

# COMPANY PRESENTATION APRIL 2019

Luxembourg Finance Awards

> Winner 2018

### MyBucks is a determined growing digital banking group in Sub-Saharan Africa

Banking the unbanked

MyBucks is a digital banking group with the vision to be the leading provider of financial services and products to the underbanked and unbanked customers in Africa using technology

MyBucks provides banking, credit and insurance products through both digital and traditional channels to c.374k active clients in Sub-Saharan Africa today

MyBucks uses in-house, proven successful, advanced proprietary A.I. algorithms for credit granting and fraud prevention

Since inception, MyBucks has disbursed in excess of 2.9m loans for a total value that exceeds EUR971m to date

First to launch a full bank branch with refugee banking services unlocking local economy and providing financial literacy courses

Internationally awarded:

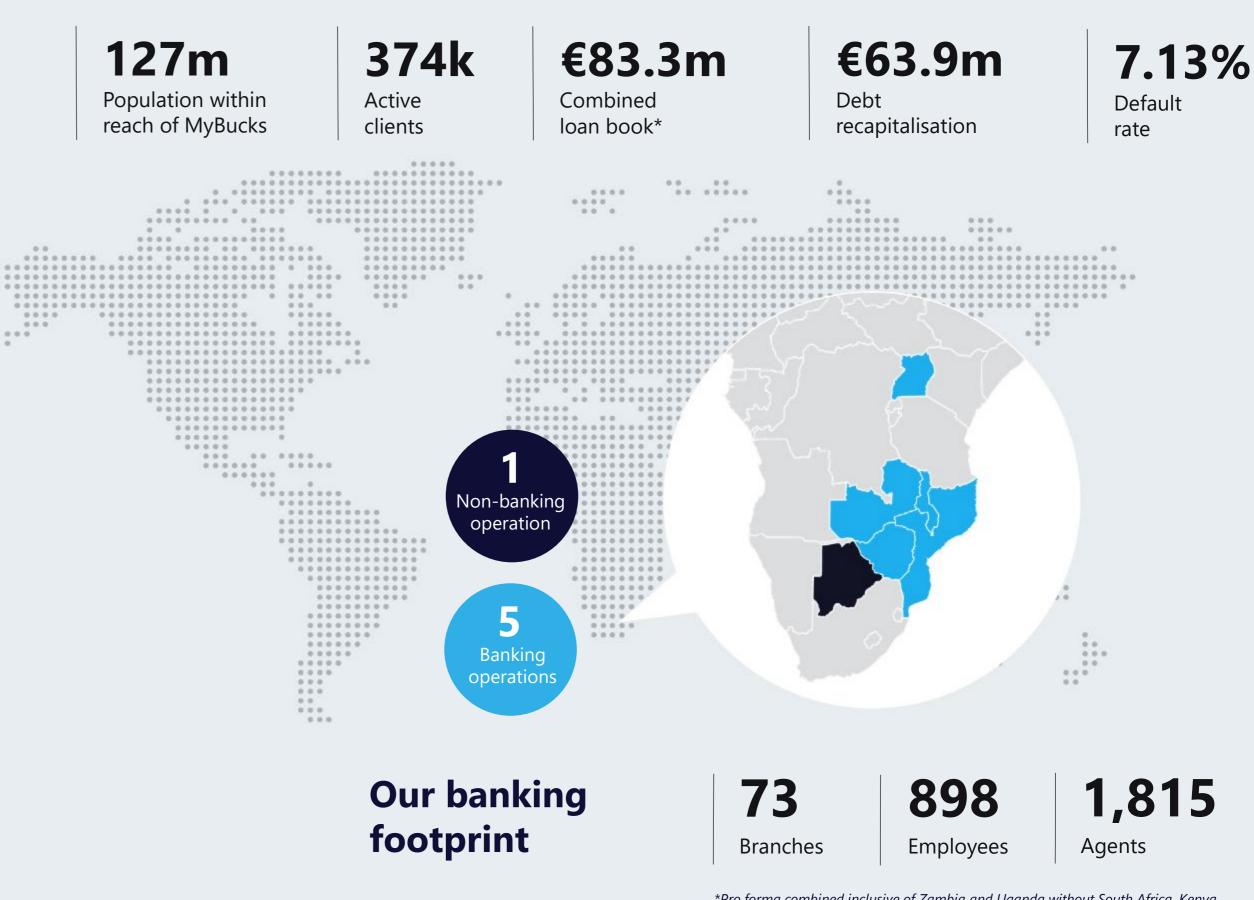

\*Pro forma combined inclusive of Zambia and Uganda without South Africa, Kenya

INVESTOR PRESENTATION www.mybucks.com

### **Evolution of the MyBucks group**

The improved MyBucks platform is in position for future growth

2011

Capitalisation with US\$10m
Development of core lending tech
Launch in South Africa

Conversion of Zimbabwe into deposittaking license Partnership with OI announced Expansion into Poland and Spain

#### 2017

Acquisition of NFB Malawi (50%), deposittaking Acquisition of FairGo Finance in Australia Significant expansion of data science team

#### 2019

Acquisition of balance of NFB Malawi (50%) Negative equity due to continued losses Group Restructuring triggered

2012 - 2014

Expansion into Botswana, Kenya, Malawi, Swaziland and Zimbabwe (Lending only)

Anti-dilutive growth strategy with mezzanine debt incurred of c. US\$30m at cost of 20-30% p.a.

#### 2016

Conclusion of acquisition of deposit-taking operations OI Mozambique (100%) and OI Uganda (49%)
Acquisition of OI Kenya and OI Tanzania lending operations
Listing on the Frankfurt Stock Exchange raising c. EUR15.5m

#### 2018

Construction of FinTech Campus (Office Park in Pretoria)
Significant expansion of overhead cost structures
Private placement of EUR11.7m

#### 2020

Group Debt
Recapitalization of EUR65m
Appointment of new Board
and Management
Disposal of non-core
assets

#### **Early Years – Profitability Driven**

MyBucks' first five years of operations were driven by operating profitability – and deploying all financial capital into its loan book.

Significant growth was noted, however, Founders did not dilute their shareholding and the growth was funded with expensive mezzanine capital.

Capital structure issues originated with an interest bill at group level of c. US\$8m p.a.

#### **Growth Phase – Banking Transformation**

Initiated a successful strategy of converting the operating businesses into banks – significant growth in profitability in underlying financial institutions.

Technology launched ahead of the market and competition in Africa.

Significant capital lost in over-expansion into Poland, Spain and Australia (non-core geographies) as global expansion pushed by original founders.

Significant operational growth, with a continued highly leveraged balance sheet at high funding costs

#### **Liquidity crunch**

Dave van Niekerk assumed both Executive Chairman and CEO role, to drive expansion and TN departed for strategic differences.

Significant additional overhead expenses incurred and expansion of group staff to >100 people, and an office complex "FinTech Campus" constructed in South Africa Following a failed capital raise, the business effectively ran out of money and into negative capital in excess of EUR40m.

Excessive and inflated overhead structure created, without significantly growing operations ballooning gross holding company debt to c. EUR108m.

#### **Group Restructuring**

- Disposal of non-core lending assets in Australia, East Africa, Poland, South Africa and Spain
- Debt recapitalization of EUR65m returning the company to positive equity
- Strengthen and improved the board of directors focussing on good corporate governance principles as well as changed key management

### The improved strategy is...

The future will be driven by

01

#### **Focus on Banking**

- Expansion on wholesale and retail banking in all our markets
- Leverage on technology as an enabler to drive business growth
- Provide easily accessible digital basic financial services to bottom and middle of the pyramid

02

#### **Focus on Growth**

 Expanding existing banking operations to Top 5 positions by retail market share by 2024

#### **Focus on Efficiency**

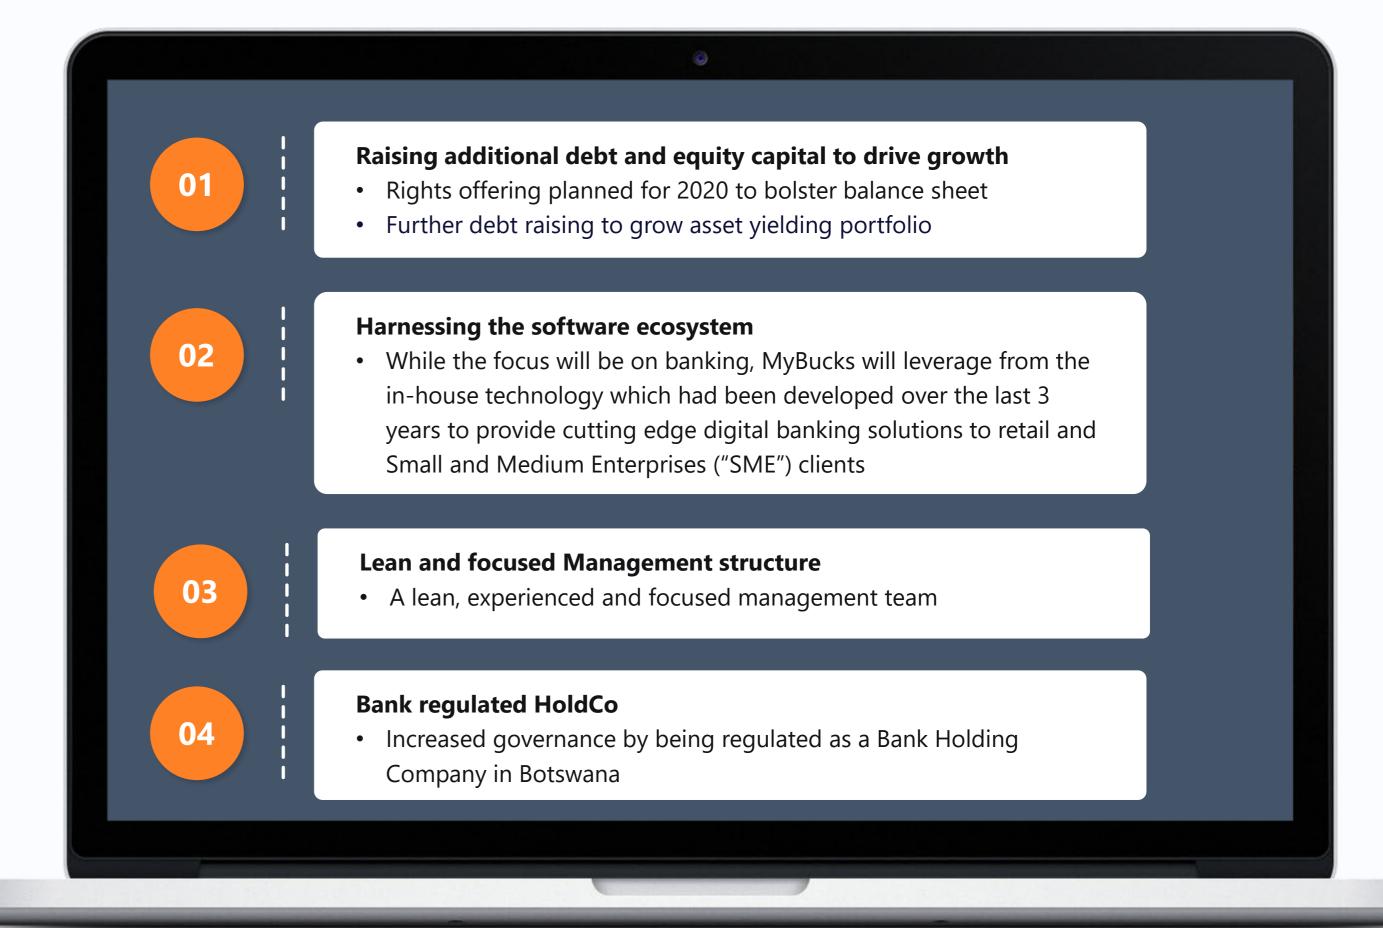

• Target cost to income ratio of 40% in the existing banking operations in the medium term

