1. GENERAL DESCRIPTION

o What is Mintos?

Mintos is Europe's leading investment platform for earning regular passive income, with over €600 million in assets under management for more than 500 thousand registered users (as of 1 January, 2025). Authorized under MiFID (*Markets in Financial Instruments Directive*), Mintos enables users to build diversified portfolios of income-generating assets through both automated and manual investments. Mintos has earned multiple industry awards since its founding in 2014.

For more information, see section '6. MINTOS' of this Base Prospectus.

o What are Notes?

Notes are financial instruments, namely asset backed securities, issued by the Issuer via Mintos to Investors and backed up by the Bonds. The Issuer by means of Platform provides access to investments in Bonds through the offer and issue of Notes. For the Investors' convenience this sort of Notes that will be offered on Platform are called "bond-backed security" to differentiate these particular Notes from other notes that are also offered on Platform but are backed up by other assets.

The Notes are backed up by Bonds meaning that the Bonds are held by the Issuer on a separate securities account with a regulated credit institution to act as collateral for the Notes issued.

The Notes will bear the same interest as Bonds' Receivables which is an interest that will be paid to bondholders as provided in the Bonds' Issuer Prospectus, see also section 9 of this Base Prospectus.

The Issuer might offer Notes applying the same principles as the Issuer has acquired Bonds, if any. For example, if the nominal value of the acquired Bonds will be EUR 1000, but the price at which the Bonds were purchased was EUR 960, the Issuer will issue Notes in EUR 1000 of aggregate nominal amount with the issue price of EUR 960.

The reason to offer Notes is to give the Investors opportunity to invest with relatively small amounts and to provide diversity in their investment portfolios with exposure to assets that usually require substantial investment amounts due to a relatively high minimum investment threshold. Notes are also a well-known product to Mintos Investors and by extending notes offering it provides Investors with even more options to invest in asset-backed securities.

The Issuer is a special purpose legal entity established for the purposes of:

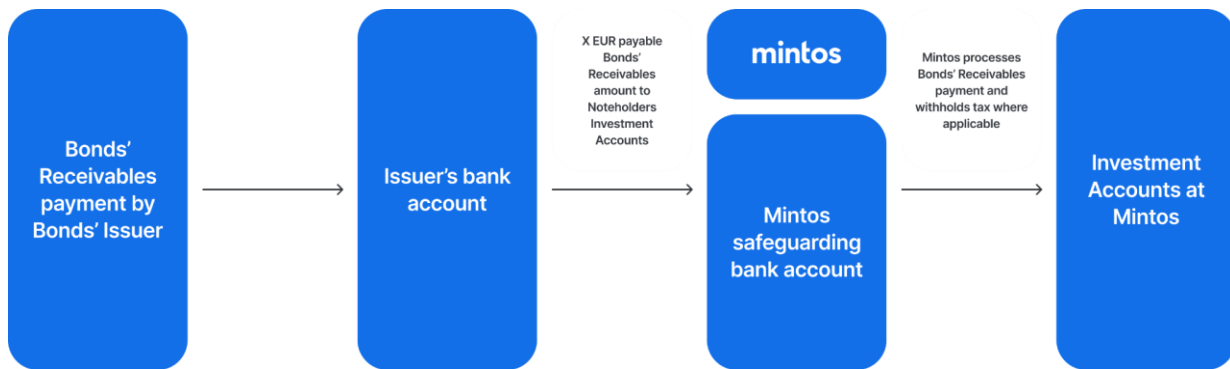

- purchasing Bonds for the purpose of issuance of Notes and dealing with the Bonds according to the Terms and Conditions of the Notes, see the section 9 of this Base Prospectus;
- issuing Notes to Investors via Mintos.

The Issuer may issue financial instruments (notes) in cooperation also with other bonds' issuers.

See the sections entitled '5. THE ISSUER' and '7. THE BONDS' ISSUER' of this Base Prospectus for more information.

o The flow of funds for repayment of Notes

Each time there is Bonds' Receivables payment made by the Bonds' Issuer, the Bonds' Issuer transfers funds to the Issuer, which in turn makes payments under the relevant Series of Notes to the relevant Investor via Mintos. The payments are received into the relevant Investment Account.

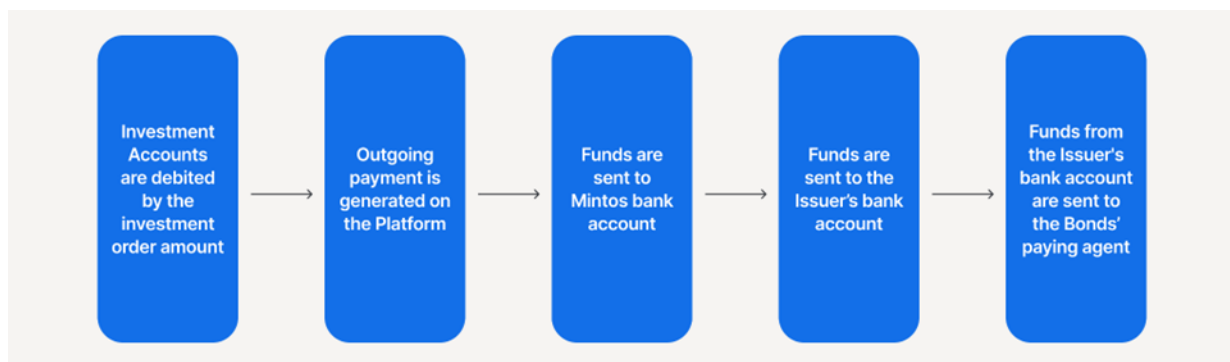

This means that if the Bonds' Issuer:

- is late on its Bonds' Receivables scheduled payment, payments to the Investors will also be delayed; and
- does not pay Bonds' Receivables to the bondholders, there will be no interest payments to the Investors under the Notes.

o *The flow of funds for investment in Notes*

To invest in the Notes, the Investor provides instructions on the Platform to reserve a certain amount of Investor's available funds to purchase Notes. Reserved funds are held by Mintos up to the Bonds' settlement day – the day when Investors' funds are transferred by Mintos to the Issuer's bank account to acquire Bonds. The Notes are delivered to the Investment Account on a Bonds' settlement day. The Issuer issues a Series of Notes corresponding to the purchased Bonds to Investors via Mintos. When the Investor purchases any Note of the Series, the Investment Accounts are credited with the Note and debited with the purchase price of the Note. The purchase price is transferred to the Bonds' Issuer.

2. RISK FACTORS

The Issuer believes that the factors listed in this section of the Base Prospectus may affect its ability to fulfil its obligations under the Notes. All of these risk factors and events are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. In addition, factors which are material for the purpose of assessing the market risks associated with the Notes are also described below.

Although the most material risk factors have been presented first within each category, the order in which the remaining risks are presented is not necessarily an indication of the likelihood of the risks actually materialising, the potential significance of the risks or the scope of any potential negative impact to the Issuer's or the Bonds' Issuer's business, financial condition, results of operations and prospects. The Issuer and/or the Bonds' Issuer may face a number of these risks described below simultaneously. While the risk factors below have been divided into categories, some risk factors could belong in more than one category and prospective investors should carefully consider all of the risk factors set out in this section.

