This Base Prospectus has been approved as a base prospectus by the NCA, as competent authority under the Prospectus Regulation. The NCA has only approved this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the Prospectus Regulation. The Bonds’ Issuer will notify the CNBV of the offering of the Notes and the Bonds outside of Mexico for information and statistical purposes only, and the delivery of such notice to, and the receipt thereof by, the CNBV is not a requirement for the validity of the Notes or the Bonds and does not imply any certification as to the investment quality of the Notes or the Bonds, Bonds’ Issuer’s solvency, liquidity or credit quality or the accuracy or completeness of the information set forth herein. The information contained in this Base Prospectus regarding the Bonds’ and the Bonds’ Issuer is exclusively the Bonds’ Issuer’s responsibility and have not been reviewed or authorised by the CNBV. The acquisition of the Notes or the Bonds by an investor who is a resident of Mexico will be made under such investor’s own responsibility.

When such a certificate shall be obtained it will be permitted to make the public offer under this Base Prospectus in other Member States, and the Issuer shall ensure that Mintos provides information about it on the Platform. Such

certificate, if and when received, should not be considered as an endorsement of the Issuer or the quality of the Notes.

This Base Prospectus will be valid for a period of up to 12 months after its approval by the NCA. In the event of any significant new factor, material mistake or inaccuracy relating to information included in this Base Prospectus which is capable of affecting the assessment of any Notes, the Issuer will prepare a supplement to this Base Prospectus or publish a new Base Prospectus for use in connection with any subsequent issue of Notes. The obligation to prepare a supplement to this Base Prospectus or publish a new Base Prospectus in the event of any significant new factor, material mistake or inaccuracy will cease to apply upon the expiry of the validity period of this Base Prospectus.

This Base Prospectus according to the Article 8 (11) of the Prospectus Regulation is succeeding base prospectus to the initial base prospectus (approved by NCA on 17.09.2024, and related to the Bonds' Issuer; programme limit in EUR currency). The form of the final terms from the initial base prospectus is similar to the final terms form under this Base Prospectus and can be found in Section '11. APPLICABLE FINAL TERMS'.

All the final terms (i) created under the initial base prospectus and (ii) with the maturity date exceeding the validity term of the initial base prospectus, and (iii) available on the Platform, are relevant for the continuing offer under this Base Prospectus.

The principal risk factors that may affect the abilities of the Issuer to fulfil its obligations under the Notes are discussed in the section entitled '2. RISK FACTORS' of this Base Prospectus.

Capitalised terms used in this Base Prospectus have the meaning given to them in the section entitled 'GLOSSARY' of this Base Prospectus.

1. GENERAL DESCRIPTION

o What is Mintos?

Mintos is Europe's leading investment platform for earning regular passive income, with over €600 million in assets under management for more than 500 thousand registered users (as of 1 January, 2025). Authorized under MiFID (*Markets in Financial Instruments Directive*), Mintos enables users to build diversified portfolios of income-generating assets through both automated and manual investments. Mintos has earned multiple industry awards since its founding in 2014.

For more information, see section '6. MINTOS' of this Base Prospectus.

o What are Notes?

Notes are financial instruments, namely asset backed securities, issued by the Issuer via Mintos to Investors and backed up by the Bonds. The Issuer by means of Platform provides access to investments in Bonds through the offer and issue of Notes. For the Investors' convenience this sort of Notes that will be offered on Platform will be called "Fractional Bonds" to differentiate these particular Notes from other notes that are also offered on Platform but are backed up by other assets.

The Notes are backed up by Bonds meaning that the Bonds are held by the Issuer on a separate securities account with a regulated credit institution to act as collateral for the Notes issued.

The Notes will bear the same interest as Bonds' Receivables which is an interest that will be paid to bondholders as provided in the Bonds' Issuer Prospectus, see also section 9 of this Base Prospectus.

Starting from 10 January 2026 and until the Notes maturity date the Notes will be quarterly redeemed proportionally to Bonds' Quarterly Redemption Payments made by Bonds' Issuer in accordance with the terms of the Bonds' Issuer Prospectus.

The Issuer might offer Notes applying the same principles as the Issuer has acquired Bonds. For example, if the nominal value of the acquired Bonds will be EUR 100 but the price at which the Bonds were purchased was EUR 96, the Issuer will issue Notes in EUR 100 of aggregate nominal amount with the issue price of EUR 96.

The reason to offer Notes is to give the Investors opportunity to invest with relatively small amounts and to provide diversity in their investment portfolios with exposure to assets that usually require substantial investment amounts due to a relatively high minimum investment threshold. Notes are also a well-known product to Mintos Investors and by extending notes offering it provides Investors with even more options to invest in asset-backed securities.

The Issuer is a special purpose legal entity established for the purposes of:

- purchasing Bonds for the purpose of issuance of Notes and dealing with the Bonds according to the Terms and Conditions of the Notes, see the section 9 of this Base Prospectus;
- issuing Notes to Investors via Mintos.

The Issuer may issue financial instruments (notes) in cooperation also with other bonds' issuers.

See the sections entitled '5. THE ISSUER' and '7. THE BONDS' ISSUER' of this Base Prospectus for more information.

○ *The flow of funds for repayment of Notes*

Each time there is Bonds' Receivables and/or Bonds' Quarterly Redemption Payments payment made by the Bonds' Issuer, the Bonds' Issuer transfers funds to the Issuer, which in turn makes payments under the relevant Series of Notes to the relevant Investor via Mintos. The payments are received into the relevant Investment Account.

This means that if the Bonds' Issuer:

- is late on its Bonds' Receivables and/or Bonds' Quarterly Redemption Payments scheduled payment, payments to the Investors will also be delayed; and
- does not pay Bonds' Receivables and/or Bonds' Quarterly Redemption Payments to the bondholders, there will be no interest payments to the Investors under the Notes.

○ *The flow of funds for investment in Notes*

To invest in Notes, the Investor must subscribe to the Notes by giving instructions on the Platform to reserve a certain amount of Investor's available funds to purchase Notes. Reserved funds are held by Mintos up to a Bonds' settlement day – the day when Investors' funds are transferred by Mintos to the Issuer's bank account to acquire Bonds. The Notes are delivered to the Investment Account on a Bonds' settlement day. The Issuer issues a Series of Notes corresponding to the purchased Bonds to Investors via Mintos. When an Investor purchases any Note of the Series, the Investment Accounts are credited with the Note and debited with the purchase price of the Note. The purchase price is transferred to the Bonds' Issuer.

2. RISK FACTORS

The Issuer believes that the factors listed in this section of the Base Prospectus may affect its ability to fulfil its obligations under the Notes. All of these risk factors and events are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. In addition, factors which are material for the purpose of assessing the market risks associated with the Notes are also described below.

