The public offer of the Notes is made in Latvia, France, Germany, Italy, Poland, Netherlands, Czech Republic, Belgium, Austria and Spain under this Base Prospectus.

This Base Prospectus will be valid for a period of up to 12 months after its approval by the NCA. In the event of any significant new factor, material mistake or inaccuracy relating to information included in this Base Prospectus which is capable of affecting the assessment of any Notes, the Issuer will prepare a supplement to this Base Prospectus or publish a new Base Prospectus for use in connection with any subsequent issue of Notes. The obligation to prepare a supplement to this Base Prospectus or publish a new Base Prospectus in the event of any significant new factor, material mistake or inaccuracy will cease to apply upon the expiry of the validity period of this Base Prospectus.

1. GENERAL DESCRIPTION

o What is Mintos?

Mintos established an online platform for investing in loans in 2015. Through the Platform, owned and operated by Mintos, Mintos provides investors with convenient means to invest, including but not limited to loans issued by various lending companies around the world. In May 2022 on the Platform investments in loans were started being offered via financial instruments called notes.

At the end of August 2023, Mintos has over 520,000 registered users, and Mintos is working with 61 lending companies from 23 countries, offering investment opportunities in 3 currencies. Mintos has more than €597 million in assets under administration.

Mintos is authorised as an investment firm by the NCA. See the section entitled '6. MINTOS' of this Base Prospectus for more information.

o What are Notes?

Notes are financial instruments, namely asset backed securities, issued by the Issuer via Mintos to Investors and backed up by the Bonds. The Issuer by means of Platform provides access to investments in Bonds through the offer and issue of Notes. For the Investors' convenience this sort of Notes that will be offered on Platform will be called "Fractional Bonds" to differentiate these particular Notes from other notes that are also offered on Platform but are backed up by other assets.

The Notes are backed up by Bonds meaning that the Bonds are held by the Issuer on a separate securities account with a regulated credit institution to act as collateral for the Notes issued.

The Notes will bear the same interest as Bonds' Receivables which is an interest that will be paid to bondholders as provided in the Bonds' Issuer Prospectus, see also section 9 of this Base Prospectus.

The reason to offer Notes is to give Investors opportunity to invest with relatively small amounts and to provide diversity in their investment portfolios with exposure to assets that usually require substantial investment amounts due to a relatively high minimum investment threshold. Notes are also a well-known product to Mintos Investors and by extending notes offering it provides Investors with even more options to invest in asset-backed securities.

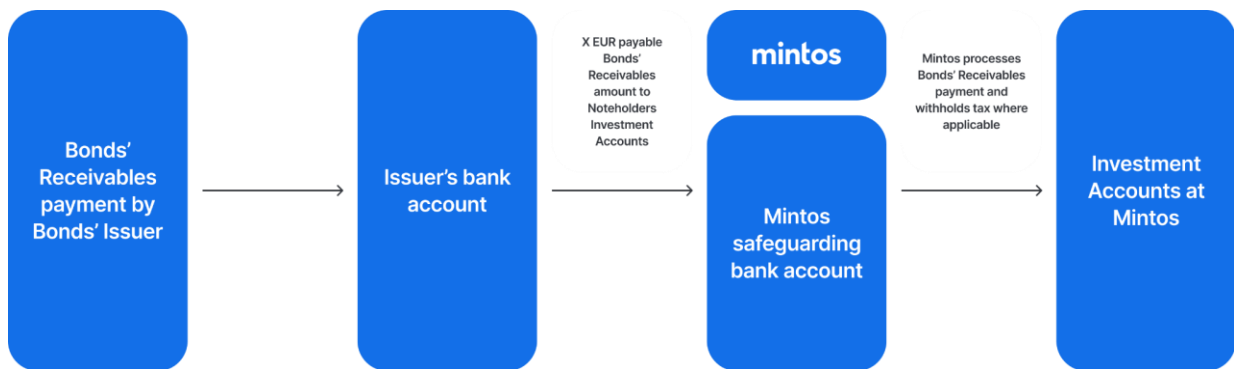

The Issuer is a special purpose legal entity established for the purposes of:

- purchasing Bonds for the purpose of issuance of Notes and dealing with the Bonds according to the Terms and Conditions of the Notes, see the section 9 of this Base Prospectus;
- issuing Notes to Investors via Mintos.

See the sections entitled '5. THE ISSUER' and '7. BONDS' ISSUER' of this Base Prospectus for more information.

o *The flow of funds for repayment of Notes*

Each time there is Bonds' Receivables payment made by the Bonds' Issuer, the Bonds' Issuer transfers funds to the Issuer, which in turn makes payments under the relevant Series of Notes to the relevant Investor via Mintos. The payments are received into the relevant Investment Account.

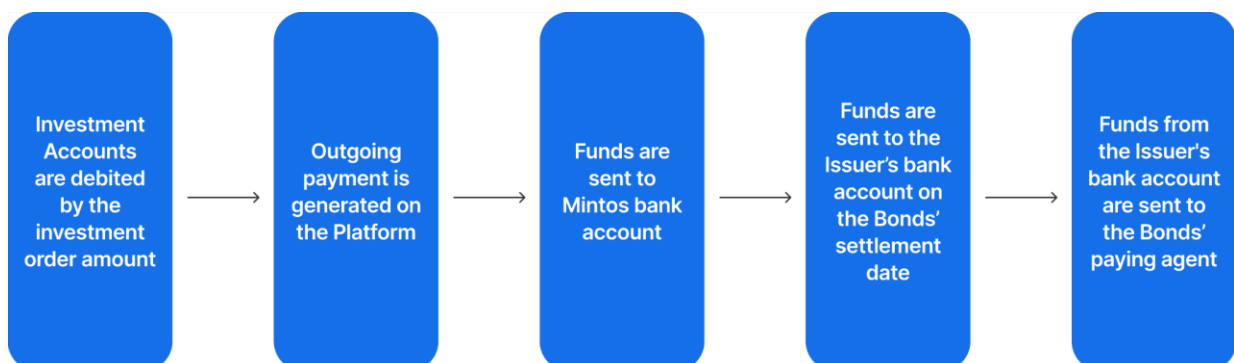

This means that if the Bonds' Issuer:

- is late on its Bonds' Receivables scheduled payment, payments to the Investors will also be delayed; and
- does not pay Bonds' Receivables to the bondholders, there will be no interest payments to the Investors under the Notes.

o *The flow of funds for investment in Notes*

To invest in Notes, the Investor must subscribe to the Notes by giving instructions on the Platform to reserve a certain amount of Investor's available funds to purchase Notes. Reserved funds are held by Mintos up to a Bonds' settlement day – the day when Investors' funds are transferred by Mintos to the Issuer's bank account to acquire Bonds. The Notes are delivered to the Issuer's Investment Account on a Bonds' settlement day. The Issuer issues a Series of Notes corresponding to the purchased Bonds to Investors via Mintos. When an Investor purchases any Note of the Series, the Investment Accounts are credited with the Note and debited with the purchase price of the Note. The purchase price is transferred to the Bonds' Issuer.

2. RISK FACTORS

The Issuer believes that the factors listed in this section of the Base Prospectus may affect its ability to fulfil its obligations under the Notes. All of these risk factors and events are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. In addition, factors which are material for the purpose of assessing the market risks associated with the Notes are also described below.

Although the most material risk factors have been presented first within each category, the order in which the remaining risks are presented is not necessarily an indication of the likelihood of the risks actually materialising, the potential significance of the risks or the scope of any potential negative impact to the Issuer's or the Bonds' Issuer's business, financial condition, results of operations and prospects. The Issuer and/or the Bonds' Issuer may face a number of these risks described below simultaneously. While the risk factors below have been divided into categories, some risk factors could belong in more than one category and prospective investors should carefully consider all of the risk factors set out in this section.

The Issuer believes that the factors described below represent the material risks inherent to investing in the Notes, but the inability of the Issuer or the Bonds' Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the statements below regarding the risks of investing in any Notes are not exhaustive. Other risks, events, facts or circumstances not included in this Base Prospectus, not presently known to the Issuer, or that the Issuer at the date of this Base Prospectus deems to be immaterial could, individually or cumulatively, prove to be important and may have a significant negative impact on the Issuer's or the Bonds' Issuer business, financial condition, results of operations and prospects. Prospective investors should carefully review the entire Base Prospectus and should form their own views before making an investment decision with respect to the Notes.

Before making an investment decision with respect to any Notes, prospective investors should consult their own lawyers, accountants or other financial, legal and tax advisers and carefully review the risks entailed by an investment in the Notes and consider such an investment decision in the light of the prospective investor's personal circumstances.

Investors should keep in mind that the Base Prospectus provides only the most important risks regarding the Bonds and the Bonds' Issuer, and that Investors should refer to the Bonds' Issuer Prospectus (*Terms of the Notes Issue*) to read about other risks associated with the Bonds and the Bonds' Issuer available [here](#).

o **RISKS SPECIFIC TO THE BONDS' ISSUER AND BONDS GUARANTORS**

The Bonds' guarantors are direct or indirect subsidiaries of the Bond's Issuer and part of the iCotton Group. Accordingly, the Bonds' Issuer and the Bonds' guarantors are substantially affected by the same risks as those that affect the business and operations of the entire iCotton Group.

The risks are related to, but not limited to:

1. **Bond Issuer's operating environment**

• **MACROECONOMIC AND POLITICAL RISK**

The Bond's Issuer operates in various markets and, similar to other enterprises, is subject to the influence of worldwide economic, financial, and political circumstances. The demand for the iCotton Group's products is exposed to broad macroeconomic shifts, such as recessions, inflation, deflation, overall declines in retail markets, and changes in consumer purchasing power, among other factors. Any uncertainty about future economic development, including political turmoil, that affects consumer

spending preferences might have a negative impact on consumer purchasing power of the iCotton Group's products, thereby impacting the iCotton Group's business, financial position, and operating results.

- **REGULATORY ENVIRONMENT RISKS**

The iCotton Group complies with all the legislative requirements and other regulations as outlined in the Bonds' Issuer Prospectus up to the present date. However, given that legislation and regulations can undergo changes, the Bonds' Issuer cannot assure immediate compliance with revised requirements without substantial measures in such instances. Adapting the iCotton Group's operations to accommodate any aforementioned changes may involve costs that are challenging to predict, potentially leading to a significant adverse impact on the iCotton Group's business, operational outcomes, and financial standing.