The Issuer believes that the factors described below represent the material risks inherent to investing in the Notes, but the inability of the Issuer or the Bonds' Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the statements below regarding the risks of investing in any Notes are not exhaustive. Other risks, events, facts or circumstances not included in this Base Prospectus, not presently known to the Issuer, or that the Issuer at the date of this Base Prospectus deems to be immaterial could, individually or cumulatively, prove to be important and may have a significant negative impact on the Issuer's or the Bonds Issuer's business, financial condition, results of operations and prospects. Prospective investors should carefully review the entire Base Prospectus and should form their own views before making an investment decision with respect to the Notes.

Before making an investment decision with respect to any Notes, prospective investors should consult their own lawyers, accountants or other financial, legal and tax advisers and carefully review the risks entailed by an investment in the Notes and consider such an investment decision in the light of the prospective investor's personal circumstances.

o **RISKS SPECIFIC TO THE BONDS' ISSUER**

The risks are related to, but not limited to:

- *Risk factors relating to macroeconomic conditions:* Delfin Group's performance and growth are closely tied to the economic conditions in the regions where it operates. Although Delfin Group conducts business in both Latvia and Lithuania, it is primarily influenced by the Latvian economy, as activities in Lithuania are relatively minor. The Latvian economy could be negatively impacted by factors such as political changes, interest rate fluctuations, social unrest, natural disasters, pandemics, and regulatory changes by government entities.
- *Competition risk:* Delfin Group operates in a highly competitive consumer lending market in Latvia and the pawn loan market segment. For consumer loan segment competition may erode market share, impacting revenue and profitability and for pawn loan market segment planned expansion may attract increased regulatory scrutiny and additional compliance requirements.
- *Unsuccessful development of products and services risk:* Rapid industry changes demand constant innovation. Failure to keep up with trends or delays in development could reduce Delfin Group's market share and profitability.

- *Risk related to personnel and workforce:* Retaining skilled employees is crucial. High turnover or hiring challenges could affect growth and competitiveness.
- *Lending concentration risk:* Delfin Group's operations are concentrated in Latvia, making it vulnerable to local economic downturns or credit market disruptions.
- *Reputational risk:* Delfin Group's reputation is critical to its success. Any event harming the Delfin Group's reputation could reduce revenue and profitability.
- *Risk posed by providing consumer loan services:* most of Delfin Group's loans are unsecured, posing a higher credit loss risk. Inaccurate creditworthiness assessments could lead to increased non-performing loans, adversely affecting Delfin Group's financial health.
- *Risks posed by providing pawn loan services:* Accurate appraisal of pledged assets is crucial to Delfin Group's success, requiring a skilled and reliable workforce. Despite ongoing employee training, there is a risk that assets could be overvalued, leading to loans that exceed the actual value of the collateral. In addition, there is a risk that Delfin Group may inadvertently accept goods of illicit origin. To mitigate this, Delfin Group has implemented guidelines and regularly updates them.
- *Risk related to branch operations:* Delfin Group's operations, which involve cash and jewellery transactions, expose it to risks such as fraud, theft, burglary, and unauthorised transactions by employees, customers, or third parties. Pledged goods, including jewellery, are typically stored on Delfin Group's premises, creating additional risks. Although Delfin Group complies with regulations and has implemented security measures to minimise these risks. Delfin Group's branches operate mainly on leased premises, with the risk of non-renewal, rent increases, or relocation costs affecting operations.
- *Risks related to the technical operations:* Disruptions in Delfin Group's technical operations, such as system failures or security breaches, could impair Delfin Group's business.
- *Risk factors relating to IT and intellectual property:* Delfin Group faces risks related to cybersecurity and IT systems, including potential cyberattacks and disruptions in third-party cloud services, which could lead to data loss and operational impacts. It also relies on third-party service providers for key operations. Additionally, Delfin Group holds a risk on protecting its trademarks and intellectual property.
- *Risk factors relating to laws, regulations and compliance:* Delfin Group faces risk related to licensing requirements, as it must comply with strict regulations from the Latvian Consumer Rights Protection Centre (CRPC), with potential penalties or licence suspension for non-compliance. Delfin Group also faces risk from evolving national and EU regulations, which could lead to increased costs and operational disruptions. Misinterpretation of laws or regulations issued by the CRPC could also result in penalties. Delfin Group's data protection practices and compliance with AML/CFT/CPF and sanctions regulations failures could lead to significant fines or reputational damage.
- *Risk related to borrower credit risk:* Delfin Group faces risk that borrowers may default on their loans, especially as the loan portfolio continues to grow. This could negatively impact Delfin Group's earnings and asset values. Despite detailed guidelines for assessing credit risk, external factors or misjudgments could lead to increased defaults and impairments, harming Delfin Group's financial condition and prospects.
- *Funding and liquidity risk:* Delfin Group risks insufficient funding for expansion or meeting obligations without higher costs. Over-reliance on certain funding sources or market disruptions could worsen this, affecting operations and financial health.

- *Risks related to the debt collection process:* Delfin Group may face difficulties in recovering non-performing loans, which could impact profitability. If debt collection efforts are unsuccessful, or if the market for selling non-performing debt weakens, Delfin Group's financial results could suffer.
- *Risks associated with related party transactions:* transactions with related parties could pose risks, such as potential conflicts of interest or adverse tax consequences.
- *Risk related to merge an acquisition:* IPAS "Indexo", registered under the laws of the Republic of Latvia with registration number: 40203042988, is acquiring decisive influence over Delfin Group. The transaction was accepted by the Competition Council of Latvia. However, other approvals are still needed.

You can read more on the categories described above within the Bonds' Issuer Prospectus. The link to the Bonds' Issuer Prospectus is provided in this Base Prospectus under Glossary Section - Bonds' Issuer Prospectus.

◦ **RISKS SPECIFIC TO THE UNDERLYING ASSET - BONDS**

Before considering an investment in Notes backed by Bonds, it is essential to recognize the array of potential challenges and uncertainties that come from investing in this underlying financial instrument.

Considering that Bonds repayment is heavily related to the Bonds Issuer's financial position and the security package, the main risks related to the underlying bonds are listed below.

Risks related to the nature of the Bonds:

- *Notes repayment risk:* there is a risk that the Bonds' Issuer may be unable to repay or refinance the Bonds at maturity, potentially requiring waivers or refinancing. Bondholders might not receive their principal and interest payments as expected.
- *Liquidity risk:* there is a risk that minimum liquidity may not be achieved. Bondholders might not be able to sell or may face difficulties in selling their Bonds on the secondary market at their fair market value or at all.
- *Subordination risk:* the Bonds will not be secured and rank *pari passu* with other unsecured obligations. In the event of the Bonds' Issuer insolvency, the bondholders will have the right to recover their investment on the same terms as other creditors within the relevant claims group, in accordance with the applicable laws, and only after all claims from the Bonds' Issuer secured creditors have been fully satisfied.
- *Offering cancellation and delisting risk:* there is a risk that Nasdaq Riga may refuse the listing or delist the Bonds before maturity due to changes in applicable laws or regulations.
- *Price Risk:* neither the Bonds' Issuer nor any other party guarantees a certain price level for the Bonds. As a result, potential investors face the risk of unfavourable price changes if they sell the Bonds before their maturity.
- *Early Redemption risk:* the Bonds may be redeemed early at the Bonds' Issuer discretion. If the Bonds' Issuer exercises this early redemption right, the rate of return on the investment in the Bonds may be lower than initially anticipated.
- *Resolutions of bondholders risk:* Bondholders are subject to the risk of being outvoted by a majority resolution of other bondholders.

