles may default

The risk of default, for example, insolvency, is a risk that is present for any counterparty. If the Rental Company defaults, as a general rule the security should not be affected and the

SPV should be able to exercise its rights with respect to the security in order to cover the guaranteed obligations under the Pledge Agreement.

4. The security may become invalid or unenforceable

There is a risk that the security provided under the Pledge Agreement may become invalid or unenforceable for several reasons, including, but not limited to cases when legal relations arising from the Transaction Documents are recategorised by the court of law, mistakes and omissions are made and/or due procedures not being followed when the security is formed. In that case, the obligations of the Rental Company towards the SPV defined by the Transaction Documents become unsecured and the credit risk significantly increases, and that may trigger Mintos, the Issuer and SPV to terminate cooperation with the Rental Company and requesting repurchase by the Rental Company of all the Loan Receivables before their term.

RISKS SPECIFIC TO GUARANTEES AND PLEDGES WHEN THOSE ARE PROVIDED TO THE SPV (LENDER)

1. The Guarantor or pledgor may not honour its obligations

There might be a Guarantee agreement or pledge provided to secure the obligations of the Rental Company towards the SPV and/or the Issuer arising out of the Cooperation Agreement on Issuance of Loans and other Transaction Documents.

If there is a Guarantee Agreement, the Guarantor would be expected to pay the due amount if the Rental Company fails to pay when due. As there is a risk of any party not honouring its obligations under a contract, there is a risk that the Guarantor does not honour its obligations under the Guarantee Agreement. If this happens, the SPV and/or the Issuer or Mintos on their behalf may take legal action against the Guarantor. There is a risk that the enforcement of rights under the Guarantee Agreement does not result in recoveries for the SPV and/or the Issuer, and by extension for the Noteholder, in the anticipated amount, or that the recovery might be affected by lengthy and costly legal proceedings.

If there is a pledge, the pledgor would be expected to allow the pledgee to enforce its pledge by taking over the object of the pledge or putting it up for sale. The procedure for enforcing the rights of the pledge is defined by law in the country of the pledge. There is a risk that the pledged assets might lose their value and could be sold for an amount that is less than the amount due under the Cooperation Agreement on Issuance of Loans or the asset could be stolen, hidden, alienated, missing or damaged. There is a risk, as with any pledge/security, that it is or becomes unenforceable or invalid (see 'The guarantee or pledge may become invalid or unenforceable' below).

2. The Guarantor or pledgor may default

The risk of default, for example, insolvency, is a risk that is present for any counterparty, the Guarantor or the pledgor included.

If the Guarantor defaults, the SPV and/or the Issuer cannot rely on receiving funds from the Guarantor even if the SPV and/or the Issuer or Mintos on their behalf decides to take legal action to recover due amounts from the Guarantor in or outside of the insolvency or bankruptcy proceedings. If the Guarantor defaults, the SPV might terminate cooperation with the Rental Company and request that the Rental Company repays the amount due under the Cooperation Agreement on Issuance of Loans.

If the pledgor defaults, as a general rule the pledge should not be affected, and the pledgee should be able to exercise its rights of pledge (to take over the pledge or to put it up for sale and receive all proceeds from the sale to cover the payments due from the Rental Company). However, the Issuer and SPV may decide to terminate cooperation with the Rental Company and request that the Rental Company repurchase all Loan Receivables before their term or to repay the Loans together with any interest.

3. The guarantee or pledge may become invalid or unenforceable

There is a risk that guarantees or pledges securing the Rental Company's obligations towards the SPV and/or the Issuer may become invalid or unenforceable for several reasons, including, but not limited to cases when legal relations arising from the Transaction Documents are recategorised by the court of law, mistakes and omissions are made and/or due procedures not being followed when guarantees or pledges are formed. In that case, the obligations of the Rental Company towards the SPV and/or the Issuer defined by the Transaction Documents become unsecured and the credit risk significantly increases, and that may trigger Mintos, the Issuer and SPV terminating cooperation with the Rental Company and requesting repurchase by the Rental Company of all the Loan Receivables or to repay the Loans together with any interest before their term. If there is no guarantee to enforce and no pledge to enforce against then the SPV and the Issuer are left with the Rental Company as the only debtor from which to expect the payment of monies due from the Rental Company.

RISKS SPECIFIC TO MINTOS

1. Various events and failures could cause situations where Mintos is not able to continue operations

As a relatively new service, Mintos operates in a complex and dynamic regulatory and competitive environment and various events and failures could lead to Mintos terminating the provisioning of services, including the operations of the Platform. These events include but are not limited to revocation of licence, weak financial performance, negative reputation, non-compliance events, dramatic changes in the applicable regulations impacting Mintos operating model or an economic downturn. If Mintos ceases operations, this could significantly impact the Noteholder's ability to receive repayment on time.

Should Mintos enter liquidation or insolvency, as a regulated and supervised entity, the process will be supervised by the NCA. The appointed liquidator or administrator will take over the functions of the management board. Mintos will continue servicing its clients and the Investment Accounts, and relevant financial instruments portfolios in line with what Mintos is permitted to do according to the applicable insolvency and liquidation rules. The process from the moment of the appointment would be led by the appointed administrator or liquidator. In some cases, the Investors' Protection Law may apply. Such processes may significantly influence the investment's return times and make the return more complex to the Noteholder.

Furthermore, Mintos could for some reason suddenly stop honouring its obligations under the existing agreements, leading to delayed payments or partial or full loss of the amount invested in the Notes.

2. Non-compliance with regulations could lead to revocation of Mintos' licence

To provide services to clients, Mintos, as the operator of the Platform, has received an investment firm license from the NCA. The licence could be suspended or revoked due to

non-compliance with regulations by Mintos. Loss of licence by Mintos could lead to delayed payments or partial or full loss of invested amount under the Notes.

3. Failure of IT systems or a security breach could lead to significant liabilities and harm relationships with customers

The technology that Mintos has developed over the years is a cornerstone of Mintos' future success. The satisfactory performance, reliability and availability of the Platform is critical to its operations, customer service and reputation.

While Mintos has taken steps to protect confidential information, the techniques used to obtain unauthorised, improper or illegal access to systems, data, or customer data, or to disable or degrade services are constantly evolving and may not be detected quickly.

As a result, Mintos' and Mintos' third-party vendor security measures might be breached, and these security breaches could result in confidential client information being stolen. Breaches of security measures because of third-party action, employee error, third-party vendor error, design flaws in the software, or interruptions in Mintos' systems and services could adversely impact our relationships with Mintos' clients, harm Mintos' reputation and expose Mintos to significant liability.

Furthermore, in the event of damage or interruption, existing insurance policies may not adequately compensate Mintos and Mintos' clients for any losses that may have been incurred. Nevertheless, as IT systems are crucial to Mintos' operations, a substantial amount of resources are devoted to ensuring the stable and uninterrupted performance of the IT systems.

4. Mintos' bank accounts could be frozen or closed and banks, where the Noteholder funds are held, can become insolvent

Mintos clients' funds, including the fund being deposited in the Issuer's Account for settlement under the Notes, are kept segregated from Mintos' own funds in several bank accounts marked as client funds accounts.

One or several of those bank accounts that Mintos uses might be blocked, seized or closed for a number of reasons, including insolvency of the banks, resulting in interruptions of fund transfers to the Rental Company and the Noteholder.

5. Significant problem or termination of the agreement with a Mintos partner may affect the provision of services to the clients

While providing its services, Mintos relies on several carefully selected partners (e.g., cloud computing providers), and any problems with the service providers could impact Mintos' ability to provide services to the Noteholder. Mintos has taken several steps to reduce the likelihood and impact of such occurrences, such as having backup service providers where feasible, there is still a risk that the Noteholder may not be able to access the Platform or receive services.

6. Certain situations or actions may raise conflicts of interests

While the rights and the responsibilities of Mintos, the Issuer, SPV, the Rental Company are detailed in the Transaction Documents and this Base Prospectus, and Mintos has established policies and procedures to mitigate the risk, it is not possible to fully avoid the possibility of a conflict of interests between the parties that could impact the interests of the Noteholder.

While Mintos provides placement services to the Issuer with respect to the Notes, Mintos also provides the infrastructure services for the Rental Company and the Issuer to perform sales of the Loan Receivables to the Issuer, as well as to exercise the Buyback Obligations and Repurchases. Mintos receives fees from the Rental Company for placement services. Mintos has carefully set up the fees in a compliant manner and so that it would not violate the conflict of interest management rules. Such placement fees might qualify as inducements and Mintos would disclose information on these inducements to the Noteholder. In addition to inducement disclosures, Mintos has set up internal procedures to identify and manage conflicts of interest. Some conflicts of interest require disclosure and those are disclosed.

RISKS SPECIFIC TO THE SPV (LENDER)

1. The SPV could default on its obligations or become insolvent

The SPV is a wholly-owned Mintos Group company, and not engaged in any business activities other than those provided in this Base Prospectus. There is a risk that the SPV could suddenly stop effectively honouring its obligations under the existing agreements and breaching its provisions, resulting in missing repayments to the Noteholder. This could lead to delays in repayments and partial or full loss of invested amounts.

While the SPV is created, established and performs its operations as a special purpose undertaking, due to possible legal shortcomings of the applicable law and/or judicial practice, the SPV might be found insolvent. In such situations, if the SPV has received and holds money from the Rental Company that is payable to the Issuer, the Noteholder could experience delays in receiving its invested funds and the Issuer's priority as a creditor of the SPV might be changed by the rule of law, leading to receiving fewer amounts than due under the Notes, if any amounts at all are received and held by the SPV that are received from the Rental Company.

The Terms and Conditions of the Notes (in section 12 of this Base Prospectus) are set up and drafted as having legal force and addressing concerns as legally binding contractual obligations. There can be external circumstances that might influence such legal construction, including, but not limited to court ruling, and/or new or modified legal enactments.

2. The SPV is not able to continue Loan servicing

Various factors can negatively impact the SPV's ability to provide Loan servicing, which in turn could lead to delayed repayments for the Loan Receivables to the SPV and as a result, and, in turn to the Noteholder or even partial or full loss of the invested amount. Some of the factors are:

- **Macro-environmental factors** - Various macro-environmental factors, such as recession, military conflict, natural disasters or pandemic, could significantly increase the amounts that can't be recovered from the Rental Company.
- **Freezing, seizing or closing of the SPV's operational bank account** - The account that the SPV uses for operations might be seized, blocked, or closed for a number of reasons, including anti-money laundering and know your client breaches, sanctions violations, state authorities' arbitrary actions, or insolvency of a bank or payments services provider. Inability to use the bank account could restrict SPV's ability to collect repayments from the Rental Company and transfer funds to the Issuer for an indefinite time, or even lead to insolvency or bankruptcy of the SPV.