Although the most material risk factors have been presented first within each category, the order in which the remaining risks are presented is not necessarily an indication of the likelihood of the risks actually materialising, the potential significance of the risks or the scope of any potential negative impact to the Issuer's or the Bonds' Issuer's business, financial condition, results of operations and prospects. The Issuer and/or the Bonds' Issuer may face a number of these risks described below simultaneously. While the risk factors below have been divided into categories, some risk factors could belong in more than one category and prospective investors should carefully consider all of the risk factors set out in this section.

The Issuer believes that the factors described below represent the material risks inherent to investing in the Notes, but the inability of the Issuer or the Bonds' Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the statements below regarding the risks of investing in any Notes are not exhaustive. Other risks, events, facts or circumstances not included in this Base Prospectus, not presently known to the Issuer, or that the Issuer at the date of this Base Prospectus deems to be immaterial could, individually or cumulatively, prove to be important and may have a significant negative impact on the Issuer's or the Bonds Issuer's business, financial condition, results of operations and prospects. Prospective investors should carefully review the entire Base Prospectus and should form their own views before making an investment decision with respect to the Notes.

Before making an investment decision with respect to any Notes, prospective investors should consult their own lawyers, accountants or other financial, legal and tax advisers and carefully review the risks entailed by an investment in the Notes and consider such an investment decision in the light of the prospective investor's personal circumstances.

o **RISKS SPECIFIC TO THE BONDS' ISSUER**

The risks are related to, but not limited to:

- Bonds Issuer's business activities and industry (e.g. changes in underwriting standards, borrowers defaulting on their payments, decrease in the residual value, etc.),
- Credifiel Group's financial situation (e.g. changes in working capital requirements, substantial level of indebtedness, liquidity risks, etc.),
- Legal and regulatory risks (e.g. failure to comply with anti-corruption laws, enforceability risk, etc),
- Internal control risk (e.g. conflict of interest).

You can read more on the categories described above within the Bonds' Issuer Prospectus. The links to the Bonds' Issuer Prospectus are provided in this Base Prospectus under Glossary Section - Bonds' Issuer Prospectus.

o **RISKS SPECIFIC TO THE UNDERLYING ASSET - BONDS**

Before considering an investment in Notes backed by Bonds, it is essential to recognize the array of potential challenges and uncertainties that come from investing in this underlying financial instrument.

Considering that Bonds repayment is heavily related to the Bonds Issuer's financial position and the security package, the main risks related to the underlying bonds are listed below.

1. Risks related to the nature of the Bonds:

- **Maturity Repayment Uncertainty:** there is a risk that the Bonds' Issuer may be unable to repay or refinance the Bonds at their maturity, potentially requiring waivers or refinancing. Bondholders might not receive their principal and interest payments as expected.
- **Foreign Exchange Risks:** as the Bonds are denominated in EUR, investors using other currencies face foreign exchange-related risks due to currency value fluctuations, affecting their returns.
- **Interest Rate Impact:** rising market interest rates can reduce the value of fixed-rate Bonds, potentially leading to market price declines if investors wish to sell. Bondholders are exposed to interest rate changes.
- **Limited Trading Market:** the absence of an established trading market for the Bonds can hinder liquidity, making it challenging to resell them at fair market prices.
- **U.S. Securities Act Restrictions:** the Bonds are not registered under the U.S. Securities Act, limiting their transfer and potentially affecting liquidity and sale prices.

In summary, these risks encompass financial stability challenges for the Bonds' Issuer, uncertainty regarding bond repayment, foreign exchange exposure, interest rate sensitivity, limited market liquidity, and regulatory restrictions. Investors should consider these factors when evaluating the underlying Bonds. These risks would also be directly reflected in the return for the Noteholders.

You can read more on the categories described above within the Bonds' Issuer Prospectus. The links to the Bonds' Issuer Prospectus are provided in this Base Prospectus under Glossary Section - Bonds' Issuer Prospectus.

o **RISKS SPECIFIC TO MINTOS**

1. **Various events and failures could cause situations where Mintos is not able to continue operations**

As a relatively new service, Mintos operates in a complex and dynamic regulatory and competitive environment and various events and failures could lead to Mintos terminating the provisioning of services, including the operations of the Platform. These events include but are not limited to revocation of licence, weak financial performance, negative reputation, non-compliance events, dramatic changes in the applicable regulations impacting Mintos operating model or an economic downturn. If Mintos ceases operations, this could significantly impact the Noteholder's ability to receive repayment on time.

Should Mintos enter liquidation or insolvency, as a regulated and supervised entity, the process will be supervised by the NCA. The appointed liquidator or administrator will take over the functions of the management board. Mintos will continue servicing its clients and the Investment Accounts, and relevant financial instruments portfolios in line with what Mintos is permitted to do according to the applicable insolvency and liquidation rules. The process from the moment of the appointment would be led by the appointed administrator or liquidator. In some cases, the Investors' Protection Law may apply. Such processes may significantly influence the investment's return times and make the return more complex to the Noteholder.

Furthermore, Mintos could for some reason suddenly stop honouring its obligations under the existing agreements, leading to delayed payments or partial or full loss of the amount invested in the Notes.

2. **Non-compliance with regulations could lead to revocation of Mintos' licence**

To provide services to clients, Mintos, as the operator of the Platform, has received an investment

firm licence from the NCA. The licence could be suspended or revoked due to non-compliance with regulations by Mintos. Loss of licence by Mintos could lead to delayed payments or partial or full loss of invested amount under the Notes.

3. Failure of IT systems or a security breach could lead to significant liabilities and harm relationships with customers

The technology that Mintos has developed over the years is a cornerstone of Mintos' future success. The satisfactory performance, reliability and availability of the Platform is critical to its operations, customer service and reputation.

While Mintos has taken steps to protect confidential information, the techniques used to obtain unauthorised, improper or illegal access to systems, data, or customer data, or to disable or degrade services are constantly evolving and may not be detected quickly.

As a result, Mintos' and Mintos' third-party vendor security measures might be breached, and these security breaches could result in confidential client information being stolen. Breaches of security measures because of third-party action, employee error, third-party vendor error, design flaws in the software, or interruptions in Mintos' systems and services could adversely impact our relationships with Mintos' clients, harm Mintos' reputation and expose Mintos to significant liability.

Furthermore, in the event of damage or interruption, existing insurance policies may not adequately compensate Mintos and Mintos' clients for any losses that may have been incurred. Nevertheless, as IT systems are crucial to Mintos' operations, a substantial amount of resources is devoted to ensuring the stable and uninterrupted performance of the IT systems.

4. Mintos' bank accounts could be frozen or closed and banks, where the Noteholder funds are held, can become insolvent

Mintos clients' funds, including the fund being deposited in the Issuer's Account for settlement under the Notes, are kept segregated from Mintos' own funds in several bank accounts marked as client funds accounts.

One or several of those bank accounts that Mintos uses might be blocked, seized or closed for a number of reasons, including insolvency of the banks, resulting in interruptions of fund transfers to the Issuer and the Noteholder.