You can read more on the risk categories within the Bonds' Issuer Prospectus. The link to the Bonds' Issuer Prospectus is provided in this Base Prospectus under Glossary Section - Bonds' Issuer Prospectus.

o **RISKS SPECIFIC TO MINTOS**

1. Various events and failures could cause situations where Mintos is not able to continue operations

As a relatively new service, Mintos operates in a complex and dynamic regulatory and competitive environment and various events and failures could lead to Mintos terminating the provisioning of services, including the operations of the Platform. These events include but are not limited to revocation of licence, weak financial performance, negative reputation, non-compliance events, dramatic changes in the applicable regulations impacting Mintos operating model or an economic downturn. If Mintos ceases operations, this could significantly impact the Noteholder's ability to receive repayment on time.

Should Mintos enter liquidation or insolvency, as a regulated and supervised entity, the process will be supervised by the NCA. The appointed liquidator or administrator will take over the functions of the management board. Mintos will continue servicing its clients and the Investment Accounts, and relevant financial instruments portfolios in line with what Mintos is permitted to do according to the applicable insolvency and liquidation rules. The process from the moment of the appointment would be led by the appointed administrator or liquidator. In some cases, the Investors' Protection Law may apply. Such processes may significantly influence the investment's return times and make the return more complex to the Noteholder.

Furthermore, Mintos could for some reason suddenly stop honouring its obligations under the existing agreements, leading to delayed payments or partial or full loss of the amount invested in the Notes.

2. Non-compliance with regulations could lead to revocation of Mintos' licence

To provide services to clients, Mintos, as the operator of the Platform, has received an investment firm licence from the NCA. The licence could be suspended or revoked due to non-compliance with regulations by Mintos. Loss of licence by Mintos could lead to delayed payments or partial or full loss of invested amount under the Notes.

3. Failure of IT systems or a security breach could lead to significant liabilities and harm relationships with customers

The technology that Mintos has developed over the years is a cornerstone of Mintos' future success. The satisfactory performance, reliability and availability of the Platform is critical to its operations, customer service and reputation.

While Mintos has taken steps to protect confidential information, the techniques used to obtain unauthorised, improper or illegal access to systems, data, or customer data, or to disable or degrade services are constantly evolving and may not be detected quickly.

As a result, Mintos' and Mintos' third-party vendor security measures might be breached, and these security breaches could result in confidential client information being stolen. Breaches of security measures because of third-party action, employee error, third-party vendor error, design flaws in the software, or interruptions in Mintos' systems and services could adversely impact our relationships with Mintos' clients, harm Mintos' reputation and expose Mintos to significant

liability.

Furthermore, in the event of damage or interruption, existing insurance policies may not adequately compensate Mintos and Mintos' clients for any losses that may have been incurred. Nevertheless, as IT systems are crucial to Mintos' operations, a substantial amount of resources is devoted to ensuring the stable and uninterrupted performance of the IT systems.

4. Mintos' bank accounts could be frozen or closed and banks, where the Noteholder funds are held, can become insolvent

Mintos clients' funds, including the fund being deposited in the Issuer's Account for settlement under the Notes, are kept segregated from Mintos' own funds in several bank accounts marked as client funds accounts.

One or several of those bank accounts that Mintos uses might be blocked, seized or closed for a number of reasons, including insolvency of the banks, resulting in interruptions of fund transfers to the Issuer and the Noteholder.

5. Significant problem or termination of the agreement with a Mintos partner may affect the provision of services to the Investors

While providing its services, Mintos relies on several carefully selected partners (e.g., cloud computing providers), and any problems with the service providers could impact Mintos' ability to provide services to the Noteholder. Mintos has taken several steps to reduce the likelihood and impact of such occurrences, such as having backup service providers where feasible, there is still a risk that the Noteholder may not be able to access the Platform or receive services.

6. Certain situations or actions may raise conflicts of interests

While the rights and the responsibilities of Mintos and the Issuer are detailed in the Transaction Documents and this Base Prospectus, and Mintos has established policies and procedures to mitigate the risk, it is not possible to fully avoid the possibility of a conflict of interests between the parties that could impact the interests of the Noteholder.

Mintos provides placement services to the Issuer with respect to the Notes, Mintos receives fees from the Bonds Issuer for placement services. Mintos has carefully set up the fees in a compliant manner and so that it would not violate the conflict of interest management rules. Such placement fees might qualify as inducements and Mintos would disclose information on these inducements to the Noteholder. In addition to inducement disclosures, Mintos has set up internal procedures to identify and manage conflicts of interest. Some conflicts of interest require disclosure and those are disclosed.

o **RISKS SPECIFIC TO THE ISSUER**

1. The Issuer could default on its obligations or become insolvent

The Issuer is a wholly-owned Mintos Group company, and not engaged in any business activities other than those provided in this Base Prospectus. There is a risk that the Issuer could suddenly stop effectively honouring its obligations under the existing agreements and breaching its provisions, resulting in missing repayments to the Noteholder. This could lead to delays in repayments and partial or full loss of invested amounts.

While the Issuer is created, established and performs its operations as a special purpose

undertaking, due to possible legal shortcomings of the applicable law and/or judicial practice, the Issuer might be found insolvent due to the following reasons, including, but not limited to, a Noteholder or other creditor initiating the insolvency procedure against the Issuer in bad faith and the court not finding limited recourse and non-petition provisions defined by this Base Prospectus as a sufficient ground to reject such proceeding. In such situations, the Noteholder could experience delays in receiving its invested funds and its priority as a creditor of the Issuer might be changed by the rule of law, leading to receiving fewer amounts than due under the Notes.

The Terms and Conditions of the Notes (in section 9 of this Base Prospectus) are set up and drafted as having legal force and addressing concerns as legally binding contractual obligations. There can be external circumstances that might influence such legal construction, including, but not limited to court ruling, and/or new or modified legal enactments.

2. Mintos may not be able to cover the maintenance and administrative costs of the Issuer

Considering the pass-through nature of the Issuer, the maintenance costs and administrative expenses of the Issuer are, in essence, covered by Mintos, via a compensation mechanism. If for any reason mentioned above in '*RISKS SPECIFIC TO MINTOS*', Mintos is not able to cover such costs, it could significantly influence the operations of the Issuer and its ability to service Notes and make payments to the Noteholder.

3. Information asymmetry

There is a risk that the Bonds' Issuer can provide material information with delay or fails to provide information to the Issuer at all. As a consequence:

- the Issuer through Mintos acting as its authorised representative will not be able to timely enforce its rights provided in the Transaction Documents and to act in the interests of Noteholders; and
- the Issuer will not be able to prepare and publish supplements to this Base Prospectus in a timely manner, which could impact the Noteholders' judgement on purchasing the Notes being unaware of any significant new factor, material mistake or inaccuracy related to the information being sourced from the Bonds' Issuer.