- **RISK OF LOCAL TAX REGIME CHANGES**

Alterations in the local tax regime or potential disruptions to the iCotton Group's existing tax structures could significantly impact the iCotton Group's operational results, profitability, and future growth. Additionally, specific tax positions adopted by the iCotton Group involve managerial judgement and may prove ineffective or face challenges from tax authorities due to potential misinterpretations of tax legislation. The iCotton Group's ability to proactively address forthcoming changes in tax legislation is constrained by its operations being spread across two different countries: Latvia and Poland.

2. Business operations of the Bonds' Issuer

- **CREDIT RISK**

The iCotton Group is exposed to credit risk. The financial leverage in recent years has increased due to different challenges in the previous 2-3 years, partially caused by 2 force majeure obstacles: such as Covid-19, which resulted in production and supply chain disruptions, as well as delays in capacity expansion and new product development. Political instability in the nearest markets resulted in a surge in raw material and energy prices. While the iCotton Group expects its financial leverage to decrease due to positive development of EBITDA generating ability in a more stable market environment, there can be no assurance that this will materialise, which could result in negative consequences for the Bonds' Issuer ability to meet payment obligations timely.

- **LIQUIDITY AND REFINANCING RISK**

Liquidity and refinancing risk is the risk that the iCotton Group is unable to meet its payment obligations on time as a result of insufficient liquidity or difficulty in raising new funds. If the iCotton Group is unable to obtain sufficient borrowings, either due to banking or capital markets conditions generally, or due to factors specific to its business, the iCotton Group may not have sufficient cash to develop new projects, fund acquisitions or meet ongoing financing needs, which in turn could materially and adversely affect the revenues, operating results, cash flows and financial condition of the iCotton Group.

- **CURRENCY RISK**

The currencies of the Bonds' Issuer revenues do not fully match the currencies of its all operating costs. The iCotton Group is exposed to exchange rate risk in several ways. Exchange rate movements in export revenues and import expenses could negatively impact the iCotton Group's operating profit and the cost of non-current assets.

- **INTEREST RATE RISK**

Interest rate risk is defined as the risk of adverse impact on the Bonds' Issuer financial position, including its income and economic value, due to interest rate movements. In addition, changes in the macro-economic environment may have a significant impact on the movement of interest rate curves for different currencies that the iCotton Group is exposed to. Adverse movements in interest rates and the currencies

which the iCotton Group is exposed to may have a material adverse effect on the financial condition of the iCotton Group.

- **AML AND SANCTION COMPLIANCE RISK**

Bonds' Issuer must comply with the Law on the Prevention of Money Laundering and Terrorism and Proliferation Financing (*Noziedzīgi iegūtu līdzekļu legalizācijas un terorisma un proliferācijas finansēšanas novēršanas likums, pieņemts 17.07.2008*) and Law On International Sanctions and National Sanctions of the Republic of Latvia (*Starptautisko un Latvijas Republikas nacionālo sankciju likums, pieņemts 04.02.2016*).

The Bonds' Issuer takes necessary measures to comply with the regulations. However, there is a risk that its established processes may not be entirely effective, and the Bonds' Issuer may fail to comply with the binding regulations.

- **REPUTATIONAL RISK**

Adverse events, negative publicity, or perceived misconduct can significantly impact the Bonds' Issuer standing in the market and with its stakeholders. Factors contributing to reputational risk may include:

- operational incidents;
- compliance and regulatory issues;
- customer relations;
- ethical concerns;
- environmental, social, and governance (ESG) factors;
- media and public relations;

- **SUPPLY INTERRUPTIONS OF RAW MATERIALS RISK**

The Bonds' Issuer relies on affordable and ample sources of cotton, pulp, viscose, and polypropylene for product manufacturing, along with being a major energy consumer. The dependency on external suppliers, mostly from non-EU countries, poses a risk to securing sufficient raw materials in the future, ensuring continuous, effective manufacturing process. Long-term disruptions in the supply chain could adversely affect production and overall business operations. While measures are in place to mitigate interruptions, reduced availability or higher prices of raw materials may negatively impact the Bonds' Issuer financial performance.

- **MANUFACTURING DISRUPTION RISK**

The iCotton Group operates two manufacturing facilities (in Latvia and Poland). Any disruption, such as fire, floods, or other catastrophic events, could lead to temporary production deficits or increased costs. Shutting down affected facilities may impact the iCotton Group's ability to fully utilise other facilities, risking on-time delivery and reducing production capacity. Such disruptions could significantly harm the iCotton Group's business, financial condition, and results of operations. While present capacity reserves offer some mitigation, unplanned closures may still pose challenges in relocating output to meet client demands and creditors obligations.

- **INFORMATION TECHNOLOGY AND CYBER SECURITY RISK**

The iCotton Group depends on its IT systems for daily operations, including processing customer orders, transactions, managing purchases and its inventory, managing the iCotton Group's internal financial operations, and administering the e-commerce platforms. Disruptions or faults in critical systems, coupled with the rising frequency of cyber-attacks, pose a direct threat to production and essential business processes.

- **RISKS RELATED TO INTERNAL OPERATIONAL ENVIRONMENT**

Operational risk refers to the potential for the Bonds' Issuer to experience direct or indirect losses due to failure in various factors, including internal governance processes, conflict of interest, technology, infrastructure, and external influences such as legal requirements and industry standards.

You can read more on the categories described above within the Bonds' Issuer Prospectus (*Terms of the Notes Issue*) section *Risk Factors*, clauses 1.2 and 1.3 [here](#).

- **RISKS SPECIFIC TO THE UNDERLYING ASSET - BONDS**

Before considering an investment in Notes backed by Bonds, it is essential to recognise the array of potential challenges and uncertainties that come from investing in this underlying financial instrument.

Considering that Bonds repayment is heavily related to the Bonds' Issuer financial position and the security package, the main risks related to the underlying bonds are listed below.

1. Risks related to the nature of the Bonds

- **Ranking of underlying Bonds**

The Bonds are secured with certain types of various collaterals (mortgage, commercial pledge of assets, financial pledge, guarantee). In case of the Bonds' Issuer insolvency bondholders will hold priority against other unsecured debt credits of the Bonds' Issuer. Bondholders will have the right to recover their investments prior to other unsecured creditors in accordance with the applicable laws.

- **No limitation on issuing additional debt**

The Bonds' Issuer is not prohibited from incurring other debt ranking *pari passu* to the Bonds or restricted from granting any security on any existing or future indebtedness. If the iCotton Group incurs significant additional debt or grants additional security, the iCotton Group's ability to service its financial indebtedness, including the Bonds, might deteriorate.

- **Delisting risk**

After registration of the Bonds, the Bonds' Issuer plans to request admission to trading of the Bonds on the Multilateral Trading Facility (MTF) First North operated by Nasdaq Riga. There is a risk that Nasdaq Riga will not accept the Bonds to be admitted to trading on First North or order that the Bonds be delisted from First North before maturity after admission to trading has taken place due to changes in legal acts, including Nasdaq Riga regulations, or recommendations by the NCA.

- **Price risk**

The development of market prices of the Bonds depends on various factors, such as changes of interest rates, central bank policies, overall economic development or demand for the Bonds. Neither the Bonds' Issuer nor any other person undertakes to maintain a certain price level of the Bonds. The investors are thus exposed to the risk of unfavourable price development of the Bonds if they sell the Bonds prior to final maturity. If an investor decides to hold the Bonds until maturity, the Bonds will be redeemed at their nominal value.

- **Early redemption risk**

The Bonds' Issuer may seek to repurchase or redeem the Bonds, especially when prevailing interest rates are lower than the rate borne by the Bonds. If prevailing rates are lower at the time of redemption, an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as the interest rate on the Bonds being redeemed.

- **Risk that some Investors might have more preferential terms than others**

While the Bonds' Issuer will try to maintain the proportional reduction principle to the extent possible in the final allocation of the Bonds, in case the total number of the Bonds subscribed for is higher than the number of the Bonds available, the Bonds' Issuer has a right to refuse all or part of the subscribed Bonds to any potential investor at its sole discretion, thus, the proportionality principle might not be observed. Additionally, the Bonds' Issuer has the right to sell the Bonds at a price lower than their nominal value to selected investors and/or enter into agreements that may add additional rights to selected investors if the Bonds' Issuer perceives them as especially important for the Bonds issue due to the size of their investment or added experience. This may result in a situation where some investors might gain preferential terms for investment into the Bonds than the rest of the investors.

- **Tax risk**

Tax rates and tax payment procedures applicable at the moment of purchase of the Bonds to the tax residents, non-residents of Latvia, and residents of other countries may change. The Bonds' Issuer will not compensate the increase in taxes to investors, therefore investors may receive smaller net payments related to the Bonds.

- **Liquidity risk**

Neither the Bonds' Issuer nor any other person guarantees the minimum liquidity of the Bonds. Thus, the Bonds investors should consider the fact that they may not be able to sell or may face difficulties in selling their Bonds on the secondary market at a fair market value or at all.

2. Risks related to the Bonds' collateral

- **Risks associated with collateral agent agreement**

Bond holders are represented by a collateral agent in all matters relating to the guarantee and the collaterals. There is a risk that the collateral agent, or anyone appointed by it, does not properly fulfil its obligations of perfecting, maintaining, enforcing, or taking other necessary actions in relation to the guarantee and the collaterals on time.

- **Risks associated with the value of the Bonds' collateral**

If the Bonds' Issuer fails to make the interest and/or the Bonds' nominal amount payments in a timely manner, the collateral agent, acting in the interests of the bondholders, will initiate a takeover and realisation of the collateral. There is a risk that the collateral may be taken over but the proceeds from the realisation of the collateral may be insufficient to satisfy the bondholders' claims.