5. Significant problem or termination of the agreement with a Mintos partner may affect the provision of services to the Investors

While providing its services, Mintos relies on several carefully selected partners (e.g., cloud computing providers), and any problems with the service providers could impact Mintos' ability to provide services to the Noteholder. Mintos has taken several steps to reduce the likelihood and impact of such occurrences, such as having backup service providers where feasible, there is still a risk that the Noteholder may not be able to access the Platform or receive services.

6. Certain situations or actions may raise conflicts of interests

While the rights and the responsibilities of Mintos and the Issuer are detailed in the Transaction Documents and this Base Prospectus, and Mintos has established policies and procedures to mitigate the risk, it is not possible to fully avoid the possibility of a conflict of interests between the parties that could impact the interests of the Noteholder.

Mintos provides placement services to the Issuer with respect to the Notes, Mintos receives fees from the Bonds Issuer for placement services. Mintos has carefully set up the fees in a compliant manner and so that it would not violate the conflict of interest management rules. Such placement fees might qualify as inducements and Mintos would disclose information on these inducements to the Noteholder. In addition to inducement disclosures, Mintos has set up internal procedures to identify and manage conflicts of interest. Some conflicts of interest require disclosure and those are disclosed.

○ **RISKS SPECIFIC TO THE ISSUER**

1. The Issuer could default on its obligations or become insolvent

The Issuer is a wholly-owned Mintos Group company, and not engaged in any business activities other than those provided in this Base Prospectus. There is a risk that the Issuer could suddenly stop effectively honouring its obligations under the existing agreements and breaching its provisions, resulting in missing repayments to the Noteholder. This could lead to delays in repayments and partial or full loss of invested amounts.

While the Issuer is created, established and performs its operations as a special purpose undertaking, due to possible legal shortcomings of the applicable law and/or judicial practice, the Issuer might be found insolvent due to the following reasons, including, but not limited to, a Noteholder or other creditor initiating the insolvency procedure against the Issuer in bad faith and the court not finding limited recourse and non-petition provisions defined by this Base Prospectus as a sufficient ground to reject such proceeding. In such situations, the Noteholder could experience delays in receiving its invested funds and its priority as a creditor of the Issuer might be changed by the rule of law, leading to receiving fewer amounts than due under the Notes.

The Terms and Conditions of the Notes (in section 9 of this Base Prospectus) are set up and drafted as having legal force and addressing concerns as legally binding contractual obligations. There can be external circumstances that might influence such legal construction, including, but not limited to court ruling, and/or new or modified legal enactments.

2. Mintos may not be able to cover the maintenance and administrative costs of the Issuer

Considering the pass-through nature of the Issuer, the maintenance costs and administrative expenses of the Issuer are, in essence, covered by Mintos, via a compensation mechanism. If for any reason mentioned above in '*RISKS SPECIFIC TO MINTOS*', Mintos is not able to cover such costs, it could significantly influence the operations of the Issuer and its ability to service Notes and make payments to the Noteholder.

3. Information asymmetry

There is a risk that the Bonds' Issuer can provide material information with delay or fails to provide information to the Issuer at all. As a consequence:

- the Issuer through Mintos acting as its authorised representative will not be able to timely enforce its rights provided in the Transaction Documents and to act in the interests of Noteholders; and
- the Issuer will not be able to prepare and publish supplements to this Base Prospectus in a timely manner, which could impact the Noteholders' judgement on purchasing the Notes being unaware of any significant new factor, material mistake or inaccuracy related to the information being sourced from the Bonds' Issuer.

4. Cross-risks applicable to the Issuer

Considering the pass-through nature of the Issuer, the Issuer and its abilities to pay amounts due to the Noteholders under the Note are exposed to all the risks listed above in '*RISKS SPECIFIC TO THE UNDERLYING ASSET - BONDS*', and '*RISKS SPECIFIC TO MINTOS*'.

5. The Issuer without consent of the Noteholders may issue further series, including also notes, backed by bonds from other bonds' issuers

As a consequence:

- it could increase the total debt burden, affecting the Issuer's ability to meet its obligations to all Noteholders.
- managing multiple series and their interrelationships can be challenging, and the complexity may be a source of risk for both the Issuer and Investors.

o RISKS SPECIFIC TO NOTES

1. The Noteholder has no rights of recourse against the Bonds' Issuer, the Bonds' guarantors or the security agent (if any)

The Noteholder has no direct right to the Bonds. Instead, the Noteholder is acquiring Notes, which are backed by the corresponding Bonds. The legal title in the Bonds and relevant rights arising from them are vested in the Issuer. This means that the Noteholder will have no direct recourse against the Bonds Issuer and no ability to independently and in its discretion to pursue the Bonds Issuer to collect payments under the Bonds. For the same reason the Noteholder will have no direct recourse against the Bonds guarantor (if any) and/or the security agent and no ability to pursue the Bonds Issuer, the Bonds guarantor (if any) and/or the security agent (if any) to enforce them to duly perform their duties and obligations due. All such actions are carried out by the Issuer as the legal owner of the Bonds according to the provisions of this Base Prospectus and the Transaction Documents.

2. Change of creditors priority

The outcome of judicial or insolvency procedure could overrule the creditors' priority in this Base Prospectus due to requirements of the law, meaning that the Noteholders of one Series of Notes could become equal creditors to Noteholders of other Series of Notes, thus all the proceeds the Issuer receives from all the Notes is distributed on *pro rata* basis or otherwise.

3. Certain costs may rank higher than payments to the Noteholder

While it is the Issuer's responsibility to transfer to the Noteholder all payments that have been received from the Bonds' Issuer, there are certain costs, such as taxes, Mintos' fees and recovery costs that rank higher than payments to the Noteholder. This means that the Noteholder would only receive payment after the payment obligations of a higher priority have been settled.

Also, there is a risk that the outcome of judicial or insolvency procedure could define other priority of payments, which differs from the priority in this Base Prospectus.

4. Liabilities that are not Series specific will be allocated to all Series of Notes proportionally

If there are higher priority costs, i.e., taxes, fees and recovery costs, related to the specific Note, then these will be covered from the payments due to the Noteholders according to the Priority of

Payments defined in this Base Prospectus. Where the liability is not Series-specific, for example, legal costs, the liability will be allocated to all Series of Notes proportionally unless otherwise defined by the Priority of Payments.

5. No specific securitisation laws in Latvia

There are no dedicated laws and regime in Latvia addressing specific special purpose vehicle issuer insolvency or limited recourse concepts at the date of this Base Prospectus. Mintos believes the Terms and Conditions of the Notes are set up and drafted as having legal force and addressing such concerns as legally binding contractual obligations. There might be circumstances that influence such legal construction, including, but not limited to the court ruling, or new or modified legal enactments. Eventually, this could lead to delayed payments or partial or full loss of the amount invested in the Notes.