#### **Focus on Profitability**

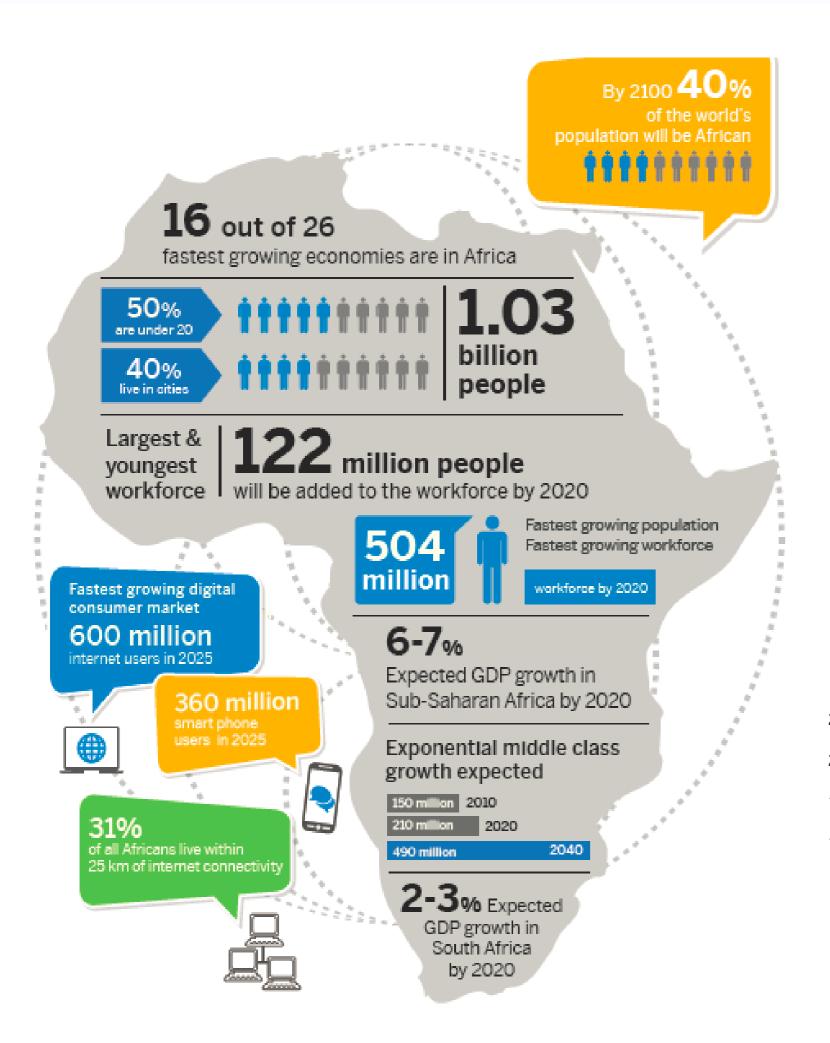

• Sustainable and stable earnings, with a target return on equity (ROE) of 30% p.a.

