Why we're pursuing a banking license

Credibility and trust

A banking license will strengthen investor confidence and enable deposit protection of up to €100K.

Access to deposits unlocks growth

Access to deposits provides a stable, low-cost source of funding, allowing us to offer lending products in addition to other banking products.

Financial infrastructure advantages

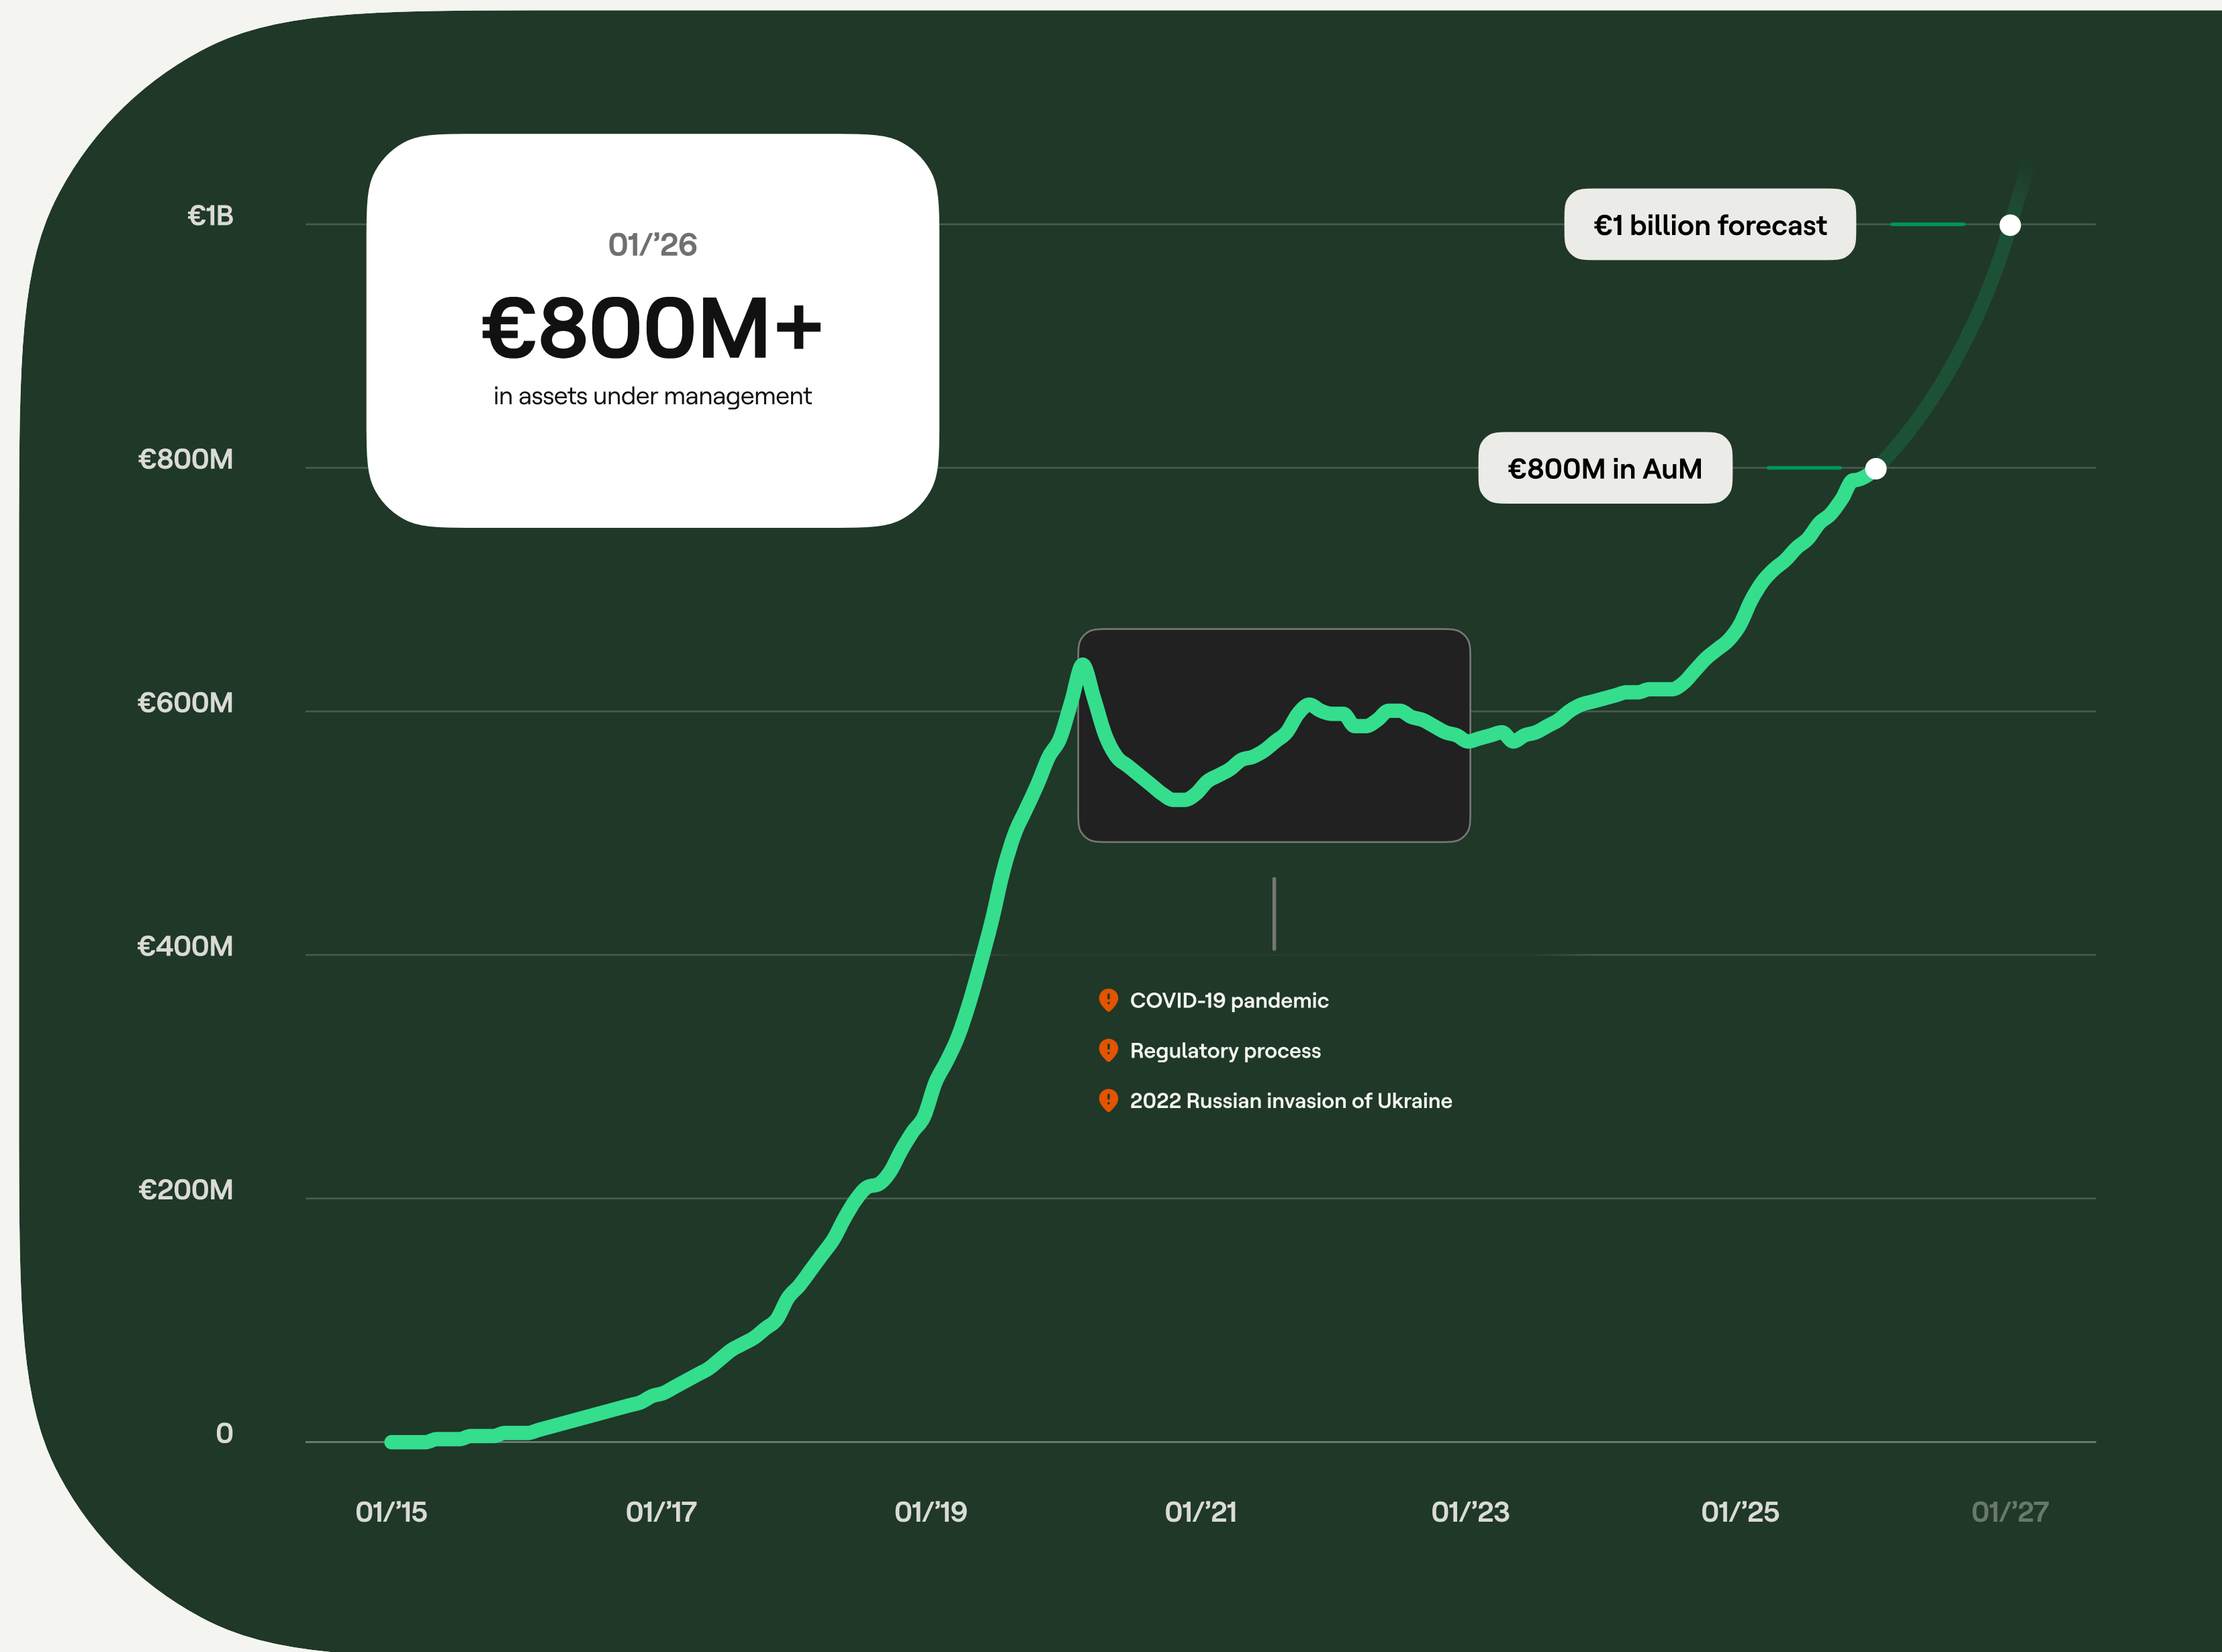

In-house custody and settlement will increase control and reduce reliance on third parties.