6. Bonds repurchase could impact planned return

The Bonds' Issuer may repurchase the Bonds from its investors at any time at value determined in the Bonds Issuer's Prospectus without any penalty or other compensation. This may happen, for example, in cases where the Bonds' Issuer decides to repurchase all Bonds before maturity date for the reasons described in the Bonds Issuer's Prospectus.

The Bonds' Issuer not only has a right to repurchase, but also has an obligation to repurchase the Bonds from the investors upon the occurrence of certain events specified in the Bonds' Issuer Prospectus.

If the early redemption right is exercised by the Bonds' Issuer, the relevant Series of Notes will be redeemed early in full or in part once the Issuer has received the repurchase price from the Bonds' Issuer. The Noteholders' return on the investments in the Notes which are redeemed due to the repurchase will be lower than the initially planned return.

7. New regulations introduced in the future could impact the Noteholder and Mintos

Due to several reasons, such as improvements in computer technology, the financial crisis of the past decade and a greater focus on preventing the legalisation of illegally gained proceeds, the financial industry over the last years has experienced the introduction of several new regulations. With further developments and adoption of technologies, jurisdictions, either where Noteholders or Mintos Group are domiciled are likely to introduce new regulations or administrative interventions that could relate to Notes or online marketplaces such as the Platform. Such regulation in the future, for example, could enhance investors' protection measures, limit access to Notes to only qualified or sophisticated Noteholders, limit the proportion of the portfolio that can be invested through Notes or introduce any other restricting measures.

Furthermore, the introduction of new regulations or significant changes to the existing regulations could impact the profitability, cost base and future operations of Mintos. Failure to comply with regulation could lead to, among other things, lawsuits, administrative enforcement actions, penalties, and revocation of licences and authorisations. Eventually, this could lead to delayed payments or partial or full loss of invested amounts under Notes.

8. New regulation in relation to taxes could impact the expected return for the Noteholder

In the event that new regulation is introduced, or existing regulation or its interpretation changes so that the Issuer and/or Mintos needs to withhold additional taxes before making payments to the Noteholder, and the Issuer and/or Mintos is required to withhold any transfer tax, stamp duty

and/or financial transactions tax, this could impact the expected return on investment for the Noteholder. Similar developments in the Noteholders' tax residence country can lead to the same consequences.

9. Notes have limited liquidity and transferability

The Notes are illiquid securities and there is no active market for them, and the Notes are not admitted to any trading venue. The potential buyers and transferees are limited only to other Mintos' clients who are registered on the Platform. Which all means that the Noteholder might need to offer the Notes with a significant discount and hence would not meet the expected return on the investment, or might even be unable to sell them at all during a shorter or longer period of time. Furthermore, to protect Noteholders that use automatic investment solutions from making investment decisions, Mintos may restrict the execution of orders to sell the Notes according to the terms and conditions of the agreements between the Investors and Mintos.

The Noteholder should therefore only invest in Notes that the Noteholder is comfortable with holding to maturity.

10. An undiversified investment portfolio may lead to greater exposure to the Bonds' Issuer and country-specific risks than a well-diversified portfolio

Investment in a single Note, Notes issued in relation to the Bonds' Issuer or Notes with underlying Bonds, means that the performance of the portfolio and risk exposure depends on that Note, the Bonds' Issuer, country and currency risk.

Mintos encourages its customers to build a well-diversified portfolio and provides several tools to automate investing in Notes, making this easier.

11. Investing in Notes issued in other currencies increase the Noteholder's exposure to currency risk

If a Noteholder invests in Notes denominated in a currency that is different from the currency that the Noteholder earns and/or spends, the return on the investment could be significantly impacted by the fluctuations in the exchange rate between those currencies. This means that if the underlying currency depreciates significantly, the Noteholder could lose part of the investment, and if the currency appreciates significantly, the Noteholder could earn a higher return on investment.

12. Notes are not bank deposits

Investment in Notes does not have the status of a bank deposit in Latvia or elsewhere and is not within the scope of the deposit protection or guarantee scheme operated by the Republic of Latvia or any other jurisdiction.

Statistical information included in this Base Prospectus has been derived from official public sources, including the statistical releases. 4. TRANSACTION OVERVIEW

o THE DESCRIPTION OF THE TRANSACTIONS IN RELATION TO THE NOTES

▪ The Issuer, Mintos and the Bonds' Issuer

The Issuer has entered into the Transaction Documents with Mintos and the Bonds' Issuer for the issue and sale of the Notes as described in this Base Prospectus.

▪ Acquisition of Bonds by the Issuer

The Bonds will be purchased by the Issuer either directly from the Bonds' Issuer, from any other third party willing to sell the Bonds, or on the regulated market where the Bonds are traded. Additionally, if the Bonds have not yet been issued, the Issuer may subscribe for the Bonds during the subscription period in accordance with the terms of the Bonds' Issuer Prospectus. Funds collected from the Investors who have indicated their interest in investing in the Notes will be used to settle the Bonds' acquisition transaction.

If the Bonds settlement date, when the Issuer buys Bonds, does not match the Bonds' Receivables Payment Date, i.e., when the Bonds are actually delivered to the Issuer's security account with a regulated credit institution, the Bonds' accrued interest for these days of difference between settlement date and previous Bonds' Receivables Payment Date will be covered by the Issuer's own funds from its fully paid up share capital to purchase the Bonds, which will be reimbursed later with the next Bonds' Receivables payment.

The Issuer may also cover the missing fraction with its own funds to fulfil the Bonds purchase. As an example: The Bonds' price is EUR 1 000, and the Issuer has collected EUR 900 from Investors. In this case, the Issuer adds EUR 100 from its own funds to ensure the Bond's purchase. The minimal investment amount for the Bonds is EUR 1 000. In cases if the Issuer collects less than EUR 900, the Issuer will not acquire Bonds and all the funds collected from Investors will be returned to them. The Issuer is a

beneficiary of the Bond's fraction purchased with its own equity. This fractional bond will be disclosed in financial statements of the Issuer together with accrued and received interest that will be recognised as an interest income for the Issuer. When the Bonds are redeemed, the fraction of the Bonds will be redeemed along the rest of the Bond value. The fraction owned by the Issuer is not related to any Notes issued by the Issuer.

Payment for the Bonds is subject to placement of the Series of Notes.

▪ Issue of Notes

To purchase Notes from the Issuer, the Investor registered on the Platform submits an investment order using a dedicated section on the Platform, indicating the amount of money that the Investor wishes to invest in Notes.

Once Investors have indicated on Mintos platform that they wish to purchase Notes, Mintos reserves those funds to be ready available for the Issuer to submit its purchase order to buy the Bonds and then, after the Bonds are purchased, delivers Notes to Investors on their Investment Accounts with Mintos. The reservation means that those funds remain on the Investment Account of the Investor but are not available for other transactions until the Notes are delivered or until the Notes purchase is cancelled. The Issuer has the right to cancel the Notes purchase at its own discretion at any time with no obligation to inform Investors about cancelling the Notes purchase.