- **Currency control restrictions or lack of corresponding banks chain** - The local government could introduce certain currency control restrictions, leading to a situation where SPV is not able to make payments in foreign currency and/or to the beneficiary that is a foreign entity and/or to an account in a foreign financial institution. Alternatively, corresponding bank relations of a bank or payments services provider which maintains the SPV's operational accounts could be dramatically amended or terminated, eliminating the SPV's ability to make payments towards the Issuer. This may negatively affect payments to the Issuer and thus further distributions to the Noteholder.
- **Changes in local regulation with regards to Loans already issued** - A legislative body of the country where the SPV operates or where from the Rental Company is could introduce a debtors' moratorium (a legally authorised period of delay in the performance of a legal obligation or the repayment of a debt) or even full or partial debt (including interest and penalties) release.

3. **Cross-risks applicable to the SPV**

Considering the pass-through nature of the SPV, the SPV and its abilities to pay amounts due to the Noteholders under the Note are exposed to all the risks listed above in '*RISKS SPECIFIC TO THE UNDERLYING LOAN*', '*RISKS SPECIFIC TO LOAN SERVICING*', '*RISKS SPECIFIC TO SECURITY WHEN IT IS PROVIDED TO THE SPV*'.

RISKS SPECIFIC TO THE ISSUER

1. **The Issuer could default on its obligations or become insolvent**

The Issuer is a wholly-owned Mintos Group company, and not engaged in any business activities other than those provided in this Base Prospectus. There is a risk that the Issuer could suddenly stop effectively honouring its obligations under the existing agreements and breaching its provisions, resulting in missing repayments to the Noteholder. This could lead to delays in repayments and partial or full loss of invested amounts.

While the Issuer is created, established and performs its operations as a special purpose undertaking, due to possible legal shortcomings of the applicable law and/or judicial practice, the Issuer might be found insolvent due to the following reasons, including, but not limited to, a Noteholder or other creditor initiating the insolvency procedure against the Issuer in bad faith and the court not finding limited recourse and non-petition provisions defined by this Base Prospectus as a sufficient ground to reject such proceeding. In such situations, the Noteholder could experience delays in receiving its invested funds and its priority as a creditor of the Issuer might be changed by the rule of law, leading to receiving fewer amounts than due under the Notes.

The Terms and Conditions of the Notes (in section 12 of this Base Prospectus) are set up and drafted as having legal force and addressing concerns as legally binding contractual obligations. There can be external circumstances that might influence such legal construction, including, but not limited to court ruling, and/or new or modified legal enactments.

2. **Mintos may not be able to cover the maintenance and administrative costs of the Issuer**

Considering the pass-through nature of the Issuer, the maintenance costs and administrative expenses of the Issuer are, in essence, covered by the Rental Company,

either via direct compensation mechanism or indirectly via Mintos. If for any reason mentioned above in '*RISKS SPECIFIC TO MINTOS*', Mintos is not able to cover such costs, it could significantly influence the operations of the Issuer and its ability to service Notes and make payments to the Noteholder.

3. Information asymmetry

With a reference to risks described above in 'The Rental Company may intentionally or unintentionally breach its contractual obligations - False or incomplete information about the Rental Company' and '-False Renter data', part of the information in this Base Prospectus as well as significant information being received during the term of the Notes is being sourced and received from the Rental Company. There is a risk that the Rental Company can provide material information with delay or fails to provide information to the Issuer at all. As a consequence:

- the Issuer through Mintos acting as its authorised representative will not be able to timely enforce its rights provided in the Transaction Documents and to act in the interests of Noteholders; and
- the Issuer will not be able to prepare and publish supplements to this Base Prospectus in a timely manner, which could impact the Noteholders' judgement on purchasing the Notes being unaware of any significant new factor, material mistake or inaccuracy related to the information being sourced from the Rental Company.

4. Cross-risks applicable to the Issuer

Considering the pass-through nature of the Issuer, the Issuer and its abilities to pay amounts due to the Noteholders under the Note are exposed to all the risks listed above in '*RISKS SPECIFIC TO THE UNDERLYING LOAN*', '*RISKS SPECIFIC TO LOAN SERVICING*', '*RISKS SPECIFIC TO SECURITY WHEN IT IS PROVIDED TO THE ISSUER*' and '*RISKS SPECIFIC TO MINTOS*'.

RISKS SPECIFIC TO NOTES

1. The Noteholder has no rights of recourse against the Renters, the Rental Company, the Guarantor, the SPV or pledgor

The Noteholder has no direct right to the Loan Receivables. Instead, the Noteholder is acquiring Notes, which are backed by the corresponding Loan Receivables. The legal title in the Loan Receivables and relevant rights arising from them are vested in the Issuer. This means that the Noteholder will have no direct recourse against the Rental Company or the Renters and no ability to independently and in its discretion to pursue the Rental Company or any Renter to collect payments under the relevant Rental Agreement or the Rental Company to collect payments under the relevant SPV Loan Agreement. For the same reason the Noteholder will have no direct recourse against the SPV or the Rental Company, or the Guarantor and/or the pledgor (if any), and no ability to pursue the SPV or the Rental Company, or the Guarantor and/or the pledgor (if any) to enforce them to duly perform their duties and obligations due. All such actions are carried out by the Issuer as the legal owner of the Loan Receivables according to the provisions of this Base Prospectus and the Transaction Documents.

2. Change of creditors priority

The outcome of judicial or insolvency procedure could overrule the creditors' priority in this

Base Prospectus due to requirements of the law, meaning that the Noteholders of one Series of Notes could become equal creditors to Noteholders of other Series of Notes, thus all the proceeds the Issuer receives from all the Loan Receivables is distributed on *pro rata* basis or otherwise.

3. Certain costs may rank higher than payments to the Noteholder

While it is the Issuer's responsibility to transfer to the Noteholder all payments that have been received from the SPV, including the payments received from the Rental Company by the SPV, there are certain costs, such as taxes, Mintos' fees and recovery costs that rank higher than payments to the Noteholder. This means that the Noteholder would only receive payment after the payment obligations of a higher priority have been settled.

Also, there is a risk that the outcome of judicial or insolvency procedure could define other priority of payments, which differs from the priority in this Base Prospectus.

4. Liabilities that are not Series specific will be allocated to all Series of Notes proportionally

If there are higher priority costs, i.e., taxes, fees and recovery costs, related to the specific Note, then these will be covered from the payments due to the Noteholders according to the Priority of Payments defined in this Base Prospectus. Where the liability is not Series-specific, for example, legal costs, the liability will be allocated to all Series of Notes proportionally unless otherwise defined by the Priority of Payments.

5. Event of default under another prospectus affecting Noteholders of this Base Prospectus

The Issuer has or could in future enter into transactional documentation to issue loans backed and contingent notes with other lending and rental companies, being part of the Eleving Group.

If for some reason an event of default arises under another prospectus, it can lead to an event of default under this Base Prospectus, and as a consequence Noteholders can face similar risks as described in the paragraph 2, 3 and 4 of the RISKS SPECIFIC TO THE NOTES, for example, the outcome of judicial or insolvency procedure could overrule the creditors' priority due to requirements of the law, meaning that the noteholders under other prospectus could be treated *pari passu* with other unsecured creditors of the Issuer, including with the Noteholders of Notes issued under this Base Prospectus, and/or could define other priority of payments, which differs from the priority in this Base Prospectus, meaning that proceeds received from the Rental Company which otherwise would be attributable to Series Specific Loans could be diverted to make payments with respect to other prospectuses of the Issuer and/or with respect to such proceedings.

6. Due diligence and monitoring performed by Mintos and Mintos risk score allocated are limited in scope, do not address all material risks, and do not provide any assurance or indemnification

Before the Rental Company joins Mintos and during the cooperation, Mintos carries out due diligence and assigns Mintos risk score. It is important to point out that these processes are limited in scope and do not address all material risks relating to an investment in the Notes, but rather reflect the view of Mintos at the time the due diligence and monitoring are performed.

Even if Mintos continuously measures the accuracy of Mintos risk score and evaluates the need to adjust the methodology when new data is obtained, these processes might not

guarantee any further performance of the investment.

Mintos neither provides any assurance or guarantee for the Noteholder nor indemnifies or holds Noteholder harmless for any loss or adverse consequence directly or indirectly arising from the Noteholder relying upon Mintos risk score or due diligence and monitoring performed.

Basing investment decisions solely on Mintos risk score could lead to a partial or full loss of invested amounts.

7. No specific securitisation laws in Latvia

There are no dedicated laws and regime in Latvia addressing specific special purpose vehicle issuer insolvency or limited recourse concepts at the date of this Prospectus. Mintos believes the Terms and Conditions of the Notes are set up and drafted as having legal force and addressing such concerns as legally binding contractual obligations. There might be circumstances that influence such legal construction, including, but not limited to the court ruling, or new or modified legal enactments. Eventually, this could lead to delayed payments or partial or full loss of the amount invested in the Notes.

8. Repurchase could impact planned return

The Rental Company may repurchase the Loan Receivables from the Issuer at any time at their then outstanding principal value without any penalty or other compensation. This may happen, for example, in cases where the Rental Company can acquire lower cost financing from other sources and wishes to refinance the Loan.

The Rental Company not only has a right to repurchase, but also has an obligation to repurchase the Loan Receivables from the Issuer upon the occurrence of certain events specified in the Cooperation Agreement. The Rental Company may become obliged to repurchase one or several affected Loan Receivables, as well as there are certain events that may trigger the obligation to repurchase all the Loan Receivables. Occurrence of a Material Event of Default under the Cooperation Agreement triggers the obligation to repurchase all the Loan Receivables.

If the repurchase right is exercised by the Rental Company or if the repurchase obligation arises, the relevant Series of Notes will be redeemed early in full or in part once the Issuer has received the repurchase price from the Rental Company. The Noteholders' return on the investments in the Notes which are redeemed due to the repurchase will be lower than the initially planned return.