### ...this strategy is complemented by

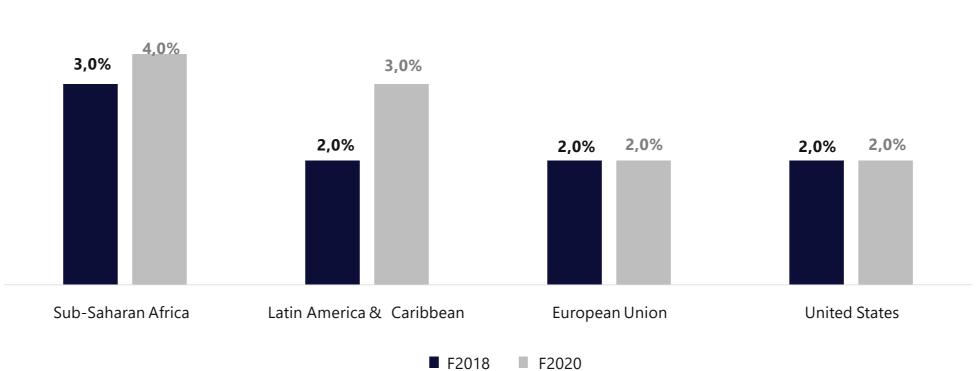

### Why Africa and Financial Inclusion?

Building a SME and Individual focused banking group in Sub-Saharan Africa

### Africa is the fastest growing continent in the world and has the best growth prospects:

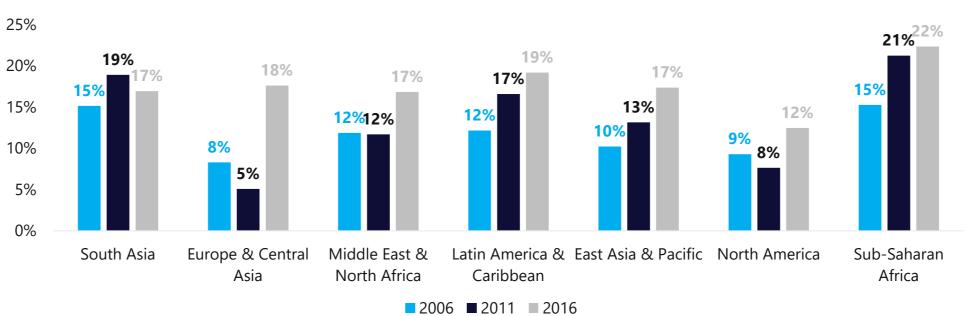

### Africa the young continent

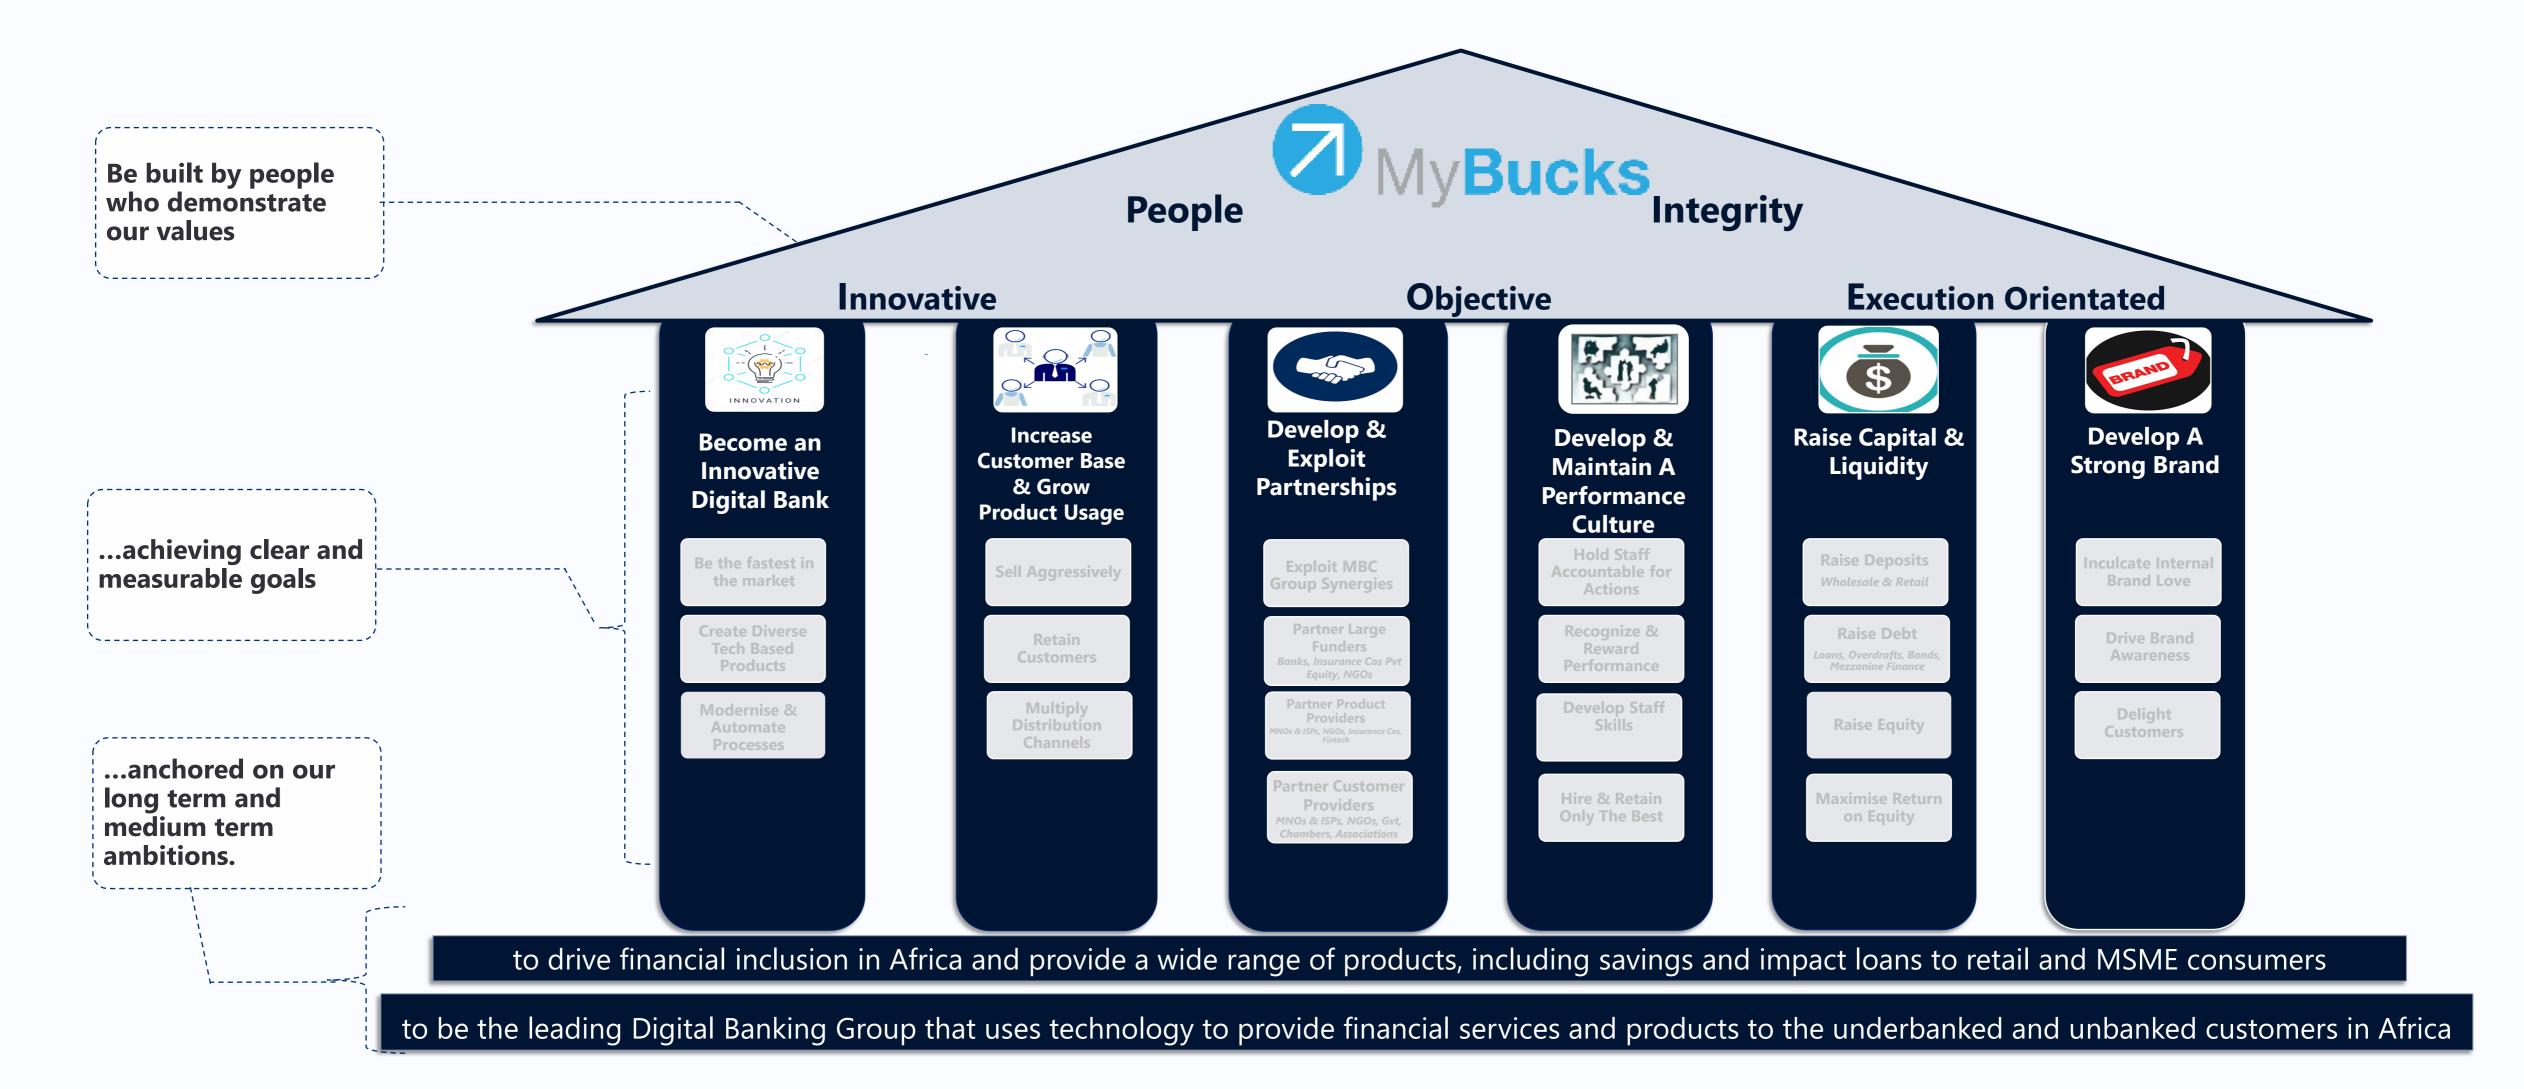

The 2nd largest and 2nd most populous continent

#### Return on equity in the banking sector <sup>1</sup>

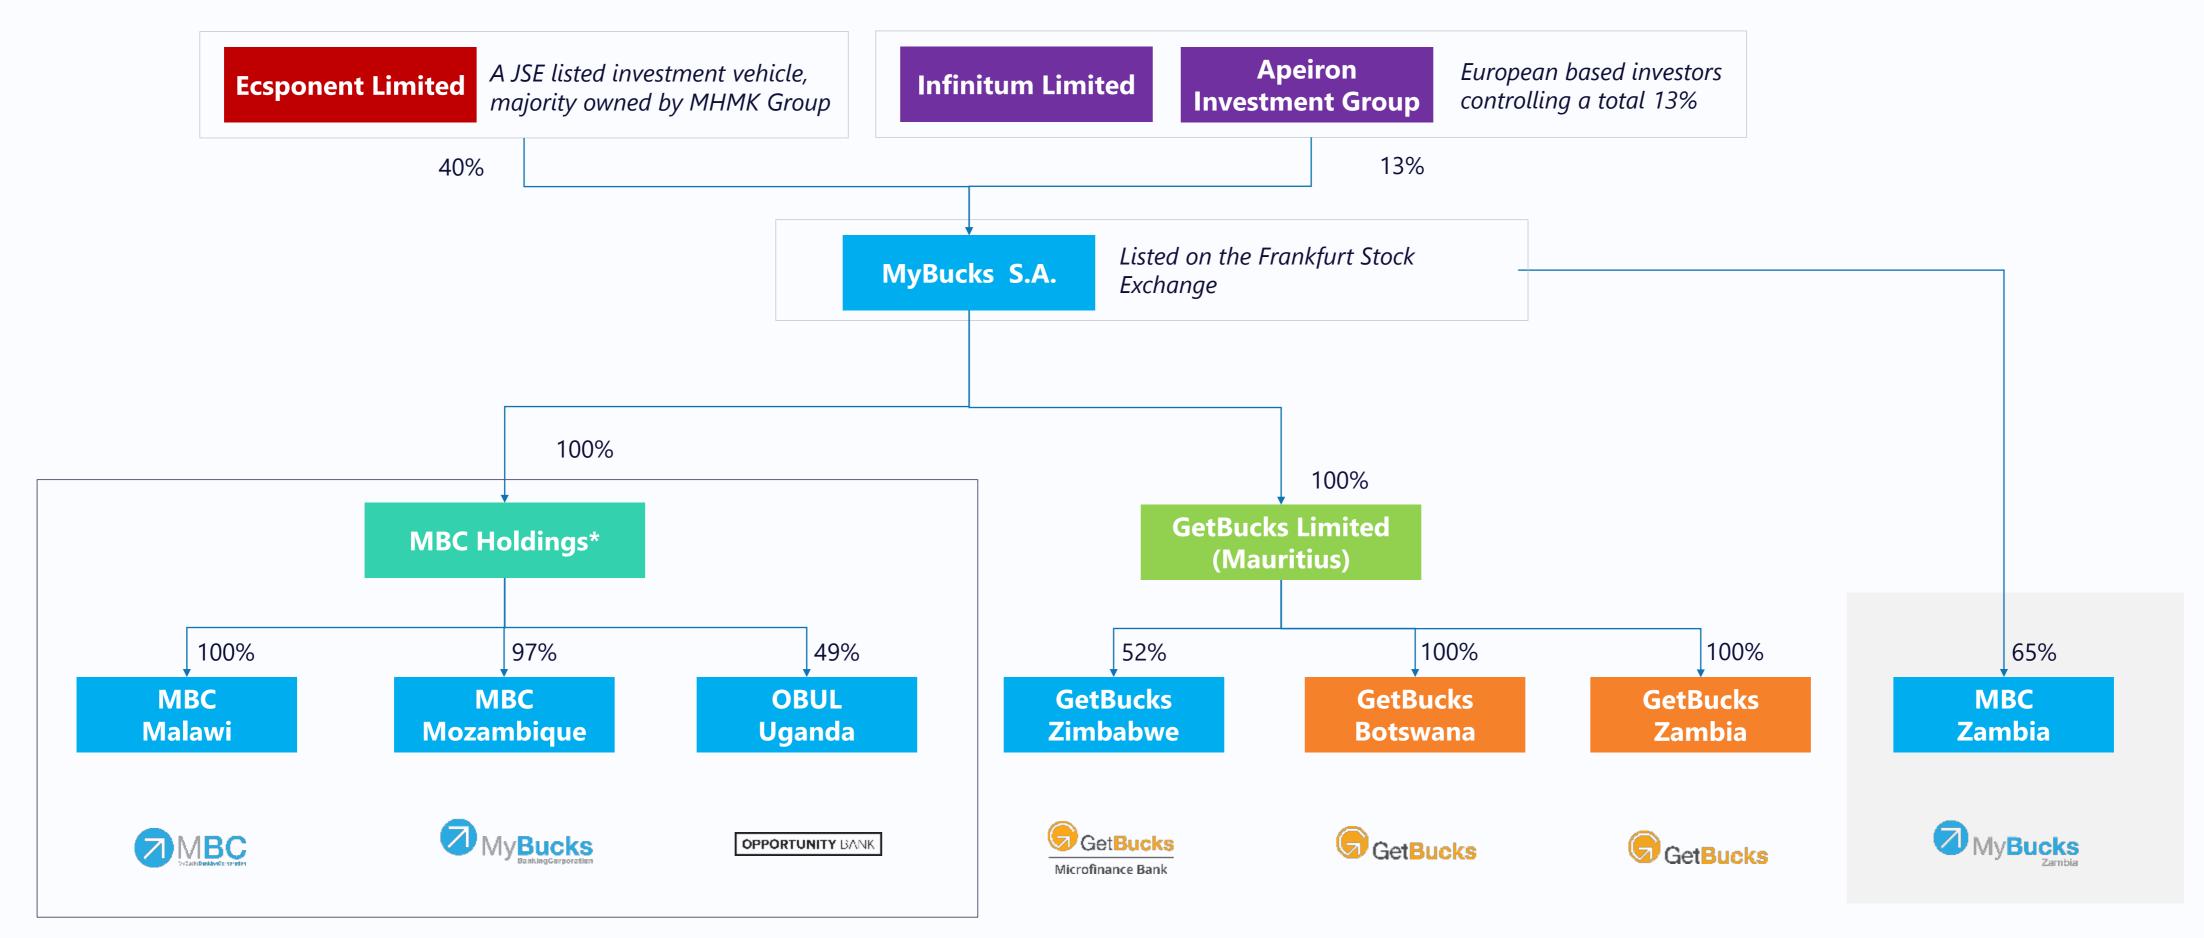

c.41% of the population are under the age of 15

### **MyBucks Mission and Vision**

### **MyBucks and MBCH Structure**

<sup>\*</sup> This entity is intended to be incorporated eventually as a regulated bank holding company, today – these entities are held directly by MyBucks S.A.