The Notes are publicly offered by the Issuer through the Platform. Investors can purchase Notes from the Issue Date and until 10 October 2025 or until the time when the Notes are fully sold to Investors by the Issuer, whichever occurs earlier. Information about the offer results of the Notes is published on the website www.mintos.com in real time. The offer of the Notes is subject to the Bonds availability for the Issuer to purchase.

The process for purchasing Notes is automated and takes place in real-time. When the transaction order is accepted by the Platform, Mintos debits cash funds from the Investor's cash account with Mintos in exchange for delivery of the Notes to the Investor's financial instruments account with Mintos. The Notes allotted are available as soon as the transaction order is executed by Mintos, by means of the Investor's profile on the Platform. Further alienation of Notes may be done as soon as available on the Investor's Investment Accounts.

Minimum subscription amount is one Note. Maximum subscription amount is up to the Aggregate Nominal Amount as set out under the section entitled '11. APPLICABLE FINAL TERMS' of this Base Prospectus for the relevant Series of Notes, but subject to the nominal amount of the Notes being available for purchase from the Issuer as at execution time of the transaction order at Mintos.

No expenses are expected to be charged to the Investor by the Issuer when purchasing Notes. There is no financial transaction tax to be applied at the date of this Base Prospectus by the Issuer and/or Mintos to the Investor in subscribing or purchasing any Note.

Underlying assets will be formed by matching one on one euro amounts invested into a Series of Notes and amounts of purchased Bonds as underlying assets.

▪ Payments under the Notes

Bonds' Receivables (interest) and/or Bonds' Quarterly Redemption Payments (principal) payout process to the Investor

Final Bonds' Receivables and final Bonds' Quarterly Redemption Payment (principal) is paid to the Investors on the Bonds' maturity date. The same applies in cases of Bonds' early redemption. In the event of Bonds' early redemption, the Investors receive the Bonds' principal amount together with the accrued Bonds' Receivables up to the date of early redemption in accordance with the Bonds' Issuer Prospectus.

The Interest specified in the Final Terms will begin to be calculated and accrue from the first day when the Investor has acquired the Notes from the Issuer and the Notes are booked by Mintos in the Investor's Investment Accounts.

The Interest and principal payments under the Notes are linked and contingent on corresponding payments being made under Bonds. The interest and principal payment of the Bonds are such that the Bonds shall bear interest at the interest rate per annum on their nominal amount from 10 October 2024 and Bonds' interest shall be payable quarterly in arrears on each interest payment date, commencing to accrue on the interest commencement date in accordance with the terms of the Bonds's Issuer Prospectus.

▪ **Redemption of the Notes**

The Issuer may exercise its right but not the obligation to redeem the Notes from the Investors on the occurrence of certain events specified in the Bonds' Issuer Prospectus, including, but not limited to:

- the Bonds' Issuer exercises any of its rights of early redemption and/or repurchase of the Bonds in accordance with the terms of the Bonds' Issuer Prospectus.

In this event of early redemption of the Bonds, which has been initiated by the Bonds' Issuer, the Bonds held by the Issuer will be redeemed from the Issuer in accordance with the terms of the Bonds' Issuer Prospectus and all funds received by the Issuer in case of early redemption of the Bonds will be used proportionally to redeem the Notes.

In some cases, including, but not limited to:

- if the Issuer is required by the applicable regulation to sell the Bonds and/or,
- if the Issuer is not able to continue to service the Notes and/or,
- if there are risks to the Issuer and/or Mintos that do not allow the Issuer to hold the Bonds,

the Issuer may exercise its right to sell Bonds at its own discretion for any price that is available to the Issuer and use these funds received from the Bonds sale to redeem the Notes. As the Notes may be redeemed only with the funds acquired from the sale of the Bonds, the Investors should be fully aware that in such cases of discretionary sale of the Bonds by the Issuer, it could lead to delays in repayments and to a partial or full loss of the invested funds in the Notes.

▪ **No credit enhancement**

The Notes have no credit enhancements and no liquidity support in relation to payment of interest or principal.

The Issuer, as a special purpose entity, has no obligation to make any payment on the Notes unless sufficient funds have been received from the Bonds' Issuer.

○ **THE TRANSACTION DOCUMENTS**

The information in this section is a summary of certain features of the Transaction Documents provided for information purposes and will not be treated as the full binding text of the relevant agreement.

8. THE BONDS

o Legal nature, jurisdiction and the applicable law of the Bonds

The Bonds are bearer securities and any individual or entity that holds the Bonds in his/her securities account has the right to receive interest and the principal payments. It is planned to issue the Bonds with an initial nominal value of EUR 1 000 (one thousand euro) for one Bond and total nominal value of EUR 15 000 000 (fifteen million euro).

The ISIN (International Security Identification Number) of the Bonds allocated by Nasdaq CSD is LV0000804136.

The minimum subscription amount of the Bonds is EUR 1 000 with a minimum step of EUR 1 000.

The Bonds issue is a private placement arranged in compliance with the Financial Instrument Market Law (*in Latvian – Finanšu instrumentu tirgus likums*) and other applicable laws of the European Union and the Republic of Latvia that are in force, including regulations of the Bank of Latvia and Nasdaq CSD.

The Bonds' Issuer Prospectus (*Terms of the Notes Issue*) is not a prospectus for the purposes of the Prospectus Regulation, and it has been prepared on the basis that all offers of the debt securities that are issued by the Bonds' Issuer according to the Bonds' Issuer Prospectus (*Terms of the Notes Issue*) will be made pursuant to an exemption from the obligation to publish a prospectus under the Prospectus Regulation.

The Bonds are issued in dematerialized form and will be recorded in the Latvian SSS (securities settlement system governed by the applicable laws), which will provide the maintaining function for the Bonds.

The currency of the Bonds is EUR (euro).

The Bonds rank *pari passu* with other unsecured obligations of the Bonds' Issuer. In case of the insolvency of the Bonds' Issuer, the bondholders will be entitled to recover their investment on the same terms as other creditors in the respective claims' group according to the applicable laws of the United Mexican States. Save for mandatory provisions of the applicable laws, there are no contracts or other transaction documents that would subordinate the claims of the bondholders to other unsecured liabilities of the Issuer.

o Repayment and maturity

According to the Bonds' Issuer Prospectus Bonds' Receivables are set at 8% (eight per cent) + 3M Euribor per annum until the maturity of the Bonds which is 10 October 2028. Bonds' Receivables payments will be made quarterly – on the 10th date. The last Bonds' Receivables payment is expected to be made on 10 October 2028. Information on the Bonds' Receivables calculations is available in the Bonds' Issuer Prospectus.