9. New regulations introduced in the future could impact the Noteholder and Mintos

Due to several reasons, such as improvements in computer technology, the financial crisis of the past decade and a greater focus on preventing the legalisation of illegally gained proceeds, the financial industry over the last years has experienced the introduction of several new regulations. With further developments and adoption of technologies, jurisdictions, either where Noteholders or Mintos Group are domiciled are likely to introduce new regulations or administrative interventions that could relate to Notes or online marketplaces such as the Platform. Such regulation in the future, for example, could enhance investors' protection measures, limit access to Notes to only qualified or sophisticated Noteholders, limit the proportion of the portfolio that can be invested through Notes or introduce any other restricting measures.

Furthermore, the introduction of new regulations or significant changes to the existing

regulations could impact the profitability, cost base and future operations of Mintos. Failure to comply with regulation could lead to, among other things, lawsuits, administrative enforcement actions, penalties, and revocation of licenses and authorisations. Eventually, this could lead to delayed payments or partial or full loss of invested amounts under Notes.

10. New regulation in relation to taxes could impact the expected return for the Noteholder

In the event that new regulation is introduced, or existing regulation or its interpretation changes so that the Issuer and/or Mintos needs to withhold additional taxes before making payments to the Noteholder, and the Issuer and/or Mintos is required to withhold any transfer tax, stamp duty and/or financial transactions tax, this could impact the expected return on investment for the Noteholder. Similar developments in the Noteholders' tax residence country can lead to the same consequences.

11. Notes have limited liquidity and transferability

The Notes are illiquid securities and there is no active market for them, and the Notes are not admitted to any trading venue. The potential buyers and transferees are limited only to other Mintos' clients who are registered on the Platform. Which all means that the Noteholder might need to offer the Notes with a significant discount and hence would not meet the expected return on the investment or might even be unable to sell them at all during shorter or longer period of time. Furthermore, to protect Noteholders that use automatic investment solutions from making investment decisions, Mintos may restrict the execution of orders to sell the Notes according to the terms and conditions of the agreements between the Investors and Mintos.

The Noteholder should therefore only invest in Notes that the Noteholder is comfortable with holding to maturity.

12. An undiversified investment portfolio may lead to greater exposure to the Rental Company and country-specific risks than a well-diversified portfolio

Investment in a single Note, Notes issued in relation to the Rental Company or Notes with underlying Loans related to one country means that the performance of the portfolio and risk exposure depends on that Note, the Rental Company, country and currency risk.

Mintos encourages its investors to build a well-diversified portfolio and provides several tools to automate investing in Notes, making this easier.

13. Investing in Notes issued in other currencies increase the Noteholder's exposure to currency risk

If a Noteholder invests in Notes denominated in a currency that is different from the currency that the Noteholder earns and/or spends, the return on the investment could be significantly impacted by the fluctuations in the exchange rate between those currencies. This means that if the underlying currency depreciates significantly, the Noteholder could lose part of the investment, and if the currency appreciates significantly, the Noteholder could earn a higher return on investment.

14. Notes are not bank deposits

Investment in Notes does not have the status of a bank deposit in Latvia or elsewhere and is not within the scope of the deposit protection or guarantee scheme operated by the Republic of Latvia or any other jurisdiction.

Third-party and market share data

This Base Prospectus contains information regarding business of the Issuer, Mintos, the Rental Company and others, and the industry in which they operate and compete. Where third party information has been used in this Base Prospectus, the source of such information has been identified. Statistical information included in this Base Prospectus has been derived from official public sources, including the statistical releases. All such statistical information may differ from that stated in other sources for a variety of reasons, including the use of different definitions and cut-off times. This data may subsequently be revised as new data becomes available and any such revised data will not be circulated by the Issuer to Investors who have purchased the Notes. In some cases, independently determined industry data is not available. In these cases, any market share data included in this Base Prospectus is referred to as having been estimated. All such estimates have been made by either the Issuer or the Rental Company using its information and other publicly available market information. Each of the Issuer and the Rental Company believes that these estimates of market share are helpful as they give prospective Investors a better understanding of the industry in which the Issuer or the Rental Company operates as well as its position within that industry. Although all such estimations have been made in good faith based on the information available and the Issuer's or the Rental Company's knowledge of the market within which it operates, neither the Issuer nor the Rental Company can guarantee that a third-party expert using different methods would reach the same conclusions. Where information has not been independently sourced, it is the Issuer's or the Rental Company's own information.

4. TRANSACTION OVERVIEW

- **THE DESCRIPTION OF THE TRANSACTIONS IN RELATION TO THE NOTES**
 - **The Issuer, Mintos, SPV (Lender) and the Rental Company**

The Issuer, Mintos, SPV (Lender) and the Rental Company have entered into the Transaction Documents for the issue and sale of the Notes as described in this Base Prospectus.

- **Issuance of loans and transfer of the Loan Receivables by the SPV to the Issuer**

The Rental Company concludes a Rental Agreement with the Renter, and in the Base Prospectus, they are called the Rental Agreements. Once the Rental Agreement is concluded, the Rental Company can request, by using the API connection setup with Mintos, a Loan from the SPV (Lender) within the maximum limit permitted by the Cooperation Agreement on Issuance of Loans.

Each loan requested from the SPV has to be for an amount not exceeding 95% of the value of the vehicle determined by the Rental Company and set in the Rental Agreement. The Rental Agreement concluded with respect to the vehicle and the vehicle as such is a source of repayment of the respective Loan. However, if the Renter delays any payments and/or does not make payments in accordance with the respective Rental Agreement, the Rental Company shall repay the Loan from any other available sources. If the request for Loan meets the requirements under the Cooperation Agreement on Issuance of Loans, the request is approved and an SPV Loan Agreement is generated for that Loan. Mintos verifies the information provided through the API. The Rental Agreements are

required to meet certain eligibility criteria for the Loans that will be advanced against them to form a 'pool' of Loan Receivables to serve as the underlying assets for a particular Series of Notes and to satisfy other conditions precedent. Each SPV Loan Agreement has one vehicle and the Rental Agreement linked to it as the source of repayment.

After the SPV Loan Agreement is concluded, the Loan Receivables arising out of the SPV Loan Agreement are in full sold to the Issuer.

The sale of the Loan Receivables to the Issuer is evidenced by Mintos generating the Transfer Document. The agreement on the terms and conditions of the sale of the Loan Receivables by the SPV to the Issuer is set out in the Cooperation Agreement, the Transfer Document evidences the fact that the sale has happened.

Payment for the acquired Loan Receivable is subject to placement of the Series of Notes.

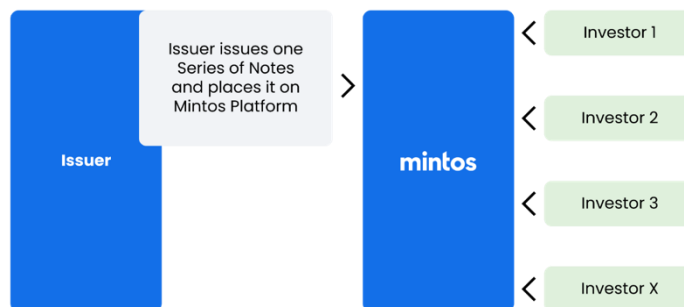

That means the Loan Receivables transferred to the Issuer and backing the Series have characteristics that demonstrate capacity to produce funds to service any payments due and payable on the Notes.

In relation to the Loan, the SPV does not retain any 'skin in the game'. The Rental Company, however, does economically retain a skin in the game in the future cash flows of the Rental Agreement due to the fact that the Loan that it can receive against the Rental Agreement is no greater than 95% of the evaluation price for the vehicle.

The Rental Company is notified of the transfer of the Loan Receivables, however the parties under the Cooperation Agreement have agreed that the Rental Company will continue to make payments to the SPV (Lender), unless the Issuer has not notified the Rental Company to do otherwise. The SPV continues to service the Loan Receivables.

The Rental Company meanwhile retains full title over the receivables arising from the Rental Agreements that are linked to the Loans as one of their sources of repayment.

▪ **Issue of Notes**

Once the Issuer has a pool of the Loan Receivables, Mintos publishes the Final Terms for the relevant Series of Notes on the Platform on behalf of the Issuer. This process is automated and takes place in real-time.

As of the Issue Date, the Notes are publicly offered by the Issuer through the Platform. Investors can purchase Notes from the Issue Date until the Maturity Date of the Notes provided in the Final Terms or until the time when the Notes are fully sold to Investors by the Issuer, whichever occurs earlier. Information about the offer results of the Notes is published on the website www.mintos.com in real time starting from the Issue Date of the Notes. Subscriptions will not be reduced, which means refund

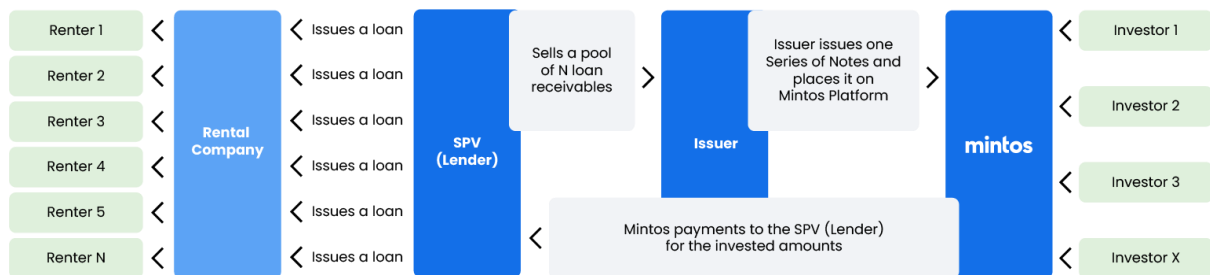

of amounts paid in excess does not apply. The Issuer does not expect any conditions to which offer of the Notes would be subject.

To purchase Notes from the Issuer, the Investor registered on the Platform submits an investment order using the “Primary market” section of the Platform, indicating the amount of money that the Investor wishes to invest in the particular Notes. The Investor can also use automated portfolio management services provided by Mintos to purchase the Notes. The process for purchasing Notes is automated and takes place in real-time. When the investment order is accepted by the Platform, Mintos debits cash funds from the Investor’s cash account with Mintos in exchange for delivery of the Notes to the Investor’s financial instruments account with Mintos. Paying for the Notes and delivery of the Notes take place simultaneously. The Notes allotted are available as soon as the investment order is executed by Mintos, by means of the Investor’s profile on the Platform. Further alienation of Notes could be done as soon as the Notes are available on the Investor’s Investment Accounts.