- During the financial year ending 30 June 2019, MyBucks S.A. recorded a record total comprehensive loss of c. EUR55m predominantly driven by:
  - Currency losses (predominantly resulting from the devaluation of its operation in Zimbabwe) equivalent to c. EUR18m (remaining carrying value of Zimbabwe now EUR2.9m (30 June 2019). This number will be impacted by the change in the preparation of accounting in Zimbabwe with the application of Hyperinflation as required by IAS 29
  - Losses originating from its lending segment equivalent to c. EUR15m (operations disposed off subsequent to year-end)
  - Once-off expenses and impairments related to the restructuring equivalent to c. EUR16m
  - High group operational and refinancing costs as a result of the inefficient capital structure and excessive overhead layer
- Despite the challenges operationally, MyBucks, however grew its customer deposit base from c. EUR21m as of 30 June 2018 to c. EUR60m as of 30 June 2019 predominantly driven by its operations in Malawi and Mozambique
- Its core banking segment recorded a profit of EUR9m for the period ending 30 June 2019,
   and is expected to continue its profitability
- MyBucks managed to maintain a loan book of EUR88m, despite the devaluation of Zimbabwe effectively growing the loan book in its other key jurisdictions
- MyBucks ended the year as a result of these losses with a negative equity position of c. EUR45m, which it is in the process of rectifying through a EUR64m Debt Recapitalization
- MyBucks expects to still record a loss for the period ending 31 December 2019, as a result
  of the Recapitalization only being concluded towards the end of the period

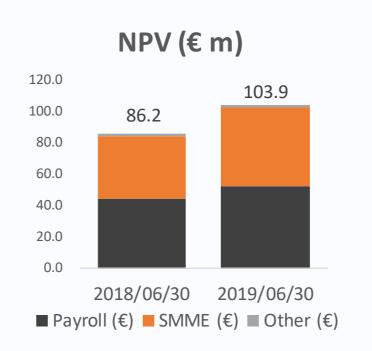

### **MyBucks - Financial assessment**

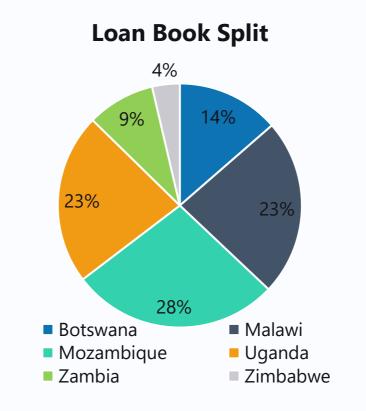

### Highlights

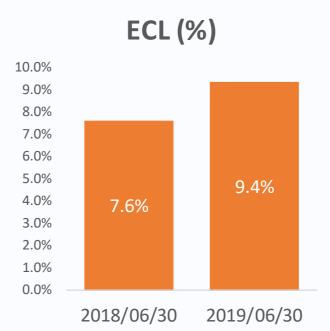

- Despite recording significant group losses in the past, MyBucks key operating subsidiaries expects to be profitable going forward
- Period ending 31 December 2019 remains loss making, as the Debt Recapitalization was only concluded towards the end of the financial year
- Long-term strategic ambition is too limit group overhead expenses and refinancing costs to approximately EUR4m per annum combined (vis-à-vis historic pre restructuring values of c. EUR11m for the period 1 July 2017 to 30 June 2018, and EUR10m for the period 1 July 2018 until 31 December 2018) whilst significantly growing the profitability of the underlying subsidiaries

#### **BANKING CREDIT QUALITY**

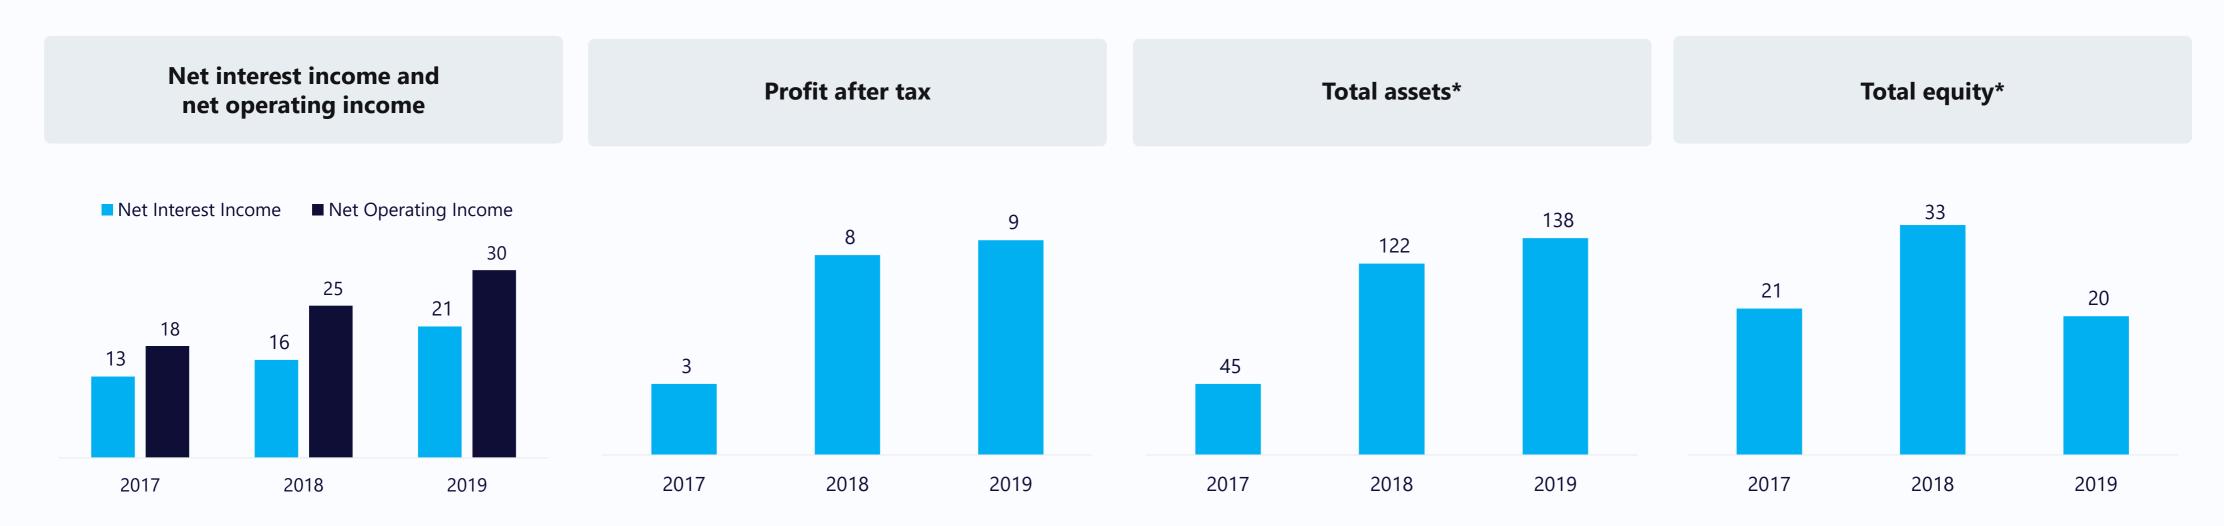

- Combined loan book amongst the six banking entities increased by c. EUR27.7m despite a c. EUR15 devaluation drop in Zimbabwe (Malawi included not previously included)
- Portfolio well diversified, with strong exposure to Malawi,

  Mozambique and Uganda being among the faster growing
  economies in the region
- Credit statistics of the loan book slightly deteriorated due to onceoff effects that have been mitigated:
  - Cyclone in Mozambique impacting its SMME book in FY2019 (once-off)
  - Aggressive payroll lending expansion in Mozambique, using brokers without quality control (structures adjusted)
  - Significant short-term unsecured lending in Zambia outside normal approval procedures (identified, impaired and new management installed)
- MyBucks expects the loan book quality to improve over the next twelve-month period and the diversification of the business to strengthen against a growth in its Zambia and Zimbabwe banking businesses
- Note: Numbers are pro forma combination of the six entities that will remain in the Group

### 3 Year historical financial performance of the banking entities

Stable growth and sustainable earnings

<sup>\* 2019</sup> Balance sheet based on June pro-forma amounts and group NAV as acquisition values