Our growth trajectory

We're growing
2x year-over-year.

We navigated COVID-19, complex regulatory licensing in 2021, and the impact of the war in Ukraine. Today, we're back to strong growth.

What customers love about Mintos

Delivered exactly as they claimed (over 3.5 years)

Everything is perfectly clear from the start. The investment risks and returns are made clear, and the account transactions are clear. Tools such as account statements, tax reports, etc. are also very helpful. The new line of Bond investment and ETFs are interesting developments that I will be investigating in the near future.

One of my best investments

Apart from the income, which is satisfying and crisis-proof, all the information and details on our investments are very complete, accurate, and up-to-date. Automatic investment allows for a carefree use of your money. Feedback is also very good, daily.

Reliable and trustworthy investment firm, regulated with an investor protection system and high returns. Mintos offers the opportunity to get your money back quickly through offers on the secondary market.

I'm in for almost 10 years

Great performance. Quick payout. Recommend.

Diversify and earn with Mintos

Mintos provides a great way to diversify your investments as well for passive income. It has great tools for automatic investment, given your investment preferences. As a company, it proved resilient and well-managed under harsh conditions such as the COVID-19 pandemic.

I think Mintos is one of...

I think Mintos is one of the best P2P lending platforms in Europe. I suggest it. The support is very good.

Mintos offers not only good products

Mintos offers not only good products, and fast transactions, but also various educational information to improve the investment skills you need. Keep going with your good work, Mintos.

Been with Mintos since 2019

Mintos has come through the coronavirus phase well, I'm certainly satisfied. All in all, an average of 10.85% plus per year to date. That's something to be proud of! The more money you invest, the greater the diversification, that must be clear. I started with 250 euros and since things went well, I multiplied my investment. I would recommend Mintos at any time.

As a regular user I'm very happy I found Mintos.

I'm investing a few years and every time I needed help, support helped me. I see Mintos is really nice platform, it's easy to use, and moderators and even managers are flexible and take care of the system."

Our financials

In 2025, Mintos continued to build on the momentum regained in 2024, with strong growth across core European markets and particularly strong performance in Spain. New investor registrations increased by 77% year over year in Q3, reflecting the impact of a broader investment offering and ongoing improvements to the investor experience.

Alongside this growth, we continued investing in platform development and mobile-first capabilities. Looking ahead, we plan to further expand our multi-asset offering, including crypto, individual ETFs, and individual stocks, while continuing preparatory work toward a banking license.