Minimum subscription amount is one Note. Maximum subscription amount is up to the Aggregate Nominal Amount for the relevant Series of Notes, but subject to the nominal amount of the Notes being available for purchase from the Issuer as at execution time of the investment order at Mintos. No expenses are expected to be charged to the Investor by the Issuer when purchasing Notes. Currently there is no financial transaction tax to be applied by the Issuer and/or Mintos to the Investor in subscribing or purchasing any Note.

The Issuer expects that net proceeds of any Series of Notes will equal the Aggregate Nominal Amount of the relevant Series.

▪ **Payments under the Notes**

Interest specified in the Final Terms will begin to be calculated and accrued from (and including) the first day when the Investor has acquired the Notes from the Issuer, and the Notes are booked by Mintos in the Investor’s financial instruments account.

The Interest and principal payments under the Notes are linked and contingent on corresponding payment being made under the pool of the underlying Loan Receivables by the Rental Company. Notes may have different payments which reflect the different Rental Agreements concluded by the Rental Company, such as:

- fully amortising Notes – the principal amount outstanding of the Notes and interest are regularly paid during the term of the Notes so that the principal amount outstanding of the Notes is zero at maturity of the Notes;
- partially amortising Notes (or ‘balloon’ Notes) – the principal amount outstanding of the Notes and interest are regularly paid during the term of the Notes but, a ‘balloon’ of principal amount outstanding of the Notes remains which is paid at maturity of the Notes;
- interest only Notes – only the interest is regularly paid during the term of the Notes, whilst

the principal amount outstanding of the Notes is paid at maturity of the Notes; and

- bullet Notes - both the outstanding principal value of the Notes and interest are paid at the maturity of the Notes.

▪ **The Buyback Obligation**

The **Buyback Obligation** is the obligation for the Rental Company to (i) repurchase the relevant Loan Receivables from the Issuer, provided that the Buyback Obligation is stated as being applicable in the Final Terms; or (ii) to make repayment to the SPV with respect to the affected Loan in full, if any payment under any of the relevant Rental Agreement is delayed by more than 60 days. Whichever way the Buyback Obligation is performed, if the Rental Company fulfils the obligation, it achieves the same result – the Issuer receives either directly from the Rental Company or from the SPV full settlement for the respective Loan Receivables.

If the Buyback Obligation is triggered, the relevant Series of Notes will be partially redeemed early once the Issuer has received the buyback price from the Rental Company or the payment from the SPV of received repayment from the Rental Company. The buyback price or repayment is the nominal value of the Loan Receivable as it is at the time when the Buyback Obligation arose, which means the nominal value of the principal outstanding and the interest and other ancillary claims assigned to the Issuer that form part of the Loan Receivable up to the date when the Buyback Obligation was triggered.

▪ **Repurchase**

Repurchase is the right or obligation for the Rental Company to (i) repurchase the Loan Receivable(s) from the Issuer or (ii) to make repayment to the SPV with respect to the affected Loans in full on the occurrence of certain events specified in the Cooperation Agreement.

The Repurchase rights may be exercised by the Rental Company at any time with respect to any Loan Receivable(s). The repurchase price or the repayment is the nominal value of the Loan Receivable, which means the nominal value of the principal outstanding and the interest and other ancillary claims assigned to the Issuer that form part of the Loan Receivable up to the date when the Repurchase right was exercised, as it is at the time when the Repurchase right was exercised.

If during the validity of the Cooperation Agreement the Rental Company exercises its rights to Repurchase individual Loan Receivables that are linked to performing Rental Agreements (rental agreements which payments are not delayed by the Renters), the Rental Company shall be obliged to repurchase the same amount of the Loan Receivables that are linked to non-performing Rental Agreements with a delay of 1 to 59 days (if any) and to non-performing Rental Agreements with a delay of 60 and more days (if any). Namely, if the Rental Company repurchases 10% (ten per cent) of the Loan Receivables linked to performing Rental Agreements, the Rental Company shall be obliged to repurchase 10% (ten per cent) of the Loan Receivables linked to non-performing Rental Agreements with a delay of 1 to 59 days and 10% (ten per cent) of the Loan Receivables linked to non-performing Rental Agreements with a delay of 60 and more days. The Loan Receivables linked to non-performing Rental Agreements subject to the repurchase are randomly selected by the Rental Company at its own discretion. If Rental Company fails to repurchase the Loan Receivables of non-performing loans as per this clause, Mintos shall randomly select the Loan Receivables on non-performing loans subject to the repurchase by the Rental Company.

The Repurchase obligation arises either with respect to one or several Loan Receivables or it may as well arise with respect to all Loan Receivables.

Individual affected Loan Receivable(s) must be repurchased by the Rental Company according to

the Cooperation Agreement if the following occurs:

- (a) termination by the Rental Company of a Rental Agreement which is linked to the SPV Loan Agreement from which the Loan Receivable arises;
- (b) in case any of the following events occur:
 - if the SPV Loan Agreement from which the respective individual Loan Receivable arises is or shall for any reason and by any means become invalid or unenforceable whether in whole or in part or it becomes impossible or unlawful for any party to any such document to perform its obligations under such documents; or
 - if, in the reasonable opinion of Mintos and/or the Issuer and/or the SPV the Rental Company's fraud or fraudulent misrepresentation has been established;
- (c) with respect to the affected Loan Receivable that is determined in the sole discretion of Mintos, in case if any of the following events occur:
 - if certain representations or warranties of the Rental Company provided in the Cooperation Agreement with respect to the Rental Agreement is or proves to have been untrue when made or deemed to be made;
 - if a breach of an obligation of the Rental Company to comply with certain restrictions on amendments to the Rental Agreements are not complied with or if the Rental Company breaches its duties as a servicer of the Rental Agreements; or
 - if it is or becomes unlawful for the Rental Company to perform its obligations under the Cooperation Agreement or the Cooperation Agreement on Issuance of Loans according to the applicable laws(i.e. having a retroactive effect).

The above might not be a precise wording of the Cooperation Agreement provisions, however even if the wording is different the description of the essence remains correct.

In case a Material Event of Default under the Cooperation Agreement has occurred (see paragraph: THE TRANSACTION DOCUMENTS - The Cooperation Agreement - Material Events of Default), Mintos is entitled to request the Rental Company to repurchase all the Loan Receivables transferred to the Issuer or to make repayment to the SPV with respect to all the Loans. Mintos has the discretion to request or not to request the repurchase of all the Loan Receivables. If the full repurchase is requested, repurchase obligation must be met by way of (i) paying the repurchase price or (ii) by making repayment to the SPV with respect to the Loans in full within the time period, which in most cases is 5 (five) Business Days, but may be set as a longer period of time up to no more than 6 months, after the notice has been given to the Rental Company regarding the repurchase and the final calculation of the amounts payable is sent to the Rental Company.

The repurchase price for the Loan Receivable which the Rental Company is obliged to pay to the Issuer for the Repurchase of the Loan Receivable is equal to the total amount of the remaining principal amount of the Loan Receivable and accumulated and outstanding interest, and other ancillary claims assigned to the Issuer that form part of the Loan Receivable up to the date when the Repurchase was triggered.

If Repurchase rights or obligation is triggered, the relevant Series of Notes will be redeemed early in full or in part once the Issuer has received the repurchase price from the Rental Company or the payment from the SPV of received repayment from the Rental Company.

▪ No credit enhancement

The Notes have no credit enhancements and no liquidity support in relation to payment of interest or principal.

The Issuer, as a special purpose entity, has no obligation to make any payment on the Notes unless

sufficient funds have been received from the SPV or the Rental Company. In turn, the SPV, is dependent on payments on the relevant Loans from the Rental Company, but the Rental Company, in turn, is dependent on payments on the relevant Rental Agreements from the Renters.

○ **THE TRANSACTION DOCUMENTS**

The information in this section is a summary of certain features of the Transaction Documents provided for information purposes, and will not be treated as the full binding text of the relevant agreement.

▪ **The Cooperation Agreement**

The Cooperation Agreement among other schedules contains a schedule sample of the Borrower's Loan Agreement.

Mintos

Mintos acts as an assignment agent, placement agent, calculation agent, transfer agent and paying agent of the Issuer in relation to the Notes.

Loan servicing

The Issuer has appointed the SPV as the servicer with service rights which includes any and all rights to:

- (a) service the Loan Receivables;
- (b) all agreements or documents creating, defining or evidencing the servicing rights to the extent they relate to the servicing;
- (c) collect all payments under the SPV Loan Agreements; and

Subject to certain terms and conditions, the Issuer may, by notice to the SPV, the Rental Company,

and Mintos terminate the appointment of the SPV as the servicer and appoint another person as the servicer of the Loan Receivables.

The Rental Company has certain rights and obligations with respect to servicing of the Rental Agreements.

Extensions

The Rental Company may modify any of the Rental Agreements without approval of the Issuer, provided that payments from the relevant Renters remain unchanged.

If provided in the Final Terms, the Rental Company may extend the repayment schedule of one or more of the Rental Agreements without the consent of the SPV, Issuer or the Noteholders provided that (a) there is no event of default under any of the Rental Agreement, (b) any change is restricted by 'Limit on the number of Extensions' and 'Total maximum time limit of Extensions' as specified in the Final Terms and (c) any change is notified on the Platform to the Noteholders. If the Rental Agreement is extended, the SPV Loan Agreement that it is linked to is extended for the same period of time.

The Rental Company may also extend the repayment schedule of one or more of the Rental Agreements without the consent of the Issuer, the SPV or the Noteholders to comply with any new law or regulation, amendment of any existing law or regulation, or any decision of any government or municipal provided that any change is notified on the Platform to the Noteholders.

Covenants

The Rental Company has covenanted to comply with certain financial and other covenants.

Indemnities and penalties

The Rental Company or the Guarantor have agreed to pay the contractual penalties to Mintos, to the SPV, or the Issuer, as required by the Cooperation Agreement, for breach of certain obligations

indicated in the Cooperation Agreement.

Each of the Issuer, the SPV, the Rental Company, and Mintos has indemnified the others against any and all losses suffered by or incurred by the others arising out of or resulting from its breach under the Cooperation Agreement.