- **The enforcement of the collateral will be subject to the procedures and limitations set out in the collateral agent agreement**

Even if the Bond's guarantee or the collateral are enforceable, the enforcement is subject to the procedures and limitations agreed in the collateral agent agreement and the Bonds' Issuer Prospectus. There can be no assurance as to the ability of the investors to instruct the collateral agent to initiate any enforcement procedures. Furthermore, any enforcement of the Bond's guarantee or the collaterals may be delayed due to the provisions of the collateral agent agreement and the Bonds' Issuer Prospectus.

- **Risks associated with the collateral agent's performance**

By subscribing for, or accepting the assignment of, any Bond, each of the investors will accept the appointment of the collateral agent as the agent and representative of the investors in relation to the collaterals and the guarantee. The collateral agent's failure to fulfil its duties and obligations adequately, or at all, could potentially impact the investors' ability to enforce their rights.

In summary, these risks encompass financial stability challenges for the Bonds' Issuer, uncertainty regarding the Bonds repayment, legal complexities, credit rating implications, foreign exchange exposure, interest rate sensitivity, limited market liquidity, and regulatory restrictions. Investors should consider these factors when evaluating the underlying Bonds. These risks would also be directly reflected in the return for the Noteholders.

You can read more on the categories described above within the Bonds' Issuer Prospectus (*Terms of the Notes Issue*) section *Risk Factors*, clauses 1.4 and 1.5 [here](#).

o **RISKS SPECIFIC TO MINTOS**

1. Various events and failures could cause situations where Mintos is not able to continue operations

As a relatively new service, Mintos operates in a complex and dynamic regulatory and competitive environment and various events and failures could lead to Mintos terminating the provisioning of services, including the operations of the Platform. These events include but are not limited to revocation of licence, weak financial performance, negative reputation, non-compliance events, dramatic changes in the applicable regulations impacting Mintos operating model or an economic downturn. If Mintos ceases operations, this could significantly impact the Noteholder's ability to receive repayment on time.

Should Mintos enter liquidation or insolvency, as a regulated and supervised entity, the process will be supervised by the NCA. The appointed liquidator or administrator will take over the functions of the management board. Mintos will continue servicing its clients and the Investment Accounts, and relevant financial instruments portfolios in line with what Mintos is permitted to do according to the applicable insolvency and liquidation rules. The process from the moment of the appointment would be led by the appointed administrator or liquidator. In some cases, the Investors' Protection Law may apply. Such processes may significantly influence the investment's return times and make the return more complex to the Noteholder.

Furthermore, Mintos could for some reason suddenly stop honouring its obligations under the existing agreements, leading to delayed payments or partial or full loss of the amount invested in the Notes.

2. Non-compliance with regulations could lead to revocation of Mintos' licence

To provide services to clients, Mintos, as the operator of the Platform, has received an investment firm licence from the NCA. The licence could be suspended or revoked due to non-compliance with regulations by Mintos. Loss of licence by Mintos could lead to delayed payments or partial or full loss of invested amount under the Notes.

3. Failure of IT systems or a security breach could lead to significant liabilities and harm relationships with customers

The technology that Mintos has developed over the years is a cornerstone of Mintos' future success. The satisfactory performance, reliability and availability of the Platform is critical to its operations, customer service and reputation.

While Mintos has taken steps to protect confidential information, the techniques used to obtain unauthorised, improper or illegal access to systems, data, or customer data, or to disable or degrade services are constantly evolving and may not be detected quickly.

As a result, Mintos' and Mintos' third-party vendor security measures might be breached, and these security breaches could result in confidential client information being stolen. Breaches of security measures because of third-party action, employee error, third-party vendor error, design flaws in the

software, or interruptions in Mintos' systems and services could adversely impact our relationships with Mintos' clients, harm Mintos' reputation and expose Mintos to significant liability.

Furthermore, in the event of damage or interruption, existing insurance policies may not adequately compensate Mintos and Mintos' clients for any losses that may have been incurred. Nevertheless, as IT systems are crucial to Mintos' operations, a substantial amount of resources is devoted to ensuring the stable and uninterrupted performance of the IT systems.

4. Mintos' bank accounts could be frozen or closed and banks, where the Noteholder funds are held, can become insolvent

Mintos clients' funds, including the fund being deposited in the Issuer's Account for settlement under the Notes, are kept segregated from Mintos' own funds in several bank accounts marked as client funds accounts.

One or several of those bank accounts that Mintos uses might be blocked, seized or closed for a number of reasons, including insolvency of the banks, resulting in interruptions of fund transfers to the Issuer and the Noteholder.

5. Significant problem or termination of the agreement with a Mintos partner may affect the provision of services to the Investors

While providing its services, Mintos relies on several carefully selected partners (e.g., cloud computing providers), and any problems with the service providers could impact Mintos' ability to provide services to the Noteholder. Mintos has taken several steps to reduce the likelihood and impact of such occurrences, such as having backup service providers where feasible, there is still a risk that the Noteholder may not be able to access the Platform or receive services.

6. Certain situations or actions may raise conflicts of interests

While the rights and the responsibilities of Mintos and the Issuer are detailed in the Transaction Documents and this Base Prospectus, and Mintos has established policies and procedures to mitigate the risk, it is not possible to fully avoid the possibility of a conflict of interests between the parties that could impact the interests of the Noteholder.

Mintos provides placement services to the Issuer with respect to the Notes and Mintos receives a fee for placement services. Mintos has carefully set up the fees in a compliant manner and so that it would not violate the conflict of interest management rules. Such placement fees might qualify as inducements and Mintos would disclose information on these inducements to the Noteholder. In addition to inducement disclosures, Mintos has set up internal procedures to identify and manage conflicts of interest. Some conflicts of interest require disclosure and those are disclosed.

o RISKS SPECIFIC TO THE ISSUER

1. The Issuer could default on its obligations or become insolvent

The Issuer is a wholly-owned Mintos Group company, and not engaged in any business activities other than those provided in this Base Prospectus. There is a risk that the Issuer could suddenly stop effectively honouring its obligations under the existing agreements and breaching its provisions, resulting in missing repayments to the Noteholder. This could lead to delays in repayments and partial or full loss of invested amounts.

While the Issuer is created, established and performs its operations as a special purpose undertaking, due to possible legal shortcomings of the applicable law and/or judicial practice, the Issuer might be found

insolvent due to the following reasons, including, but not limited to, a Noteholder or other creditor initiating the insolvency procedure against the Issuer in bad faith and the court not finding limited recourse and non-petition provisions defined by this Base Prospectus as a sufficient ground to reject such proceeding. In such situations, the Noteholder could experience delays in receiving its invested funds and its priority as a creditor of the Issuer might be changed by the rule of law, leading to receiving fewer amounts than due under the Notes.

The Terms and Conditions of the Notes (in section 9 of this Base Prospectus) are set up and drafted as having legal force and addressing concerns as legally binding contractual obligations. There can be external circumstances that might influence such legal construction, including, but not limited to court ruling, and/or new or modified legal enactments.

2. Mintos may not be able to cover the maintenance and administrative costs of the Issuer

Considering the pass-through nature of the Issuer, the maintenance costs and administrative expenses of the Issuer are, in essence, covered by Mintos, via a compensation mechanism. If for any reason mentioned above in '*RISKS SPECIFIC TO MINTOS*', Mintos is not able to cover such costs, it could significantly influence the operations of the Issuer and its ability to service Notes and make payments to the Noteholder.

3. Information asymmetry

There is a risk that the Bonds' Issuer can provide material information with delay or fails to provide information to the Issuer at all. As a consequence:

- the Issuer through Mintos acting as its authorised representative will not be able to timely enforce its rights provided in the Transaction Documents and to act in the interests of Noteholders; and
- the Issuer will not be able to prepare and publish supplements to this Base Prospectus in a timely manner, which could impact the Noteholders' judgement on purchasing the Notes being unaware of any significant new factor, material mistake or inaccuracy related to the information being sourced from the Bonds' Issuer.

4. Cross-risks applicable to the Issuer

Considering the pass-through nature of the Issuer, the Issuer and its abilities to pay amounts due to the Noteholders under the Note are exposed to all the risks listed above in '*RISKS SPECIFIC TO THE UNDERLYING ASSET - BONDS*', and '*RISKS SPECIFIC TO MINTOS*'.

o RISKS SPECIFIC TO NOTES

1. The Noteholder has no rights of recourse against the Bonds' Issuer, the Bonds' guarantors or the security agent

The Noteholder has no direct right to the Bonds. Instead, the Noteholder is acquiring Notes, which are backed by the corresponding Bonds. The legal title in the Bonds and relevant rights arising from them are vested in the Issuer. This means that the Noteholder will have no direct recourse against the Bonds' Issuer and no ability to independently and in its discretion to pursue the Bonds' Issuer to collect payments under the Bonds. For the same reason the Noteholder will have no direct recourse against the Bonds guarantor (if any) and/or the security agent and no ability to pursue the Bonds' Issuer, the Bonds guarantor (if any) and/or the security agent (if any) to enforce them to duly perform their duties and obligations due. All such actions are carried out by the Issuer as the legal owner of the Bonds according to the provisions of this Base Prospectus and the Transaction Documents.

2. Change of creditors priority

The outcome of judicial or insolvency procedure could overrule the creditors' priority in this Base Prospectus due to requirements of the law, meaning that the Noteholders of one Series of Notes could become equal creditors to Noteholders of other Series of Notes, thus all the proceeds the Issuer receives from all the Notes is distributed on *pro rata* basis or otherwise.

3. Certain costs may rank higher than payments to the Noteholder

While it is the Issuer's responsibility to transfer to the Noteholder all payments that have been received from the Bonds' Issuer, there are certain costs, such as taxes, Mintos' fees and recovery costs that rank higher than payments to the Noteholder. This means that the Noteholder would only receive payment after the payment obligations of a higher priority have been settled.

Also, there is a risk that the outcome of judicial or insolvency procedure could define other priority of payments, which differs from the priority in this Base Prospectus.

4. Liabilities that are not Series specific will be allocated to all Series of Notes proportionally

If there are higher priority costs, i.e., taxes, fees and recovery costs, related to the specific Note, then these will be covered from the payments due to the Noteholders according to the Priority of Payments defined in this Base Prospectus. Where the liability is not Series-specific, for example, legal costs, the liability will be allocated to all Series of Notes proportionally unless otherwise defined by the Priority of Payments.