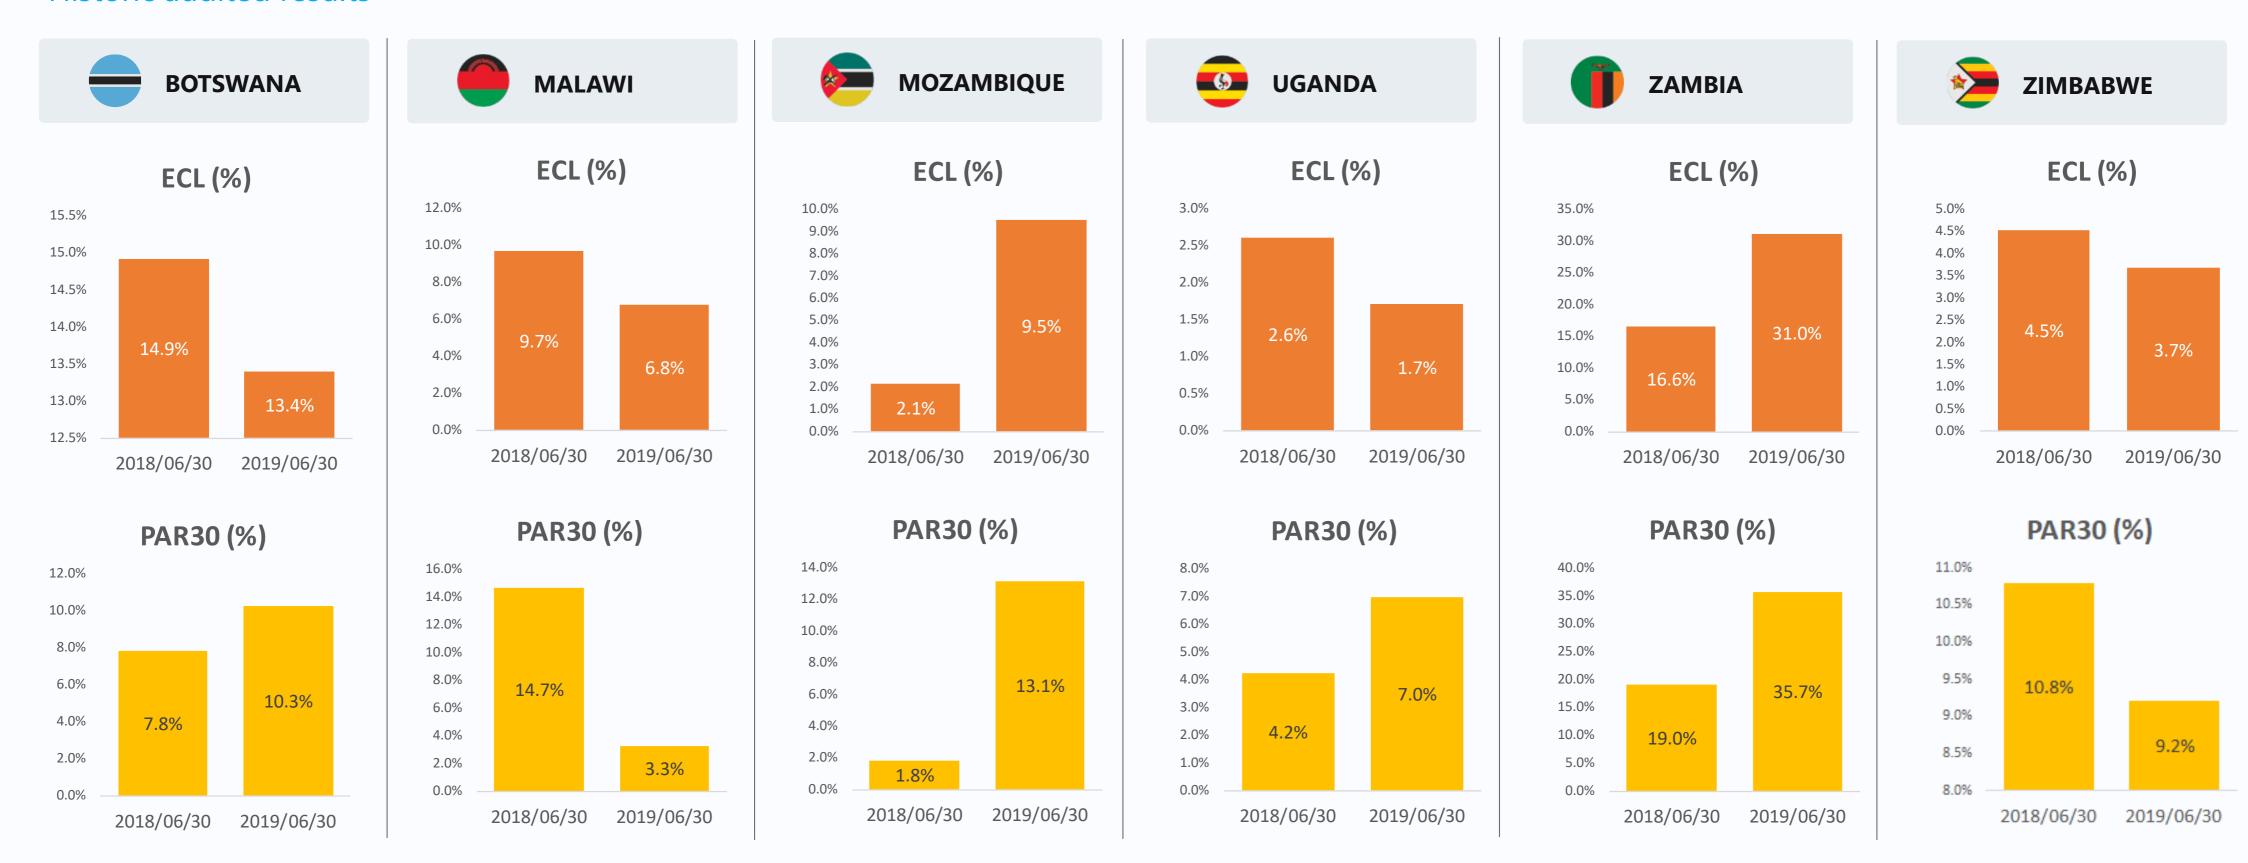

On a Standalone basis, the 6 countries within the MyBucks Group not only delivered profit over the last years, but showed consistent growth on all key metrics

### **MyBucks credit quality**

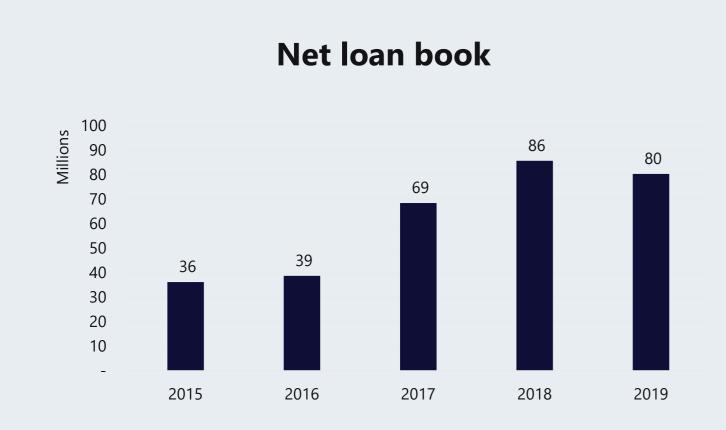

Historic audited results

- Improvement in Expected Credit Loss (ECL) across 4 countries Botswana, Malawi, Uganda and Zimbabwe.
- Deterioration noted in Mozambique as a result of the credit loss experienced at the time of the Cyclone Idai natural disaster. Zambia experienced unexpected delays in payments from the Central Government payroll

### **Group Restructuring**

Key changes implemented to return the group to positive financial health.

	Before 31 <sup>st</sup> of March 2019	Action Taken Post 31 March 2019 To Date
Governance	<ul> <li>Founder (Dave van Niekerk) chaired board</li> <li>No separation of duties, no compliance with board charter</li> <li>No appointed CFO on Board</li> </ul>	<ul> <li>Dismissal of Dave van Niekerk and his key staff and management team (about 100 individuals)</li> <li>Implementation of new Board Charter</li> <li>Appointment of professional management (CEO and CFO)</li> <li>Appointment of Non-Executive Chairman</li> </ul>
HQ Cost	<ul> <li>Large and expensive support structure (Head office) with c. 108 staff members established by former Chairman</li> <li>Large HQ constructed in SA</li> </ul>	<ul> <li>Retrenchment of over 100 staff resulting in (including select new hires) a lean head-office of 10 staff</li> <li>South African office park disposed for c. EUR10m, and management services entity closed to avoid excessive spending</li> <li>Ancillary costs curtailed significantly and reduced to bare minimum</li> </ul>
Strategy	<ul> <li>No clear strategic focus with global operations</li> <li>Significant innovation expenses without focus on financial return</li> <li>Continuous losses as a tech business considered acceptable in trying to build a unicorn</li> </ul>	<ul> <li>Divestment from non-core markets (Poland, Australia) and focus on Africa, with application of proceeds to debt reduction</li> <li>Divestment from lending-only operation with no outlook to upgrading to a deposit-taking license (South Africa, Swaziland, Kenya and Tanzania) through a structured disposal</li> <li>Building a digital bank offering basic financial services with technology subject to consolidated supervision</li> </ul>
Capital	<ul> <li>Negative parent equity of (+/-)EUR46m</li> <li>EUR95.5m net holding co debt at annual cost of c. EUR16.5m</li> </ul>	<ul> <li>Converted EUR63.9m of claims into equity leading to positive pro forma parent equity of c. EUR18m</li> <li>Remaining net holding co debt of c. EUR39m at annual cost of c. EUR7m, for which a shareholder approval is in place to issue sufficient shares at EUR1 per share to achieve repayment of conversion</li> </ul>

### MyBucks has retained:

- Profitable banking and Deposit taking operations in key growth markets in Africa
- Ability to utilize the Group's digital tech ahead of the competition

### **Financial Status Quo**

Balance sheet returned to positive equity with remaining c. EUR51m debt

Lenders holding c.EUR64m worth of claims have converted their debt to equity as of 31 December 2019

Remaining net holding company debt is c. EUR39m, whilst the Company has authority to issue further 43,358,009 shares (sufficient to cover the residual holding debt

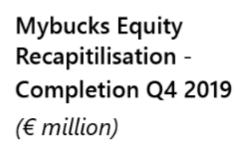

Target rights issue in 2020, with rump private placement to find investors for the balance – in light of the recent developments around Covid-19, this timing is now uncertain and delayed.

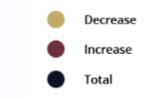

#### **RESIDUAL HOLDING COMPANY DEBT**

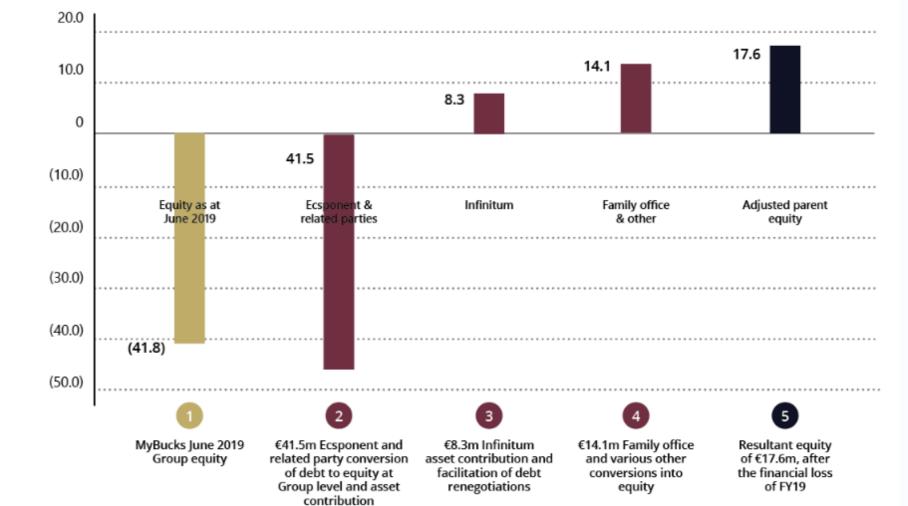

- c. EUR10m due to RBC Cees
- c. EUR10m due to Everprosperous Worldwide Limited (secured over shares in subsidiaries)
- c. EUR8.5m due through a Bond issued on the Vienna Stock Exchange
- c. EUR6.5m due to Solanum GmbH
- c. EUR5.0m due to Norsad
- c. EUR3.5m due to TLG Capital, due by 30 June 2020
- c. EUR2.5m due to various smaller promissory notes
- c. EUR5.0m due to Mintos, on lend to the Group by Zambia
- Total c. EUR51.0m
- Against this indebtedness, the Group holds financial assets of c. EUR12m

   therefore, net holding company debt is EUR39m

### MyBucks digital banking strategy

Technology allows MyBucks to serve customers largely ignored by traditional banks whilst controlling credit risk