Material Events of Default

The Cooperation Agreement contains an exhaustive list of events that constitute Material Events of Default. Material Events of Default under the Cooperation Agreement include events like:

- (a) non-payment by the Rental Company and/or the Guarantor under the Transaction Documents;
- (b) the Rental Company's non-compliance with the adjusted equity ratio set in the Cooperation Agreement;
- (c) events with respect to various other obligations: failure to fulfil some other obligations of the Cooperation Agreement; occurrence of a material event of default under other obligations referred to in the Cooperation Agreement;
- (d) an event of default, as such term is defined in this Base Prospectus, occurs, which such event of default is caused by fault, action or failure to act of the Rental Company the Guarantor or Pledgor;
- (e) any Pledge Agreement (if any) having become invalid, unenforceable or likewise events occurring with respect to them as agreed in the Cooperation Agreement;

- (j) occurrence of circumstances in the area of AML (Anti Money Laundering) or sanctions non-compliance that require termination of cooperation with the Rental Company and/or the Guarantor;
- (k) cessation of business by the Rental Company or the Guarantor.

The above is not a precise wording of the Cooperation Agreement provisions on the Material Event of Default, it is just a description of their essence.

If any Material Event of Default occurs, Mintos may stop:

- (a) the execution of sales of the Loan Receivables to the Issuer;
- (b) the placement of the Notes on the Platform; and
- (c) the processing of submitted but not yet executed orders for subscription of the Notes.

Upon occurrence of a Material Event of Default Mintos may require the Rental Company to Repurchase all the Loan Receivables transferred to the Issuer.

Also, if a Material Event of Default occurs Mintos may change the servicer of the Loan Receivables.

Whether to exercise any or all of the above rights that Mintos has if any Material Event of Default occurs, is a decision that Mintos makes, acting as an authorized representative of the Issuer and the SPV in their best interests. It may be that even if a Material Event of Default has occurred, it may be cured or does not negatively affect the ability of the Rental Company and/or the Guarantor to comply with its obligations under the Cooperation Agreement, or there are other legitimate reasons why

Mintos should not exercise the said rights.

Term and termination

The Cooperation Agreement continues until all liabilities of the Issuer, the Rental Company, the Guarantor and Mintos according to its provisions are fully satisfied.

Governing law

The Cooperation Agreement and any non-contractual obligations arising out of, or in connection with it, are governed by and will be construed in accordance with the laws of the Republic of Latvia.

- **The Credit Line Agreement (also defined as the Cooperation Agreement on Issuance of Loans) and SPV Loan Agreements**

General

The Credit Line Agreement is constructed as a revolving facility agreement whereunder the Rental Company may receive Loans from the SPV within a maximum limit which as of the date of first Notes' issue hereunder is set at 10 000 000 EUR (ten million euros). Each Loan under the SPV Loan Agreement cannot exceed 95% of the value of the vehicle determined by the Rental Company and set in the Rental Agreement.

Rights and obligations of the parties

The Rental Company on its own behalf is entitled to request disbursement of the Loans from the SPV with the available maximum limit, provided that the conditions precedent for such disbursements as agreed are met. Requests are made by the Rental Company sending information to Mintos according to the Cooperation Agreement through API about the Rental Agreement it offers as the source of repayment. If the conditions precedent is not met, or other agreed circumstances occur, such as a Material Event of Default as such is defined in the Cooperation Agreement occurs, the SPV may refuse to grant Loans and hence the SPV Loan Agreement may not be concluded and the disbursement of the Loan would not take place.

When the SPV Loan Agreement is concluded the Loan is not immediately disbursed in full. The Loan is advanced to the Rental Company in instalments. The instalments become committed by the SPV when amounts are paid by the Noteholders for the Notes that the Loan is backing. On the Loan amount that is committed by the SPV, interest on reservation of the loan accrues, but on the Loan amount that is disbursed interest for use of the loan accrues. The rate for both interests is the same. The Rental Company shall be obliged to pay above-indicated interest as per each SPV's Loan Agreement.

The SPV and the Rental Company have agreed that the Loans can be advanced to the Rental Company either by bank transfer to its bank account or by the SPV setting off the amounts that have become due and payable from the Rental Company against the Loans that the SPV has become obliged to advance.

Term and termination

The Credit Line Agreement continues until all liabilities of the Rental Company according to its provisions are fully satisfied.

arising out of, or in connection with, it is governed by and will be construed in accordance with the laws of the Republic of Latvia.

to 20 years old, averaging 18 years old cars. Cars are owned by Rental Company and Renters are identified as car users in registration certificates of the vehicles.

- **Process and criteria of concluding Rental Agreements**

The Rental Agreement documentation is signed electronically by e-signature (only as an exception), or physically in the Rental Company's branch, or at more than 280 cooperation partners when the partners are authorised to sign it. The Rental Company makes a bank transfer directly to the seller of the vehicle when the Rental Agreement documentation is received and completed.

The underwriting process in the Rental Company is automated to the maximum possible extent. The issuance policy in each country sets a detailed process overview including business "hard" rules (e.g., age limits, eligible customers, revenues, vehicles, indebtedness levels), fraud rules, and scoring models (if relevant) for decision making.

During the Rental Agreement processing, the preliminary data in each application are cross-checked and supplemented. If needed, the potential renter is asked for further information, preliminary fraud and blacklists checks are performed, and vehicles are automatically valued. During the Rental Agreement processing, the most important steps are the verification of the potential renter's eligibility for the Rental Company's financing, based on the information related to the renter's financial, economic and reputational information, legislation, and also based on the financing terms applied (advance payment, length, exposure, type of vehicle being financed). After such steps are successfully completed, the potential renter receives a preliminary offer.

During the risk assessment, credit databases are checked, the potential renter's income information is analyzed and customer indebtedness is calculated and evaluated.

Final adjustments on the Rental Agreement and other terms are made and documents to be signed are automatically generated.

- **Debt recovery management**

The Rental Company has established a debt collection process. Elevation Group has a dedicated team. The Rental Company's strategy is focused on maximising the dialogue with customers. When the Rental Company assesses that a customer can pay its Rental Agreement, it offers various options and tailors the offers to such customers. When the Rental Company assesses that the customer will not be able to continue a successful relationship, a quick and efficient repossession of the vehicle and subsequent sale of it is strived while maintaining full transparency with the renter about the process.

The Rental Company adjusts its approach based on the stage of the overdue receivables from renters (Elevation Group classifies a receivable as non-performing if it is more than 60 days overdue):

- 1) Before the receivable becomes overdue, the Rental Company has an automated reminder process that ensures that the client is aware of upcoming payment and payment details.
- 2) When the payment is overdue, it enters early debt collection process, where the Rental Company launches its automated reminder system (auto-calls, texts, e-mails) informing the customer about the overdue amounts, the further actions if payment will not be made, and the Rental Company contacts to discuss the potential options. Rental Company constantly monitors the effectiveness of the automated system. In addition, the Rental Company involves its in-house debt collection specialists that call all debtors from a certain day (starting from 1st – 5th days past due (DPD)) with the aim to recover the delayed amount, identify the reason for the delay and if necessary, offer restructuring possibilities, where

possible and is economically viable. If the case is not resolved until 60 DPD, it is passed on to the late debt collection stage.

- 3) In the course of the late debt collection process, the overdue Rental Agreement is terminated after 50-60 days upon which the debt specialists of the Rental Company offer the customer to repay the debt and voluntarily return the vehicle. When this approach is not successful, the Rental Company's in-house car repossession experts work with customers to recover the vehicle.
- 4) After vehicle repossession, the vehicle is put up for sale in Rental Company's car lot. The Rental Company aims to sell repossessed vehicles within 30 days from the moment the vehicle is brought to the car lot and have at least 90% of vehicles sold within 90 days. The outstanding debt (if any) is then recovered through an unsecured recovery process of the Rental Company, which includes amicable settlements, court execution process and / or debt portfolio sale.

To ensure consistent quality of debt collection operations, the Rental Company uses group-wide debt collection service standards that include (i) debt collection principles, (ii) best practices and requirements for the debt collection department and (iii) internal procedures in order to ensure effective knowledge sharing and continuous improvement of operations. On a daily basis, the debt collection organization is improved through regular benchmarking, experience sharing, and targeted projects supervised by the Eleving Group's operations team to roll-out best practices across Eleving Group. The result is that the Rental Company typically recovers 90+% of non-performing Rental Agreements in the car rent segment through either repossessing the car, renewing the contract, buyout, or settlement with the customer.

- **Business overview**

Eleving Group (formerly - Mogo Finance S.A.) is a public limited liability company (*société anonyme*) incorporated on 21 January 2013 and existing under the laws of the Grand Duchy of Luxembourg, registered with Luxembourg trade and companies register (*Registre de Commerce et des Sociétés de Luxembourg*) under number B174457 and having its registered office at 8-10, Avenue de la Gare, L-1610 Luxembourg, Grand Duchy of Luxembourg.

The Guarantor's purpose is to invest, acquire and take participations and interests, in any form whatsoever, in Luxembourg or foreign companies or entities having a purpose similar to the purpose of the Guarantor and to acquire through participations, contributions, purchases, options or in any other way any securities, rights, interests, patents, trademarks and licences or other property as the Guarantor shall deem fit, and generally to hold, manage, develop, encumber, sell or dispose of the same, in whole or in part, for such consideration that is in the corporate interest of the Guarantor.

Eleving Group is an international and fast-growing financial technology company with a vast reach across the globe. Operating in 3 continents, the companies of Eleving Group recognize the niche underserved by conventional lenders and provide financial inclusion by disruptively changing used car and consumer financing industry.

Eleving Group was founded in 2012 in Latvia under the brand name Mogo (rebranded from Mogo Finance to Eleving Group in May 2021). Having expanded to all the Baltics within a year of launch, Eleving Group continued expansion in the following years, currently serving a total of 16 active markets. Eleving Group has disrupted the used vehicle market as well as the way people's social mobility can be elevated through the access to convenient and responsible lending.

Having two business lines – vehicle finance and consumer finance, Eleving Group provides a variety of products and services with different brands, thus, filling the funding gap and creating new opportunities for people who previously did not have access to finance or to private means of transportation.

Mogo is a leading brand in Eleving Group's vehicle financing product portfolio and its core products are finance lease and leaseback that are provided to clients via websites, mobile channels and a broad dealer/broker and branch network across 16 active markets. In various markets through different brands (Renti, Primero) the company also provides rent-to-buy services, motorcycle financing and finance of more expensive vehicles through strategic collaboration with local banks. The proven business model is built around high demand for quality used vehicles, and it is realised through an innovative, data-driven, and fast process led by IT investments together with strong control and efficient debt collection process.