4. Cross-risks applicable to the Issuer

Considering the pass-through nature of the Issuer, the Issuer and its abilities to pay amounts due to the Noteholders under the Note are exposed to all the risks listed above in '*RISKS SPECIFIC TO THE UNDERLYING ASSET - BONDS*', and '*RISKS SPECIFIC TO MINTOS*'.

o RISKS SPECIFIC TO NOTES

1. The Noteholder has no rights of recourse against the Bonds' Issuer, the Bonds' guarantors or the security (collateral) agent (if any)

The Noteholder has no direct right to the Bonds. Instead, the Noteholder is acquiring Notes, which are backed by the corresponding Bonds. The legal title in the Bonds and relevant rights arising from them are vested in the Issuer. This means that the Noteholder will have no direct recourse against the Bonds Issuer and no ability to independently and in its discretion to pursue the Bonds Issuer to collect payments under the Bonds. For the same reason the Noteholder will have no direct recourse against the Bonds guarantor and/or the security agent (if any) and no ability to pursue the Bonds Issuer, the Bonds guarantor (if any) and/or the security agent (if any) to enforce

them to duly perform their duties and obligations due. All such actions are carried out by the Issuer as the legal owner of the Bonds according to the provisions of this Base Prospectus and the Transaction Documents.

2. Change of creditors priority

The outcome of judicial or insolvency procedure could overrule the creditors' priority in this Base Prospectus due to requirements of the law, meaning that the Noteholders of one Series of Notes could become equal creditors to Noteholders of other Series of Notes, thus all the proceeds the Issuer receives from all the Notes is distributed on *pro rata* basis or otherwise.

3. Certain costs may rank higher than payments to the Noteholder

While it is the Issuer's responsibility to transfer to the Noteholder all payments that have been received from the Bonds' Issuer, there are certain costs, such as taxes, Mintos' fees and recovery costs that rank higher than payments to the Noteholder. This means that the Noteholder would only receive payment after the payment obligations of a higher priority have been settled.

Also, there is a risk that the outcome of judicial or insolvency procedure could define other priority of payments, which differs from the priority in this Base Prospectus.

4. Liabilities that are not Series specific will be allocated to all Series of Notes proportionally

If there are higher priority costs, i.e., taxes, fees and recovery costs, related to the specific Note, then these will be covered from the payments due to the Noteholders according to the Priority of Payments defined in this Base Prospectus. Where the liability is not Series-specific, for example, legal costs, the liability will be allocated to all Series of Notes proportionally unless otherwise defined by the Priority of Payments.

5. No specific securitisation laws in Latvia

There are no dedicated laws and regime in Latvia addressing specific special purpose vehicle issuer insolvency or limited recourse concepts at the date of this Base Prospectus. Mintos believes the Terms and Conditions of the Notes are set up and drafted as having legal force and addressing such concerns as legally binding contractual obligations. There might be circumstances that influence such legal construction, including, but not limited to the court ruling, or new or modified legal enactments. Eventually, this could lead to delayed payments or partial or full loss of the amount invested in the Notes.

6. Bonds repurchase could impact planned return

The Bonds' Issuer may repurchase the Bonds from its investors in terms and at value determined in the Bonds Issuer's Prospectus without any penalty or other compensation. This may happen, for example, in cases where the Bonds' Issuer decides to repurchase all Bonds before maturity date for the reasons described in the Bonds Issuer's Prospectus.

The Bonds' Issuer not only has a right to repurchase, but also has an obligation to repurchase the Bonds from the investors upon the occurrence of certain events specified in the Bonds' Issuer Prospectus.

If the early redemption right is exercised by the Bonds' Issuer, the relevant Series of Notes will be redeemed early in full or in part once the Issuer has received the repurchase price from the Bonds' Issuer. The Noteholders' return on the investments in the Notes which are redeemed due

to the repurchase will be lower than the initially planned return.

7. New regulations introduced in the future could impact the Noteholder and Mintos

Due to several reasons, such as improvements in computer technology, the financial crisis of the past decade and a greater focus on preventing the legalisation of illegally gained proceeds, the financial industry over the last years has experienced the introduction of several new regulations. With further developments and adoption of technologies, jurisdictions, either where Noteholders or Mintos Group are domiciled are likely to introduce new regulations or administrative interventions that could relate to Notes or online marketplaces such as the Platform. Such regulation in the future, for example, could enhance investors' protection measures, limit access to Notes to only qualified or sophisticated Noteholders, limit the proportion of the portfolio that can be invested through Notes or introduce any other restricting measures.

Furthermore, the introduction of new regulations or significant changes to the existing regulations could impact the profitability, cost base and future operations of Mintos. Failure to comply with regulation could lead to, among other things, lawsuits, administrative enforcement actions, penalties, and revocation of licences and authorisations. Eventually, this could lead to delayed payments or partial or full loss of invested amounts under Notes.

8. New regulation in relation to taxes could impact the expected return for the Noteholder

In the event that new regulation is introduced, or existing regulation or its interpretation changes so that the Issuer and/or Mintos needs to withhold additional taxes before making payments to the Noteholder, and the Issuer and/or Mintos is required to withhold any transfer tax, stamp duty and/or financial transactions tax, this could impact the expected return on investment for the Noteholder. Similar developments in the Noteholders' tax residence country can lead to the same consequences.

9. Notes have limited liquidity and transferability

The Notes are illiquid securities and there is no active market for them, and the Notes are not admitted to any trading venue. The potential buyers and transferees are limited only to other Mintos' clients who are registered on the Platform. Which all means that the Noteholder might need to offer the Notes with a significant discount and hence would not meet the expected return on the investment, or might even be unable to sell them at all during a shorter or longer period of time. Furthermore, to protect Noteholders that use automatic investment solutions from making investment decisions, Mintos may restrict the execution of orders to sell the Notes according to the terms and conditions of the agreements between the Investors and Mintos.

The Noteholder should therefore only invest in Notes that the Noteholder is comfortable with holding to maturity.

10. An undiversified investment portfolio may lead to greater exposure to the Bonds' Issuer and country-specific risks than a well-diversified portfolio

Investment in a single Note, Notes issued in relation to the Bonds' Issuer or Notes with underlying Bonds, means that the performance of the portfolio and risk exposure depends on that Note, the Bonds' Issuer, country and currency risk.

Mintos encourages its customers to build a well-diversified portfolio and provides several tools to automate investing in Notes, making this easier.

11. Investing in Notes issued in other currencies increase the Noteholder's exposure to currency risk

If a Noteholder invests in Notes denominated in a currency that is different from the currency that the Noteholder earns and/or spends, the return on the investment could be significantly impacted by the fluctuations in the exchange rate between those currencies. This means that if the underlying currency depreciates significantly, the Noteholder could lose part of the investment, and if the currency appreciates significantly, the Noteholder could earn a higher return on investment.