### **Technology and innovation**

- Customer centric
- Focus on customer experience and retention
- Greater geographical reach
- Improved credit scoring and reduced provisions

### **Strong corporate governance**

- Responsible lending
- Sustainable business model
- Transparency

### **Operating** model

 Digital bank providing full array of financial services

- Reduce brick and mortar
- Lower staff and operating expenses

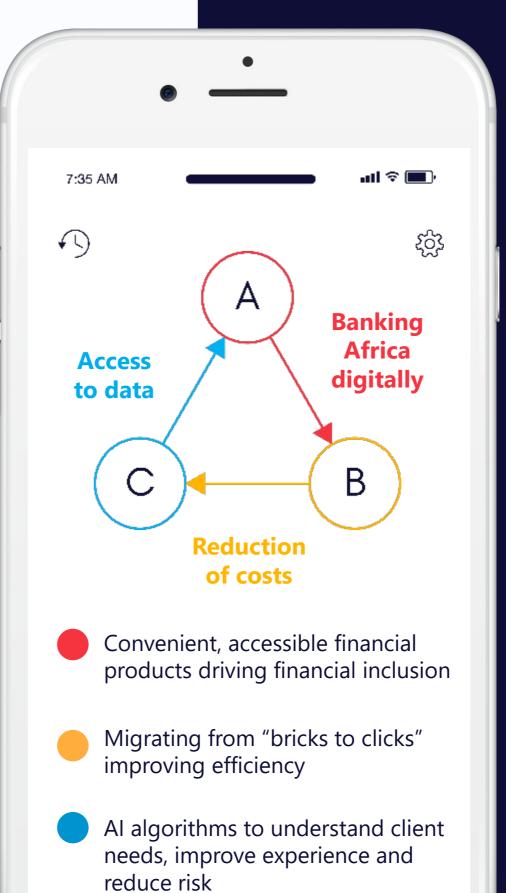

### **Supportive stakeholders**

- Access to capital
- Cross selling opportunities

### Our team

- Specialised skillset
- Experience and expertise
- High performance culture

### **Benefits of Banking**

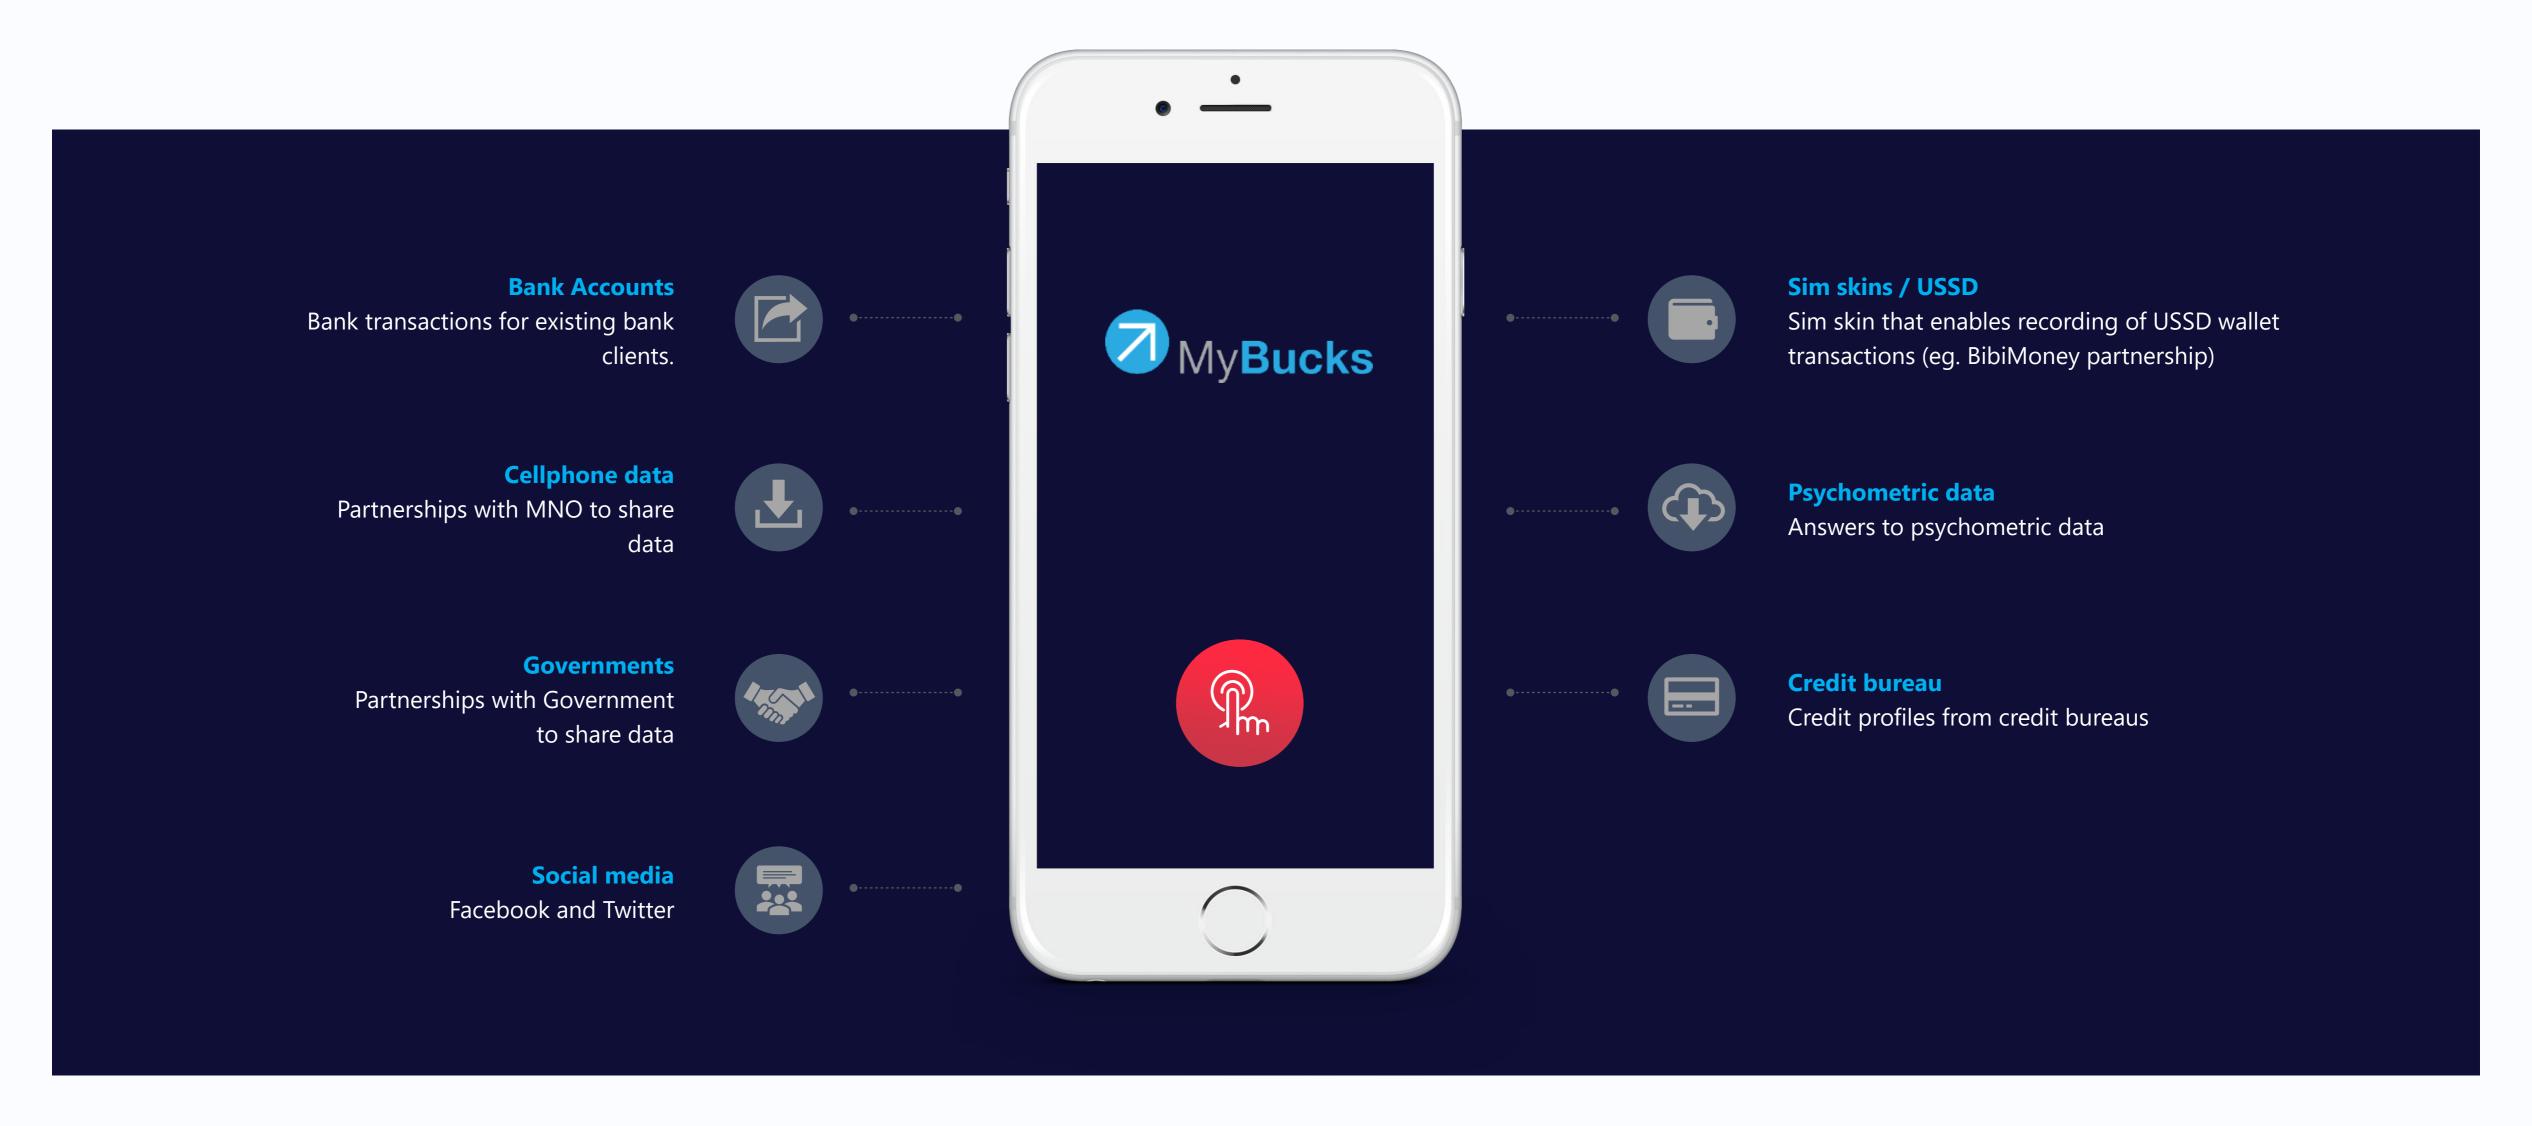

- Access to client bank account and information
  - Platform to cross sell **credit**, **insurance** and **remittances** digitally
- Banks traditionally have greater access to capital (> gearing, < risk)
- **Deposits** represent cheaper source of finance
- **Direct collection mechanism** by owning client bank account
- Better client "stickiness"
- Traditional banks in Africa have executed digital banking poorly leaving a window opportunity