Starting from 10 January 2026 and until the Bonds' maturity date, the Bond's Issuer will be obliged to make Bonds' Quarterly Redemption Payments that shall be made four times per year – on every 10 April, 10 July, 10 October, and 10 January. Information on the Bonds' Quarterly Redemption Payments calculations is available in the Bonds' Issuer Prospectus.

On the Bonds' maturity date, which is 10 October 2028, the final payment shall include the last Bonds' Receivables payment and the last Bonds' Quarterly Redemption Payments on the Bonds.

The link to the Bonds' Issuer Prospectus is provided in this Base Prospectus under Glossary Section - Bonds' Issuer Prospectus.

These characteristics of the Bonds as described above demonstrate capacity to produce funds to service any payments due and payable on the Notes.

16. FURTHER ISSUES

The Issuer may from time to time without the consent of the Noteholders create and issue further Series and further tranches of existing Series of Notes. A further tranche of an existing Series will:

- (a) be fungible with the Notes of that existing Series;
- (b) have the same terms and conditions as the Notes of that Series except for the Aggregate Nominal Amount, the Issue Date, the Issue Price, the Interest Accrual Periods, the first Interest Payment Date and the first Redemption Date; and
- (c) be consolidated and form a single Series with that existing Series of Notes, and references in these Terms and Conditions to Notes will be construed accordingly.

The right of the Issuer from time to time without the consent of the Noteholders to create and issue further Series, includes also the Issuer's right to issue bonds' backed and contingent notes according to the base prospectuses and transaction documents for other bonds' issuers.

17. EVENTS OF DEFAULT

17.1 Any of the following events will constitute an event of default under the Notes (each, an **Event of Default**):

- (a) if any order is made by any competent court or any resolution passed for the winding-up or dissolution (including any bankruptcy, insolvency, voluntary, forced or judicial liquidation, composition with creditors, a reprieve from payment, controlled management, fraudulent conveyance, general settlement with creditors or reorganisation proceedings or similar proceedings affecting the rights of creditors generally) of the Issuer (save for the purposes of amalgamation, merger, consolidation, reorganisation or other similar arrangements); or
- (b) formal notice is given of an appointment an administrator (including any receiver, liquidator, auditor, verifier), provisional administrator; or
- (c) any application is made, or petition is lodged, or documents are filed with the court or administrator in relation to the Issuer for the actions, proceeding or procedures specified in paragraphs (a) or (b) above, unless such proceedings or petitions are disputed in good faith and are discharged, stayed or dismissed within 90 calendar days of commencement.

17.2 The Issuer is obliged to inform Mintos immediately if any Event of Default should occur. Should Mintos not receive such information, Mintos is entitled to assume that no Event of Default exists or can be expected to occur, provided that Mintos does not have knowledge of any Event of Default. Mintos is under no obligation to make any investigations relating to any Event of Default. The Issuer will, at the request of Mintos, provide Mintos with details of any Event of Default and provide Mintos with all documents that may be of significance for the application of this Condition 17.

17.3 If Mintos has been notified by the Issuer or has otherwise determined that there is an Event of Default, Mintos will, within 20 Business Days of the day of notification or determination, notify the Noteholders according to Condition 20.

- 17.4 Upon the occurrence of an Event of Default, Notes are repaid according to the terms and conditions stipulated by this Base Prospectus and relevant Series Final Terms, unless otherwise required by a rule of the law.
- 17.5 Mintos, subject to the Noteholders indemnifying and holding Mintos harmless from any reasonable expenses, loss or liability, will take every reasonable measure necessary to recover the amounts outstanding under the Notes according to their terms and conditions and Transaction Documents. Mintos will in each case inform the Noteholders about the costs which should be compensated prior to requesting any indemnification. In any case Mintos will charge this compensation of costs only up to the recovered amount. Mintos will not ask for compensation of costs for its in-house staff and resources.
- 17.6 For the avoidance of doubt, if any payment is not made by the Issuer because the Issuer has not received the relevant amounts under the Series Specific Notes so that the Available Distribution Amount after application of the Priority of Payments is not enough to make payments due under the Notes in full, the occurrence of such event will, as such, not constitute an Event of Default.

18. MEETING OF NOTEHOLDERS

18.1 *General provisions*

The Issuer from time to time may convene a meeting of the Noteholders (the **Noteholders Meeting**) to adopt resolutions on certain matters. The Issuer at its own discretion decides which matters will be reserved for passing at the Noteholders Meeting.

These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the Noteholders Meeting or in respect of the relevant resolution and Noteholders who voted in a manner contrary to the majority. As a result, Noteholders may be bound by a change to these Terms and Conditions or by some other decision that affects Noteholders' investment in the Notes even though they have not agreed to such change.

The Noteholders Meeting may adopt its resolutions in one of the two forms as chosen by the Issuer:

- (a) at a meeting held by attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote using ballots provided; or
- (b) by absentee voting (without attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote).

The Noteholders Meeting will be chaired, and minutes taken by a representative of Mintos.

18.2 *Resolutions of the Noteholders Meeting*

Matters put to the vote at a Noteholders Meeting and its agenda will be decided by the Issuer.

The Noteholders may neither pass resolutions on the matters not included in its agenda nor amend the agenda.

Resolutions passed by the Noteholders Meeting and voting results will be provided to the persons eligible to participate in the Noteholders Meeting in a report, which will be disclosed to the Noteholders as per the procedure prescribed with regard to sending notices of the Noteholders Meeting, within 5 Business Days after the closing date of the meeting or the final date for submitting the voting ballots in case of absentee voting. However, the failure to do so will not

invalidate the resolution.

The resolution will be binding on all the Noteholders, whether or not present at the Noteholders Meeting and each of them will be bound to give effect to it accordingly.

18.3 *Information on holding a Noteholders Meeting*

The Issuer will notify the Noteholders about the Noteholders Meeting in accordance with the procedure below.

A notice of the Noteholders Meeting (the **Notice**) will be given according to Condition 20 no later than 10 days in advance.

The Notice will be given to the Noteholders registered on the date of the Notice in the electronic register of Noteholders maintained by Mintos.

The Issuer may decide not to publish the Notice on the Platform. In such a case within the time specified in this Condition 18.3 the Issuer will send the Notice to the Noteholders by email.

The Issuer may at its own discretion make available information to the Noteholders entitled to participate in the Noteholders Meeting as part of preparations for the Noteholders Meeting.

18.4 *Quorum at a Noteholders Meeting*

A Noteholders Meeting will be deemed quorate if attended by Noteholders aggregately holding more than 50% of:

- (a) the aggregate Principal Amount Outstanding of all Series of Notes on the date of the Notice if the decision is related towards all Series of Notes outstanding; or
- (b) the aggregate Principal Amount Outstanding of the relevant Series of Notes on the date of the Notice if the decision is related towards the relevant Series of Notes outstanding.

The number of votes for each Noteholder equals the Principal Amount Outstanding in the respective Series on the date of the Notice.