5. No specific securitisation laws in Latvia

There are no dedicated laws and regime in Latvia addressing specific special purpose vehicle issuer insolvency or limited recourse concepts at the date of this Base Prospectus. Mintos believes the Terms and Conditions of the Notes are set up and drafted as having legal force and addressing such concerns as legally binding contractual obligations. There might be circumstances that influence such legal construction, including, but not limited to the court ruling, or new or modified legal enactments. Eventually, this could lead to delayed payments or partial or full loss of the amount invested in the Notes.

6. Bonds repurchase could impact planned return for the Investors

The Bonds' Issuer may repurchase the Bonds from its investors, including the Issuer, at any time at value determined in the Bonds' Issuer Prospectus without any penalty or other compensation. This may happen, for example, in cases where the Bonds' Issuer decides to repurchase all Bonds before maturity date for the reasons described in the Bonds' Issuer Prospectus. That, in turn, will automatically trigger the repurchase of Notes by the Issuer.

The Bonds' Issuer not only has a right to repurchase, but also has an obligation to repurchase the Bonds from the investors upon the occurrence of certain events specified in the Bonds' Issuer Prospectus.

If the early redemption right is exercised by the Bonds' Issuer, the relevant Series of Notes will be redeemed early in full or in part once the Issuer has received the repurchase price from the Bonds' Issuer. The Noteholders' return on the investments in the Notes which are redeemed due to the repurchase will be lower than the initially planned return.

7. New regulations introduced in the future could impact the Noteholder and Mintos

Due to several reasons, such as improvements in computer technology, the financial crisis of the past decade and a greater focus on preventing the legalisation of illegally gained proceeds, the financial

industry over the last years has experienced the introduction of several new regulations. With further developments and adoption of technologies, jurisdictions, either where Noteholders or Mintos Group are domiciled are likely to introduce new regulations or administrative interventions that could relate to Notes or online marketplaces such as the Platform. Such regulation in the future, for example, could enhance investors' protection measures, limit access to Notes to only qualified or sophisticated Noteholders, limit the proportion of the portfolio that can be invested through Notes or introduce any other restricting measures.

Furthermore, the introduction of new regulations or significant changes to the existing regulations could impact the profitability, cost base and future operations of Mintos. Failure to comply with regulation could lead to, among other things, lawsuits, administrative enforcement actions, penalties, and revocation of licences and authorisations. Eventually, this could lead to delayed payments or partial or full loss of invested amounts under Notes.

8. New regulation in relation to taxes could impact the expected return for the Noteholder

In the event that new regulation is introduced, or existing regulation or its interpretation changes so that the Issuer and/or Mintos needs to withhold additional taxes before making payments to the Noteholder, and the Issuer and/or Mintos is required to withhold any transfer tax, stamp duty and/or financial transactions tax, this could impact the expected return on investment for the Noteholder. Similar developments in the Noteholders' tax residence country can lead to the same consequences.

9. Notes have limited liquidity and transferability

The Notes are illiquid securities and there is no active market for them, and the Notes are not admitted to any trading venue. The potential buyers and transferees are limited only to other Mintos' clients who are registered on the Platform. Which all means that the Noteholder might need to offer the Notes with a significant discount and hence would not meet the expected return on the investment, or might even be unable to sell them at all during a shorter or longer period of time. Furthermore, to protect Noteholders that use automatic investment solutions from making investment decisions, Mintos may restrict the execution of orders to sell the Notes according to the terms and conditions of the agreements between the Investors and Mintos.

The Noteholder should therefore only invest in Notes that the Noteholder is comfortable with holding to maturity.

10. An undiversified investment portfolio may lead to greater exposure to the Bonds' Issuer and country-specific risks than a well-diversified portfolio

Investment in a single Note, Notes issued in relation to the Bonds' Issuer or Notes with underlying Bonds, means that the performance of the portfolio and risk exposure depends on that Note, the Bonds' Issuer, country and currency risk.

Mintos encourages its customers to build a well-diversified portfolio and provides several tools to automate investing in Notes, making this easier.

11. Investing in Notes issued in other currencies increase the Noteholder's exposure to currency risk

If a Noteholder invests in Notes denominated in a currency that is different from the currency that the Noteholder earns and/or spends, the return on the investment could be significantly impacted by the fluctuations in the exchange rate between those currencies. This means that if the underlying currency depreciates significantly, the Noteholder could lose part of the investment, and if the currency appreciates significantly, the Noteholder could earn a higher return on investment.

12. Notes are not bank deposits

Investment in Notes does not have the status of a bank deposit in Latvia or elsewhere and is not within the scope of the deposit protection or guarantee scheme operated by the Republic of Latvia or any other jurisdiction.

Statistical information included in this Base Prospectus, if any, has been derived from official public sources, including the statistical releases. All such estimates have been made by either the Issuer or the Bonds' Issuer using its information and other publicly available market information. Each of the Issuer and the Bonds' Issuer believes that these estimates of market share are helpful as they give prospective Investors a better understanding of the industry in which the Issuer or the Bonds' Issuer operates as well as its position within that industry. Although all such estimations have been made in good faith based on the information available and the Issuer's or the Bonds' Issuer's knowledge of the market within which it operates, neither the Issuer nor the Bonds' Issuer may guarantee that a third-party expert using different methods would reach the same conclusions. 4. TRANSACTION OVERVIEW

◦ THE DESCRIPTION OF THE TRANSACTIONS IN RELATION TO THE NOTES

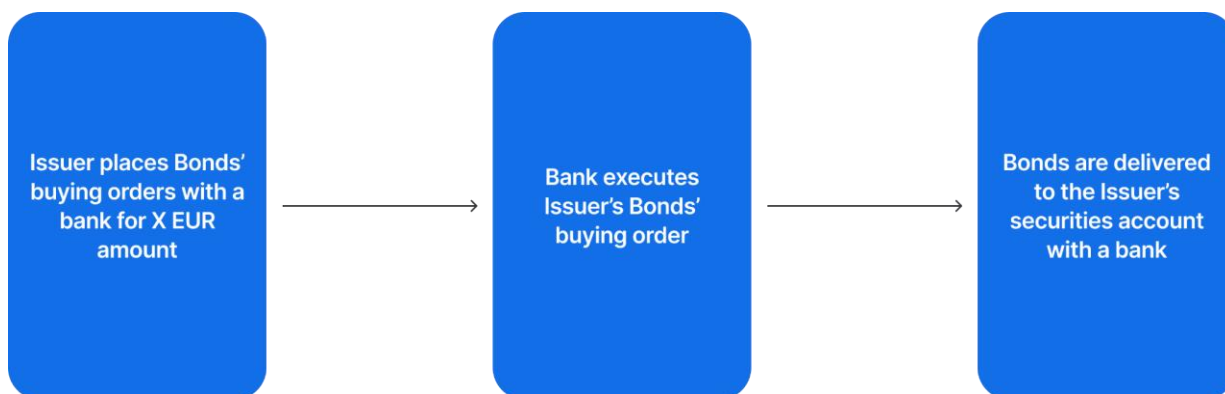

▪ The Issuer, Mintos and the Bank

The Issuer, Mintos, and Signet Bank AS, registered in the Commercial Register of the Register of Enterprises of the Republic of Latvia under unified registration number 40003043232 (hereinafter in this Base Prospectus section - the Bank), have entered into the Transaction Documents to ensure issuance and sale of the Notes as described in this Base Prospectus.

▪ Acquisition of Bonds by the Issuer

The Bonds will be purchased by the Issuer during the Bonds' subscription period as determined in the Bonds' Issuer Prospectus. During the Bonds subscription period, funds collected from the Investors, who have indicated their interest in investing into Notes, will be used to settle transactions between the Bonds' Issuer and the Issuer on the settlement date in accordance with the Bonds' Issuer Prospectus.

The Issuer also intends to offer Notes after the Bonds subscription period, which is subject to the precondition that there will be a third-party offering Bonds to sell at its nominal value.

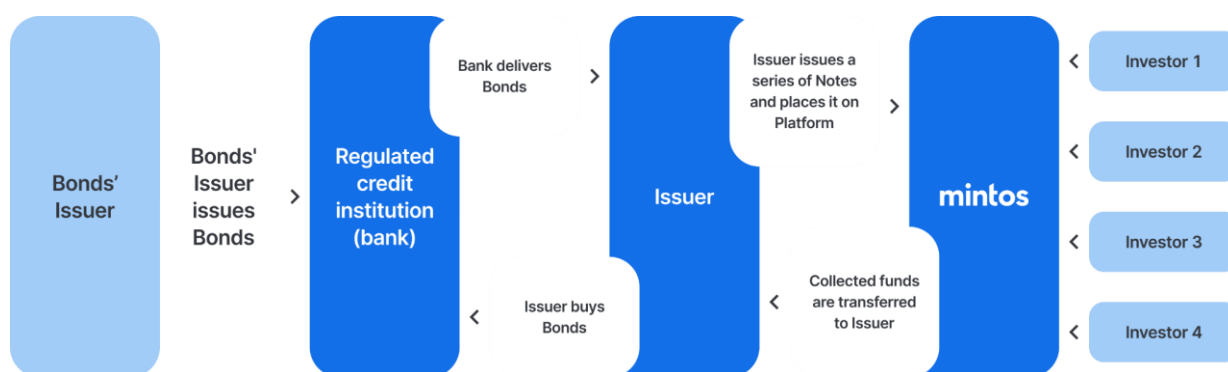

If the Bonds settlement date, when the Issuer buys Bonds, does not match the Bonds' Receivables Payment Date, i.e., when the Bonds are actually delivered to the Issuer's security account with the Bank, the Bonds' accrued interest for these days of difference between settlement date and previous Bonds' Receivables Payment Date will be covered by the Issuer's own funds from its fully paid up share capital to purchase the Bonds, which will be reimbursed later with the next Bonds' Receivables payment.