INVESTOR PRESENTATION | 26 www.mybucks.com

### What data can be used?

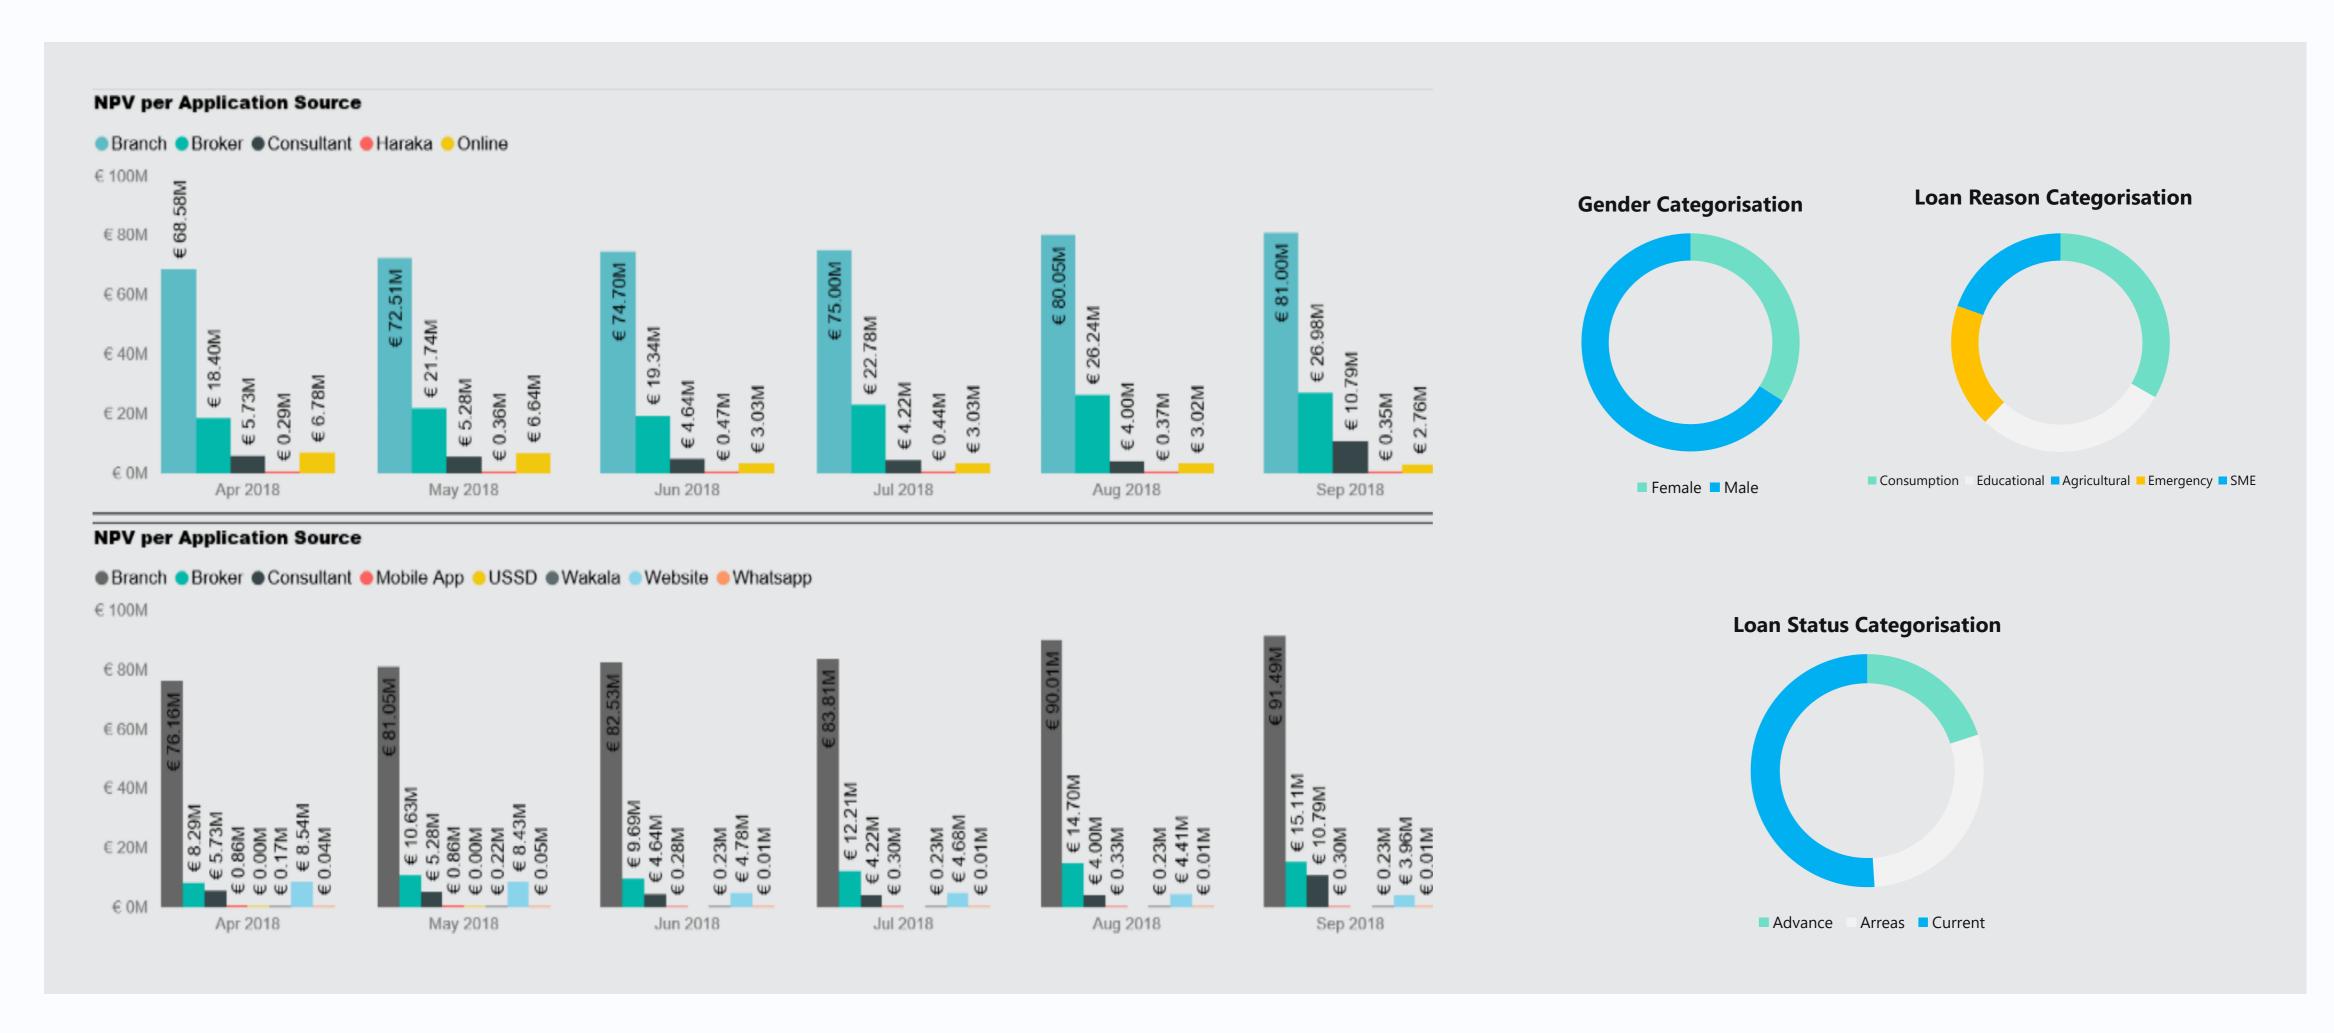

A.I. alternative credit data sources

### **MyBucks dashboards**

Real-time analytics

MyBucks dashboards provide management with real-time company performance information anywhere at any time.

### **Social impact**

### Doing well by doing good

#### **Social rating**

**MyBucks** business model carries an inherent social mission by providing financial solutions to people that would otherwise be financially excluded. MyBucks is proud to have received validation of three subsidiaries within the group with social impact ratings from international ratings agency MicroFinanza. **GetBucks Botswana** was awarded a **B+ social rating**. **Opportunity Bank Uganda and Opportunity Bank Mozambique** were also recognised by the ratings agency with a **BB and B+ rating**, respectively. The social rating looks at social performance management, client protection systems and alignment to the social mission of the companies and group.

#### **Case Studies**

#### **Market stand in Malawi**

Funds used to pay for a space in the market and buy more stock. " I paid for a space in the market and bought my brother ten crates of eggs." "I am proud that I assisted my younger brother and made his dream come. Thank you GetBucks."

### **Grocery and logistics shop in Mozambique**

Tino Nhingalela from Beira, Mozambique has taken out 16 loans from MyBucks during the financial year to fund the stock of his grocery shop. Tino used the loan finance to build his own shop; continued his studies; and saved money to start a "tchopela" (also known as tuktuk) business in addition to his existing business.

#### **Diesel grinding mill in Zimbabwe**

Mr G Simango, acquired a loan to invest in a diesel grinding mill. Today his small business thrives and he is thinking of expanding it to more shun areas of his community. Receiving constant praise from his fellow villagers, he has managed to employ 5 people.