Valuation

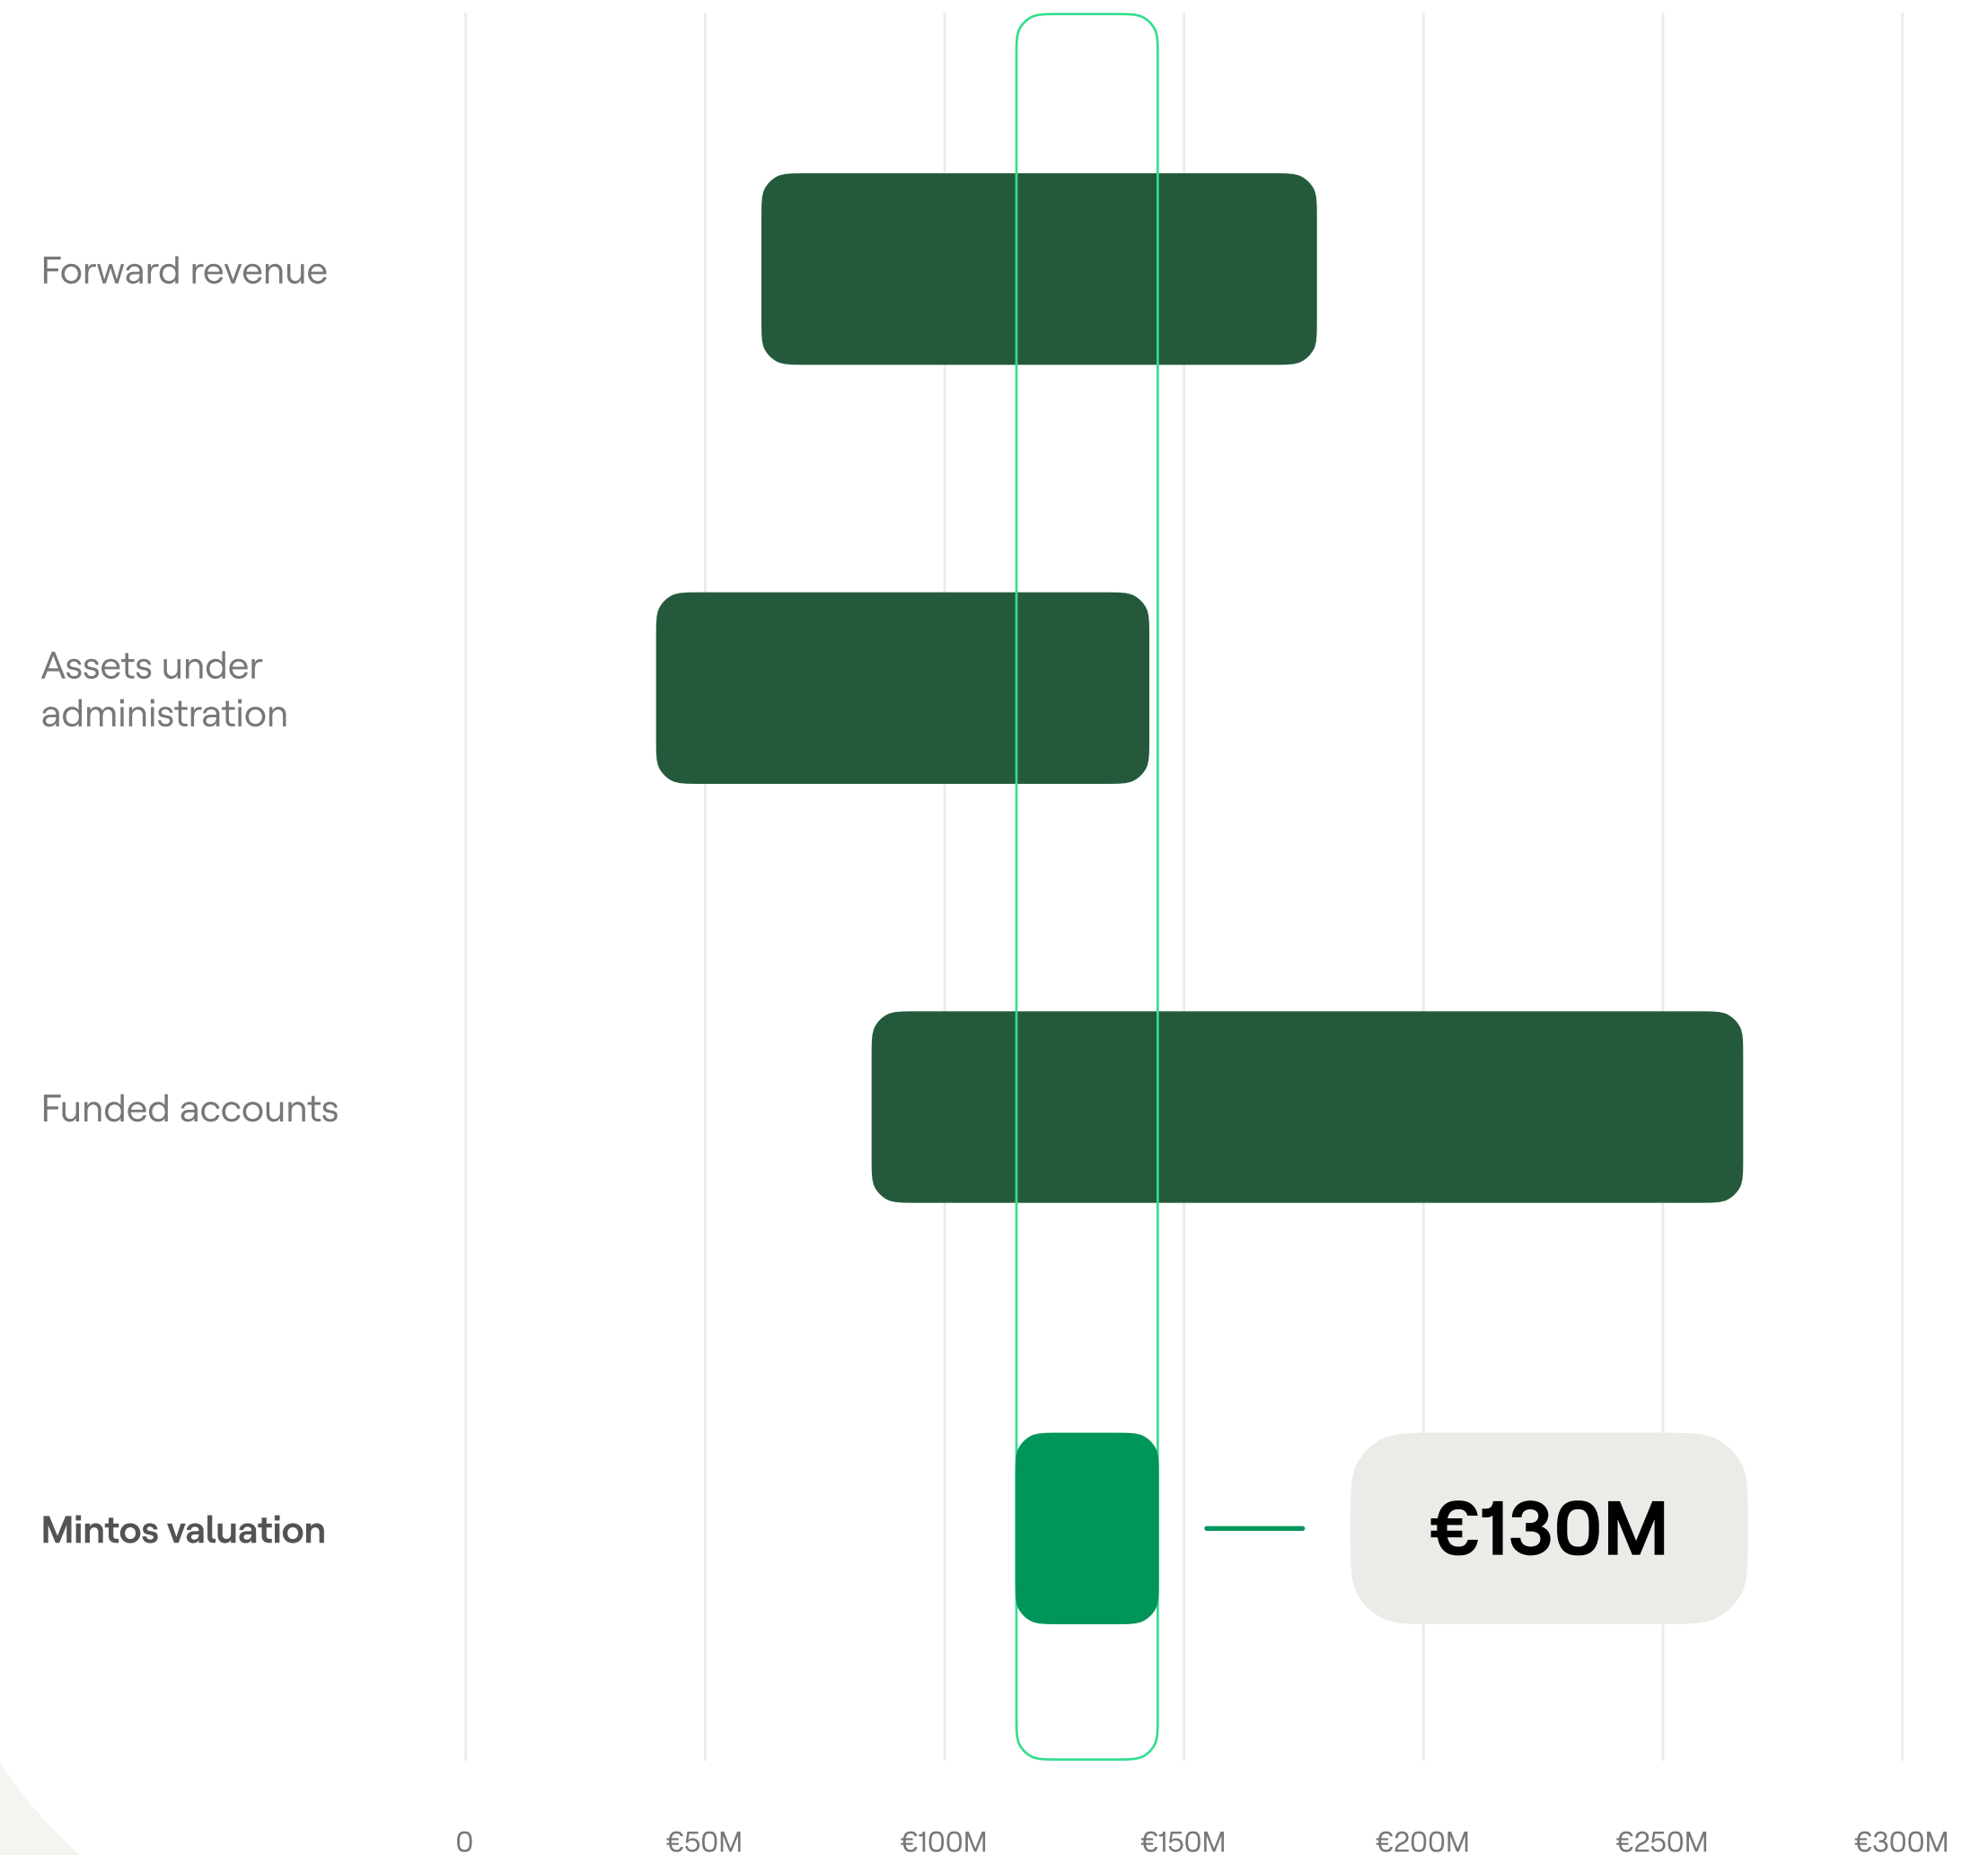

Our valuation is based on comparables across three key metrics commonly used to value similar fintech companies: funded accounts, assets under management (AUM), and forward revenue.

- ✓ **Funded accounts**
- ✓ **Assets under administration**
- ✓ **Forward revenues for the next 12 months (NTM)**

We consider the number of funded accounts to be the strongest indicator of value. As we expand our product offering and, subject to obtaining a banking license, gain the ability to offer lending and other banking products directly to customers, we expect to accelerate user growth and, in turn, revenue. Reflecting this, we assign a 40% weight to funded accounts, and 30% each to AUM and forward revenue.

Based on our estimates, we believe Mintos' current pre-money valuation is in the range of €115M to €145M. For the fundraising round, we set the valuation at the midpoint of this range, at €130M.