Eleving Group's consumer finance business entities focus on the markets where there are both – necessity for financial inclusion and underserved communities by the conventional finance industry. In most cases there is no "middle way" between hard-to-access bank financing and very limited and expensive short-term loans. In the majority of markets where Eleving Group's consumer finance

companies operate, there are cash economy market conditions, thus our companies are often the only ones which offer both – online and offline client service experience. While having more than 180 branches across 7 active markets, Elevation Group companies are offering flexible financial products from credit line to instalment loan with focus to provide accessibility to substantial amounts of money in the most convenient way with affordable rates.

Entering the post-pandemic landscape, the main objective of Elevation Group for 2025 is to consistently and profitably grow within the current markets and current product base.

- **Business strategy description**

Elevation Group's strategy is to be a leading mobility platform, by providing a wide range of vehicle financing products, as well as to maintain a similar product mix with ¾ of secured portfolio and up to ¼ of unsecured portfolio. This will be achieved by consistent and profitable growth built on four main pillars: (i) instant financing access, (ii) diversified car dealers – partners network, (iii) tailored product portfolio, (iv) diversified funding.

In 2025 Elevation Group intends to continue to develop its current set of 16 active markets with particular focus on productive lending in the fastest growing markets; to develop premium car financing solution by engaging in mutually beneficial strategic partnerships with local banks; to continue further digitalization across the key business areas and maintain stricter underwriting policies in place. To pursue Elevation Group's ESG goals, Elevation Group has published a group-wide non-financial statement and launched several social initiatives, in the coming future focusing on neutralising Elevation Group's carbon footprint.

The backbone of the growth of Elevation Group is to have access to diversified and efficient funding sources. Diversification in the capital structure is the key for further growth in the future including the issue of senior secured bonds as well as funds attraction through loans' backed and contingent notes and Mintos Platform.

11.2 Notes contingent payments

All payments of Interest and principal by the Issuer under the Notes are dependent on the Issuer having received information on the Payment Event and the Available Distribution Amount being sufficient to make the relevant payments in accordance with the Priority of Payments. The Notes will not give rise to the Issuer having any payment obligation in excess of the foregoing.

Any overdue payment of Interest or principal under any of the Series Specific Loans that have been collected by the Rental Company (including by its external debt collection agency) will be paid to the Issuer as an Available Distribution Amount which will be paid in accordance with the Priority of Payments on the date determined by the Issuer at its sole discretion.

11.3 *Pending Payments Penalty Fee*

Not applicable.

11.4 *Rental Agreements' extension*

The Rental Company may modify any of the Rental Agreements linked to the Series Specific Loans without approval of the Issuer, the SPV and the Noteholders, provided that payments from the relevant Renter remain unchanged.

If 'Extension possibility' is provided in the Final Terms, the Rental Company may extend the repayment schedule of one or more Rental Agreements linked to the Series Specific Loans by changing the Loan Interest Payment Date, the Loan Repayment Date and/or the Loan Final Repayment Date without the consent of the Issuer, the SPV or the Noteholders provided that (a) there is no event of default under any of the Rental Agreements linked to the Series Specific Loans, (b) any change is restricted by 'Limit on the number of Extensions' and 'Total maximum time limit of Extensions' as specified in the Final Terms and (c) any change is notified on the Platform to the Noteholders. The extension of Rental Agreement leads to extension of the Loan that it is linked to.

The Rental Company may also extend the repayment schedule of one or more Rental Agreements linked to the Series Specific Loans by changing the Loan Interest Payment Date, the Loan Repayment Date and/or the Loan Final Repayment Date without the consent of the Issuer, the SPV or the Noteholders to comply with any new law or regulation, amendment of any existing law or regulation, or any decision of any government or municipal provided that any change is notified on the Platform to the Noteholders.

11.5 *Loan Receivables subject to Buyback Obligation or Repurchase*

Any Loan Receivable subject to the Buyback Obligation or Repurchase (i) will be repurchased by the Rental Company at a price equal to the outstanding principal amount of the Loan Receivable together with any accrued but unpaid Interest and any Late Payment Interest up to (but excluding) the repurchase date, or (ii) the respective Loan will be repaid to the SPV in full together with any accrued but unpaid Interest and any Late Payment Interest up to (but excluding) the full repayment date.

11.6 *Insufficient funds on the Maturity Date*

If any amounts on the Notes are outstanding on the Maturity Date, the Maturity Date will be automatically postponed to the date that is the earlier of (a) the date on which all amounts due and payable under the Notes are paid and (b) the date referred to in Condition 11.7, and Interest will not accrue on the Notes (other than Pending Payments Penalty Fee, if applicable) and any Available Distribution Amount will be paid to the Noteholders on a date as reasonably determined by the Issuer in accordance with the Priority of Payments.

11.7 *After the Maturity Date*

If on any date following the Maturity Date

the Issuer, the SPV and Mintos determines in good faith that there is no realistic prospect of collecting any further funds from the Rental Company if the Issuer and/or the SPV have not received the full amount due from the Buyback Obligation or Repurchase or, if earlier, on the 10th anniversary of the Maturity Date,

as of that date (i) all the Notes outstanding will be cancelled in full, (ii) the Issuer will be

deemed to have fulfilled all its payment and other obligations to each of the Noteholders and (iii) no Noteholder will have any right in respect of any of the Notes.

11.8 *Payments to the Noteholders*

Any payments of Interest and redemption amounts in respect of the Notes will be made to the relevant Investment Account.

11.9 *Taxes*

All payments and/or deliveries in respect of the Notes made by or on behalf of the Issuer will be made subject to any withholding or deduction for any taxes, duties, assessments or governmental charges of whatever nature which may be required to be withheld or deducted.

The Issuer or Mintos will:

- (a) not be liable as a result for, or otherwise obliged to pay, any additional amount to any of the Noteholders in respect of, or compensation for, any such withholding or deduction or any other amounts withheld or deducted;
- (b) not be liable for or otherwise obliged to pay, and the relevant Noteholder will be liable for and/or pay, any tax, duty, charge, withholding or other payment whatsoever which may arise as a result of, or in connection with, the ownership, any transfer (or agreement to transfer), any payment and/or any delivery (or any agreement for delivery) in respect of the Notes held by such Noteholder; and
- (c) have the right but will not be obliged (unless required by law), to withhold or deduct from any amount payable or, as the case may be, any delivery due to the relevant Noteholder, such amount or portion as will be necessary to account for or to pay any such tax, duty, charge, withholding or other payment.

The Noteholders will agree to provide the Issuer and/or Mintos with all information and documentation required by the Issuer and/or Mintos, as the case may be, to satisfy any Latvian or other country tax or regulatory obligations at any time.

11.10 *Payments on Business Days*

If the due date for payment of any amount in respect of any Notes is not a Business Day, the Noteholder will not be entitled to payment of the amount due until the next succeeding Business Day in such place and will not be entitled to any further interest or other payment in respect of any such delay.

12. LIMITED RECOURSE AND NON-PETITION

12.1 Notwithstanding anything in the Base Prospectus, the obligations of the Issuer in respect of the Notes are limited recourse obligations which are payable solely from the sums of principal, Interest, other return and additional amounts (if any) actually received (and identified as such) in relation to the Series Specific Loans.

12.2 All payments to be made by the Issuer in respect of the Notes will be made only from and to the extent of the sums received or recovered from time to time by or on behalf of the Issuer under the Series Specific Loans, subject always to the Priority of Payments.

12.3 In relation to any sums received or recovered, the Issuer (or Mintos on its behalf) will follow these Terms and Conditions in determining to which Series of Notes such sums relate and

such determination will be binding on Noteholders of all Series in the absence of manifest error.

- 12.4 To the extent that the sums referred to in Condition 12.1 are less than the amount which the Noteholders may have expected and been entitled to receive (such difference being referred to as the **shortfall**), the shortfall will be borne by the Noteholders.
- 12.5 Each Noteholder, on subscribing or buying any Note directly, through a portfolio management service of the Platform or any other way, irrevocably accept and acknowledge that it is fully aware that:
- (a) only the sums referred to in this Condition 12, and Conditions 7 and 11 will be available for any payments to be made by the Issuer in respect of the Notes;
 - (b) the sums which are attributable to another Series of Notes are only available in satisfaction of the obligations of the Issuer to such Noteholder;
 - (c) the obligations of the Issuer to make payments in respect of the Notes will be limited to the sums and the Noteholders will have no recourse to the Issuer, Mintos or their respective shareholders, directors, officers, employees, affiliates, successors or assigns in respect of the Notes for the shortfall;
 - (d) no Noteholder is entitled to proceed against the Issuer, the SPV or Mintos for the shortfall;
 - (e) following the realisation and distribution of the net proceeds from the Loan Receivable corresponding to the Series Specific Loan in accordance with the Priority of Payments, the Noteholders or anyone acting on behalf of any of them will not be entitled to take any further steps against the Issuer or Mintos to recover any further sum and the right to receive any such further sum will be deemed as fulfilled; and
 - (f) no Noteholder will be entitled to petition or take any other step or join with any other person in bringing, instituting or joining, insolvency, winding-up, liquidation or bankruptcy proceedings (whether court-based or otherwise), or for the appointment of an examiner, liquidator or analogous person in relation to the Issuer, nor will it have any claim to, or in respect of any sum arising in respect of any assets of the Issuer.
- 12.6 Non-payment of the shortfall referred to in this Condition 12 will not constitute an Event of Default.
- 12.7 None of the shareholders of the Issuer, Mintos, the Rental Company, the Backup Servicer has any obligation to any Noteholder for payment of any amount by the Issuer in respect of the Notes.
- 12.8 The provisions of this Condition 12 will survive redemption of the Notes.
- 13. PURCHASE**
- 13.1 The Issuer may at any time purchase Notes at any price in the open market or otherwise.
- 13.2 Any Note purchased by the Issuer on the sole discretion of the Issuer may be either cancelled or sold to any investor on behalf of the Issuer by Mintos.

14. CANCELLATION

All Notes which are redeemed or cancelled may not be re-issued or resold.

15. PRESCRIPTION

Any and all claims against the Issuer for payment in respect of the Notes will be prescribed and become void unless made within 10 years from the date on which payment in respect of the Notes first becomes due.

16. FURTHER ISSUES

The Issuer may from time to time without the consent of the Noteholders create and issue further Series and further tranches of existing Series of Notes. A further tranche of an existing Series will:

- (a) be fungible with the Notes of that existing Series;
- (b) have the same terms and conditions as the Notes of that Series except for the Aggregate Nominal Amount, the Issue Date, the Issue Price, the Interest Accrual Periods, the first Interest Payment Date and the first Redemption Date; and
- (c) be consolidated and form a single Series with that existing Series of Notes, and references in these Terms and Conditions to Notes will be construed accordingly.