12. Notes are not bank deposits

Investment in Notes does not have the status of a bank deposit in Latvia or elsewhere and is not within the scope of the deposit protection or guarantee scheme operated by the Republic of Latvia or any other jurisdiction.

Third-party and market share data

This Base Prospectus contains information regarding business of the Issuer, Mintos, the Bonds' Issuer and others, and the industry in which they operate and compete. Where third party information has been used in this Base Prospectus, the source of such information has been identified. Statistical information included in this Base Prospectus has been derived from official public sources, including the statistical releases. Although all such estimations have been made in good faith based on the information available and the Issuer's or the Bonds' Issuer's knowledge of the market within which it operates, neither the Issuer nor the Bonds' Issuer may guarantee that a third-party expert using different methods would reach the same conclusions. 4. TRANSACTION OVERVIEW

o THE DESCRIPTION OF THE TRANSACTIONS IN RELATION TO THE NOTES

▪ The Issuer, Mintos and the Bonds' Issuer

The Issuer has entered into the Transaction Documents with Mintos and the Bonds' Issuer for the issue and sale of the Notes as described in this Base Prospectus.

▪ Acquisition of the Bonds by the Issuer

The Bonds will be purchased by the Issuer either directly from the Bonds' Issuer, from any other third party willing to sell the Bonds, or on the regulated market where the Bonds are traded. Additionally, if the Bonds have not yet been issued, the Issuer may subscribe for the Bonds during the subscription period in accordance with the terms of the Bonds' Issuer Prospectus. Funds collected from the Investors who have indicated their interest in investing in the Notes will be used to settle the Bonds' acquisition transaction.

If the Bonds settlement date, when the Issuer buys Bonds, does not match the Bonds' Receivables Payment Date, i.e., when the Bonds are actually delivered to the Issuer's security account with a regulated credit institution, the Bonds' accrued interest for these days of difference between settlement date and previous Bonds' Receivables Payment Date will be covered by the Issuer's own funds from its fully paid up share capital to purchase the Bonds, which will be reimbursed later with the next Bonds' Receivables payment.

The Issuer may also cover the missing fraction with its own funds to fulfil the Bonds purchase. As an example: The Bonds' price is EUR 1,000 and the Issuer has collected EUR 900 from Investors. In this case, the Issuer may add EUR 100 from its own funds to ensure the Bond's purchase. The Issuer is a

beneficiary of the Bond's fraction purchased with its own equity. This fractional bond will be disclosed in financial statements of the Issuer together with accrued and received interest that will be recognised as an interest income for the Issuer. When the Bonds are redeemed, the fraction of the Bonds will be redeemed along the rest of the Bond value. The fraction owned by the Issuer is not related to any Notes issued by the Issuer.

Payment for the Bonds is subject to placement of the Series of Notes.

▪ **Issue of Notes**

To purchase Notes from the Issuer, the Investor registered on the Platform submits an investment order using a dedicated section on the Platform, indicating the amount of money that the Investor wishes to invest in Notes.

Once the Investors have indicated on Mintos platform that they wish to purchase Notes, Mintos reserves those funds to be ready available for the Issuer to submit its purchase order to buy the Bonds and then, after the Bonds are purchased, delivers the Notes to the Investors on their Investment Accounts with Mintos. The reservation means that those funds remain on the Investment Account of the Investor but are not available for other transactions until the Notes are delivered, or until the Notes purchase is cancelled. The Issuer has the right to cancel the Notes purchase at its own discretion at any time with no obligation to inform Investors about cancelling the Notes purchase.

The Notes are publicly offered by the Issuer through the Platform. Investors can purchase Notes from the Issue Date until the Maturity Date of the Notes provided in the Final Terms or until the time when the Notes are fully sold to Investors by the Issuer, whichever occurs earlier. Information about the offer results of the Notes is published on the website www.mintos.com in real time. The offer of the Notes is subject to the Bonds availability for the Issuer to purchase.

The process for purchasing Notes is automated and takes place in real-time. When the transaction order is accepted by the Platform, Mintos debits cash funds from the Investor's cash account with Mintos in exchange for delivery of the Notes to the Investor's financial instruments account with Mintos. The Notes allotted are available as soon as the transaction order is executed by Mintos, by means of the Investor's profile on the Platform. Further alienation of Notes may be done as soon as available on the Investor's Investment Accounts.

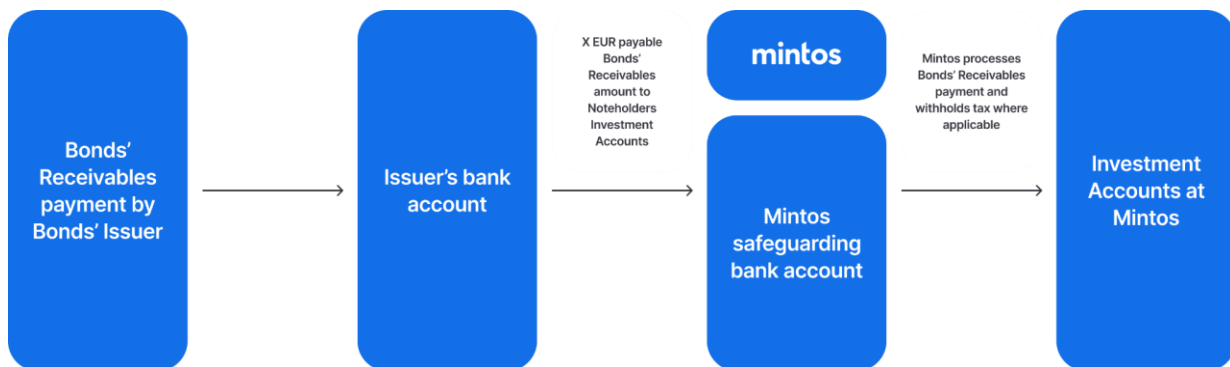

Minimum subscription amount is one Note. Maximum subscription amount is up to the Aggregate Nominal Amount as set out under the section entitled '11. APPLICABLE FINAL TERMS' of this Base Prospectus for the relevant Series of Notes, but subject to the nominal amount of the Notes being available for purchase from the Issuer as at execution time of the transaction order at Mintos.

No expenses are expected to be charged to the Investor by the Issuer when purchasing Notes. There is no financial transaction tax to be applied at the date of this Base Prospectus by the Issuer and/or Mintos to the Investor in subscribing or purchasing any Note.