#### World's first banking branch in a refugee camp

- MyBucks opened the world's first full bank branch in April 2018, in the Dzaleka refugee camp in Malawi. The camp is run by the UNHCR, WFP & the Malawian Government, and located just outside the capital Lilongwe.
- The camp established in 1994 (evolved from an old prison) and is made up of 34,000 displaced Congolese, Rwandans and Burundians, among others, who have experienced the worst distress on the continent, yet have managed to build a vibrant community with their skills as barbers, teachers, tailors, nurses, farmers, and more.
- Refugees are often micro-entrepreneurs, however; their refugee status, high reliance on physical cash, lack of access to financial services, low financial literacy, low self-esteem, and isolation from local markets, amongst others; are deterrents for FSP's to offer refugees access to business capital.
- A total of 5,500 refugees trained in past 6 months (target is 10,000); 5,219 savings accounts opened and 148 Lending Groups activated
- The main objective is to move refugees from a place of dependency and exclusion to self-reliance, and integration within their host communities by developing new business models supported by innovative digital financial products and services

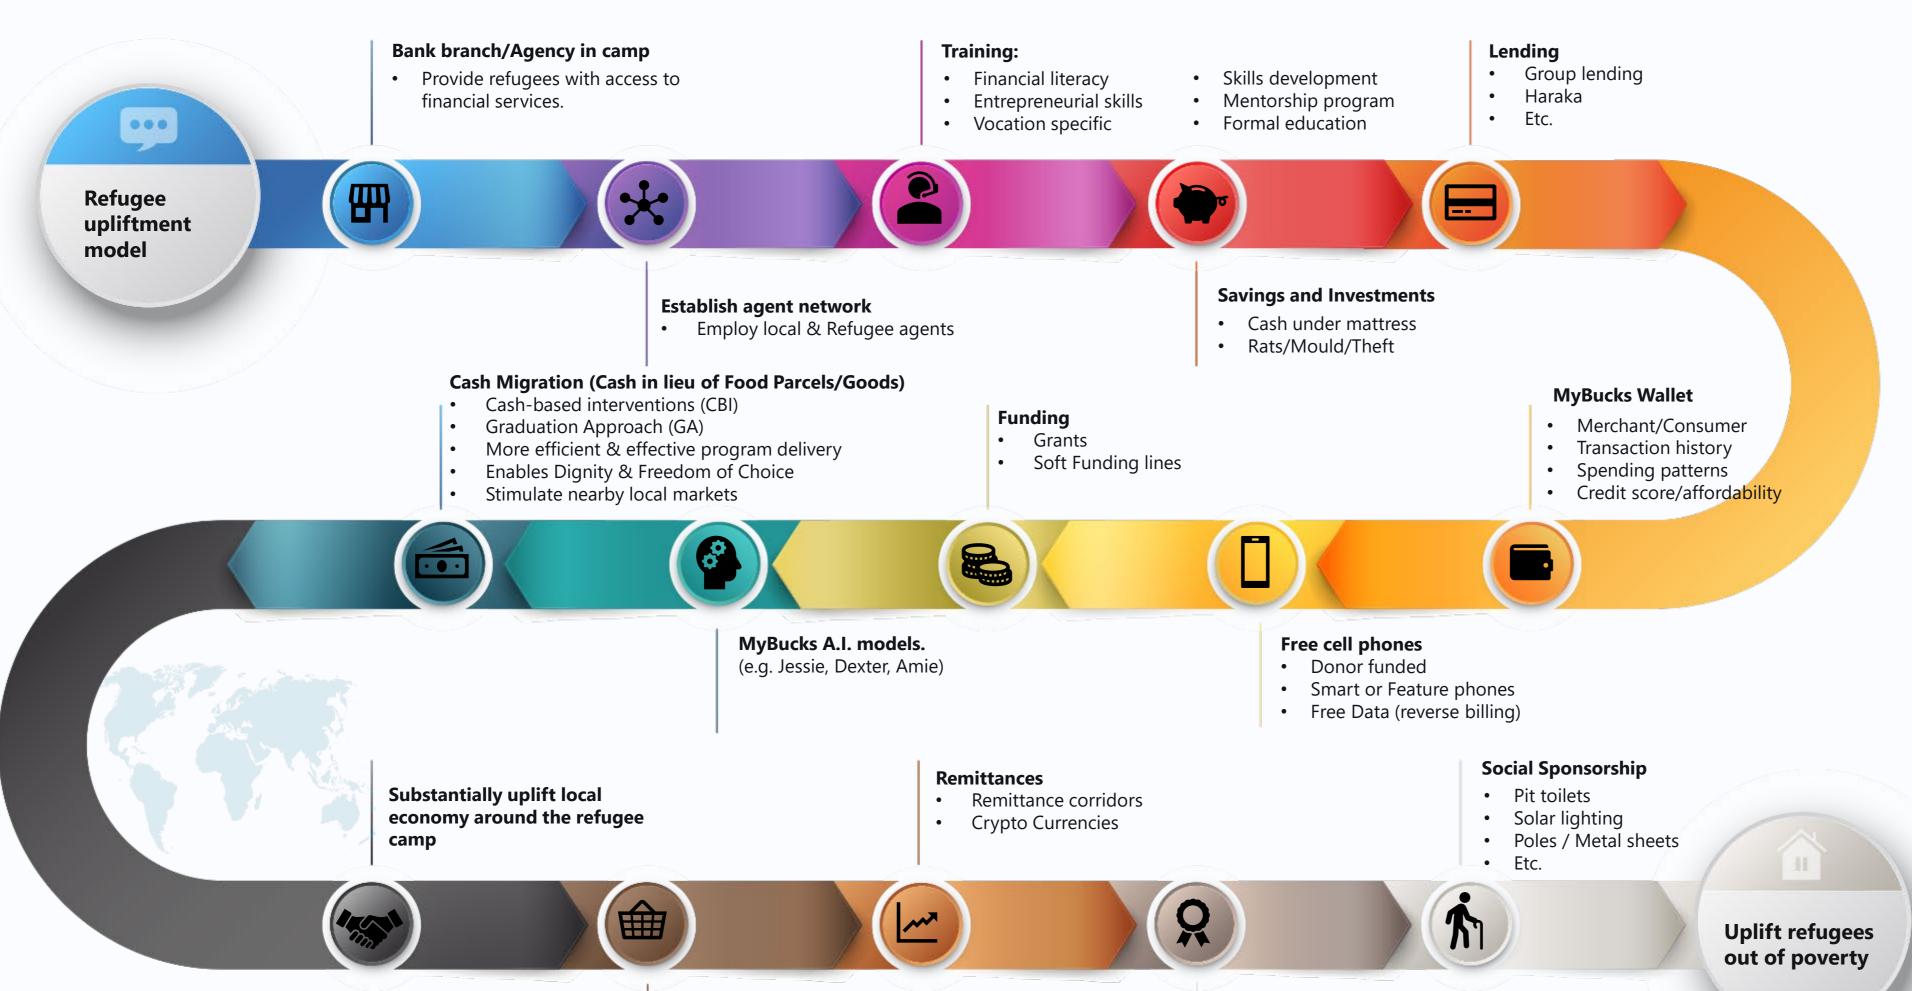

"The Dzaleka initiative is putting financial inclusion through technology into practice in the real world, building up a use case of how important access to finance is for those who have been excluded."

### MyBucks refugee upliftment model

Graduating refugees from extreme poverty

### Model Overview:

- **Phase 1:** Establish branch in camp & agent network
- Phase 2: Training
- Phase 3: Savings
- Phase 4: Group lending
- **Phase 5:** Al lending (e.g. Haraka)
- **Phase 6:** Cash migration
- **Phase 7:** Create a Digital Marketplace
- Phase 8: Uplift local economy around the Refugee camp

#### **Outcomes:**

- 1. Establish sustainable livelihoods
- 2. Attain a level of self-reliance
- 3. Become less dependent on humanitarian assistance
- 4. More financially secure
- 5. Boost Self-Esteem & Human Dignity
- 6. Access to local markets
- 7. Stimulate the Local Economy
- B. Integrated into host communities
- 9. Graduate from extreme poverty

#### Digital market place

- Showcase Refugees goods/services
- Create a national & inter-national marketplace

#### **Loyalty & Rewards**

- Brand Ambassadors
- Reward positive behaviour

### **Case studies**

#### Dzaleka Malawi

Client name: Nyabenda Cramentina Age: 24 years old; married with 1 child

Reason for moving to the camp: Nyabenda arrived in Dzaleka camp in 2002 when she was 8 years old. The 9th child out of 12 children, most of them scattered and two of her siblings killed by soldiers in the Congo

Main products: Loans and savings

**Loan cycle:** 1 First amount: MWK 149,000 (USD\$205) **Activities / Achievements:** 

- Electronics accessories and shoes business
- Formed a group called Chitukuko and approach NFB for a loan and underwent financial training
- Working capital has grown from \$435 to \$640
- Business capital is now standing at \$1,065 and making profits
- Improved her frequency of travelling to Lilongwe to get customer orders from monthly to weekly

Client name: Judith Bushashire Esther Age: 26 years old; married mother of two

Reason for moving to the camp: Back home, her husband was a community service provider who stood for people whose rights were being violated. Because of his stance of protecting people's rights and lives, he became a target of tyrannical rule. The situation got worse, It was at this point that Judith and family decided to flee the country to Malawi Main products: Loans and savings

Loan cycle: 1 First amount: MWK 200,000 (USD\$ 272). Activities / Achievements:

- She had a small shop selling sweets, salt and candles in the camp. Thanks to her NFB loan she has now expanded her business to include handcrafted purses, pillows and earrings.
- Member of Vijana African Entrepreneurs Group

**Client name:** Elie Zagabe

Age: 34 years old; married; has 1 child

Reason for moving to the camp: Elie started going through life threatening experiences due to growing war tension in his country, he then fled the country in January 2014 and arrived in Dzaleka Camp in February 2014

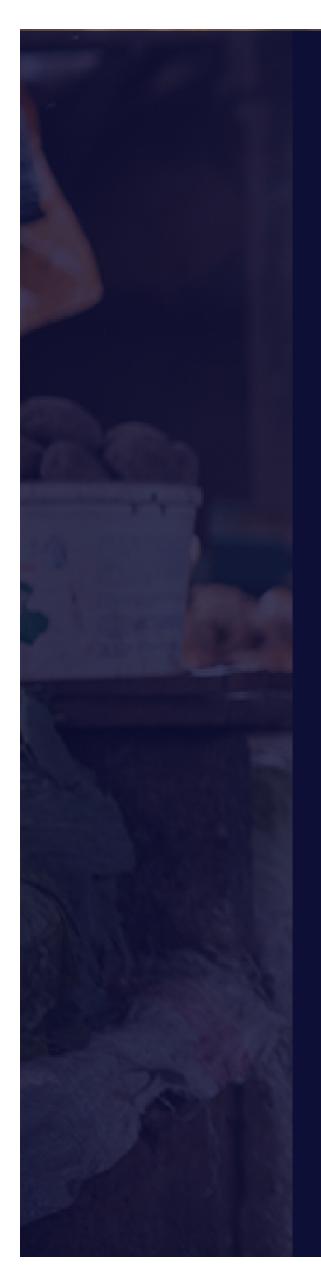

Main products: Loans and savings

Loan cycle: 1 First amount: MWK100,000 (USD\$ 136)
Activities / Achievements:

- Founder of Vijana African Entrepreneurs
- Owns a restaurant which he operates with his wife and relatives
- His restaurant business generates revenue of \$545 (previously \$272)
- He has opened a bank account with NFB and saves money for future use
- Refurbished his house into a restaurant, which made him move out from a rented building, paying MWK8,000 (USD\$11) rent per month. This was eating into his profits.