The Issuer will also cover the missing fraction with its own funds to fulfil the Bonds purchase. As an example: The Bonds' price is EUR 1000, and the Issuer has collected EUR 900 from Investors. In this case, the Issuer adds EUR 100 from its own funds to ensure the Bond's purchase. The minimal investment amount for the Bonds is EUR 100 000. In cases if the Issuer collects less than EUR 99 000, the Issuer will not acquire Bonds and all the funds collected from Investors will be returned to them. The Issuer is a beneficiary of the Bond's fraction purchased with its own equity. This fractional bond will be disclosed in financial statements of the Issuer together with accrued and received interest that will be recognised as an interest income for the Issuer. When the Bonds are redeemed, the fraction of the Bonds will be redeemed along the rest of the Bond value. The fraction owned by the Issuer is not related to any Notes issued by the Issuer.

Payment for the Bonds is subject to placement of the Series of Notes.

▪ Issue of Notes

To purchase Notes from the Issuer, the Investor registered on the Platform submits an investment order using a dedicated section on the Platform, indicating the amount of money that the Investor wishes to invest in Notes.

Once Investors have indicated on Mintos platform that they wish to purchase Notes, Mintos reserves those funds to be ready available for the Issuer to submit its purchase order to buy the Bonds and then, after the Bonds are purchased, delivers Notes to Investors on their Investment Accounts with Mintos. The reservation means that those funds remain on the Investment Account of the Investor but are not available for other transactions until the Notes are delivered, or, in the event of insufficient total interest of Investors to perform Bond purchase, until the Notes purchase is cancelled.

The Notes are publicly offered by the Issuer through the Platform. Investors can purchase Notes from the Issue Date until the Maturity Date of the Notes provided in the Final Terms or until the time when the Notes are fully sold to Investors by the Issuer, whichever occurs earlier. Information about the offer results of the Notes is published on the website www.mintos.com in real time. The offer of the Notes is subject to the Bonds availability for the Issuer to purchase.

The process for purchasing Notes is automated and takes place in real-time. When the transaction order is accepted by the Platform, Mintos debits cash funds from the Investor's cash account with Mintos in exchange for delivery of the Notes to the Investor's financial instruments account with Mintos. The Notes allotted are available as soon as the transaction order is executed by Mintos, by means of the Investor's profile on the Platform. Further alienation of Notes may be done as soon as available on the Investor's Investment Accounts.

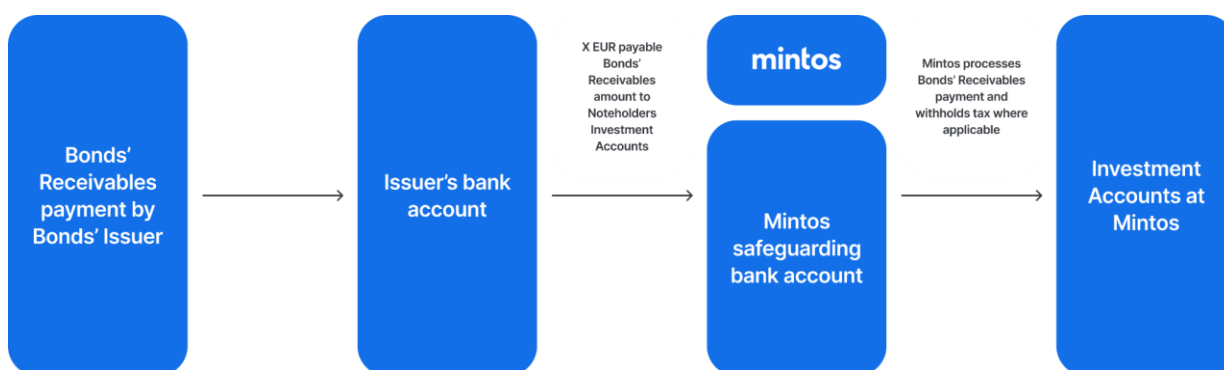

Minimum subscription amount is one Note. Maximum subscription amount is up to the Aggregate Nominal Amount as set out under the section entitled '11. APPLICABLE FINAL TERMS' of this Base Prospectus for the relevant Series of Notes, but subject to the nominal amount of the Notes being available for purchase from the Issuer as at execution time of the transaction order at Mintos.

No expenses are expected to be charged to the Investor by the Issuer when purchasing Notes. There is no financial transaction tax to be applied at the date of this Base Prospectus by the Issuer and/or Mintos to the Investor in subscribing or purchasing any Note.

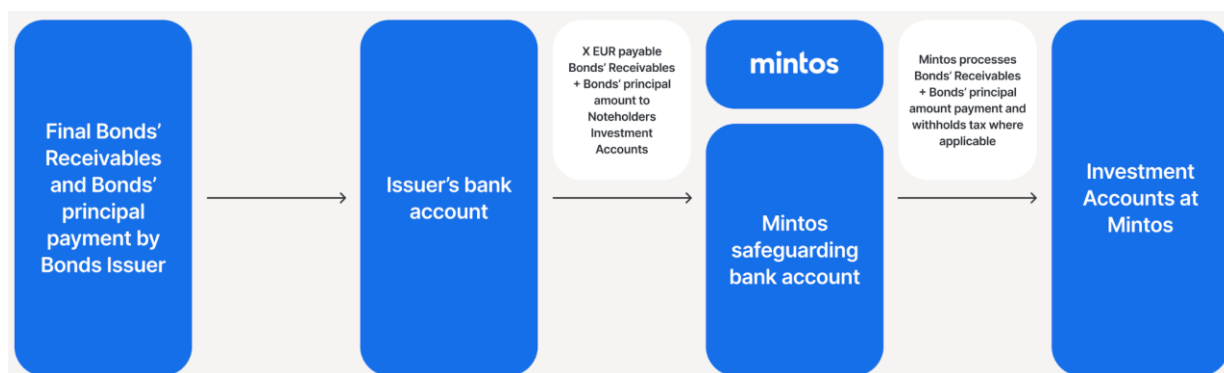

Underlying assets will be formed by matching one on one euro amounts invested into a Series of Notes and amounts of purchased Bonds as underlying assets.

▪ Payments under the Notes

Bonds' Receivables (interest) payout process to the Investor

Final Bonds' Receivables and Bonds' principal amount is paid to the Investors on the Bonds' maturity date. The same applies in cases of Bonds' early redemption. In the event of Bonds' early redemption, the Investors receive the Bonds' principal amount together with the accrued Bonds' Receivables up to the date of early redemption in accordance with the Bonds' Issuer Prospectus.

The Interest specified in the Final Terms will begin to be calculated and accrue from the first day when the Investor has acquired the Notes from the Issuer and the Notes are booked by Mintos in the Investor's Investment Accounts.

The Interest and principal payments under the Notes are linked and contingent on corresponding payments being made under Bonds. The interest and principal payment of the Bonds are such that the Bonds shall bear interest at the interest rate per annum on their nominal amount from 22.12.2023 and Bonds' interest shall be payable quarterly in arrears on each interest payment date, commencing to accrue on the interest commencement date in accordance with the terms of the Bonds's Issuer Prospectus.

The Bonds' Issuer Prospectus sets out two different formulas used to calculate interest rates on the Bonds. There is one formula to calculate interest rate for the initial period right after the Bonds issue and up to the first interest payment date, but after that initial period and up to the Bonds' maturity date, there is a different formula used to calculate interest income on the Bonds. Due to these differences in the formulas, there is possibility that bondholders (the Issuer) will be paid more in the interest income on Bonds in the initial period and in that case, should there be any such positive interest difference, the Issuer wouldn't be able to pass in full this interest income difference on Bonds onto Noteholders and that difference will remain with the Issuer, if any.

▪ **Redemption of the Notes**

The Issuer may exercise its right but not an obligation to redeem the Notes from the Investors on the occurrence of certain events specified in the Bonds' Issuer Prospectus, including, but not limited to:

- the Bonds' Issuer exercises any of its rights of early redemption and/or repurchase of the Bonds in accordance with the terms of the Bonds' Issuer Prospectus.

In this event of early redemption of the Bonds, which has been initiated by the Bonds' Issuer, the Bonds held by the Issuer will be redeemed from the Issuer in accordance with the terms of the Bonds' Issuer Prospectus and all funds received by the Issuer in case of early redemption of the Bonds will be used proportionally to redeem the Notes.

In some cases, including, but not limited to:

- if the Issuer is required by the applicable regulation to sell the Bonds and/or,
- if the Issuer is not able to continue to service the Notes and/or,
- if there are risks to the Issuer and/or Mintos that do not allow the Issuer to hold the Bonds,

the Issuer may exercise its right to sell Bonds at its own discretion for any price that is available to the Issuer and use these funds received from the Bonds sale to redeem the Notes. As the Notes may be redeemed only with the funds acquired from the sale of the Bonds, the Investors should be fully aware that in such cases of discretionary sale of the Bonds by the Issuer, it could lead to delays in repayments and to a partial or full loss of the invested funds in the Notes.

▪ **No credit enhancement**

The Notes have no credit enhancements and no liquidity support in relation to payment of interest or principal.

The Issuer, as a special purpose entity, has no obligation to make any payment on the Notes unless sufficient funds have been received from the Bonds' Issuer.

○ **THE TRANSACTION DOCUMENTS**

The information in this section is a summary of certain features of the Transaction Documents provided for information purposes and will not be treated as a full binding text of the relevant agreement.

This section does not entail a summary of those transaction documents which will be executed by the Issuer with respect to the acquisition of the Bonds from third parties, as those transaction documents will be market standard transaction documents as customary for such transactions. They will include agreements on the opening and maintenance of a cash account and financial instruments account for the Issuer and documents necessary for transactions to be performed with respect to the Bonds according to the provisions of this Base Prospectus.

o Financial information

The audited consolidated financial statements for the years 2021 and 2022 have been prepared in accordance with the Law of the Republic of Latvia "On Accounting" and "Law on Annual Reports and Consolidated Annual Reports" and Cabinet of Ministers Regulation No.775 "Regulations on Application of the Law on Annual Reports and Consolidated Annual Reports"; financial statements are prepared in euro (EUR) currency. The latest available historical financial information of the Bonds' Issuer is available on Mintos website:

[Audited financials 2021](#) (copy of financial statements translated from Latvian to English)

Auditor's opinion of the year 2021 contains the following *emphasis of matters*:

1. "We did not participate in the inventory of raw materials, consumables and consumables, finished goods and goods held for sale included in inventories as at 31 December 2021, which had a carrying amount of EUR 3,900.6 thousand at that date, as this was before we were appointed as the Company's auditors. We were unable to satisfy ourselves as to the balances of these inventories as at 31 December 2021 using other audit procedures. As a result of these circumstances, it was not possible for us to determine whether any adjustments were necessary in respect of this inventory item at 31 December 2021 and the resulting items in the 2021 income statement. "

2. "We draw attention to note "Correction of prior period errors" in the "Accounting policies" section of the Annex to the financial statements, which shows the correction of material prior period errors and their impact on the financial position and performance of the previous year. Our opinion is not qualified by any further qualification on this matter.