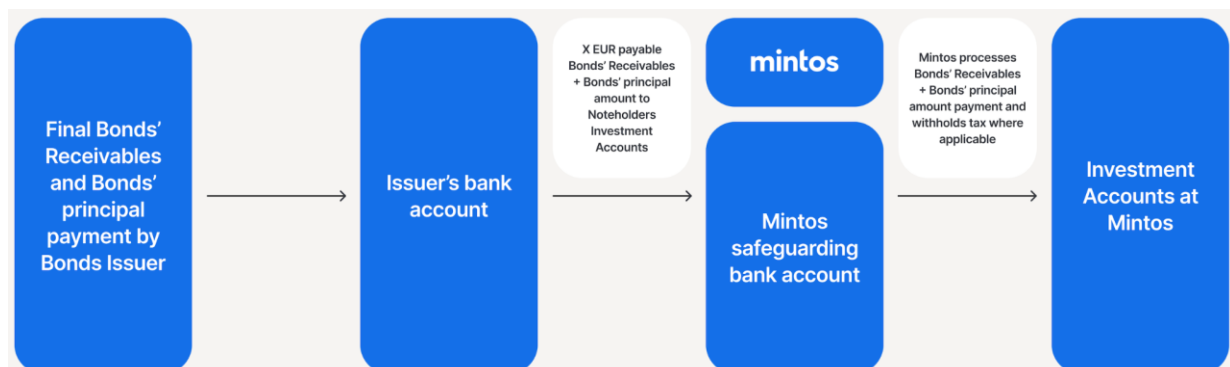

Underlying assets will be formed by matching one on one euro amounts invested into a Series of Notes and amounts of purchased Bonds as underlying assets.

▪ Payments under the Notes

Bonds' Receivables (interest) payout process to the Investor

Final Bonds' Receivables and Bonds' principal amount is paid to the Investors on the Bonds' maturity date. The same applies in cases of Bonds' early redemption. In the event of Bonds' early redemption, the Investors receive the Bonds' principal amount together with the accrued Bonds' Receivables up to the date of early redemption in accordance with the Bonds' Issuer Prospectus.

The Interest specified in the Final Terms will begin to be calculated and accrue from the first day when the Investor has acquired the Notes from the Issuer and the Notes are booked by Mintos in the Investor's Investment Accounts.

The interest and principal payments under the Notes are linked to and contingent upon corresponding payments made under the Bonds. The Bonds will bear interest at an annual rate based on their nominal amount, with interest payable monthly in arrears on each interest payment date. Interest will begin to accrue from the interest commencement date, as specified in the Bonds' Issuer Prospectus.

▪ **Redemption of the Notes**

The Issuer may exercise its right but not the obligation to redeem the Notes from the Investors on the occurrence of certain events specified in the Bonds' Issuer Prospectus, including, but not limited to:

- the Bonds' Issuer exercises any of its rights of early redemption and/or repurchase of the Bonds in accordance with the terms of the Bonds' Issuer Prospectus.

In this event of early redemption of the Bonds, which has been initiated by the Bonds' Issuer, the Bonds held by the Issuer will be redeemed from the Issuer in accordance with the terms of the Bonds' Issuer Prospectus and all funds received by the Issuer in case of early redemption of the Bonds will be used proportionally to redeem the Notes.

In some cases, including, but not limited to:

- if the Issuer is required by the applicable regulation to sell the Bonds and/or,
- if the Issuer is not able to continue to service the Notes and/or,
- if there are risks to the Issuer and/or Mintos that do not allow the Issuer to hold the Bonds,

the Issuer may exercise its right to sell Bonds at its own discretion for any price that is available to the Issuer and use these funds received from the Bonds sale to redeem the Notes. As the Notes may be redeemed only with the funds acquired from the sale of the Bonds, the Investors should be fully aware that in such cases of discretionary sale of the Bonds by the Issuer, it could lead to delays in repayments and to a partial or full loss of the invested funds in the Notes.

▪ **No credit enhancement**

The Notes have no credit enhancements and no liquidity support in relation to payment of interest or principal.

The Issuer, as a special purpose entity, has no obligation to make any payment on the Notes unless sufficient funds have been received from the Bonds' Issuer.

○ **THE TRANSACTION DOCUMENTS**

The information in this section is a summary of certain features of the Transaction Documents provided for information purposes and will not be treated as the full binding text of the relevant agreement.

This section does not entail summary of those transaction documents which will be executed by the Issuer with respect to the acquisition of the Bonds from third parties, as those transaction documents will be market standard transaction documents as customary for such transactions. They will include agreements on the opening and maintenance of a cash account and financial instruments account for the Issuer and documents necessary for transactions to be performed with respect to the Bonds according to the provisions of this Base Prospectus.

8. THE BONDS

o Legal nature, jurisdiction and the applicable law of the Bonds

The Bonds are bearer and any person or entity that holds the Bonds in his securities account has the right to receive coupon and the nominal payments. It is planned to issue Bonds with nominal value of EUR 1000 (one thousand euro) for one Bond and total nominal value of EUR 25 000 000 (twenty five million euro). Bonds issue ISIN is LV0000106649, which was allocated by Nasdaq CSD.

The Bonds issue is a private placement arranged in compliance with the Financial Instrument Market Law (*Finanšu instrumentu tirgus likums*) and other applicable laws of the Republic of Latvia that are in force including the NCA, the Nasdaq CSD and the Nasdaq Riga regulations. Minimum subscription size for the Bonds is EUR 100 000 (one hundred thousand euro) with minimum step of EUR 1000 (one thousand euro).

The Bonds are issued in dematerialized form and will be recorded in the Latvian SSS (securities settlement system governed by Latvian law) operated by Nasdaq CSD, which will provide the maintaining function for the Bonds.

The Bonds rank *pari passu* with other unsecured obligations of the Bonds' Issuer. In case of the insolvency of the Bonds' Issuer, the bondholders will be entitled to recover their investment on the same terms as other unsecured creditors in the respective claims' group according to the relevant applicable laws, after the satisfaction of all claims of all secured creditors of the Bonds' Issuer. There are no contracts or other transaction documents that would subordinate the claims of the bondholders to other unsecured liabilities of the Bonds' Issuer.

The Bonds issue, including the relationship between the Bonds' Issuer and the bondholders or any third parties, and their respective rights and duties attached to the Bonds are governed by the laws of the Republic of Latvia.

o Repayment and maturity

The nominal (face value) of one Bond is EUR 1000 (one thousand euro), and the Bonds' Issuer will repay the nominal amount as a lump sum on the maturity date of the Bonds. According to the Bonds' Issuer Prospectus the maturity date when the Bonds shall be repaid in full at their nominal amount by the Bond's Issuer is 25 September 2027.

The Bonds will bear interest at a rate of 9.5% per annum. The interest is payable on the 25th day of the respective month until Bonds' maturity date. The first interest payment date will be 25 October 2025 and the last interest payment date and maturity date will be 25 September 2027.

Interest on the Bonds shall accrue for each interest period from and including the first day of the interest period to (but excluding) the last day of the interest period on the principal amount of the Bonds outstanding. The first interest period commences on the issue date and ends on the first interest payment date. Each consecutive interest period begins on the previous interest payment date and ends on the following interest payment date. The last interest period ends on the Bonds maturity date.

According to the Bonds' Issuer Prospectus the Bonds' Issuer shall be entitled to full early redemption (*call option*). If the Bonds' Issuer carries out full early redemption (*call option*) until 25 September 2026, the Bonds' Issuer pays 101% (one hundred and one per cent) of the nominal amount plus accrued interest on the redemption date. If the Bonds' Issuer carries out full early redemption (*call option*) after 25 September 2026, the Bonds' Issuer pays only the nominal amount plus accrued interest on the redemption date.

The Bonds' Issuer can carry out call option only in full amount of total outstanding Bonds. The Bonds' Issuer can exercise the early redemption (*call option*) of the Bonds only on the Bonds' interest payment date.