When a Noteholders Meeting is held by attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote, the Noteholders registered to participate in the Noteholders Meeting and the Noteholders whose ballots have been received no later than 2 days before the meeting will be deemed to have participated in the meeting.

When a Noteholders Meeting is held in the form of absentee voting, the Noteholders whose ballots have been received before the final date for submitting the ballots will be deemed to have participated in the meeting.

Where there is no quorum for a Noteholders Meeting, a second Noteholders Meeting will be held with the same agenda. Such second Noteholders Meeting will be deemed quorate if attended by Noteholders aggregately holding more than 30% of:

- (a) the aggregate Principal Amount Outstanding of all Series of Notes on the date of the Notice if the decision is related towards all Series of Notes outstanding; or
- (b) the aggregate Principal Amount Outstanding of the relevant Series of Notes on the date of the Notice if the decision is related towards the relevant Series of Notes outstanding.

Subject to the quorum being present, the decisions on the Noteholders Meeting agenda will be adopted per each item of the agenda by the majority from the total number of votes provided.

18.5 *Voting ballots*

Ballots for voting at a Noteholders Meeting will be sent together with the Notice according to Condition 18.3.

Ballots for voting will be in the English language.

Voting could be convened as an e-voting through filling-out an electronic voting ballot through the interface of the Platform.

Noteholders included in the list of those entitled to participate in the Noteholders Meeting other than the Noteholders Meeting held in the form of absentee voting, or their representatives, may register to participate or forward their completed ballots to the Issuer. Voting ballots will be counted towards the calculation of the quorum and voting results if received by the company no later than 2 days before the Noteholders Meeting.

The voting ballot will contain the information about the Noteholders Meeting including but not limited to:

- information about the Issuer, including address and contact person;
- details identifying the Series of Notes;
- form of the Noteholders Meeting (attendance or by absentee voting);
- date, place and time of the Noteholders Meeting if it is held in the form of attendance of the Noteholders;
- Principal Amount Outstanding; and
- voting options for each item on the agenda, expressed as “for”, “against”, or “abstained”, and the indication that the voting ballot must be signed by a person entitled to participate in the Noteholders Meeting or its representative unless convened by e-voting.

When voting by ballots, only those voting ballots are counted where for each item only one voting option is selected. The voting ballots completed in breach of the aforementioned requirement will be deemed invalid. However, if there are several items put to the vote on the voting ballot, breach of the aforementioned requirement with respect to one or several items will not affect the validity of the remaining ballot. If a voting ballot is rendered invalid with respect to voting on one, several or all items included in such ballot, the votes so cast in such ballot will not be excluded from the calculation of the quorum. If a voting ballot is rendered invalid, the votes on the items contained in the voting ballot will not be counted.

18.6 *Counting*

The counting functions will be performed by Mintos, which will check the powers of, and register the participants in a Noteholders Meeting, determine the quorum at a Noteholders Meeting, count the votes and determine the voting results, draw up the voting minutes and hand over the voting ballots to the archive.

19. SUBSTITUTION

- 19.1 The Issuer or any previous substitute company may be substituted by any other company as principal obligor under all of the Notes then outstanding provided that such substitution would not be materially prejudicial to the interests of the Noteholders and subject to the other Terms and Conditions being complied with, including with provisions of the Transaction Documents, and further provided that NCA has given its prior consent to such substitution if any needed according to the applicable law.
- 19.2 By subscribing to, or otherwise acquiring, the Notes, the Noteholders expressly consent to the substitution of the Issuer and to the release of the Issuer from any and all obligations in respect of the Notes and any relevant agreements and are expressly deemed to have accepted such substitution and the consequences of such substitution.
- 19.3 Any such substitution will be notified to Noteholders in accordance with Condition 20.

20. NOTICES AND PROVISION OF INFORMATION

 - (b) delivered by registered mail and deemed to have been given on the 10th calendar day following the date indicated on the stamp by the postal service provider on the acceptance of a registered letter.

21. AGENTS

- 21.1 Mintos acts solely as an agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, any Noteholder.
- 21.2 The Issuer subject to the provisions of the Transaction Documents reserves the right at any time to vary or terminate the appointment of Mintos and any other party to any of the Transaction Documents.

- 21.3 Without prejudice to section 18 of these Terms and Conditions neither Mintos nor Issuer is representing the Noteholders in regards to the Notes and on the basis of this Base Prospectus there are no organisations representing the Investors and there are no provisions applying to such representation.

22. FORCE MAJEURE

Neither the Issuer nor Mintos will be responsible for any failure to perform any of its respective obligations under these Terms and Conditions which is due to any reason that is independent of that person's will and has resulted from a *force majeure* event. A *force majeure* event will apply only and solely if that person has taken all steps that depend on it in order to perform the obligation. Once the *force majeure* event has finished, that person must immediately resume the performance of the obligation. The following circumstances will be considered as *force majeure* events:

- (a) extraordinary and unavoidable circumstances including natural disasters, fire, flood, earthquake, warfare, terror acts, riots and strikes;
- (b) technical failures, delays or malfunctions; failure of computers, communications systems, hardware and/or software; power supply malfunctions; or other critical infrastructure malfunctions, which neither the Issuer nor Mintos could have prevented or predicted;

- (d) entry into force, amendments and/or suspension of a statutory act binding on either the issuer or Mintos affecting the performance of obligations under these Terms and Conditions; and
- (e) any circumstance defined as a *force majeure* circumstance in any of the Transaction Documents.

23. GOVERNING LAW AND JURISDICTION

- 23.1 The Notes (and any non-contractual obligations arising out of or in connection with the Notes) are governed by and will be construed in accordance with the law of the Republic of Latvia.
- 23.2 The courts of the Republic of Latvia are to have jurisdiction to settle any disputes which may arise out of or in connection with the Notes (including any disputes relating to any non-contractual obligations arising out of or in connection with the Notes) and accordingly any legal action or proceedings arising out of or in conjunction with the Notes may be brought in such courts. The Issuer and each of the Noteholders irrevocably submits to the jurisdiction of such courts.

24. AMENDMENTS AND MODIFICATIONS

To comply with any applicable law, the Issuer may validly amend or supplement these Terms and Conditions by publishing the changed Terms and Conditions on the Platform without the consent of the Noteholders.

25. LIMITATION OF LIABILITY, AND REPRESENTATION AND WARRANTIES OF THE NOTEHOLDER

- 25.1 Notwithstanding anything in the Base Prospectus, other than with respect to gross negligence or wilful misconduct by the Issuer and/or Mintos, neither the Issuer nor Mintos will be held liable by

any Noteholder for:

- (a) any material error, misrepresentation, omission or fraud by the Bonds' Issuer;
- (b) failure of the Bonds' Issuer for whatever reason to inform the Issuer and/or Mintos of the Payment Event having occurred or for the information being inaccurate or wrong;
- (c) the Bonds' Receivables; or
- (d) determinations and decisions when distributing amounts under the Notes, including, when applying the Priority of Payments, deciding whether to defer payment or make a partial payment, relying upon or deciding if and when there is no realistic prospect of collecting further funds under issued Notes, including in the event of default of the Bonds' Issuer.