3. "The financial statements of iCotton Ltd for the year ended 31 December 2020 were audited by another auditor who issued a modified opinion on those statements on 28 October 2021."

[Audited financials 2022](#) (copy of financial statements translated from Latvian to English)

Auditor's opinion of the year 2022 contains the following *emphasis of matters*:

1. "As we were first appointed as auditors of the Company's 2021 financial statements only in 2022, we were not able to participate in the inventory of raw materials, consumables and consumables, finished goods and goods held for sale included in inventories as at 31 December 2021, which had a carrying amount of EUR 3,900.6 thousand at that date. The Group has not carried out any audit of the value of inventories as at the date of the Company's balance sheet using alternative audit procedures. As the balance of inventories at 2021 31 December affects the 2021 results of operations, we were unable to determine whether any adjustments to the 2021 income statement are required. For this reason, we expressed qualified opinion in our auditors' report on the 2021 financial statements. Inventory balance at 2021 31 December also has an impact on the financial result of 2022

Any repayment of the Principal Amount Outstanding will be made only in accordance with Conditions 7, 11 and 25, and will be subject to the relevant Payment Event having occurred and the Issuer having actually received the corresponding payment under the Bonds.

10. INTEREST AND PRINCIPAL DETERMINATION

10.1 Mintos determines (a) the amount of Interest payable in accordance with Condition 8 for each Interest Payment Date and (b) the amount of principal payable in accordance with Condition 9 on each Redemption Date and the Maturity Date, on its review of the following information:

- (i) the Payment Events which have arisen;
- (ii) aggregate payment amounts paid by the Bonds' Issuer which have been received from the Bonds' Issuer;
- (iii) the amounts then due and owed by the Issuer according to the Priority of Payments on the Interest Payment Date, the Redemption Date or the Maturity Date.

10.2 On each Interest Payment Date, each Redemption Date and the Maturity Date, Mintos on the Issuer's behalf will direct the payment of Interest and principal amounts to the Noteholders in accordance with Condition 11.

- 10.3 If after application of the Priority of Payments the Issuer has insufficient funds on any Interest Payment Date, any Redemption Date or the Maturity Date to make a payment of Interest or principal in full as required by Conditions 8 and 9, on behalf of the Issuer, Mintos at its sole discretion may decide that the Issuer pays part of the amount due or defers the payment until the full amount due is available, and such partial payment or deferral will not constitute an Event of Default under these Terms and Conditions.
- 10.4 All determinations, calculations and adjustments made by Mintos will be made in conjunction with the Issuer and will, in the absence of manifest error, be conclusive in all respects and binding upon the Issuer and all Noteholders.

11. PAYMENTS

11.1 Payments of Interest and principal

Subject to Conditions 7 and 12, the Issuer will, from any Available Distribution Amount:

- (a) pay the Interest on the Notes in accordance with Condition 8 on each Interest Payment Date; and
- (b) redeem the Notes in accordance with Condition 9 on each Redemption Date and the Maturity Date.

11.2 Notes contingent payments

All payments of Interest and principal by the Issuer under the Notes are dependent on the Issuer having received information on the Payment Event and the Available Distribution Amount being sufficient to make the relevant payments in accordance with the Priority of Payments. The Notes will not give rise to the Issuer having any payment obligation in excess of the foregoing.

11.3 Pending Payments Penalty Fee

Not applicable.

11.4 Insufficient funds on the Maturity Date

If any amounts on the Notes are outstanding on the Maturity Date, the Maturity Date will be automatically postponed to the date on which all amounts due and payable under the Notes are paid.

11.5 Payments to the Noteholders

Any payments of Interest and redemption amounts in respect of the Notes will be made to the relevant Investment Account.

11.6 Taxes

All payments and/or deliveries in respect of the Notes made by or on behalf of the Issuer will be made subject to any withholding or deduction for any taxes, duties, assessments or governmental charges of whatever nature which may be required to be withheld or deducted.

The Issuer or Mintos will:

- (a) not be liable as a result for, or otherwise obliged to pay, any additional amount to any of

the Noteholders in respect of, or compensation for, any such withholding or deduction or any other amounts withheld or deducted;

- (b) not be liable for or otherwise obliged to pay, and the relevant Noteholder will be liable for and/or pay, any tax, duty, charge, withholding or other payment whatsoever which may arise as a result of, or in connection with, the ownership, any transfer (or agreement to transfer), any payment and/or any delivery (or any agreement for delivery) in respect of the Notes held by such Noteholder; and
- (c) have the right but will not be obliged (unless required by law), to withhold or deduct from any amount payable or, as the case may be, any delivery due to the relevant Noteholder, such amount or portion as will be necessary to account for or to pay any such tax, duty, charge, withholding or other payment.

The Noteholders will agree to provide the Issuer and/or Mintos with all information and documentation required by the Issuer and/or Mintos, as the case may be, to satisfy any Latvian or other country tax or regulatory obligations at any time.

11.7 *Payments on Business Days*

If the due date for payment of any amount in respect of any Notes is not a Business Day, the Noteholder will not be entitled to payment of the amount due until the next succeeding Business Day in such place and will not be entitled to any further interest or other payment in respect of any such delay.

12. **LIMITED RECOURSE AND NON-PETITION**

- 12.1 Notwithstanding anything in the Base Prospectus, the obligations of the Issuer in respect of the Notes are limited recourse obligations which are payable solely from the sums of principal, Interest, other return and additional amounts (if any) actually received (and identified as such) in relation to the Bonds.
- 12.2 All payments to be made by the Issuer in respect of the Notes will be made only from and to the extent of the sums received or recovered from time to time by or on behalf of the Issuer under the Bonds, subject always to the Priority of Payments.
- 12.3 In relation to any sums received or recovered, the Issuer (or Mintos on its behalf) will follow these Terms and Conditions in determining to which Series of Notes such sums relate and such determination will be binding on Noteholders of all Series in the absence of manifest error.
- 12.4 To the extent that the sums referred to in Condition 12.1 are less than the amount which the Noteholders may have expected and been entitled to receive (such difference being referred to as the **shortfall**), the shortfall will be borne by the Noteholders.
- 12.5 Each Noteholder, on subscribing or buying any Note directly, of the Platform or any other way, irrevocably accept and acknowledge that it is fully aware that:
 - (a) only the sums referred to in this Condition 12, and Conditions 7 and 11 will be available for any payments to be made by the Issuer in respect of the Notes;
 - (b) the sums which are attributable to another Series of Notes are only available in satisfaction of the obligations of the Issuer to such Noteholders;
 - (c) the obligations of the Issuer to make payments in respect of the Notes will be limited to

the sums and the Noteholders will have no recourse to the Issuer, Mintos or their respective shareholders, directors, officers, employees, affiliates, successors or assigns in respect of the Notes for the shortfall;

- (d) no Noteholder is entitled to proceed against the Issuer or Mintos for the shortfall;
- (e) following the realisation and distribution of the net proceeds from the Bonds' Receivables in accordance with the Priority of Payments, the Noteholders or anyone acting on behalf of any of them will not be entitled to take any further steps against the Issuer or Mintos to recover any further sum and the right to receive any such further sum will be deemed as fulfilled; and
- (f) no Noteholder will be entitled to petition or take any other step or join with any other person in bringing, instituting or joining, insolvency, winding-up, liquidation or bankruptcy proceedings (whether court-based or otherwise), or for the appointment of an examiner, liquidator or analogous person in relation to the Issuer, nor will it have any claim to, or in respect of any sum arising in respect of any assets of the Issuer.

12.6 Non-payment of the shortfall referred to in this Condition 12 will not constitute an Event of Default.

12.7 None of the shareholders of the Issuer, Mintos, the Bonds' Issuer has any obligation to any Noteholder for payment of any amount by the Issuer in respect of the Notes.

12.8 The provisions of this Condition 12 will survive redemption of the Notes.

13. PURCHASE

13.1 The Issuer may at any time purchase Notes at any price on the Platform.

13.2 Any Note purchased by the Issuer on the sole discretion of the Issuer may be either cancelled or sold to any investor on behalf of the Issuer by Mintos.

14. CANCELLATION

All Notes which are redeemed or cancelled may not be re-issued or resold.

15. PRESCRIPTION

Any and all claims against the Issuer for payment in respect of the Notes will be prescribed and become void unless made within 10 years from the date on which payment in respect of the Notes first becomes due.

16. FURTHER ISSUES

The Issuer may from time to time without the consent of the Noteholders create and issue further Series and further tranches of existing Series of Notes. A further tranche of an existing Series will:

- (a) be fungible with the Notes of that existing Series;
- (b) have the same terms and conditions as the Notes of that Series except for the Aggregate Nominal Amount, the Issue Date, the Issue Price, the Interest Accrual Periods, the first Interest Payment Date and the first Redemption Date; and

- (c) be consolidated and form a single Series with that existing Series of Notes, and references in these Terms and Conditions to Notes will be construed accordingly.