These characteristics of the Bonds as described above demonstrate capacity to produce funds to service any payments due and payable on the Notes.

- 12.4 To the extent that the sums referred to in Condition 12.1 are less than the amount which the Noteholders may have expected and been entitled to receive (such difference being referred to as the **shortfall**), the shortfall will be borne by the Noteholders.
- 12.5 Each Noteholder, on subscribing or buying any Note directly, of the Platform or any other way, irrevocably accept and acknowledge that it is fully aware that:

12.7 None of the shareholders of the Issuer, Mintos, the Bonds' Issuer has any obligation to any Noteholder for payment of any amount by the Issuer in respect of the Notes.

12.8 The provisions of this Condition 12 will survive redemption of the Notes.

17. EVENTS OF DEFAULT

17.1 Any of the following events will constitute an event of default under the Notes (each, an **Event of Default**):

- (a) if any order is made by any competent court or any resolution passed for the winding-up or dissolution (including any bankruptcy, insolvency, voluntary, forced or judicial liquidation, composition with creditors, a reprieve from payment, controlled management, fraudulent conveyance, general settlement with creditors or reorganisation proceedings or similar proceedings affecting the rights of creditors generally) of the Issuer (save for the purposes of amalgamation, merger, consolidation, reorganisation or other similar arrangements); or
 - (b) formal notice is given of an appointment an administrator (including any receiver, liquidator, auditor, verifier), provisional administrator; or
 - (c) any application is made, or petition is lodged, or documents are filed with the court or administrator in relation to the Issuer for the actions, proceeding or procedures specified in paragraphs (a) or (b) above, unless such proceedings or petitions are disputed in good faith and are discharged, stayed or dismissed within 90 calendar days of commencement.
- 17.2 The Issuer is obliged to inform Mintos immediately if any Event of Default should occur. Should Mintos not receive such information, Mintos is entitled to assume that no Event of Default exists or can be expected to occur, provided that Mintos does not have knowledge of any Event of Default. Mintos is under no obligation to make any investigations relating to any Event of Default. The Issuer will, at the request of Mintos, provide Mintos with details of any Event of Default and provide Mintos with all documents that may be of significance for the application of this Condition 17.
- 17.3 If Mintos has been notified by the Issuer or has otherwise determined that there is an Event of Default, Mintos will, within 20 Business Days of the day of notification or determination, notify the Noteholders according to Condition 20.
- 17.4 Upon the occurrence of an Event of Default, Notes are repaid according to the terms and conditions stipulated by this Base Prospectus and relevant Series Final Terms, unless otherwise required by a rule of the law.
- 17.5 Mintos, subject to the Noteholders indemnifying and holding Mintos harmless from any reasonable expenses, loss or liability, will take every reasonable measure necessary to recover the amounts outstanding under the Notes according to their terms and conditions and Transaction Documents. Mintos will in each case inform the Noteholders about the costs which should be compensated prior to requesting any indemnification. In any case Mintos will charge this compensation of costs only up to the recovered amount. Mintos will not ask for compensation of costs for its in-house staff and resources.
- 17.6 For the avoidance of doubt, if any payment is not made by the Issuer because the Issuer has not received the relevant amounts under the Series Specific Notes so that the Available Distribution Amount after application of the Priority of Payments is not enough to make payments due under the Notes in full, the occurrence of such event will, as such, not constitute an Event of Default.

18. MEETING OF NOTEHOLDERS

18.1 General provisions

The Issuer from time to time may convene a meeting of the Noteholders (the **Noteholders Meeting**) to adopt resolutions on certain matters. The Issuer at its own discretion decides which matters will be reserved for passing at the Noteholders Meeting.

These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the Noteholders Meeting or in respect of the relevant resolution and Noteholders who voted in a manner contrary to the majority. As a result, Noteholders may be bound by a change to these Terms and Conditions or by some other decision that affects Noteholders' investment in the Notes even though they have not agreed to such change.

The Noteholders Meeting may adopt its resolutions in one of the two forms as chosen by the Issuer:

- (a) at a meeting held by attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote using ballots provided; or
- (b) by absentee voting (without attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote).

The Noteholders Meeting will be chaired, and minutes taken by a representative of Mintos.

18.2 *Resolutions of the Noteholders Meeting*

Matters put to the vote at a Noteholders Meeting and its agenda will be decided by the Issuer.

The Noteholders may neither pass resolutions on the matters not included in its agenda nor amend the agenda.

Resolutions passed by the Noteholders Meeting and voting results will be provided to the persons eligible to participate in the Noteholders Meeting in a report, which will be disclosed to the Noteholders as per the procedure prescribed with regard to sending notices of the Noteholders Meeting, within 5 Business Days after the closing date of the meeting or the final date for submitting the voting ballots in case of absentee voting. However, the failure to do so will not invalidate the resolution.

The resolution will be binding on all the Noteholders, whether or not present at the Noteholders Meeting and each of them will be bound to give effect to it accordingly.

18.3 *Information on holding a Noteholders Meeting*

The Issuer will notify the Noteholders about the Noteholders Meeting in accordance with the procedure below.

A notice of the Noteholders Meeting (the **Notice**) will be given according to Condition 20 no later than 10 days in advance.

The Notice will be given to the Noteholders registered on the date of the Notice in the electronic register of Noteholders maintained by Mintos.

The Issuer may decide not to publish the Notice on the Platform. In such a case within the time specified in this Condition 18.3 the Issuer will send the Notice to the Noteholders by email.

The Issuer may at its own discretion make available information to the Noteholders entitled to participate in the Noteholders Meeting as part of preparations for the Noteholders Meeting.

18.4 *Quorum at a Noteholders Meeting*

A Noteholders Meeting will be deemed quorate if attended by Noteholders aggregately holding

more than 50% of:

- (a) the aggregate Principal Amount Outstanding of all Series of Notes on the date of the Notice if the decision is related towards all Series of Notes outstanding; or
- (b) the aggregate Principal Amount Outstanding of the relevant Series of Notes on the date of the Notice if the decision is related towards the relevant Series of Notes outstanding.

The number of votes for each Noteholder equals the Principal Amount Outstanding in the respective Series on the date of the Notice.

When a Noteholders Meeting is held by attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote, the Noteholders registered to participate in the Noteholders Meeting and the Noteholders whose ballots have been received no later than 2 days before the meeting will be deemed to have participated in the meeting.

When a Noteholders Meeting is held in the form of absentee voting, the Noteholders whose ballots have been received before the final date for submitting the ballots will be deemed to have participated in the meeting.

Where there is no quorum for a Noteholders Meeting, a second Noteholders Meeting will be held with the same agenda. Such second Noteholders Meeting will be deemed quorate if attended by Noteholders aggregately holding more than 30% of:

- (a) the aggregate Principal Amount Outstanding of all Series of Notes on the date of the Notice if the decision is related towards all Series of Notes outstanding; or
- (b) the aggregate Principal Amount Outstanding of the relevant Series of Notes on the date of the Notice if the decision is related towards the relevant Series of Notes outstanding.