The right of the Issuer from time to time without the consent of the Noteholders to create and issue further Series, includes also the Issuer's right to issue loans' backed and contingent notes according to the base prospectuses and transaction documents for other lending and rental companies of the Eleving Group.

17. EVENTS OF DEFAULT

17.1 Any of the following events will constitute an event of default under the Notes (each, an **Event of Default**):

- (a) if any order is made by any competent court or any resolution passed for the winding- up or dissolution (including any bankruptcy, insolvency, voluntary, forced or judicial liquidation, composition with creditors, a reprieve from payment, controlled management, fraudulent conveyance, general settlement with creditors or reorganisation proceedings or similar proceedings affecting the rights of creditors generally) of the Issuer (save for the purposes of amalgamation, merger, consolidation, reorganisation or other similar arrangements); or
- (b) formal notice is given of an appointment an administrator (including any receiver, liquidator, auditor, verifier), provisional administrator; or
- (c) any application is made, or petition is lodged, or documents are filed with the court or administrator in relation to the Issuer for the actions, proceeding or procedures specified in paragraphs (a) or (b) above, unless such proceedings or petitions are disputed in good faith and are discharged, stayed or dismissed within 90 calendar days of commencement.

17.2 The Issuer is obliged to inform Mintos immediately if any Event of Default should occur. Should Mintos not receive such information, Mintos is entitled to assume that no Event of Default exists or can be expected to occur, provided that Mintos does not have knowledge

of any Event of Default. Mintos is under no obligation to make any investigations relating to any Event of Default. The Issuer will, at the request of Mintos, provide Mintos with details of any Event of Default and provide Mintos with all documents that may be of significance for the application of this Condition 17.

- 17.3 If Mintos has been notified by the Issuer or has otherwise determined that there is an Event of Default, Mintos will, within 20 Business Days of the day of notification or determination, notify the Noteholders according to Condition 20.
- 17.4 Upon the occurrence of an Event of Default, Notes are repaid according to the terms and conditions stipulated by this Base Prospectus and relevant Series Final Terms, unless otherwise required by a rule of the law.
- 17.5 Mintos, subject to the Noteholders indemnifying and holding Mintos harmless from any reasonable expenses, loss or liability, will take every reasonable measure necessary to recover the amounts outstanding under the Notes according to their terms and conditions and Transaction Documents. Mintos will in each case inform the Noteholders about the costs which should be compensated prior to requesting any indemnification. In any case Mintos will charge this compensation of costs only up to the recovered amount. Mintos will not ask for compensation of costs for its in-house staff and resources.
- 17.6 For the avoidance of doubt, if any payment is not made by the Issuer because the Issuer has not received the relevant amounts under the Series Specific Loans so that the Available Distribution Amount after application of the Priority of Payments is not enough to make payments due under the Notes in full, the occurrence of such event will, as such, not constitute an Event of Default.

18. MEETING OF NOTEHOLDERS

18.1 *General provisions*

The Issuer from time to time may convene a meeting of the Noteholders (the **Noteholders Meeting**) to adopt resolutions on certain matters. The Issuer at its own discretion decides which matters will be reserved for passing at the Noteholders Meeting.

These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the Noteholders Meeting or in respect of the relevant resolution and Noteholders who voted in a manner contrary to the majority. As a result, Noteholders may be bound by a change to these Terms and Conditions or by some other decision that affects Noteholders' investment in the Notes even though they have not agreed to such change.

The Noteholders Meeting may adopt its resolutions in one of the two forms as chosen by the Issuer:

- (a) at a meeting held by attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote using ballots provided; or
- (b) by absentee voting (without attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote).

The Noteholders Meeting will be chaired, and minutes taken by a representative of Mintos.

18.2 *Resolutions of the Noteholders Meeting*

Matters put to the vote at a Noteholders Meeting and its agenda will be decided by the Issuer.

The Noteholders may neither pass resolutions on the matters not included in its agenda nor amend the agenda.

Resolutions passed by the Noteholders Meeting and voting results will be provided to the persons eligible to participate in the Noteholders Meeting in a report, which will be disclosed to the Noteholders as per the procedure prescribed with regard to sending notices of the Noteholders Meeting, within 5 Business Days after the closing date of the meeting or the final date for submitting the voting ballots in case of absentee voting. However, the failure to do so will not invalidate the resolution.

The resolution will be binding on all the Noteholders, whether or not present at the Noteholders Meeting and each of them will be bound to give effect to it accordingly.

18.3 *Information on holding a Noteholders Meeting*

The Issuer will notify the Noteholders about the Noteholders Meeting in accordance with the procedure below.

A notice of the Noteholders Meeting (the **Notice**) will be given according to Condition 20 no later than 10 days in advance.

The Notice will be given to the Noteholders registered on the date of the Notice in the electronic register of Noteholders maintained by Mintos.

The Issuer may decide not to publish the Notice on the Platform. In such a case within the time specified in this Condition 18.3 the Issuer will send the Notice to the Noteholders by email.

The Issuer may at its own discretion make available information to the Noteholders entitled to participate in the Noteholders Meeting as part of preparations for the Noteholders Meeting.

18.4 *Quorum at a Noteholders Meeting*

A Noteholders Meeting will be deemed quorate if attended by Noteholders aggregately holding more than 50% of:

- (a) the aggregate Principal Amount Outstanding of all Series of Notes towards the Rental Company on the date of the Notice if the decision is related towards all Series of Notes outstanding; or
- (b) the aggregate Principal Amount Outstanding of the relevant Series of Notes on the date of the Notice if the decision is related towards the relevant Series of Notes outstanding.

The number of votes for each Noteholder equals the Principal Amount Outstanding in the respective Series on the date of the Notice.

When a Noteholders Meeting is held by attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote, the Noteholders

registered to participate in the Noteholders Meeting and the Noteholders whose ballots have been received no later than 2 days before the meeting will be deemed to have participated in the meeting.

When a Noteholders Meeting is held in the form of absentee voting, the Noteholders whose ballots have been received before the final date for submitting the ballots will be deemed to have participated in the meeting.

Where there is no quorum for a Noteholders Meeting, a second Noteholders Meeting will be held with the same agenda. Such second Noteholders Meeting will be deemed quorate if attended by Noteholders aggregately holding more than 30% of:

- (a) the aggregate Principal Amount Outstanding of all Series of Notes towards the Rental Company on the date of the Notice if the decision is related towards all Series of Notes outstanding; or
- (b) the aggregate Principal Amount Outstanding of the relevant Series of Notes on the date of the Notice if the decision is related towards the relevant Series of Notes outstanding.

Subject to the quorum being present, the decisions on the Noteholders Meeting agenda will be adopted per each item of the agenda by the majority from the total amount of votes provided.

18.5 *Voting ballots*

Ballots for voting at a Noteholders Meeting will be sent together with the Notice according to Condition 18.3.

Ballots for voting will be in the English language.

Voting could be convened as an e-voting through filling-out an electronic voting ballot through the interface of the Platform.

Noteholders included in the list of those entitled to participate in the Noteholders Meeting other than the Noteholders Meeting held in the form of absentee voting, or their representatives, may register to participate or forward their completed ballots to the Issuer. Voting ballots will be counted towards the calculation of the quorum and voting results if received by the company no later than 2 days before the Noteholders Meeting.

The voting ballot will contain the information about the Noteholders Meeting including but not limited to:

- information about the Issuer, including address and contact person;
- details identifying the Series of Notes;
- form of the Noteholders Meeting (attendance or by absentee voting);
- date, place and time of the Noteholders Meeting if it is held in the form of attendance of the Noteholders;
- Principal Amount Outstanding; and
- voting options for each item on the agenda, expressed as “for”, “against”, or

“abstained”, and the indication that the voting ballot must be signed by a person entitled to participate in the Noteholders Meeting or its representative unless convened by e-voting.

When voting by ballots, only those voting ballots are counted where for each item only one voting option is selected. The voting ballots completed in breach of the aforementioned requirement will be deemed invalid. However, if there are several items put to the vote on the voting ballot, breach of the aforementioned requirement with respect to one or several items will not affect the validity of the remaining ballot. If a voting ballot is rendered invalid with respect to voting on one, several or all items included in such ballot, the votes so cast in such ballot will not be excluded from the calculation of the quorum. If a voting ballot is rendered invalid, the votes on the items contained in the voting ballot will not be counted.

18.6 *Counting*

The counting functions will be performed by Mintos, which will check the powers of, and register the participants in a Noteholders Meeting, determine the quorum at a Noteholders Meeting, count the votes and determine the voting results, draw up the voting minutes and hand over the voting ballots to the archive.

19. SUBSTITUTION

- 19.1 The Issuer or any previous substitute company may be substituted by any other company as principal obligor under all of the Notes then outstanding provided that such substitution would not be materially prejudicial to the interests of the Noteholders and subject to the other Terms and Conditions being complied with, including with provisions of the Transaction Documents, and further provided that the Latvijas Banka has given its prior consent to such substitution if any needed according to the applicable law.
- 19.2 By subscribing to, or otherwise acquiring, the Notes, the Noteholders expressly consent to the substitution of the Issuer and to the release of the Issuer from any and all obligations in respect of the Notes and any relevant agreements and are expressly deemed to have accepted such substitution and the consequences of such substitution.
- 19.3 Any such substitution will be notified to Noteholders in accordance with Condition 20.

20. NOTICES AND PROVISION OF INFORMATION

- 20.1 Notices to the Noteholders will be given upon sole discretion of the Issuer in the English language and/or any other language the Issuer deems fit for such purposes and will be given by using one or several communication channels:

- 20.2 Any notices, demands, claims or other communication to the Issuer by any Noteholder will be in the English language and will be given by using one of the following communication channels:
- (a) delivered by hand or courier and deemed to have been given on the same day of delivery; and

- (b) delivered by registered mail and deemed to have been given on the 10th calendar day following the date indicated on the stamp by the postal service provider on the acceptance of a registered letter.
- 20.3. For the purposes of Condition 20.2 notices or other communications addressed to the Issuer will be given to Mintos, serving as an agent for this purpose:

AS Mintos Marketplace

For the attention of SIA Mintos Finance No.1

21. AGENTS

- 21.1 Mintos acts solely as an agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, any Noteholder.
- 21.2 The Issuer subject to the provisions of the Transaction Documents reserves the right at any time to vary or terminate the appointment of Mintos, the Rental Company and any other party to any of the Transaction Documents.