17. EVENTS OF DEFAULT

- 17.1 Any of the following events will constitute an event of default under the Notes (each, an **Event of Default**):
- (a) if any order is made by any competent court or any resolution passed for the winding-up or dissolution (including any bankruptcy, insolvency, voluntary, forced or judicial liquidation, composition with creditors, a reprieve from payment, controlled management, fraudulent conveyance, general settlement with creditors or reorganisation proceedings or similar proceedings affecting the rights of creditors generally) of the Issuer (save for the purposes of amalgamation, merger, consolidation, reorganisation or other similar arrangements); or
 - (b) formal notice is given of an appointment an administrator (including any receiver, liquidator, auditor, verifier), provisional administrator; or
 - (c) any application is made, or petition is lodged, or documents are filed with the court or administrator in relation to the Issuer for the actions, proceeding or procedures specified in paragraphs (a) or (b) above, unless such proceedings or petitions are disputed in good faith and are discharged, stayed or dismissed within 90 calendar days of commencement.
- 17.2 The Issuer is obliged to inform Mintos immediately if any Event of Default should occur. Should Mintos not receive such information, Mintos is entitled to assume that no Event of Default exists or can be expected to occur, provided that Mintos does not have knowledge of any Event of Default. Mintos is under no obligation to make any investigations relating to any Event of Default. The Issuer will, at the request of Mintos, provide Mintos with details of any Event of Default and provide Mintos with all documents that may be of significance for the application of this Condition 17.
- 17.3 If Mintos has been notified by the Issuer or has otherwise determined that there is an Event of Default, Mintos will, within 20 Business Days of the day of notification or determination, notify the Noteholders according to Condition 20.
- 17.4 Upon the occurrence of an Event of Default, Notes are repaid according to the terms and conditions stipulated by this Base Prospectus and relevant Series Final Terms, unless otherwise required by a rule of the law.
- 17.5 Mintos, subject to the Noteholders indemnifying and holding Mintos harmless from any reasonable expenses, loss or liability, will take every reasonable measure necessary to recover the amounts outstanding under the Notes according to their terms and conditions and Transaction Documents. Mintos will in each case inform the Noteholders about the costs which should be compensated prior to requesting any indemnification. In any case Mintos will charge this compensation of costs only up to the recovered amount. Mintos will not ask for compensation of costs for its in-house staff and resources.
- 17.6 For the avoidance of doubt, if any payment is not made by the Issuer because the Issuer has not received the relevant amounts under the Series Specific Loans so that the Available Distribution Amount after application of the Priority of Payments is not enough to make payments due under the Notes in full, the occurrence of such event will, as such, not constitute an Event of Default.

18. MEETING OF NOTEHOLDERS

18.1 *General provisions*

The Issuer from time to time may convene a meeting of the Noteholders (the **Noteholders Meeting**) to adopt resolutions on certain matters. The Issuer at its own discretion decides which matters will be reserved for passing at the Noteholders Meeting.

These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the Noteholders Meeting or in respect of the relevant resolution and Noteholders who voted in a manner contrary to the majority. As a result, Noteholders may be bound by a change to these Terms and Conditions or by some other decision that affects Noteholders' investment in the Notes even though they have not agreed to such change.

The Noteholders Meeting may adopt its resolutions in one of the two forms as chosen by the Issuer:

- (a) at a meeting held by attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote using ballots provided; or
- (b) by absentee voting (without attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote).

The Noteholders Meeting will be chaired, and minutes taken by a representative of Mintos.

18.2 *Resolutions of the Noteholders Meeting*

Matters put to the vote at a Noteholders Meeting and its agenda will be decided by the Issuer.

The Noteholders may neither pass resolutions on the matters not included in its agenda nor amend the agenda.

Resolutions passed by the Noteholders Meeting and voting results will be provided to the persons eligible to participate in the Noteholders Meeting in a report, which will be disclosed to the Noteholders as per the procedure prescribed with regard to sending notices of the Noteholders Meeting, within 5 Business Days after the closing date of the meeting or the final date for submitting the voting ballots in case of absentee voting. However, the failure to do so will not invalidate the resolution.

The resolution will be binding on all the Noteholders, whether or not present at the Noteholders Meeting and each of them will be bound to give effect to it accordingly.

18.3 *Information on holding a Noteholders Meeting*

The Issuer will notify the Noteholders about the Noteholders Meeting in accordance with the procedure below.

A notice of the Noteholders Meeting (the **Notice**) will be given according to Condition 20 no later than 10 days in advance.

The Notice will be given to the Noteholders registered on the date of the Notice in the electronic register of Noteholders maintained by Mintos.

The Issuer may decide not to publish the Notice on the Platform. In such a case within the time

specified in this Condition 18.3 the Issuer will send the Notice to the Noteholders by email.

The Issuer may at its own discretion make available information to the Noteholders entitled to participate in the Noteholders Meeting as part of preparations for the Noteholders Meeting.

18.4 Quorum at a Noteholders Meeting

A Noteholders Meeting will be deemed quorate if attended by Noteholders aggregately holding more than 50% of:

- (a) the aggregate Principal Amount Outstanding of all Series of Notes on the date of the Notice if the decision is related towards all Series of Notes outstanding; or
- (b) the aggregate Principal Amount Outstanding of the relevant Series of Notes on the date of the Notice if the decision is related towards the relevant Series of Notes outstanding.

The number of votes for each Noteholder equals the Principal Amount Outstanding in the respective Series on the date of the Notice.

When a Noteholders Meeting is held by attendance of the Noteholders to discuss the items on the agenda and pass resolutions on the matters put to the vote, the Noteholders registered to participate in the Noteholders Meeting and the Noteholders whose ballots have been received no later than 2 days before the meeting will be deemed to have participated in the meeting.

When a Noteholders Meeting is held in the form of absentee voting, the Noteholders whose ballots have been received before the final date for submitting the ballots will be deemed to have participated in the meeting.

Where there is no quorum for a Noteholders Meeting, a second Noteholders Meeting will be held with the same agenda. Such second Noteholders Meeting will be deemed quorate if attended by Noteholders aggregately holding more than 30% of:

- (a) the aggregate Principal Amount Outstanding of all Series of Notes on the date of the Notice if the decision is related towards all Series of Notes outstanding; or
- (b) the aggregate Principal Amount Outstanding of the relevant Series of Notes on the date of the Notice if the decision is related towards the relevant Series of Notes outstanding.

Subject to the quorum being present, the decisions on the Noteholders Meeting agenda will be adopted per each item of the agenda by the majority from the total number of votes provided.

18.5 Voting ballots

Ballots for voting at a Noteholders Meeting will be sent together with the Notice according to Condition 18.3.

Ballots for voting will be in the English language.

Voting could be convened as an e-voting through filling-out an electronic voting ballot through the interface of the Platform.

Noteholders included in the list of those entitled to participate in the Noteholders Meeting other than the Noteholders Meeting held in the form of absentee voting, or their representatives, may register to participate or forward their completed ballots to the Issuer. Voting ballots will be

counted towards the calculation of the quorum and voting results if received by the company no later than 2 days before the Noteholders Meeting.

The voting ballot will contain the information about the Noteholders Meeting including but not limited to:

- information about the Issuer, including address and contact person;
- details identifying the Series of Notes;
- form of the Noteholders Meeting (attendance or by absentee voting);
- date, place and time of the Noteholders Meeting if it is held in the form of attendance of the Noteholders;
- Principal Amount Outstanding; and
- voting options for each item on the agenda, expressed as “for”, “against”, or “abstained”, and the indication that the voting ballot must be signed by a person entitled to participate in the Noteholders Meeting or its representative unless convened by e-voting.

When voting by ballots, only those voting ballots are counted where for each item only one voting option is selected. The voting ballots completed in breach of the aforementioned requirement will be deemed invalid. However, if there are several items put to the vote on the voting ballot, breach of the aforementioned requirement with respect to one or several items will not affect the validity of the remaining ballot. If a voting ballot is rendered invalid with respect to voting on one, several or all items included in such ballot, the votes so cast in such ballot will not be excluded from the calculation of the quorum. If a voting ballot is rendered invalid, the votes on the items contained in the voting ballot will not be counted.

18.6 Counting

The counting functions will be performed by Mintos, which will check the powers of, and register the participants in a Noteholders Meeting, determine the quorum at a Noteholders Meeting, count the votes and determine the voting results, draw up the voting minutes and hand over the voting ballots to the archive.

19. SUBSTITUTION

- 19.1 The Issuer or any previous substitute company may be substituted by any other company as principal obligor under all of the Notes then outstanding provided that such substitution would not be materially prejudicial to the interests of the Noteholders and subject to the other Terms and Conditions being complied with, including with provisions of the Transaction Documents, and further provided that NCA has given its prior consent to such substitution if any needed according to the applicable law.
- 19.2 By subscribing to, or otherwise acquiring, the Notes, the Noteholders expressly consent to the substitution of the Issuer and to the release of the Issuer from any and all obligations in respect of the Notes and any relevant agreements and are expressly deemed to have accepted such substitution and the consequences of such substitution.
- 19.3 Any such substitution will be notified to Noteholders in accordance with Condition 20.

20. NOTICES AND PROVISION OF INFORMATION

20.1 Notices to the Noteholders will be given upon sole discretion of the Issuer in the English language and/or any other language the Issuer deems fit for such purposes and will be given by using one or several communication channels:

- (a) emailed to respective email addresses in the register of Noteholders and deemed to have been given within 24 hours after the dispatch; and
- (b) delivered to Mintos for further communication to the Noteholder according to the services provision agreement between Mintos and the Noteholder (including times when deemed to have been duly given).

20.2 Any notices, demands, claims or other communication to the Issuer by any Noteholder will be in the English language and will be given by using one of the following communication channels:

- (a) delivered by hand or courier and deemed to have been given on the same day of delivery; and
- (b) delivered by registered mail and deemed to have been given on the 10th calendar day following the date indicated on the stamp by the postal service provider on the acceptance of a registered letter.

20.3. For the purposes of Condition 20.2 notices or other communications addressed to the Issuer will be given to Mintos, serving as an agent for this purpose:

AS Mintos Marketplace
50 Skanstes Street, Riga, LV-1013, Latvia
For the attention of SIA Mintos Finance No. 46

21. AGENTS

21.1 Mintos acts solely as an agent of the Issuer and does not assume any obligation or duty to, or any relationship of agency or trust for or with, any Noteholder.

21.2 The Issuer subject to the provisions of the Transaction Documents reserves the right at any time to vary or terminate the appointment of Mintos and any other party to any of the Transaction Documents.

21.3 Without prejudice to section 18 of these Terms and Conditions neither Mintos nor Issuer is representing the Noteholders in regards to the Notes and on the basis of this Base Prospectus there are no organisations representing the Investors and there are no provisions applying to such representation.