Subject to the quorum being present, the decisions on the Noteholders Meeting agenda will be adopted per each item of the agenda by the majority from the total number of votes provided.

18.5 Voting ballots

Ballots for voting at a Noteholders Meeting will be sent together with the Notice according to Condition 18.3.

Ballots for voting will be in the English language.

Voting could be convened as an e-voting through filling-out an electronic voting ballot through the interface of the Platform.

Noteholders included in the list of those entitled to participate in the Noteholders Meeting other than the Noteholders Meeting held in the form of absentee voting, or their representatives, may register to participate or forward their completed ballots to the Issuer. Voting ballots will be counted towards the calculation of the quorum and voting results if received by the company no later than 2 days before the Noteholders Meeting.

The voting ballot will contain the information about the Noteholders Meeting including but not limited to:

- information about the Issuer, including address and contact person;

- details identifying the Series of Notes;
- form of the Noteholders Meeting (attendance or by absentee voting);
- date, place and time of the Noteholders Meeting if it is held in the form of attendance of the Noteholders;
- Principal Amount Outstanding; and
- voting options for each item on the agenda, expressed as “for”, “against”, or “abstained”, and the indication that the voting ballot must be signed by a person entitled to participate in the Noteholders Meeting or its representative unless convened by e-voting.

When voting by ballots, only those voting ballots are counted where for each item only one voting option is selected. The voting ballots completed in breach of the aforementioned requirement will be deemed invalid. However, if there are several items put to the vote on the voting ballot, breach of the aforementioned requirement with respect to one or several items will not affect the validity of the remaining ballot. If a voting ballot is rendered invalid with respect to voting on one, several or all items included in such ballot, the votes so cast in such ballot will not be excluded from the calculation of the quorum. If a voting ballot is rendered invalid, the votes on the items contained in the voting ballot will not be counted.

18.6 Counting

The counting functions will be performed by Mintos, which will check the powers of, and register the participants in a Noteholders Meeting, determine the quorum at a Noteholders Meeting, count the votes and determine the voting results, draw up the voting minutes and hand over the voting ballots to the archive.

The Issuer and each of the Noteholders irrevocably submits to the jurisdiction of such courts.

25. LIMITATION OF LIABILITY, AND REPRESENTATION AND WARRANTIES OF THE NOTEHOLDER

10. TAXATION

The information provided in this section will not be treated as legal or tax advice; and prospective investors are advised to consult their own tax advisors as to the tax consequences of the subscription, ownership and disposal of the Notes applicable to their particular circumstances. The following is a general summary of certain tax considerations in the Republic of Latvia in relation to the Notes. It is not exhaustive and does not purport to be a complete analysis of all tax consequences relating to the Notes, as well as does not take into account or discuss the tax implications of any country other than the Republic of Latvia.

Tax laws of the Noteholder's country of residence for taxation purposes and of the Issuer's country of residence may have an impact on the income received from the Notes.

This summary is based on the laws of Latvia as in force on the date of this Base Prospectus and is subject to any change in the law that may take effect after such date, provided that such changes could apply also retroactively.

Latvia has entered into a number of tax conventions on elimination of the double taxation (hereinafter - DTT), which may provide a more favorable taxation regime. Therefore, if there is a valid DTT between Latvia and the country of tax residence of a prospective Noteholder, it should be also examined. The procedures for application of tax conventions are provided in the Republic of Latvia Cabinet of Ministers' Regulations No. 178 "Procedures for Application of Tax Relief Determined in International Agreements for Prevention of Double Taxation and Tax Evasion", adopted on 30 April 2001.

Taxation of the Issuer

The Issuer is a corporate income tax payer in Latvia. According to the Latvian tax law, the annual profit earned by entities in Latvia is not taxed. Instead, corporate income tax is paid on dividends, fringe benefits, gifts, donations, representation costs, non-business related disbursements and transfer pricing adjustments. The tax rate applicable is 20%, however, the taxable base is divided by the coefficient 0.8, thus the effective Corporate income tax rate is 25%.

Taxation of individual Noteholders

Resident individuals

An individual will be considered a resident of Latvia for taxation purposes if at least one of the following requirements is met:

- the declared place of residence of this person is in Latvia;
- the person stays in Latvia for at least 183 days for a period of 12 consecutive calendar months;
- the person is a Latvian citizen who is employed by the government of Latvia in a foreign country.

Following the Latvian tax laws the interest income received by the individual tax resident in Latvia is subject to tax at the rate of 25.5%. The interest income from the Notes for resident individuals will be subject to 25.5% personal income tax that will be withheld by the Issuer before the Interest payment is made by the Issuer to the Noteholder. The tax withheld by the Issuer is a final tax liability on the interest income received.

The income from the sale of the Notes is treated as an income similar to the interest income for Latvian personal income tax purposes and will be subject to 25.5% personal income tax and the tax is payable by the individual him/herself.

Non-resident individuals

An individual would be considered a non-resident of Latvia for taxation purposes in all cases unless he/she is a tax resident of Latvia. Interest income from the Notes received by the non-resident individual is subject to a 5% withholding tax rate for investors who invest as private persons and are tax residents of the EU/EEA. For other individual investors and those who have not confirmed tax residence and not investing

as a private person 25.5% withholding tax rate is applied. According to the general practice the tax withheld in Latvia might be deducted from the tax payable by the investor in his/her residence country (as tax paid abroad). However, we recommend consulting with the respective country's tax administration or tax adviser to clarify the procedure and documents required to perform such a deduction (if any).

The tax rate might be reduced based on the Double Tax Treaty between Latvia and the respective country. The list of the Double Tax Treaties concluded by Latvia is available [here](#).

The income from the sale of the Notes will be subject to 25.5% tax and the tax would be payable by the individual him/herself, if the buyer of the Notes is an individual or legal entity non-resident of Latvia.

Taxation of legal entity Noteholders

Resident legal entities

A legal entity would be considered a resident of Latvia for tax purposes, if established pursuant to Latvian law. Interest payments on the Notes and proceeds from the disposal of the Notes received by Latvian resident legal entities will not be subject to withholding tax in Latvia. Under the Latvian tax law retained earnings are exempt from corporate income tax and only profit distributions are taxed. Distributed gross profits are subject to the 20% profit tax. Corporate income tax on the net amount of profit distribution is determined by dividing the net amount with a coefficient of 0.8 (i.e., the effective tax rate on net distributed profit is 25%).

Non-resident legal entities

A legal entity would be considered a non-resident of Latvia for taxation purposes in all cases unless it is a tax resident of Latvia. The interest income and capital gains from the sale of the Notes for non-resident legal entities will not be taxable in Latvia (i.e. gross income will be paid), except if the income recipient is located, registered, or incorporated in a no-tax or low-tax country (so-called "tax havens"; if this is the case - 25.5% tax will be withheld by the Issuer in Latvia). The list of "tax havens" according to the Latvian law includes UK Anguilla, US Guam, US Samoa, US Virgin Islands, Russian Federation, Republic of Fiji, Republic of Palau, Republic of Panama, Independent State of Samoa, Republic of Trinidad and Tobago, Republic of Vanuatu. The list of mentioned countries and territories may be amended from time to time.