25.2 In any and all cases liability of the Issuer and/or Mintos to any Noteholder under these Terms and Conditions will be limited to the amount invested in the impacted Notes by the Noteholder.

25.3 Each Noteholder, on subscribing or buying any Note directly, through a portfolio management service of the Platform or any other way, irrevocably accept and acknowledge that it is fully aware that:

- (a) the Issuer and Mintos do not make any representation or warranty in respect of, or will not at any time have any responsibility for, or, save as otherwise expressly provided in these Terms and Conditions, liability or obligation in respect of the performance and observance by the Bonds' Issuer of its obligations under the Bonds' Issuer Prospectus;

- (d) the Issuer will not at any time have any responsibility for, or liability or obligation in respect of, the performance and observance by Mintos of its obligations under the Transaction Documents or any other agreement entered or to be entered into by and between the Noteholders and Mintos;

- (f) the Notes, which the Noteholder has or will acquire, reflect the performance of the Bonds. The Noteholder has no direct recourse to any of the Bonds. Once the Bonds' Receivables have been realised according to these Terms and Conditions, the Noteholder is not entitled to take any further steps against the Issuer or Mintos to recover any further sums due and the right to receive any such sum will be extinguished. The Noteholder accepts not to attach or otherwise seize any of the assets of the Issuer. In particular, the Noteholder will not be entitled to petition or take any step for the winding-up, the

liquidation or the bankruptcy of the Issuer or any similar insolvency-related proceedings and such petition or action will be treated as null and void as from its initiation time; and

- (g) the Investment Accounts will be opened and be held by the Noteholder fully operational with Mintos while the Noteholder holds any Notes.

10. TAXATION

The information provided in this section will not be treated as legal or tax advice; and prospective investors are advised to consult their own tax advisors as to the tax consequences of the subscription, ownership and disposal of the Notes applicable to their particular circumstances. The following is a general summary of certain tax considerations in the Republic of Latvia in relation to the Notes. It is not exhaustive and does not purport to be a complete analysis of all tax consequences relating to the Notes, as well as does not take into account or discuss the tax implications of any country other than the Republic of Latvia.

Tax laws of the Noteholder's country of residence for taxation purposes and of the Issuer's country of residence may have an impact on the income received from the Notes.

This summary is based on the laws of Latvia as in force on the date of this Base Prospectus and is subject to any change in the law that may take effect after such date, provided that such changes could apply also retroactively.

Latvia has entered into a number of tax conventions on elimination of the double taxation (hereinafter - DTT), which may provide a more favourable taxation regime. Therefore, if there is a valid DTT between Latvia and the country of tax residence of a prospective Noteholder, it should be also examined. The procedures for application of tax conventions are provided in the Republic of Latvia Cabinet of Ministers' Regulations No. 178 "Procedures for Application of Tax Relief Determined in International Agreements for Prevention of Double Taxation and Tax Evasion", adopted on 30 April 2001.

Taxation of the Issuer

The Issuer is a corporate income tax payer in Latvia. According to the Latvian tax law, the annual profit earned by entities in Latvia is not taxed. Instead, corporate income tax is paid on dividends, fringe benefits, gifts, donations, representation costs, non-business related disbursements and transfer pricing adjustments. The tax rate applicable is 20%, however, the taxable base is divided by the coefficient 0.8, thus the effective Corporate income tax rate is 25%.

Taxation of individual Noteholders

Resident individuals

An individual will be considered a resident of Latvia for taxation purposes if at least one of the following requirements is met:

- the declared place of residence of this person is in Latvia;
- the person stays in Latvia for at least 183 days for a period of 12 consecutive calendar months;
- the person is a Latvian citizen who is employed by the government of Latvia in a foreign country.

Following the Latvian tax laws the interest income received by the individual tax resident in Latvia is subject to tax at the rate of 25.5%. The interest income from the Notes for resident individuals will be subject to 25.5% personal income tax that will be withheld by the Issuer before the Interest payment is made by the Issuer to the Noteholder. The tax withheld by the Issuer is a final tax liability on the interest income received.

The income from the sale of the Notes is treated as an income similar to the interest income for Latvian personal income tax purposes and will be subject to 25.5% personal income tax and the tax is payable by the individual him/herself.

Non-resident individuals

An individual would be considered a non-resident of Latvia for taxation purposes in all cases unless he/she is a tax resident of Latvia. Interest income from the Notes received by the non-resident individual is subject to a 5% withholding tax rate for investors who invest as private persons and are tax residents of the EU/EEA. For other individual investors and those who have not confirmed tax residence and not investing

as a private person 25.5% withholding tax rate is applied. According to the general practice the tax withheld in Latvia might be deducted from the tax payable by the investor in his/her residence country (as tax paid abroad). However, we recommend consulting with the respective country's tax administration or tax adviser to clarify the procedure and documents required to perform such a deduction (if any).

The tax rate might be reduced based on the Double Tax Treaty between Latvia and the respective country. The list of the Double Tax Treaties concluded by Latvia is available [here](#).

The income from the sale of the Notes will be subject to 25.5% tax and the tax would be payable by the individual him/herself, if the buyer of the Notes is an individual or legal entity non-resident of Latvia.

Taxation of legal entity Noteholders

Resident legal entities

A legal entity would be considered a resident of Latvia for tax purposes, if established pursuant to Latvian law. Interest payments on the Notes and proceeds from the disposal of the Notes received by Latvian resident legal entities will not be subject to withholding tax in Latvia. Under the Latvian tax law retained earnings are exempt from corporate income tax and only profit distributions are taxed. Distributed gross profits are subject to the 20% profit tax. Corporate income tax on the net amount of profit distribution is determined by dividing the net amount with a coefficient of 0.8 (i.e., the effective tax rate on net distributed profit is 25%).

Non-resident legal entities

A legal entity would be considered a non-resident of Latvia for taxation purposes in all cases unless it is a tax resident of Latvia. The interest income and capital gains from the sale of the Notes for non-resident legal entities will not be taxable in Latvia (i.e. gross income will be paid), except if the income recipient is located, registered, or incorporated in a no-tax or low-tax country (so-called "tax havens"; if this is the case - 25.5% tax will be withheld by the Issuer in Latvia). The list of "tax havens" according to the Latvian law includes UK Anguilla, US Guam, US Samoa, US Virgin Islands, Russian Federation, Republic of Fiji, Republic of Palau, Republic of Panama, Independent State of Samoa, Republic of Trinidad and Tobago, Republic of Vanuatu. The list of mentioned countries and territories may be amended from time to time.