22. FORCE MAJEURE

Neither the Issuer nor Mintos will be responsible for any failure to perform any of its respective obligations under these Terms and Conditions which is due to any reason that is independent of that person's will and has resulted from a *force majeure* event. A *force majeure* event will apply only and solely if that person has taken all steps that depend on it in order to perform the obligation. Once the *force majeure* event has finished, that person must immediately resume the performance of the obligation. The following circumstances will be considered as *force majeure* events:

- (a) extraordinary and unavoidable circumstances including natural disasters, fire, flood, earthquake, warfare, terror acts, riots and strikes;
- (b) technical failures, delays or malfunctions; failure of computers, communications systems, hardware and/or software; power supply malfunctions; or other critical infrastructure malfunctions, which neither the Issuer nor Mintos could have prevented or predicted;
- (c) decisions and/or activities of local and/or foreign public authorities, and/or international organisations;
- (d) entry into force, amendments and/or suspension of a statutory act binding on either the issuer or Mintos affecting the performance of obligations under these Terms and Conditions; and
- (e) any circumstance defined as a *force majeure* circumstance in any of the Transaction Documents.

23. GOVERNING LAW AND JURISDICTION

- 23.1 The Notes (and any non-contractual obligations arising out of or in connection with the Notes) are governed by and will be construed in accordance with the law of the Republic of Latvia.
- 23.2 The courts of the Republic of Latvia are to have jurisdiction to settle any disputes which may arise out of or in connection with the Notes (including any disputes relating to any non-contractual obligations arising out of or in connection with the Notes) and accordingly any legal action or proceedings arising out of or in conjunction with the Notes may be brought in such courts. The Issuer and each of the Noteholders irrevocably submits to the jurisdiction of such courts.

24. AMENDMENTS AND MODIFICATIONS

To comply with any applicable law, the Issuer may validly amend or supplement these Terms and Conditions by publishing the changed Terms and Conditions on the Platform without the consent of the Noteholders.

25. LIMITATION OF LIABILITY, AND REPRESENTATION AND WARRANTIES OF THE NOTEHOLDER

- 25.1 Notwithstanding anything in the Base Prospectus, other than with respect to gross negligence or wilful misconduct by the Issuer and/or Mintos, neither the Issuer nor Mintos will be held liable by any Noteholder for:
 - (a) any material error, misrepresentation, omission or fraud by the Bonds' Issuer;
 - (b) failure of the Bonds' Issuer for whatever reason to inform the Issuer and/or Mintos of the Payment Event having occurred or for the information being inaccurate or wrong;
 - (c) the Bonds' Receivables; or
 - (d) determinations and decisions when distributing amounts under the Notes, including, when applying the Priority of Payments, deciding whether to defer payment or make a partial payment, relying upon or deciding if and when there is no realistic prospect of collecting further funds under issued Notes, including in the event of default of the Bonds' Issuer.

- 25.2 In any and all cases liability of the Issuer and/or Mintos to any Noteholder under these Terms and Conditions will be limited to the amount invested in the impacted Notes by the Noteholder.
- 25.3 Each Noteholder, on subscribing or buying any Note directly, through a portfolio management service of the Platform or any other way, irrevocably accept and acknowledge that it is fully aware that:
- (a) the Issuer and Mintos do not make any representation or warranty in respect of, or will not at any time have any responsibility for, or, save as otherwise expressly provided in these Terms and Conditions, liability or obligation in respect of the performance and observance by the Bonds' Issuer of its obligations under the Bonds' Issuer Prospectus;
 - (b) the Issuer and Mintos will not at any time have any responsibility for, or obligation or liability in respect of, the condition, financial or otherwise, covenant, creditworthiness, affairs, status or nature of the Bonds' Issuer or any other person;
 - (c) the Issuer and Mintos will not at any time be liable for any representation or warranty, or any act, default or omission of the Bonds' Issuer or other person;
 - (d) the Issuer will not at any time have any responsibility for, or liability or obligation in respect of, the performance and observance by Mintos of its obligations under the Transaction Documents or any other agreement entered or to be entered into by and between the Noteholders and Mintos;
 - (e) financial servicing and performance of the terms of the Notes depend upon the performance of the Bonds' Issuer of its obligations under the Bonds' Issuer Prospectus, its duties to make payments under the terms of the Bonds' Issuer Prospectus and its credit and financial standing, and the performance of its guarantors (if any) and/or the pledgors (if any) of their respective contractual obligations towards the Issuer and Mintos as well as their respective credit and financial standing;
 - (f) the Notes, which the Noteholder has or will acquire, reflect the performance of the Bonds. The Noteholder has no direct recourse to any of the Bonds. Once the Bonds' Receivables have been realised according to these Terms and Conditions, the Noteholder is not entitled to take any further steps against the Issuer or Mintos to recover any further sums due and the right to receive any such sum will be extinguished. The Noteholder accepts not to attach or otherwise seize any of the assets of the Issuer. In particular, the Noteholder will not be entitled to petition or take any step for the winding-up, the liquidation or the bankruptcy of the Issuer or any similar insolvency-related proceedings and such petition or action will be treated as null and void as from its initiation time; and
 - (g) the Investment Accounts will be opened and be held by the Noteholder fully operational with Mintos while the Noteholder holds any Notes.

10. TAXATION

The information provided in this section will not be treated as legal or tax advice; and prospective investors are advised to consult their own tax advisors as to the tax consequences of the subscription, ownership and disposal of the Notes applicable to their particular circumstances. The following is a general summary of certain tax considerations in the Republic of Latvia in relation to the Notes. It is not exhaustive and does not purport to be a complete analysis of all tax consequences relating to the Notes, as well as does not take into account or discuss the tax implications of any country other than the Republic of Latvia.

Tax laws of the Noteholder's country of residence for taxation purposes and of the Issuer's country of residence may have an impact on the income received from the Notes.

This summary is based on the laws of Latvia as in force on the date of this Base Prospectus and is subject to any change in the law that may take effect after such date, provided that such changes could apply also retroactively.

Latvia has entered into a number of tax conventions on elimination of the double taxation (hereinafter - DTT), which may provide a more favourable taxation regime. Therefore, if there is a valid DTT between Latvia and the country of tax residence of a prospective Noteholder, it should be also examined. The procedures for application of tax conventions are provided in the Republic of Latvia Cabinet of Ministers' Regulations No. 178 "Procedures for Application of Tax Relief Determined in International Agreements for Prevention of Double Taxation and Tax Evasion", adopted on 30 April 2001.

Taxation of the Issuer

Issuer is a corporate income taxpayer in Latvia. According to the Latvian tax law, the annual profit earned by entities in Latvia is not taxed. Instead, Corporate income tax is paid on dividends, fringe benefits, gifts, donations, representation costs, non-business related disbursements and transfer pricing adjustments. The tax rate applicable is 20%, however, the taxable base is divided by the coefficient 0.8, thus the effective Corporate income tax rate is 25%.

Taxation of the Noteholders individuals

Resident individuals

An individual will be considered as a resident of Latvia for taxation purposes, if at least one of the following requirements is met:

- the declared place of residence of this person is in Latvia;
- the person stays in Latvia for at least 183 days over the course of a period of 12 consecutive calendar months;
- the person is a Latvian citizen who is employed by the government of Latvia in a foreign country.

In accordance with the Latvian tax laws the interest income received by the individual tax resident in Latvia is subject to tax at the rate of 20%. The interest income from the Notes for resident individuals will be subject to 20 % personal income tax that will be withheld by the Issuer before the Interest payment is made by the Issuer to the Noteholder. The tax withheld by the Issuer is a final tax liability on the interest income received.

The income from the sale of the Notes is treated as an income similar to the interest income for the Latvian personal income tax purposes and will be subject to 20% personal income tax and the tax is payable by the individual him/herself.

Non-resident individuals

An individual would be considered as a non-resident of Latvia for taxation purposes in all cases unless he/she is a tax resident of Latvia. Interest income from the Notes received by the non-resident individual is subject to a 5% withholding tax rate for investors who invest as private persons and are tax residents of EU/EEA. For other individual investors and those who have not confirmed tax residence and not investing as a private person 20% withholding tax rate is applied. According to the general practice the tax withheld in Latvia might be deducted from the tax payable by the investor in his/her residence country (as tax paid abroad). However, we recommend consulting with the respective country's tax administration or tax adviser to clarify the procedure and documents required to perform such a deduction (if any).

The tax rate might be reduced based on the Double Tax Treaty between Latvia and the respective country. The list of the Double Tax Treaties concluded by Latvia is available [here](#).

The income from the sale of the Notes will be subject to 20% tax and the tax would be payable by the individual him/herself, if the buyer of the Notes is an individual or legal entity non-resident of Latvia.

Taxation of the Noteholders - legal entities

Resident legal entities

A legal entity would be considered as a resident of Latvia for tax purposes if it is established pursuant to the Latvian law. Interest payments on the Notes and proceeds from the disposal of the Notes received by Latvian resident legal entities will not be subject to withholding tax in Latvia. Under the Latvian tax law retained earnings are exempt from corporate income tax and only profit distributions are taxed. Distributed gross profits are subject to the 20% profit tax. Corporate income tax on net amount of profit distribution is determined by dividing net amount with a coefficient of 0.8 (i.e., effective tax rate on net distributed profit is 25%).

Non-resident legal entities

A legal entity would be considered as a non-resident of Latvia for taxation purposes in all cases unless it is a tax resident of Latvia. The interest income and capital gains from the sale of the Notes for non-resident legal entities will not be taxable in Latvia (i.e., gross income will be paid), except if the income recipient is located, registered or incorporated in a no-tax or low-tax country (so called "*tax havens*"; if this is the case - 20% tax will be withheld by the Issuer in Latvia). The list of "*tax havens*" according to the Latvian law includes UK Anguilla, Antigua and Barbuda, US Guam, US Samoa, US Virgin Islands, Belize, Republic of Seychelles Russian Federation, Commonwealth of the Bahamas, Republic of Fiji, Republic of Palau, Republic of Panama, Independent State of Samoa, UK Turks and Caicos Islands, Republic of Trinidad and Tobago, Republic of Vanuatu. The list of mentioned countries and territories may be amended from time to time.