22. FORCE MAJEURE

Neither the Issuer nor Mintos will be responsible for any failure to perform any of its respective obligations under these Terms and Conditions which is due to any reason that is independent of that person's will and has resulted from a *force majeure* event. A *force majeure* event will apply only and solely if that person has taken all steps that depend on it in order to perform the obligation. Once the *force majeure* event has finished, that person must immediately resume the performance of the obligation. The following circumstances will be considered as *force majeure* events:

- (a) extraordinary and unavoidable circumstances including natural disasters, fire, flood, earthquake, warfare, terror acts, riots and strikes;
- (b) technical failures, delays or malfunctions; failure of computers, communications systems, hardware and/or software; power supply malfunctions; or other critical infrastructure malfunctions, which neither the Issuer nor Mintos could have prevented or predicted;
- (c) decisions and/or activities of local and/or foreign public authorities, and/or international organisations;
- (d) entry into force, amendments and/or suspension of a statutory act binding on either the Issuer or Mintos affecting the performance of obligations under these Terms and Conditions; and
- (e) any circumstance defined as a *force majeure* circumstance in any of the Transaction Documents.

23. GOVERNING LAW AND JURISDICTION

- 23.1 The Notes (and any non-contractual obligations arising out of or in connection with the Notes) are governed by and will be construed in accordance with the law of the Republic of Latvia.
- 23.2 The courts of the Republic of Latvia are to have jurisdiction to settle any disputes which may

arise out of or in connection with the Notes (including any disputes relating to any non-contractual obligations arising out of or in connection with the Notes) and accordingly any legal action or proceedings arising out of or in conjunction with the Notes may be brought in such courts. The Issuer and each of the Noteholders irrevocably submits to the jurisdiction of such courts.

24. AMENDMENTS AND MODIFICATIONS

To comply with any applicable law, the Issuer may validly amend or supplement these Terms and Conditions by publishing the changed Terms and Conditions on the Platform without the consent of the Noteholders.

25. LIMITATION OF LIABILITY, AND REPRESENTATION AND WARRANTIES OF THE NOTEHOLDER

25.1 Notwithstanding anything in the Base Prospectus, other than with respect to gross negligence or wilful misconduct by the Issuer and/or Mintos, neither the Issuer nor Mintos will be held liable by any Noteholder for:

- (a) any material error, misrepresentation, omission or fraud by the Rental Company;
- (b) failure of the Rental Company for whatever reason to inform the Issuer and/or Mintos of the Payment Event having occurred or for the information being inaccurate or wrong;
- (c) the Loan Receivables; or
- (d) determinations and decisions when distributing amounts under the Notes, including, when applying the Priority of Payments, deciding whether to defer payment or make a partial payment, relying upon or deciding if and when there is no realistic prospect of collecting further funds under a Series Specific Loan, including in the event of default of the Rental Company.

25.2 In any and all cases liability of the Issuer and/or Mintos to any Noteholder under these Terms and Conditions will be limited to the amount invested in the impacted Notes by the Noteholder.

25.3 Each Noteholder, on subscribing or buying any Note directly, through a portfolio management service of the Platform or any other way, irrevocably accept and acknowledge that it is fully aware that:

- (a) the Issuer and Mintos do not make any representation or warranty in respect of, or will not at any time have any responsibility for, or, save as otherwise expressly provided in these Terms and Conditions, liability or obligation in respect of the performance and observance by any Renter of its obligations under the Rental Agreement linked to the relevant Series Specific Loan, the Rental Company of its obligations under the Cooperation Agreement on Issuance of Loans or Cooperation Agreement, and/or by the security provider of its obligations under the Pledge Agreement, or the recoverability of any sum of the principal, Interest, other return or any additional amounts (if any) due or to become due from any Renter, the Rental Company, and/or the security provider;
- (b) the Issuer and Mintos will not at any time have any responsibility for, or obligation or liability in respect of, the condition, financial or otherwise, covenant, creditworthiness, affairs, status or nature of any Renter, the Rental Company, the

security provider or any other person;

- (c) the Issuer and Mintos will not at any time be liable for any representation or warranty, or any act, default or omission of any Renter, the Rental Company, the security provider or other person;
- (d) the Issuer will not at any time have any responsibility for, or liability or obligation in respect of, the performance and observance by Mintos of its obligations under the Transaction Documents or any other agreement entered or to be entered into by and between the Noteholders and Mintos;
- (e) financial servicing and performance of the terms of the Notes depend upon both the performance by each Renter of its obligations under the Series Specific Loan, its duties to make payments under the Series Specific Loan and its credit and financial standing, and the performance by the Rental Company, and/or the security provider of their respective contractual obligations towards the Issuer and Mintos as well as their respective credit and financial standing;
- (f) the Notes, which the Noteholder has or will acquire, reflect the performance of the relevant Series Specific Loans. The Noteholder has no direct recourse to any of the Series Specific Loans or the corresponding Loan Receivables. Once the Loan Receivables have been realised according to these Terms and Conditions, the Noteholder is not entitled to take any further steps against the Issuer or Mintos to recover any further sums due and the right to receive any such sum will be extinguished. The Noteholder accepts not to attach or otherwise seize any of the assets of the Issuer. In particular, the Noteholder will not be entitled to petition or take any step for the winding-up, the liquidation or the bankruptcy of the Issuer or any similar insolvency-related proceedings and such petition or action will be treated as null and void as from its initiation time; and
- (g) the Investment Accounts will be opened and held by the Noteholder fully operational with Mintos while the Noteholder holds any Notes.

13. TAXATION

The information provided in this section will not be treated as legal or tax advice; and prospective investors are advised to consult their own tax advisors as to the tax consequences of the subscription, ownership and disposal of the Notes applicable to their particular circumstances. The following is a general summary of certain tax considerations in the Republic of Latvia in relation to the Notes. It is not exhaustive and does not purport to be a complete analysis of all tax consequences relating to the Notes, as well as does not take into account or discuss the tax implications of any country other than the Republic of Latvia.

Tax laws of the Noteholder's country of residence for taxation purposes and of the Issuer's country of residence may have an impact on the income received from the Notes.

This summary is based on the laws of Latvia as in force on the date of this Base Prospectus and is subject to any change in the law that may take effect after such date, provided that such changes could apply also retroactively.

Latvia has entered into a number of tax conventions on elimination of the double taxation (hereinafter - DTT), which may provide a more favourable taxation regime. Therefore, if there is a valid DTT between Latvia and the country of tax residence of a prospective Noteholder, it should be also examined. The procedures for application of tax conventions are provided in the Republic of Latvia Cabinet of Ministers' Regulations No. 178 "*Procedures for Application of Tax Relief Determined in International Agreements for Prevention of Double Taxation and Tax Evasion*", adopted on 30 April 2001.

Taxation of the Issuer

The Issuer is a corporate income tax payer in Latvia. According to the Latvian tax law, the annual profit earned by entities in Latvia is not taxed. Instead, corporate income tax is paid on dividends, fringe benefits, gifts, donations, representation costs, non-business related disbursements and transfer pricing adjustments. The tax rate applicable is 20%, however, the taxable base is divided by the coefficient 0.8, thus the effective Corporate income tax rate is 25%.

Taxation of individual Noteholders

Resident individuals

An individual will be considered a resident of Latvia for taxation purposes if at least one of the following requirements is met:

- the declared place of residence of this person is in Latvia;
- the person stays in Latvia for at least 183 days for a period of 12 consecutive calendar months;
- the person is a Latvian citizen who is employed by the government of Latvia in a foreign country.

Following the Latvian tax laws the interest income received by the individual tax resident in Latvia is subject to tax at the rate of 25.5%. The interest income from the Notes for resident individuals will be subject to 25.5% personal income tax that will be withheld by the Issuer before the Interest payment is made by the Issuer to the Noteholder. The tax withheld by the Issuer is a final tax liability on the interest income received.

The income from the sale of the Notes is treated as an income similar to the interest income for Latvian personal income tax purposes and will be subject to 25.5% personal income tax and the tax is payable by the individual him/herself.

Non-resident individuals

An individual would be considered a non-resident of Latvia for taxation purposes in all cases unless he/she is a tax resident of Latvia. Interest income from the Notes received by the non-resident individual is subject to a 5% withholding tax rate for investors who invest as private persons and are tax residents of the EU/EEA. For other individual investors and those who have not confirmed tax residence and not investing as a private person 25.5% withholding tax rate is applied. According to the general practice the tax withheld in Latvia might be deducted from the tax payable by the investor in his/her residence country (as tax paid abroad). However, we recommend consulting with the respective country's tax administration or tax adviser to clarify the procedure and documents required to perform such a deduction (if any).

The tax rate might be reduced based on the Double Tax Treaty between Latvia and the respective country. The list of the Double Tax Treaties concluded by Latvia is available [here](#).

The income from the sale of the Notes will be subject to 25.5% tax and the tax would be payable by the individual him/herself, if the buyer of the Notes is an individual or legal entity non-resident of Latvia.

Taxation of legal entity Noteholders

Resident legal entities

A legal entity would be considered a resident of Latvia for tax purposes, if established pursuant to Latvian law. Interest payments on the Notes and proceeds from the disposal of the Notes received by Latvian resident legal entities will not be subject to withholding tax in Latvia. Under the Latvian tax law retained earnings are exempt from corporate income tax and only profit distributions are taxed. Distributed gross profits are subject to the 20% profit tax. Corporate income tax on the net amount of profit distribution is determined by dividing the net amount with a coefficient of 0.8 (i.e., the effective tax rate on net distributed profit is 25%).

Non-resident legal entities

A legal entity would be considered a non-resident of Latvia for taxation purposes in all cases unless it is a tax resident of Latvia. The interest income and capital gains from the sale of the Notes for non-resident legal entities will not be taxable in Latvia (i.e. gross income will be paid), except if the income recipient is located, registered, or incorporated in a no-tax or low-tax country (so-called "tax havens"; if this is the case - 25.5% tax will be withheld by the Issuer in Latvia). The list of "tax havens" according to the Latvian law includes UK Anguilla, US Guam, US Samoa, US Virgin Islands, Russian Federation, Republic of Fiji, Republic of Palau, Republic of Panama, Independent State of Samoa, Republic of Trinidad and Tobago, Republic of Vanuatu.
